## TABLE OF CONTENTS

### VOLUME 1

**A1007 : The Optimization Design of Hall Component Array Based on Genetic Algorithm** ................................................................. 1  
Weiwei Zhai, Wenzhu Gao, Yu Zhang, Ke Bi, Tianyue Xu, Tieqiang Zhang  

Guoliang Zou, Jie Wu, Yueying Jing  

**A1010 : OpenCV Detection of Athletes in Long Jumping Videos** ........................................................................................................... 10  
Ailing Song, Kai Chen  

**A1015 : An Algorithm to Find Cycles of Biochemical Systems** .............................................................................................................. 14  
Dechun Zheng, Guowu Yang, Xiaoyu Li, Zhicai Wang  

**A1016 : Local Distributed Mutual Exclusion Algorithm** ....................................................................................................................... 19  
Zhihao Zhang  

**A1020 : The Perception Layer Information Security Scheme for Internet of Things Based on Lightweight Cryptography** ........................................................................................................... 23  
Xiangyi Hu, Liping Du, Ying Li  

**A1023 : Research on the Design of a Scalable Hardware Platform for Data Management** .................................................................................. 30  
Fei Zhang, Guangming Liu  

**A1030 : An Error Resilient Video Coding Algorithm Combining FEC and WZ Technology over Error-prone Channel** .............................................................................................................. 37  
Tianming Wang, Zhengguang Xie, Hongkai Li  

**A1036 : Mining Users for Organizations on Micro-blogs** .......................................................................................................................... 41  
Zhenhua Zhang, Ruijiang Liu, Weiyan Xu  

**A1037 : Design and Implementation of Anti-cheating Programming Examination System** ................................................................................... 45  
Yi Yu, Weihua Li, Hong Han, Jianhua Jiang, Yong Luo  

**A1038 : Constructing Time-Varying Gene Regulatory Networks** ........................................................................................................... 49  
Xiaohong Ni, Yingfei Sun  

**A1042 : Multi-touch GIS Based on Optical and Computer Vision** ............................................................................................................. 53  
Bo Wan, Dongxue Zhao, Xiu Wen, Gengdai Liu  

**A1043 : Research and Implementation of ROHC for PoC Service Based on TD-SCDMA Network** ........................................................................ 61  
Haowen Li, Wei Huang, Lifu Li, Gang Yu  

**A1044 : Performance Evaluation Study of Strategic Nuclear Deterrent** .................................................................................................... 65  
Tiejun Yang, Minle Wang, Song Tian, Baoshun Zhou, Lan Li  

**B1003 : Applications of GRNN Based on Particle Swarm Algorithm Forecasting Stock Prices** ............................................................ 69  
Jinna Lu, Yaping Bai  

**B1006 : A Hybrid Assessment Method for Evaluating the Performance of Starting Pitchers in a Professional Baseball Team** .............................................................................................................. 73  
Chihcheng Chen, Yungtan Lee, Chuning Yin  

**B1007 : Geochemistry and Origin of Tektites from Dalat Area, Vietnam** ......................................................................................................... 77  
Yung-Tan Lee, Rui-Yi Huang, Chih-Cheng Chen, Jyh-Yi Shih, Meng-Lung Lin, Yen-Tao Hu  

**B1009 : Managerial Forecasting System Based on RBF Neural Network for Financial Data** ............................................................................. 82  
Dusan Marecek  

**B1017 : Chinese Internet Companies and Their Quest for Globalization** .................................................................................................... 86  
Harlan D. Whatley  

**B1024 : The Use of Indexes of The Permanent Evaluation Committee in the Management and Systemic Planning of Institutions of Higher Education for the Improvement of Quality** ....................................................................................... 93  
Valdecir Bertoncello, Osmar Possamai, Edson Pacheco Paladini, Flavio Bortolozzi  

**B1027 : Discussion on Planning Ideas of Steel Logistics Park in the Low Carbon Perspective** ........................................................................ 104  
Xingang Weng, Xiaokun Wang  

**B1031 : Brief Analysis on Characteristics of Army NCO Education and Teacher Teams Construction under New Situation** ............................................................................................................... 108  
Qiangye Gao  

**B1035 : Superpixels Based Interactive Image Segmentation Algorithm** ......................................................................................................... 112  
Jianwu Long, Xuanjing Shen, Hua Zang, Haipeng Chen  

