2013 IEEE 26th Conference on Software Engineering Education and Training

(CSEE&T 2013)

San Francisco, California, USA
19 – 21 May 2013
## Contents

### Preface
Message from the Chairs

Committees

### Requirements and Risks

**University Meets Industry: Calling in Real Stakeholders**  
Birgit Penzenstadler, Martin Mahaux, and Patrick Heymans — *TU Munich, Germany; University of Namur, Belgium*  

**Cooperating with a Non-governmental Organization to Teach Gathering and Implementation of Requirements**  
Gregor Gabrysiak, Regina Hebig, Lukas Pirl, and Holger Giese — *HPI, Germany*  

**A Look at Software Engineering Risks in a Team Project Course**  
Supannika Koolmanojwong and Barry Boehm — *University of Southern California, USA*  

### Team Projects

**Teaching Advanced Software Design in Team-Based Project Course**  
Stan Jarzabek — *National University of Singapore, Singapore*  

**A Competitive-Collaborative Approach for Introducing Software Engineering in a CS2 Class**  
Swapneel Sheth, Jonathan Bell, and Gail Kaiser — *Columbia University, USA*  

**Understanding Individual Contribution and Collaboration in Student Software Teams**  
Fabio Rocha and Eleni Stroulia — *University of Alberta, Canada*  

### Architecture and Design

**Teaching Software Design with Social Engagement**  
Damian A. Tamburri, Maryam Razavian, and Patricia Lago — *VU University Amsterdam, Netherlands*  

**Introducing Tool-Supported Architecture Review into Software Design Education**  
Yuanfang Cai, Rick Kazman, Ciera Jaspan, and Jonathan Aldrich — *Drexel University, USA; University of Hawaii, USA; Cal Poly, USA; CMU, USA*  

**Archinotes: A Tool for Assisting Software Architecture Courses**  
Juan Sebastián Urrego and Darío Correal — *Universidad de los Andes, Colombia*  

**Teaching Object-Orientation with Smartphones as Digital CRC Cards**  
Rainer Lutz, Sascha Schäfer, and Stephan Diehl — *University of Trier, Germany*  

### Introductory and Specialized Curricula

**Motivating and Orienting Novice Students to Value Introductory Software Engineering**  
Daniel Port, Chris Rachal, and Jia Liu — *University of Hawaii, USA; Nanjing University, China*  

**Using GSwE2009 in the Creation and Modification of Graduate Software Engineering Programs and Related Curricula**  
Mark Ardis, Shawn Bohner, Lucia Camilloni, Diego Vallespir, and Sylvia Ilieva — *Stevens Institute of Technology, USA; Rose-Hulman Institute of Technology, USA; University of the Republic, Uruguay; University of Sofia, Bulgaria*  

**The Software Assurance Competency Model: A Roadmap to Enhance Individual Professional Capability**  
Nancy R. Mead and Dan Shoemaker — *SEI, USA; University of Detroit Mercy, USA*

