Research in Engineering Education Symposium

(REES 2013)

Putrajaya, Malaysia
4-6 July 2013

ISBN: 978-1-62993-136-4
## TABLE OF CONTENTS

**Student’s Alternative Conception in Basic Electric Circuit**  
Noor Hamizah Hussain, Kamilah Radin Salim, Habibah Norehan Haron, Rosmah Ali, Habsah Hussain  

**Contextual Knowledge and 3D CAD Modeling in Engineering Education**  
Mohd Fahmi Adnan, Mohd Fadzil Daud, Muhammad Sukri Saud  

**Make Links - Learning Complex Concepts in Engineering Education**  
Anna-Karin Carstensen, Jonte Bernhard  

**Desirable Personality Traits of University Lecturers from the Technical Students’ Perspectives**  
Rohani Salleh, Hairuzila Idrus, Haryiann Harun  

**Engineering Educators’ Perception on Changing Teaching Approach**  
UmI Soleha Ruzali, KhaYiriah Mohd Yusof, Fatin Allah Phang  

**The Challenges for Lectures to Submit for Professional Interviews at UKM Versus Other IHLs**  
Zambri Harun, Nor Kamalina Khamis, Hashimah Hashim, Mohamad Dali Is, Zamri Mohamed  

**Stem & Higher Education—A Case Study of Policy to Practice in Graduate Level Curricular Reform**  
Pamela Jean Theroux, Francesca Durand, Michael Jensen  

**Probing Student Experience and Success in an Engineering Programme Through Development of a Questionnaire and Complexity Analysis**  
Duncan Fraser, Jonas Forsman, Maaritje van den Bogaard, Cedric Linder, Rachel Moll  

**Research Experiences in Engineering Education Across Three Universities**  
Jaideep Chandran  

**Mathematical and Engineering Thinking Skills: What Do Engineers and Lecturers Perceive?**  
Hamide Reza Kashfi, Rosemary Abdul Rahman, Zaleha Ismail, Sohela Fireci  

**Engineering Elements in School Science and Mathematics**  
Fatin Allah Phang, Mohammad Bilal Ali, Md Nor Bakar, Noor Azlan Ahmad Zanzali, Nor FarahWahidah Ab Rahman, Lilin Ellanq Mohbar, Normah Mohd Ghazali, Marlia Puteh  

**Interacting with a Computer Algebra System in Differential Equations: A Mathematical Thinking Approach**  
Fereshteh Zeynivandehzad, Zaleha binti Ismail, Yudariah binti Mohammad Yusof, Bambang Sumintono  

**Testing Rubrics for Assessment of Quality in CAD Modelling**  
Pedro Company, Manuel Contero, Gustavo Salvador-Herranz  

**Context-Aware Assessment Using QR-codes**  
Ricardo Conejo, Jose Luis Perez-de-la-Cruz, Beatriz Barros, Jaime Galvez  

**Reliability of a Case Based Test for Design in Engineering**  
Amparo Camacho, Adolfo Leon Arenas, Mauricio Duque, Juan Francisco Velasquez, Luis Alberto Gonzalez  

**A New Assessment Strategy for Accrediting Engineering Programmes for Malaysia**  
C. Liew, S. Mohammad, M. Patch  

**Aligning Students and Staff Perspectives in an Engineering Design Curriculum**  
Sivachandran Chandrasekaran, Alex Stojcevski, Gay Littlefair, Matthew Joordens  

**Institutional Transplantation and Cultural Formation Through Faculty Development – A Yearlong Experience**  
Aikaterini Bagiati, Richard de Neufville, Sunjay Sarma  

**Thinking Systemically: What We Ought to Understand When Teaching It!**  
R. Karpe, N. Maynard, B. Atweh, M. Tade  

**A Preliminary Study of How Communication Channels Affect Awareness and Adoption of the AIChE Concept Warehouse**  
Debra Gillbuena, Christina Smith, Bill Brooks, Marina Miletic, Milo Koretsky  