**B1037 : Adaptive Image Thresholding by Background Subtraction** ........................................................................................................... 116  
Jianwu Long, Xuanjing Shen, Hua Zang, Haipeng Chen  

**B1040 : Experience of Teaching Computer Architecture in Higher Education** ............................................................................................. 120  
Gabor Kiss, Panagiotis Kalagkios  

**B1041 : Practice and Research on Chinese-English Bilingual Teaching of “Introduction to Materials Science”** .................................................................... 124  
Huaixi Dong, Qunrui Chen, Xiaodong Liu, Rong Chen, Taisun Luo  

**B1043 : Study of the Denoising and Feature Extraction Based on Eyes-closed EEG Signal** ........................................................................ 128  
Nianqiang Li, Yongling Wang  

**B1044 : EEG Feature Extraction for Imagery Movement Based on Improved WICA Method** ........................................................................ 133  
Nianqiang Li, Yongling Wang  

**B1046 : Learning Outcomes and Attitudes of Mattayom 3 (Grade 9) Students toward Studying Science in English** .............................................. 139  
S. Charoenwet, J. Zurida
B1047: Gender and Age Inequalities Employment, Promotion and Retirement in Public Service Sectors of China .................................................. 144
Wanxian Cui, Dan Wang
B1048: An Empirical Study on the Relationship between Demographic Characteristics and the Influencing Factors of Brand Sensitivity ................................................................................................................................................................................................. 149
Xueyi Zhang, Zhi Guan, Wei Li, Xiangyu Liu
B1051: Introducing CDIO Elements into Preparing of Students of the Faculty of Chemistry of Astrakhan State University for Innovative Activity ........................................... 154
A. G. Turykh, O. S. Sadomtseva, A. V. Velikorodov, E. F. Matveeva, V. V. Shatirova, A. M. Salmahueva
B1053: An Activity Theory Approach to Contradictions in Intercultural Telecollaboration .......................................................................................................................................................................................... 158
Myung Yeong Ha
B1054: The Design of a One-Stop Tourism Portal in Langkawi Island using Location Searching Method ......................................................... 162
Wong Pok Lee, Mohd Azam Osman, Tarmiji Masron
B1055: The One Warehouse and N Retailers Problem with Uncertain Demand ........................................................................................................ 166
Ercan Senyigit, Hakan Akkan
B1058: Study on the Use of an iPad App for University Student Recruitment ........................................................................................................ 170
Nofazulislam Abd Razak, Faizunaini Pangil
B1071: Excessive Imbalances and Debt Crisis in the Eurozone ................................................................................................................................. 193
Jaraj Sipko
B1072: Knowledge Economy and the Two New Resources: Education and Research .................................................................................................. 197
Gabriela Arienev, Daniela-Gioconda Burac, Daniela-Mihalca Neamtu, Liviu-Elena Vranciu
B1074: Breast Milk: An Ancient Tradition and an Innovative Investment for Any Community .................................................................................. 201
M Giovannini, A Lupu, P. C. Poli, E Riva, G Banderali
B1076: Development of Syllabus Feature Extraction System ................................................................................................................................. 204
Kazuhide Sugimoto, Kentaro Noguchi, Chikatoshi Yamada, Takahiro Yonamine
B1079: Wireless Feature Extraction System for Cloud-Dust Based Intelligent System by Using Embedded Wavelet Packet Method .................................................................................................................. 208
Chung-Chi Huang, Cong-Hui Huang, Chung-Lin Huang, Chung-Jui Wu, Sheng-Fone Yang
B1082: Analysis about Performance of Multiclass SVM Applying in IDS .................................................................................................................... 213
Yuanyang Zhao, Jiahao Song, Jinyou Wu
B1083: Design and Implementation of Quality Management Information System in Chinese Tobacco Industry .................................................................................................................................................................................. 219
Yong Cen, Hongly Wang, Zhihua Zhang, Huanwen Wang
B1085: Reducing CO2 Emissions in Logistics Activities: Drivers and Barriers ........................................................................................................ 224
Jimmy Castro Bulurte, Yongmei Bentley, Ram Ramanathan
B1087: Features of the Value-at-risk Methodology for Evaluation of Business Risks at Nonlinear Dynamics in Economic Development ................................................................................................................................. 228
M. Danzuk, A. Kravchuk, V. Danzuk
B1090: A Smart Blacklist Filter for the Android System ................................................................................................................................. 232
Tai-Fu Yu, Jia-Chung Hung
B1093: An Approach of Demonstrating Network Structure ................................................................................................................................. 236
Liehuang Zhu, Zhichao Zhou, Zhansheng Ma
B1096: Vocational Art Design Education of School-Enterprise Cooperation Model .................................................................................................. 240
Shiwei Chi, Zhixi Chen, Tieyue Wu
B1099: Strategies of the Operating Mechanism Reformation for Private Express Enterprise ................................................................................................................................. 246
Yuhua Zhang, Chen Wei
B1101: The Size and Management Approaches of Firms in the Czech Republic ....................................................................................................... 250
Ludvik Ladislav, Jindra Peterkova
B1110: The Models of Sectors' Investment Restructuring ................................................................................................................................. 254
Kan Liu
B1111: An Improved Impulse Noise Detection and Removal Method ................................................................................................................................. 258
Danghu-Xue Xin, Zhili Zhang
B1113: Research on Power Customer Value Evaluation Based on AHP ................................................................................................................................. 262
Weiying Jiang, Songzheng Zhao, Lifang Wang, Dan Liu
B1116: Infrastructure Operator Interfaces for Passenger Evacuation ................................................................................................................................. 267
Harald Widrotith, Nicola Beggiari, Elisa Landini, Jan-Paul Lenteiris
B1117: Research on the Life Insurant's Behavior during the Current Economic and Financial Crisis ................................................................................................................................. 271
Nicoleta Gridanean
B1122: The New Ideas of higher Vocational colleges Employment Guidance Work Based on the Questionnaire Survey .................................................................................................................................................................................. 275
Jianshe Huang

