</table>
The Development Strategies of Integrating Informatization and Industrialization to Energy Conservation in Shandong Province

Jinfeng Sun, Xinmin Wang, and Zhonggang Xie

Stochastic Model of Brokerage Customer Value Based on Investment Psychology Segmentation and GARCH

Chen Yun and Pan Yan

Decision’s Limitation Discuss of Zhu Geliang Hadn’t Dissuaded Liu Bei to Assault Wu

Lu Bufan and Chen Li

The Influence of Quality Management on New Product Development Capability

Yongtao Song

A Dynamic Evaluation of the Enterprise Technology Alliance Risks Through F-Integral

Tong Wang

The Comparative Analysis of Sino-Japan Trade in Creative Goods

Gao He and Wang Yan

The Study on China's Composition of High-tech Products Export Trade

Wand Yan and Gao He

Engineering-Course Parallel Curriculum System Design for E-Commerce Characteristic Specialty

Cong Li, Li Ma, Xueqin Li, and Mei Yang

Information Encryption-Based Decision Support System Design for Chinese Oilfield

Cong Li, Li Ma, and Gajanan G. Hegde

Technological Spillovers of Foreign-Invested Enterprises and Technological Progress of Domestic Enterprises

Lv Min

Exploratory Analysis on Components of Customer Value

Lei Guo, Jie Liu, and Xianghua Lu

Model and Architecture of One-stop Government System: A Solution of Systemic Interoperability

Liu Hongbo

An Empirical Analysis of the RMB Exchange Rate Affect China's Tea Exports

Zhou Decai, Gao Li, and Wu Changping

Research on the Architecture of Regional Libraries Culture Information Service Alliance Performance Evaluation

Yurong Yu, Hua Xiao, Qing-jing Deng, and Qin Pan
The Study on Performance Evaluation of Regional Libraries Culture Information Services Union……88

Yurong Yu, Hua Xiao, Qing-jing Deng, and Qin Pan

Exploration and Innovation of Management Pattern of the Central Plains Economic Region Based on Complex Adaptive System……………………………………………………………………….92

Qiu Ke

A Service Based Online Jewelry Image Barcode Recognition Service…………………………….96

X. Y. Li

Analysis and Enlightenment on the Cultivation Model of Scientific Innovative Abilities of Foreign College Students of Science and Engineering……………………………………………………………………….100

Xu Hongmei, Ma Xinbo, Tan Hequn, Li Shanjun, Yang Fang, Yang Rui, and Yan Shuiping

Semantic Web Rough Ontology: Definition, Model and Storage Method………………………….104

Yinghui Huang, Guanyu Li, and Xingsi Wang

Yuping Gao

A Bi-objective Decision Model of Medical Center Location for Emergency Incidents…………….113

Chen Yingzhen, Zhao Qiuhong, and Maged Dessouky

The Conceptions, Principles and Systems for Automotive Materials Purchasing Quality Decision and Management Based on Total Quality Management Theory…………………………………………117

Chen Siyun, Shen Wen, Shen Simin, and Zheng Lanbo

Research Method in management Study: In the Light of Willingness to Pay……………………122

Yang Liu, Charlene Xie, Dixi Song, Yue Zhang, and Siqiao Fan

Study on DEA Method of Multiple Environmental Character Variable (ECV) Grouping in DMU Environment Heterogeneity Situation………………………………………………………………125

Lu Tao

International Comparison on Financial Input Mechanism in Secondary Vocational Education……130

Fengyu Wang and Jianqiong Peng

Research for the Virtual Machine-oriented Cloud Resource Scheduling Algorithm………………….133

Youchan Zhu and Huili Liang

Research on Business Innovation of Chinese Rural Financial Institutions……………………….137

Zhong Wang

Research on System Innovation of Chinese Rural Credit Guarantee Mechanism…………………140