**Students’ ICT Conceptions and the Challenges in Acquiring ICT Skills for Engineering Learning**  
Rosmah Ali, Kamilah Radin Salim, Noor Hamizah Hussain, Habibah Norehan Haron  

**A Distributed Collaborative Learning Tool Based on a Conceptual Map Paradigm and Natural Interfaces Applied to the Case of Product Design Studies**  

**The Performance of Students Learning Thermodynamics Through an Online Courseware**  
Nomah Matop, Zaidatun Tasir, KhaYiriah Mohd-Yusof  

**Factors Affecting Study Performance of Engineering Undergraduates: Case Studies of Malaysia and Australia**  
Aini Nazura Paimin, MaiZam Alias, Roger G. Haddad, J. Kaya Ppric  

**The Influence of Organizational Culture on Engineering Students’ Team Working Skill Development**  
Shazairul Azreen Rodzalay, Maisarah Mohamed Saat
Malaysian Engineering Students’ Perception on Industrial Training ................................................................. 195
Fatina Allah Phang, Khairiyah Mohd Yusof, Maisarah Mohamed Saat, Norazah Mohd Yusof

Clustering of Learners’ E-learning Usage Based on Meaningful Learning Characteristics ............................................. 202
Norazah Yusof, Dewi Octavianiah, Mohd. Shahzian Othmana, Shaffika Sahaizmrm, Nadiirah Mohamad

Virtual Environment Courseware in Engineering Drawing to Enhance Students’ Visualization Skills ........................................ 208
Dayana Farzeela Ali, Ahmad Nabil Md Nasir, Yahya Buntat, Asnul Dahar Mingkat, Mohd Nur Khafiz Hussin, Mahani Mokhtar, Mohd Safarin Nordin

Tracking Evolution of Engineering Education Research – 4 Bibliometric Indicators ............................................................. 216
Bill Williams, Pedro Neto, Philipp Wankat

The Response of Emerging Engineering Education Researchers to Peer Review of Conference Papers .......................... 223
Anne Gardner, Keith Willey

Standards for Quality of Research in Engineering Education ....................................................................................... 231
Jonte Bernhard, Caroline Baillie

Inculcating Team-Based Problem Solving Skills, Part 1: Enhancing Problem Solving Elements ........................................... 239
Syed Ahmad Helmi1, Khairiyah Mohd-Yusof, Fatin Allah Phang, Shahrin Mohammad, Mohd Salleh Abu

Inculcating Team-Based Problem Solving Skills, Part 2: Enhancing Team-Working Skills ...................................................... 247
Khairiyah Mohd-Yusof, Syed Ahmad Helmi, Fatin Allah Phang

Successful Intelligence Via Problem-Based Learning: Promoting Employability Skills of Engineering Graduates .......... 255
Alijah Marshit, Maizam Alias

Activity Theory Model to Cultivate Higher Order Mathematical Thinking ................................................................. 263
Aisha Mahmood, Mohd. Fazizi Bin Othman, Yudariah Mohammad Yusof

A Conceptual Framework for Emphasizing Mathematical Competencies in the Mathematics Curriculum of Undergraduate Engineers ......................................................... 276
Soheila Firoozian, Zaleha Ismail, Roselaityn Abdul Rahman, Yudariah binti Mohammad Yusof, Hamidreza Kashefi

A New Direction in Engineering Mathematics: Integrating Mathematical Thinking and Engineering Thinking .................. 284

Effectiveness of Two Inquiry-Based Learning Activities in Dynamics ........................................................................... 291
Brian Self, James Widmann, Michael Prince

Issues, Challenges and Opportunities of Ill-Structured Problem Solving in a Workplace Simulation Learning Environment ........................................................................................................ 298
Marija Bozic, Svetlana Cizmic, Dragana Sumarac Pavlovic, M. Teresa Escalas-Tramullas

Malaysian Engineering Education Paradigm: Development and Achievement .............................................................. 305
M. Puteh, M. Megat Mohd Noor, N. Abdul Malek, W. Wan Adnan, S. Mohammad