Wei Guo, Jia Liu, Xielin Liu
B1219: Application of Neural Network in Atmospheric Refractivity Profile at Makurdi ................................................................. 508
B1221: Implementation of a Fault-tolerant System for Solving Cases of Numerical Computation ................................................................. 511
Cyril Dumont, Fabrice Mourin
B1222: Research on the Crowd Behavioral Characteristics in Urban Rail Transit ................................................................. 516
Zongfeng Zou, Yingwei Xu
B1225: The Economic Impact of the Mobility of the Labour Force ........................................................................................................ 523
Gabriel Cristoara, Ion Steganu, Valentina-Geleta Robescu
B1226: Research on the Mode of Civil Engineering Application-oriented Talents Education ................................................................. 527
Fanghui Li, Yongjiang Zhao, Wenjuan Zhao
B1227: Research on the Relationship between Perceived Organizational Support and Performance of Software Engineer ........................................................................................................ 532
Haiyan Fu, Dongmei Chen
B1232: The Exploration and Practice of Diversified Teaching Mode on University Physics ................................................................. 536
ZhiLin Zhang, Quehua Sun, Yancheng Zhao, Hailiang
B1233: Students' Feedback after Studying Online Courses Reflecting Individual Learning Styles ................................................................. 540
Zongfeng Zou, Xuejun Zhao
B1234: eLearning at Czech Engineering Universities in 1998 - 2013 ........................................................................................................ 545
Petra Poulova, Ivana Simonova, Miroslava Cerna
B1235: Reflection of Entrepreneurial Requirements in the Database Systems Instruction ................................................................. 549
Petra Poulova, Ivana Simonova
B1236: Reflection of Comenius' Didactic Principles in ESP instruction ........................................................................................................ 553
Miroslava Cerna, Petra Poulova
B1237: Organizational Learning Capability and Academician's Work Innovativeness ........................................................................................................ 557
Cheng Ting Tan, Chuang Way Lim
B1238: Teaching Notes on Subspace Method in Signal Processing ........................................................................................................ 563
Qun Wan, Jia Hao Yin
B1239: Method and Approach of Calculus Teaching Reform ........................................................................................................ 566
Wangyuan Dong
X. H. Meng, D. Li, Z. Zhang
B1243: Administrative Organizational Ethical Climate Based on Social Interactionism ........................................................................................................ 575
Bing Yan, Keling Zheng, Aihong Yang
B1244 : How to Become a Leader in Higher Education .................................................................................................................579
M. Badri, A. Al Rashedi, J. Mohaidat