</thead>
<tbody>
<tr>
<td><strong>Processes and Distributed Development</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Applying Competitive Bidding Games in Software Process Education</td>
<td>Guoping Rong, He Zhang, and Dong Shao — <em>Nanjing University, China; NICTA, Australia; UNSW, Australia</em></td>
<td>129</td>
</tr>
<tr>
<td>Using Distributed Software Development in the Improvement of Communication and Collaboration Skills in SE Courses: An Observational Study</td>
<td>Luiz Leandro Fortaleza, Sérgio Roberto Costa Vieira, Olavo Olimpio Matos, Jr., Rafael Prikladnicki, and Tayana Conte — <em>UFAM, Brazil; Fucapi, Brazil; PUCRS, Brazil</em></td>
<td>139</td>
</tr>
<tr>
<td>Picking the Right Project: Assigning Student Teams in a GSD Course</td>
<td>Ivana Bosnić, Igor Ćavrak, Marin Orlić, and Mario Žagar — <em>University of Zagreb, Croatia</em></td>
<td>149</td>
</tr>
<tr>
<td><strong>Agile Methods</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Scrum in a Software Engineering Course: An In-Depth Praxis Report</td>
<td>Andreas Scharf and Andreas Koch — <em>University of Kassel, Germany</em></td>
<td>159</td>
</tr>
<tr>
<td>Academic Education of Software Engineering Practices: Towards Planning and Improving Capstone Courses Based upon Intensive Coaching and Team Routines</td>
<td>Christoph Johann Stettina, Zhao Zhou, Thomas Bäck, and Bernhard Katzy — <em>Leiden University, Netherlands; CeTIM, Netherlands</em></td>
<td>169</td>
</tr>
<tr>
<td>Teaching Agile Software Development at University Level: Values, Management, and Craftsmanship</td>
<td>Martin Kropp and Andreas Meier — <em>FHNW, Switzerland; ZHAW, Switzerland</em></td>
<td>179</td>
</tr>
<tr>
<td>A Double Comparative Study: Process Models and Student Skills</td>
<td>Paolo Ciancarini, Caroline Dos, and Sara Zuppiroli — <em>University of Bologna, Italy</em></td>
<td>189</td>
</tr>
<tr>
<td><strong>Programming within Software Engineering</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Explorable Code Slides</td>
<td>Michael Fritz, Benjamin Biegel, and Stephan Diehl — <em>University of Trier, Germany</em></td>
<td>199</td>
</tr>
<tr>
<td>A Spirit of Camaraderie: The Impact of Pair Programming on Retention</td>
<td>Zhen Li, Christopher Plaue, and Eileen Kraemer — <em>University of Georgia, USA</em></td>
<td>209</td>
</tr>
<tr>
<td>Designing Grace: Can an Introductory Programming Language Support the Teaching of Software Engineering?</td>
<td>James Noble, Michael Homer, Kim B. Bruce, and Andrew P. Black — <em>Victoria University of Wellington, New Zealand; Pomona College, USA; Portland State University, USA</em></td>
<td>219</td>
</tr>
<tr>
<td><strong>Formal Methods, Testing and Evaluation</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Specification and Reasoning in SE Projects using a Web IDE</td>
<td>Charles T. Cook, Svetlana V. Drachova-Strang, Yu-Shan Sun, Murali Sitaraman, Jeffrey C. Carver, and Joseph Hollingsworth — <em>Clemson University, USA; University of Alabama, USA; Indiana University Southeast, USA</em></td>
<td>229</td>
</tr>
<tr>
<td>An Empirical Study of the Effects of Personality on Software Testing</td>
<td>Tanjila Kanij, Robert Merkel, and John Grundy — <em>Swinburne University of Technology, Australia; Monash University, Australia</em></td>
<td>239</td>
</tr>
<tr>
<td>Automated Evaluation of Regular Lab Assignments: A Bittersweet Experience?</td>
<td>Pavel Ježek, Michal Malohlava, and Tomáš Pop — <em>Charles University, Czech Republic</em></td>
<td>249</td>
</tr>
<tr>
<td><strong>Short Papers</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>The Cost of Problem-Based Learning: An Example in Information Systems Engineering</td>
<td>Vincent Ribaud and Philippe Saliou — <em>UBO, France</em></td>
<td>259</td>
</tr>
<tr>
<td>Team Characteristics for Maximizing the Educational Effectiveness of Practical Lectures on Software Intensive Systems Development</td>
<td>Shota Inaga, Hironori Washizaki, Yusuke Yoshida, Katsuhiko Kakehi, Yoshiaki Fukazawa, Shoso Yamato, Masashi Okubo, Teruhiko Kume, Manabu Tamaki, and Toshikazu Kanou — <em>Waseda University, Japan; University of Tsukuba, Japan; NEC, Japan</em></td>
<td>264</td>
</tr>
<tr>
<td>Towards a Model of Faculty Development for FOSS in Education</td>
<td>Heidi J. C. Ellis, Gregory W. Hislop, Michelle Purcell, Mel Chua, and Sebastian Dziallas — <em>Western New England University, USA; Drexel University, USA; Purdue University, USA; Olin College, USA</em></td>
<td>269</td>
</tr>
<tr>
<td>Toward Infusing Modular and Reflective Design Learning throughout the Curriculum</td>
<td>John C. Georgas — <em>Northern Arizona University, USA</em></td>
<td>274</td>
</tr>
</tbody>
</table>
Analyzing Coordination among Students in a Software Engineering Project Course
Bonnie K. MacKellar — St. John’s University, USA

Guidance for Exploratory Testing through Problem Frames
Shreya Kumar and Charles Wallace — Michigan Tech, USA