Engineering Practice as an Emergent Field of Study - Implications for Engineering Educators ........................................... 316
Bill Williams, James Trevelyan

Swelling the Ranks – Three Studies of Scholars’ Pathways to Engineering Education Research ........................................ 323
Robin Adams, Junaid Siddiqui, Bill Williams

Feedback Techniques for Small Teams Completing Authentic Engineering Tasks............................................................... 329
Debra Gilbuena, Jaynie Whinnery, Milo Koresky

A Framework to Develop Academic Standards and Improve Feedback Quality ................................................................. 335
Keith Willey, Anne Gardner

Preparing Global Engineers: Team Building and Satisfaction with Performance ............................................................... 342
Robert Knecht

Exploring Engineering Undergraduate Final Year Project Report Writing ................................................................. 348
Salawati Ahmad, Massputeriah Hamzah, Azian Abdul Aziz

Pro-Environment Practices Among Construction Practitioners: Suggestions for Future Graduates’ Education ................................................................. 356
Nor’Aini Yusof, Ernawati Mustafa Kamal

Key Sustainability Themes and Competencies for Engineering Education ........................................................................ 364
Mahdyuddin Arsat

Community Green Business: An Engineering Education Proposal to Promote Development in Rural Areas ................................. 372
Ana Catalina Ramirez Cajiao, Juan Fernando Pacheco Duarte, Diana Maria Duarte Gomez, Miguel Angel Gonzalez, Camilo Velasquez

Inculcating Awareness of Sustainable Development in First Year Engineering Students - A Comparative Study of Pedagogical Approaches ........................................................................ 379
Azmahani Abdul-Aziz, Khairiyah Mohd-Yusof, Amirmudin Udin, Jamaludin Mohamad-Yatin, Wan Haslina Hassan
Exploratory Case Study on Attitude and Attributes in Cooperative Learning for Multicultural and Multiracial Engineering Students 
M. Aftanasar, H. Roslina, U. Ngah

Broadening the Pipeline Through the Study of Pathways and Persistence of Black and Hispanic Engineering Undergraduates
Lorraine Fleming, Kalynda Smith, Dawn Williams, Leonard Bliss

It’s About Bits of Machines & Stuff: Why Girls Don’t ‘Do’ Engineering
Jane Andrews, Robin Clark

The Story of Malaysian ‘Serikandi’: Exploring the Experiences of Female PhD Students in Engineering at One University
Mahani Mokhtar, Zainudin Hasan, Daisya Farzeha Ali, Johari Sury

Student Construction of Knowledge in an Active Learning Classroom
Elliot P. Douglas, Jack Vargas, Claudia Sotomayor

Learners Higher Level Thinking Skill Achievement in Community of Inquiry
Huang Chwei Ing, Noraffandy Yahaya

The Achievement of Laboratory Work Learning Outcomes: Students’ Perceptions
Kamilah Radin Salim, Habibah Norehan Haron, Noor Hamizah Hussain, Rosmah Ali

Architects and Civil Engineers Collaborating in Project-Based Learning Settings: A Bridge Too Far?
Julie Mills, Jennifer Macdonald, Anh Tran

Improving Internal Coefficient Consistencies of an Instrument to Measure Engineering Students’ Intellectual Development
Norhayati Ahmad, Khairiyah M. Yusof, Azlina Mohd Kosnin

Engineering Economics: Literature Review and Recommendations for Practitioners
Mahmoud Abdulwahed, Mazen Hasna

What Do Engineers Need to Know: On the Economics of Product Design, Supply Chain, and Manufacturing
Morgan Hynes, Adam Carberry, Jennifer Bekki, Micah Lande, Ann McKenna

An Investigation of Support Systems Towards Devising a High Quality Stem Education: A Pilot Study
Nor Fasihah Mohd Yusof, Fauziah Abdul Rahim, Mohd Fadzil Daud, Noraini Idris, Zainol Mustafa

Effective Multidimensional Learning and Advising Community: Design and Development
Ben Chan, Neil Mickleborough, Tracy Chow