Jinqiang He
Research on Reform and Innovation of Chinese Financial Factor Market.................................144
   Jinqiang He
Institution Level, Policy Option and Inclusive Innovation in China........................................148
   Ji Rui
Lossless and Secure Watermarking Scheme in MP3 Audio by Modifying Redundant Bit in the Frames.................................................................154
   Bailong Yang, Penghui Wu, Yaque Jing, and Jing Mao
Specialization and Diversification in Cities: The Evidence from China.................................158
   Cai Min-rong and Mao Yan-hua
Building Network Platform of Ubiquitous Service to Improve Combination of Relevant Educational Mechanism and Handling Mechanism: A Case Study on Psychological Archive Management Mechanism.................................................................164
   Hu Qi and Wang Hai
Integration Innovation in New Product Development..........................................................168
   Yichuan Hu, Juan Li, and Shuai Zhang
Modeling and Analyzing of Informationalized Consumption Behavior..................................171
   Zhen Zhu, Jing-yan Wang, Xiao-sheng Hu, and Yan-chun Gu
Research on the Energy Measurement Model of SCR Transfer............................................177
   Qiu Yinggui
Research on Electronic Commerce Logistic System Platform Based on System Dynamics........181
   Guo Yi
Research on Warehousing and Distribution Integration of Electronic Commerce Network Platform ...185
   Guo Yi
China's New Energy Vehicles Industry Development Status Quo of the Research.....................189
   Wang Yining and Wang Lei
Organizational Learning and Strategic Flexibility Have the Moderating Effect of Innovative Capacity.........................................................................................193
   He Yuetong and Li Taoran
The Evaluation of Thermal Power Enterprise Coal Suppliers Based on Analytical Hierarchy Process.............................................................................................197
   Xuhui Duan
Comprehensive Evaluation of Enterprise's Technological Innovation Talent Team Based on Analytic Network Process and Grey Related Analysis.........................................................201
   Ying Wang and Yan Liu
Integration and Collection of Heterogeneous Data Based on Metadata

Liwei Zhang

The Impact on Designing Storage Rack for a Multi-deep Compact AS/RS on the Speed Profile of the Storage and Retrieval Machine

Peng Yang, Lixin Miao, Lei Qin, and Zhaojie Xue

Web Service Integrator's Portfolio Optimization Based on Cost Impact Factors

Zhong Wu and Gui-hua Nie

Research on Jiangsu PV Solar Industrial Cluster Upgrading Driven by RJVs

Chen Lan and Wu Bo

Influence Factors of Industrial Cluster Development

Hualing Lu, Yan Zhou and Jianbo Tang

The Study on the International Competitiveness of China's Foreign Trade in Service

Gao He and Wang Yan

The Effects of Customer Involvement on Customer Co-created Value in Non-trading Virtual Community

Jianbo Tu and Mingli Zhang

Research on Port Project Management Maturity Model

Junmei Wang, Peiwu Dong, Guohua Qu, and Xuezhou Zhang

Political Connections and the Quality of Accounting Information

Wei-ping Jiang and Sai Wang

T-H Key Management Model Based on TPM

Jun Li and Huiping Yu

Enhancing the Core Competence of the Corporation in the Economic Globalization Context: From the Perspective of Value Chain

Dai Feng and Sun Wenyuan

τ-D Decomposition of the One Dimensional Differential Equation with Delay by Fixed a>0

Gao Ai

Metadata-based Management for Educational Resources

Hu Wei, Liu Shi, Ye Haoyun, and Su Chuanjie

Analysis on Dynamic Energy Efficiency in Electric Power Industry of China

Biying Xiong, Wanjie Li, Yaowen Wu, Zishou Li, and Ruiyu Liu
Wavelet-based Contourlet Transform Based Listless Block-Partitioning Image Coding Algorithm with Rate-Distortion Optimization
Zhenghua Shu, Guodong Liu, Zhihua Xie, Zhong Ren, and Lixin Gan

Vulnerability Analysis of the Global Navigation Satellite Systems from the Information Flow Perspective
Wangxun Zhang, Hongtao Hou, Qun Li, and Weiping Wang

The Effect of Corporate Social Responsibility on Employees
Zhu Liya and Yong Shaohong

Battery Capacity Display System of Lithium Battery Pack Based on Virtual Instrument
Yang Wenrong, Zhan Junyi, and Li Lulu

Research on OD Distribution of Domestic Coastal Trade Container Shipping Based on Gravity Model
Sheng Qing, Ding Tao, and Xu Cunyi