Test-Driven Learning in High School Computer Science
Ryan Stejskal and Harvey Siy — University of Nebraska at Omaha, USA

Bringing Undergraduates to the Web: Baby Steps in Webifying a Software Engineering Curriculum
Matti Luukkainen and Arto Vihavainen — University of Helsinki, Finland

A Project Spine for Software Engineering Curricular Design
Kevin Gary, Timothy Lindquist, Srividya Bansal, and Arbi Ghazarian — Arizona State University, USA

Essence: A Framework to Help Bridge the Gap between Software Engineering Education and Industry Needs
Pan-Wei Ng and Shihong Huang — Ivar Jacobson Int., Singapore; Florida Atlantic University, USA

Teaching Software Processes to Professionals: The Approach Taken by an Evening Master’s Degree Program
Yadran Eterovic, Gemma Grau, and Jorge Bozo — Pontificia Universidad Católica de Chile, Chile

Software Engineering Projects with Social Significance: An Experience Report at a Minority University
Debzaní Deb, Luél González, and Michael Geda — Winston-Salem State University, USA

Killer App: A Eurogame about Software Quality
James H. Andrews — University of Western Ontario, Canada

What Makes It Hard to Teach Software Engineering to End Users? Some Directions from Adaptive and Personalized Learning
Srídhar Chimalakonda and Kesav V. Nori — IIT Hyderabad, India

ASEE&T Position Papers

Model-Driven Development and the Future of Software Engineering Education
Tony Cowling — University of Sheffield, UK

Education Impact of Evolutionary Software Development
Václav Rajlich — Wayne State University, USA

What Should Students Learn in Their First (and Often Only) Software Engineering Course?
James Vallino — Rochester Institute of Technology, USA

Software Engineering in CS 2013
Richard LeBlanc — Seattle University, USA

Panel Sessions

Undergraduates and Research: Motivations, Challenges, and the Path Forward
W. Eric Wong, Junhua Ding, Gene Fiorini, and Christian Hansen — University of Texas at Dallas, USA; East Carolina University, USA; Rutgers University, USA; Eastern Washington University, USA

Software Engineering Education via the Use of Corporate-Sponsored Projects: A Panel Discussion of the Approaches, Benefits, and Challenges for Industry-Academic Collaboration
Linda Werner, Geoff Kuenning, Mark Sebern, James Vallino, and W. Eric Wong — UC Santa Cruz, USA; Harvey Mudd College, USA; Milwaukee School of Engineering, USA; Rochester Institute of Technology, USA; University of Texas at Dallas, USA

Recent Trends in Graduate Software Engineering
Mark Ardis, Shawn Bohner, Dick Fairley, Dennis Frailey, Tom Hilburn, Gregory W. Hislop, and Todd Sedano — Stevens Institute of Technology, USA; Rose-Hulman Institute of Technology, USA; Colorado Technical University, USA; Southern Methodist University, USA; Embry-Riddle Aeronautical University, USA; Drexel University, USA; Carnegie-Mellon University Silicon Valley, USA

Workshop

Workshop on Revisions to SE 2004
Mark Ardis, David Budgen, Gregory W. Hislop, Jeff Offutt, Mark Sebern, and Willem Visser — Stevens Institute of Technology, USA; University of Durham, UK; Drexel University, USA; George Mason University, USA; Milwaukee School of Engineering, USA; University of Stellenbosch, South Africa
Tutorials

Project Selection for Student Involvement in Humanitarian FOSS
Heidi J. C. Ellis, Gregory W. Hislop, and Michelle Purcell — Western New England University, USA; Drexel University, USA

Teaching Software Development Processes by Simulation: Quality Assurance as a Factor of Success
Andreas Bollin, Elke Hochmüller, and Ladislav Samuelis — University of Klagenfurt, Austria; Carinthia University of Applied Sciences, Austria; TU Kosice, Slovakia

Positive Transitions from the Classroom to the Cubicle: Creating Strategies for Augmenting Professional Development in the Software Engineering Curriculum
C. Shaun Longstreet and Kendra M. L. Cooper — Marquette University, USA; University of Texas at Dallas, USA

Software Enterprise Pedagogy for Project-Based Courses
Kevin Gary, Srividya Bansal, and Arbi Ghazarian — Arizona State University, USA

Adding Software Testing to Programming Assignments
Stephen H. Edwards — Virginia Tech, USA

...