B1247 : School Teachers’ Technology Readiness – An Empirical Study Applying Readiness Factors and Teacher Type Categorization ..................................................................................................................583
M. Badri, A. Al Rashedi, J. Mohaidat

Huanyun Wang, Chunhai Pan

B1249 : On Experiential English Language Teaching Model and Implementation Approaches .................................................................591
Lijing Diao, Chunhai Pan

B1250 : A Research on the Feasibility of Introducing Culture in College English Teaching .................................................................595
Lijing Diao, Huandong Wang

B1251 : On Problems and Solutions to College English Translation Teaching ..............................................................................................599
Lijing Diao

B1252 : On Hydraulic Transmission Teaching ...........................................................................................................................................602
Huanyun Wang, Huandong Wang

B1253 : The Business-University Cooperation Practice of UK Universities ...............................................................................................606
Yan Chen

B1254 : Problems of Creation of the All-Turkic National Corpus ..................................................................................................................610
Guizhan Doszhan

B1255 : The Economic Integration of the Turkic States and Latin Alphabet ...............................................................................................616
Aidos Saduakassov

B1256 : Analysis of the Results of Structural Adjustment Program on Algerian Economy .........................................................................................620
Mezarvi Lemya, Kajian Yang

M1003 : SPID-based Method of Trojan Horse Detection ..................................................................................................................627
Xunyi Ren, Guibing Qian

M1009 : Thoughts About the Introduction of the Internet of Things Into the University Laboratories .................................................................................................631
Wanmei Zhao, Qingda Yuan

M1016 : Probe on the Teaching Innovation of Advanced Manufacturing Technology Oriented to Oceanic Engineering ..........................................................................................................................635
Yunna Wu, Haozhen Qi, Yifan Feng, Heping Wang

M1021 : Denoising of Hyperspectral Remote Sensing Image using Multiple Linear Regression and Wavelet Shrinkage ...........................................................................................................................................639
Dong Xu, Lei Sun, Jianshu Luo

M1027 : Web2.0-based Blended Learning in College English Teaching .............................................................................................................643
Siyang Liu

M1029 : A Type of the Travelling Wave Solutions of Higher-order Camassa-holm Equations .................................................................................647
Xin Wang

M1032 : The Black-Scholes Formulation of Option Pricing with Credit Risk ........................................................................................................651
Zhaohai Wang

M1033 : On the Connotation and Essential Features of Chinese Teaching Service Type University .................................................................................................655
Weiping Zhao

M1040 : Study of the Defensive Tactics of the Bei-jing College High Level Men’s Basketball Team .................................................................662
Hongwen Xue, Yong Xu

M1042 : Dynamic Pricing with Consumer-Generated Information ..............................................................................................................666
Tian Li

M1043 : Off-line Handwritten Chinese Character Recognition based on GA Optimization BP Neural Network .................................................670
Yannan Wu, Haochen Qi, Yifan Feng, Heping Wang

M1045 : A Review of PIP Supervision: Comparison between China and the Developed Countries to Build a Management Supervision Mode ........................................................................................................674
Xun Wang

VOLUME 2

M1049 : Hybrid Library: The New Trend of the Traditional Library and Its Modern Development ..........................................................................................................................682
Bochao Meng

M1050 : A Study on Internet-based Autonomous Learning in College English .................................................................................................................686
Zhaoxu Han, Weixia Fan

M1051 : Multi-disciplinary Internet-based Platform in Optimizing College English Teaching ..........................................................................................................................690
Wei Wang, Jianguo Zhai

M1052 : Countermeasures and Interpretation: Operation for Vocational Schools Based on Marketing Perspective ..........................................694
Zhaohui Yang, Zhaowei Dong

M1055 : Mystery Calling Research in the Frontline of Higher Education ..............................................................................................................698
Katalin Jäckel, Mária Heitler Lehoczky

M1056 : Statistical Analysis of SCI Papers in Higher Universities at New Stage .................................................................................................703
Yinhong Wang, Li Wan, Xinhua Lei, Fangfang Zhang
M1058 : Optimization of Computer Network Teaching and Learning Behavior Using Virtual Experiment Technology ......................................................... 712
Xiaohua Li, Renlong Zhang, Li Yang, Quanyue Yang, Juan Nie

