2013 1st International Workshop on Conducting Empirical Studies in Industry

(CESI 2013)

San Francisco, California, USA
20 May 2013
Contents

Preface
Foreword ................................................................. iii

Keynote
Parametric Model CESI Experience (Keynote)
Barry Boehm — University of Southern California, USA .............................................. 1

Regular Papers
Software Industry Experiments: A Systematic Literature Review
Oscar Dieste, Natalia Juristo, and Mauro Danilo Martínez — UPM, Spain; University of Oulu, Finland; Escuela Politécnica del Ejército, Ecuador .......................................................... 2

Conducting Empirical Studies in Industry: Balancing Rigor and Relevance
Shilpi Jain, Muhammad Ali Babar, and Jude Fernandez — Infosys, India; Lancaster University, UK; IT University of Copenhagen, Denmark .................................................. 9

Industrial Study on Test Driven Development: Challenges and Experience
Adnan Čaušević, Rakesh Shukla, and Sasikumar Punnekkat — Mälardalen University, Sweden; Infosys, India .......................................................... 15

Six Reasons for Rejecting an Industrial Survey Paper
Marco Torchiano and Filippo Ricca — Politecnico di Torino, Italy; University of Genova, Italy .......................................................... 21

Paul Grünbacher and Rick Rabiser — JKU Linz, Austria ............................................. 27

Mind the Gap and Find Common Ground: Empirical Research in Multiple Firms
Naomi Unkelos-Shpigel and Irit Hadar — University of Haifa, Israel ............................................. 33

Generalizing by Similarity: Lessons Learnt from Industrial Case Studies
Smita Ghaisas, Preethu Rose, Maya Daneva, Klaas Sikkel, and Roel J. Wieringa — Tata Consultancy Services, India; University of Twente, Netherlands ............................................. 37

Short Papers
Empirical Software Engineering Research with Industry: Top 10 Challenges
Claes Wohlin — Blekinge Institute of Technology, Sweden ............................................. 43

Conducting a Long-Term Case Study in a Software Firm: An Experience Report
Sofia Sherman and Irit Hadar — University of Haifa, Israel ............................................. 47

Conducting Interview Studies: Challenges, Lessons Learned, and Open Questions
Jim Witschey, Emerson Murphy-Hill, and Shundan Xiao — North Carolina State University, USA ............................................. 51

Confounding Factors When Conducting Industrial Replications in Requirements Engineering
David Callele, Krzysztof Wnuk, and Markus Borg — TR Labs, Canada; Lund University, Sweden ............................................. 55

Plat_Forms: Contests as an Alternative Approach to SE Empirical Studies in Industry
Lutz Prechelt and Ulrich Stärk — Freie Universität Berlin, Germany ............................................. 59

Lessons Learned from Conducting Industry Surveys in Software Testing
Tanjila Kanij, Robert Merkel, and John Grundy — Swinburne University of Technology, Australia; Monash University, Australia ............................................. 63
Practitioner Messages
Can We Do Useful Industrial Software Engineering Research in the Shadow of Lean and Agile?
Kristian Wiklund, Sigrid Eldh, Daniel Sundmark, and Kristina Lundqvist — Ericsson, Sweden; Mälardalen University, Sweden

Some Researcher Considerations When Conducting Empirical Studies in Industry
Sigrid Eldh — Ericsson, Sweden; Karlstad University, Sweden