Health Assessment Model of Power Transformer Based on Dissolved Gas Analysis by Support Vector Machine
Lian Chao and Ma Lin

Study on the Relationship between Enterprise Network Service Quality and Customer Loyalty
Mei Lei and Zhang Jing

Spatio-temporal Data Query of Urban Traffic Navigation Considering Point of Interest
Xueqin Yu, Tao Zhang, and Qigang Jiang

Study on the Relationship of Technological Innovation and Organizational Culture
Wang Ying and Zhao Yang

Research on the City's Property Restriction Based On Fisher Discriminant Analysis Method
Dou Fei and Zhu Lili

A Study on CEP-based System Status Monitoring in Cloud Computing Systems
Long Li, Buyang Cao, and Yuanyuan Liu

Method of Attitude-aided Magnetometers/SINS/GNSS Integration
Chuanjun Li, Long Wang, and Xingcheng Li

Supply Chain Risk Management Decision Model Based on Genetic Algorithm
Lingjiang Zhao and Chen Li

Research on the Operation Mode and the Construction of Financial Services Platform in High-tech Industrial Parks
Junfeng Ma and Xingyan Li
A Multidimensional Research on Job Satisfaction and Organizational Commitment among University Teachers

Liping Tian, Chunhua Yu, Yongkui Li, and Yajie Wang

Analysis of the Order Degree of Flood Emergency Response Organization Based on Structure-Entropy Model

Lu Mian and Zhao Qiuhong

A Provenance Based Scheduling Algorithm for Logistics Chain in IOT

Jie Yin, Jun Li, and Peichao Ke

Rating Model of Credit Risk of Commercial Bank Based on Differential Weighting and Optimum Partition

Zhan-jiang Li and Guo-tai Chi

An Improved Measurement Method of Operational Risk Based on Monte Carlo Simulation

Yuxing Mao, Chenghong Zhang, and Hong Ling

Study on the Supply Chain Coordination Based on Option Contract under Fuzzy Requirement

Miaomiao Zhang and Kongyu Yang

The Improved Kalman Filter Algorithm Based on Curve Fitting

Liu Yunfeng

An Empirical Study on the Relationship between Motivations, Behavior and Performance of Baidupedians

Jing Chang, Jianmei Yang, and Ruiqiu Ou

Study on Technical Elements of Technology Transfer Project Control

Manchen Xiong

Preserving Users' Privacy for Continuous Query Services in Road Networks

Kamenyi Domenic M., Yong Wang, Fengli Zhang, Imran Memon, and Yankson H. Gustav

Research on the Effects of Regional R&D Cooperation among Enterprises, Universities and Research Institutes on Their Innovation Performance in China

Baosheng Li, Na Zhang, and Fengchao Liu

Research on Impact of Supplier Innovativeness on Manufactures' New Product Development

Suicheng Li and Yuzhou Huang

Study on the Multiple Attribute Evaluation of Technological Renovation Project

Biying Xiong, Zhong Zeng, Kun Wan, Bin Zhang, and Ruiyu Liu

Research on the Measurement of Knowledge Sharing in Chinese Cultural Context

Wang Guo-bao
Simulated Study on Users' Information Service Choice Behaviors .................................................. 376
   Fu Zeping and Liu Haiyan
Modeling the Spreading Behavior of Passive Worms in Mobile Social Networks ........................... 380
   Adu-Gyamfi D., Yong Wang, Fengli Zhang, Kamenyi Domenic M., Imran Memon, and Yankson H. Gustav
Research on Manufacturing Enterprise's Marketing Abilities .......................................................... 384
   Manchen Xiong
Research on Evaluation of Innovation Ability in Emerging Urban Agglomerations ......................... 388
   Xiaoyu Li
Mechanism Analysis and Model Construction of Cluster Enterprises' Synergy Innovation .................. 392
   Hui Zhang and Shu-tong Yu
The Study on the Visibility of the Intelligent Traffic Signal System ............................................... 396
   Jinsheng Lu and Qingzhang Lyu
The Research of Sign Enterprise Project Management ..................................................................... 401
   Jinsheng Lu and Miaoting Lin
Research the Government Subsidies Performance of Listed Companies in China Based on the Perspective of the Corporate Life Cycle .......................................................... 406
   Xia Zhou
Evolutionary Game Analysis and Computer Simulation of Iron Ore Price Negotiation ...................... 409
   Yun Zhang and Qing He
An Empirical Study on Influencing Factors of the Risk of Industrial Technology Innovation Strategic Alliance: An Example of a New-energy Industrial Alliance ............................................................. 413
   Bin Dai
Customer equity: Concept, Background, Management and Research Opportunities .......................... 416
   Hui Tan, Shaohui Ma, and Yisheng Dai
The Optimization of Operation and Maintenance Costs of BOT Concession ................................... 420
   Hang Shengce, Tian Fanghua, and Ma Junfeng
The Study of Customer Value in the Context of Service-dominant Logic ......................................... 423
   Zhong Zhendong, Tang Shoulian, and Pierre Vialle
The Impact of Competitive Intensity on Product-Process Matrix: An Empirical Study ..................... 427
   Gao Tiantian, Tian Yezhuang, and Li Weina
Research on the Current Situation of the Open Source Community in China from the Network Perspective

