2013 4th International Workshop on Software Engineering for Sensor Network Applications

(SESENA 2013)

San Francisco, California, USA
21 May 2013
Contents

Preface

Foreword ................................................................. iii

Symphony: Simulation, Emulation, and Virtualization Framework for Accurate WSN Experimentation
Laurynas Riliskis and Evgeny Osipov — Luleå University of Technology, Sweden .......................... 1

LWISSy: A Domain Specific Language to Model Wireless Sensor and Actuators Network Systems
Priscilla Dantas, Taniro Rodrigues, Thais Batista, Flávia C. Delicato, Paulo F. Pires, Wei Li, and Albert Y. Zomaya — UFRN, Brazil; UF RJ, Brazil; University of Sydney, Australia ........................................ 7

Behavioural Design of Sensor Network Applications using Activity-Driven States
Amir Taherkordi, Frank Eliassen, and Einar Broch Johnsen — University of Oslo, Norway ............. 13

Durin: A Development Environment for Wireless Sensor Network
Igor L. Marques, Mauro Ricardo da Silva Teófilo, and Nelson Souto Rosa — UFPE, Brazil; Nokia Institute of Technology, Brazil ........................................................................... 19

Adding Value to WSN Simulation through Formal Modelling and Analysis
Adisak Intana, Michael R. Poppleton, and Geoff V. Merrett — University of Southampton, UK .... 24

VSPIN: A Framework for Developing Incremental Sensor Network Reprogramming Strategies
Biswa jit Mazumder and Jason O. Hallstrom — Clemson University, USA ................................. 30

Runtime Verification and Reflection for Wireless Sensor Networks
Stefan Fischer and Martin Leucker — University of Lübeck, Germany ........................................... 35

Sens4U: Wireless Sensor Network Applications for Environment Monitoring Made Easy
Krzysztof Piotrowski and Steffen Peter — IHP Microelectronics, Germany; UC Irvine, USA ........ 37

Model-Driven Approach for Building Efficient Wireless Sensor and Actuator Network Applications
Taniro Rodrigues, Thais Batista, Flávia C. Delicato, Paulo F. Pires, and Albert Y. Zomaya — UFRN, Brazil; UF RJ, Brazil; University of Sydney, Australia ........................................... 43