M1061 : Digital Skills in Mexican Children .......................................................................................................................... 716
Carlos Arturo Torres Gascélita

M1062 : The Simulation of Knowledge Flows on Collaboration Innovation Networks Based on Cellular Automata 720
Wen Zhou, Mingyang Jing

M1063 : The Credit Regulatory System of Public Investment Agent Construction Project .................................................. 724
Yanwu Wu, Haiping Wang, Min Guo, Naren Mandala, Jian Chen

M1070 : Patent Analysis on Mobile Operating System .................................................................................................... 728
Xu Yang, Xiaohai Du, Yang Peng

M1071 : Teaching Modes’ Reform Study in Universities Under the Background of New Media ........................................... 733
Xin Wang, Ming Tian, Lijuan Yuan

M1072 : Exploring the Emerging Technologies on Senior High School Curriculum .......................................................... 737
Yujie Hu, Tzu Min Chou, Kuo Hsia Chen, Chi Hung Lai, Jen Jung Shou, Xiaoyu Lin, Jyh-Bin Ke

M1074 : The Design and Application of Mobile Media System ......................................................................................... 744
Changqing Bai, Min Ju, Yao Wei

M1075 : Scale-free Characteristics of the Information and Communication Industry International Marketing Network ................................................................................ 748
Bo Wang, Yang Zhou, Sheng Li

M1078 : Network Courses: Current Status, Problems and Future Development ................................................................. 752
Fuping Guo, Jinxin Pan

M1079 : On the Network Copyright’s Protection in China .................................................................................................. 756
Zhenghua Xia, Bangfan Liu, Li Dong, Zhenfeng Wang, Yonghua Xu

M1080 : On the Chinese Network Art Education in the New Media Era ............................................................................ 760
Xiali Ma, Zhanlin Ma, Bangfan Liu, Shui Xu, Haixia Mao, Yongkui Liu

M1083 : Cultivating Base Establishment of Postgraduates with Professional Degree on the Idea of Large-scale Engineering .......................................................................................... 764
Aijun Tang, Hailong Ma, Bin Xu, Xingdong Yuan

M1084 : Cross-cultural Influence on Management of International Business ................................................................. 768
Hongli Gao

M1085 : Relationship between Human Resource Management Practices and Enterprise Innovation: Mediating Role of Creative Culture .................................................................................. 772
Nausheen Syed, Xiaoyan Lin

M1086 : Design of Low-Carbon Supply Chain Under Emission Trading Scheme ................................................................. 776
List Ke, Hanping Hou

M1091 : An Investigation of the English Articles’ Acquisition by Chinese EFL Learners .................................................. 780
Yang Zhang

M1092 : Technology Social Venture and Community Empowerment .................................................................................. 784
Ismail K., Mir Hossain Sohel, W. Z. Womar

M1093 : A Chaotic Time Series Prediction Algorithm Using Asymmetric Functions .......................................................... 788
Yun Bu, Wan Xin Kang, Yong Qiang Chen

M1094 : Managing Collaborative Innovation: How to Reduce the Signs of Job Burnout Stress for College Counselors on Campus .................................................................................. 792
Fenghua Liu, Weita Fang

M1095 : Managing Collaborative Education: How to Detect the Conditions of Interpersonal Disturbance of College Students from Poor Families ........................................................................... 796
Fenghua Liu, Guosheng Han, Weita Fang

M1097 : A Survey on the Role of Motivation and Attitude in Second Language Learning of Chinese College Students ................................................................................................................. 800
Lili Tong

M1100 : Protective Effect Analysis on Technical Barriers to Trade ......................................................................................... 804
Bei Liu, Xin Liu

M1102 : Cultivating Mode of University-Enterprise Cooperated Postgraduates with Professional Degree 810
Bin Xu, Aijun Tang, Xiaohong Fan, Hailong Ma

M1103 : Establishment and Development of Cultivating Base of Postgraduates with Professional Degree by University-Enterprise Cooperating ......................................................... 814
Bin Xu, Aijun Tang, Xiaohong Fan, Hailong Ma

