TABLE OF CONTENTS

The Integration of Critical Thinking Skills into College Students' Spoken English Classes .................................................. 1
Bei Zhang

Metaphorical Use of Words in English for Science and Technology ................................................................. 4
Na Zhang

Cognitive Perspective of Lexical Metaphor in Scientific Language ........................................................................ 8
Na Zhang

Study on How to Enhance the Teaching Efficiency of World Outlook and Outlook on Life ................................ 12
Qiu Lin

The Countermeasures of Cultivating Study Responsibilities in College English Teaching ...................................... 15
Yong Quan Wang

A Study of Interlanguage Fossilization in Second Language Acquisition and Its Teaching Implications ...................... 18
Hongping Chen, Bo Zhao

Systematical Design for the Course of Basis of Surveying Adjustment with for Targeted-Oriented Quality Courses .......................................................................................................................... 21
Daxi Ma, Xiangfeng Shi, Haiping Xiao

Experience Type Teaching Theory in Higher Vocational Teaching of Applied Research ........................................ 24
Zhiqiang Feng

The Application of Analogy Method in the Teaching of “Microcomputer Principle and Interface Technology” .................. 27
Juan Li, Jiaxing Zhu

The Physical Education Teaching in Colleges from the Perspective of Lifelong Sports ......................................... 29
Fenglin Sun

ICT Competency Framework and Investigation of Teachers’ ICT Competence on Tertiery Level ......................... 33
Shuhua Wang

The Discussion of Scientific Application of Psychological Consult Skills in Universities Ideological and Political Education .......................................................................................................................... 37
Yunxue Si, Pumin Cai

Database Coding Technology and Research of Its Application ........................................................................ 41
Chen Li

Finding the Best Instrument for a Case Study with the Help of Websites and Internet ........................................ 44
Tang Tang

Start-up Goals of Agritainment Proprietors in the Periphery of Wuhan, Chengdu and Shanghai ......................... 50
Xiuhong Wang

The Influence of the Modern Sports Teaching Environment of Teaching Quality ...................................... 53
Xueda Yang

Michael: To the End of Pastoral .......................................................................................................................... 57
Dingming Wang

Over-education Issues in Graduated Education of Physical Education in China’s Universities ................................ 60
Ruilei Dai

Study on Business English Discipline Construction ......................................................................................... 63
Wenjun Lu

Study on Business English Translation under Multimedia Technology Environment ....................................... 67
Wenjun Lu

Research on Learning Motivation and Autonomous L2 Learning ........................................................................ 71
Ling Zhang

Study on Extracurricular Games in the United Kingdom and Its Enlightenment to the Operation of Sunshine Sports Program in China ......................................................................................... 75
Guohua Ding

How to Cultivate the Innovative Ability of Students Relying on Electrical Engineering Training Center ................................ .......................................................................................................................... 78
Xiaojing Yang, Zhongdong Yin, Zhiming Wu, Guangsen Li

A Discussion on the Teaching of Basis of Computer Engineering in PE Major in Colleges and Universities .......................................................................................................................... 80
Xiaobo Tan

Software Construction of Experimental Environment for Computer Network Course ........................................ 83
Zhi Sun, Liang Xu, Weijun Chen