M1107 : On Sustainable and Ecological Urban Planning Mumford’s Thought on the City .................................................. 818
Shuyue Li, Peiyang Chen

M1110 : Design and Simulation of MAC Protocol for Vehicular Ad Hoc Network based on TDMA ........................................ 822
Li An, Xunmei Ye, Qinggang Fan, Hongmei Zhang

M1111 : Study on Evaluation Model of Service Level based on Orbital Transfer Passenger Convenience and Comfort ........................................................................................................... 828
Jie He, Xingqiang Zhang, Jingzhong Zhu

M1112 : The Application of Ambiguity in English .................................................................................................................. 833
Lili Tong

M1113 : The Construction and Evaluation of Model of Analytical Thinking Skill Training ............................................................................................................................ 837
Paiboon Kaitikomol, Pairoaj Tirathanakul, Sudjit Montaku
M1114 : E- Complaining: Analysis of Lodging Customers’ e-Complaints from a Turkish Internet Website ...........................................843
Feruka Özür Sari, Özlem Atılgan, Ferah Onat
M1115 : A Framework for Personalized and Dynamic Composition of E-government Web Services ...........................................848
Hajar Elmaghraoui, Laila Benhlima, Dahlia Chadiou
M1116 : Existing Status of the Passbook Application and Prospect Research .................................................................852
Xia Liu
M1117 : Research on the Development of China’s Tourism e-Business in the Web2.0 Era ...........................................................858
Jiangpeng Yan, Tingting Zhu
M1120 : Exploration and Application of “Learning by Doing” Model in Higher Vocational Education for Computer Specialty ........................................................................................................863
Haitao Zhao
M1122 : Exploration of Time-based Data Pretreatment Technology ..................................................................................867
Jing Wei, Wenxiang Yu
M1123 : Integrated Learning of Autistics in Primary School through Computer ............................................................871
Sumalee Chanchalor, Kristlada Chuenkunawat
M1126 : Sustainable Growth in Women Owned Technopriose: A Conceptual Framework ..........................................................875
Syed Khurram Ali, Jafri, Kamariah Ismail, Wafa Khurram, Khairiah Soohod, Saudah Sufian
M1127 : Application of Local Polynomial Interpolation in Isomagnetic Map Magnetic Survey ...........................................879
Tianhua Meng, Ruiqing Du, Jin Yang
M1130 : Research on Shanghai Shipping Fund Based on International Comparative Study ...........................................883
Yue Yin, Shi Xu, Yu Zhang, Fan Liu
M1131 : Teaching Reform of the Course of Single Chip Microcomputer ..............................................................888
Qingmin Wang, Yuxin Yang
M1132 : Aerospace-oriented Project Management in CALT ..................................................................................892
Zaowei Nie, Yunmin He, Dandan Xiong, Lichun Wang
Shou-Ping Lin, Thao-Minh Ho, Chia-Yen Hsieh
M1135 : A Petri Method In The Management Of Public Opinion Information ..........................................................902
Jin Du, Yanhui Du, Yu Chen
M1136 : Using Task-Technology Fit Model Evaluates Trainee’s Learning Performance In Second Life ..................................908
Chiu-Jung Chen
M1137 : Study a Sequence of Processing Craft-work Decision-Making Base on Constraint Matrix and Genetic Algorithm ..................................................................................................................................................913
Gang Wang, Yongfu Wei
M1138 : Students’ Risk Attitudes in College Choice Game under Information Constraint ..................................................919
Fenghua Lv
M1139 : Research on the Model of Intelligent Passenger Information Service System based on Multi-Agent ..................................923
Chunjie Xu, Yanyun Shi
M1140 : A Study of Zhejiang Industrial Clusters’ Influence on Export by Two Cases ..................................................927
Chunsiang Liu, Qizhen Yang
M1141 : On Training Mode of Applied Talents in International Economics & Trade of Zhejiang Wanli University ........................931
Chunsiang Liu, Huifin Zhou
M1144 : Moderating Effect of Brand Equity on Relationship Quality in Chain Restaurant Industry: A Conceptual Paper ..................................................................................................................................................935
Gang Tian Lo, Ahmad Jassab
M1146 : Information Technology Helps The Collective Account Management ..........................................................939
Yu Peng, Yanxia Li, Yue Yu, Yanyun Qi
M1147 : A Distributed Interactive Virtual Classroom System ..................................................................................943
Xindong Zhao, Yuelin Xing, Ling Liu
M1151 : Design and Implementation of Personal Information Management System in Internet ...........................................947
Chengxia Liu, Minling Zhu
M1152 : The Development of Constructional Drawing Symbol E-Game Phase I ..........................................................951
Shuangping Sun, Ekkachai Kopolrat
M1154 : State and Requirements of Cultural Diversity Students in the Eastern Thailand ..................................................954
Chumphol Iasomavin, Sumalee Chanchalor
M1157 : e-Learning for Fundamental Production Management ..................................................................................958
Theerapong Maneepan, Pensri Thongtiaweew, Jaruvan Junasavut, Rungravee Talangsu
M1158 : Research on Customization and Recommendation Based Personalized Information Services System for Mobile Learning ..................................................................................................................................................962
Yongqei Zhang, Kejun Zhang
M1159 : The Research on Users’Reviews to Improve Values of Tourism Website ..........................................................966
Luming Yang, Yu Chen, Jin Du
M1160 : Developing Information Management Competence in Translation Teaching ..................................................971
Peilouh Li
M1167 : Applying the Item Response Theory to English Classroom Examinations for Ethnic Students ................................975
Lanfen Ji, Xiaoxing Zhang, Dianqian Li, Dianxiang Lu
M1168 : Measuring Think Tank Influence Using Quantitative Text Analysis ..........................................................979
Zhiru Sun, Zhiqiang Zhang
M1169 : Study on the Development of Professional Education Based on Biological Evolution Theory ................................983
Xiaojing Li, Yunzhe Ji, Xiaojie Wang
S1034 : Analysis of Artificial Cobweb Structure Used in Power-line Communication ................................................................. 1286
Liang Zhang, Xiaosheng Liu, Yan Zhou, Dianguo Xu
S1037 : Emergency Evacuation Bottleneck of Passengers in the Seaport Station ................................................................. 1291
Guoqing Sun
S1039 : Optimized Design and Simulation of Resonant Harmonic Filter .................................................................................... 1295
Xiangqian Tong, Wei Shen, Yaping Deng
S1040 : Desynchronization Waves in Power Grids Described by a Kuramoto-like Model ............................................................ 1299
Xuewei Zhang, Markus Zahn
S1042 : Symbolic Transfer Entropy Analyzed Sleep Electroencephalogram ........................................................................ 1303
Baijun Chang, Liu Yang, Qiuping Chen, Jun Wang
S1043 : Design of Three-phase Multifunctional Power Quality Online Monitor Based on SOPC ................................................ 1308
Xiangqian Tong, Wei Shen, Yaping Deng, Zhi Rong Fan
S1044 : Advances in Unit Commitment Research Under the Considerations of New Energy and Grid Security ..................... 1312
Yuan Xiang Ge, Xiang Sheng Huang, Zhi Rong Fan
S1048 : An Optimal Penetration of Distributed Generation Decision Method for Distribution System ........................................ 1316
Bo Hu, Shuang Wang
TJ1001 : Influencing Factors and Improving Measures in Relation to Track and Field Teaching Quality .................................. 1322
Wan-Lei Dai
TJ1002 : The Application of Critical Thinking in College English Translation Teaching .................................................... 1326
Jiaqiu Li
TJ1003 : BP Neural Networks Algorithm Applied in Electric Load Prediction ........................................................................... 1330
Ping Duan
TJ1004 : Research on Marketing Strategy of Economy Hotel ........................................................................................................ 1334
Yixian Yu
Xiaojun Zhang
TJ1006 : A Brief Discussion on the Application of Film in Abnormal Psychology Teaching ........................................................... 1342
Yanan Zheng, Biji Fang
TJ1007 : Analysis on College Online Education Quality Management and Development Path ..................................................... 1346
Yao Cheng
TJ1008 : Analysis of and Study on Internal Control of Computerized Accounting System in Internet Environment .................. 1350
Gexin Sun
TJ1009 : Study on Teaching Model for Translation Teaching Practice of College English .............................................................. 1354
Mei Ge
TJ1010 : Research and Analysis on DM6446 Da Vinci Platform-based Face Recognition System .............................................. 1358
Xiaoxing Luo, Rong Hu