Hua Bai, Jianmei Yang, and Jiangtao Wang

On Human Resource Management of Chinese Colleges: From the Perspective of Knowledge Management

Sun Wenyuan and Du Xiuhong

Analysis on the Satisfaction Degree Evaluation and Decision Rules Reasoning of Community Health Service

Liqing Li and Yingting Yue

Analysis on the System Architecture to Improve the Development of Aviation Industry in Jiangxi Based on Feedback Archetype Generating Set

Honglan Li, Xiaogang Zhou, and Yingting Yu

Research on the Evaluation of Expert Scoring Method in the Competitiveness of High Colleges and Universities of Jiangxi Province

Honglan Li and Yingting Yu

Study on Collaborative Innovation Effectiveness of Knowledge Team of Heterogeneity Based on Fuzzy Comprehensive Evaluation

Yang Wencai, Wanglei, Ruan Jianwen, Tang Xiuying, Shang Ru, and Xi Qi

Longevity Risk Management for Government Pension Fund: Longevity Bonds Design

Shang Qin and Zhang Guozhong

A Study on the Efficiency of Financial Support for Marine Economy Based on DEA Model

Tang Qi and Wang Zhaohui

The Analysis of Electronic Government Development Strategy Model

Huang Tao

A Study on the Relationship among the Leading Actors, Directors, and the Box Office Income of a Film—Based on Multiple Linear Regression Model

Yang Yongbin and Ou Rongzhao

Role Control based Workflow Management for Research Projects

Xiaorui Wei and Yangping Li

Information Inquiry for Research Institutions: A Semantic Web based Approach

Yangping Li and Xiaorui Wei

Discussion on China's Private Financial Innovation Mechanisms under Inverted Soft Budget Constraint

Chuo Honglei and Yang Chaojie
Open-end Fund Investment Stock Management System Modeling Based on UML

Liyan Pang, Jiaxin Zhang, Guangyu Mu, and Jiaying Liu

Two-Agent Single-Machine Scheduling To Minimize Resource Consumption with A Constraint on the Makespan

Peng Liu and Xiaoyu Tian

Sequence Alignment-Based Detection Method for Resource Misuse in Information Systems

Gaoyu Zhang, Xiaoxia He, Zhizhao Zhou, and Chao Wang

Research on the Survivability Based on the Algorithms of the Key Point Detection and Compensation in Ad Hoc Networks

Gaoyu Zhang, Hongbin Zhang, Zhizhao Zhou, and Chao Wang

Quality and skilled personnel construction Situation and Development Direction in China

Xiang-hong Hu, Shan-Lin Yang, Wei-Guo Hou, and Zhang-Yong Xie

New Exploration-the Role of E-finance in Small Business Financing

Chen Su and Hongchun Yuan

Human Resource Allocation and Organization Performance in High and New Technology Enterprise

Zhao Libin

Expertise Based Skill Management Model for Effective Project Resource Allocation under Stress in Software Industry of Pakistan

Zeeshan Anwar, Nazia Bibi, and Ali Ahsan

IT Service Incident Management Model Decision Based on ELECTRE III

Guoxiang Zhao and Shanlin Yang

Visualized Analysis of Journal of U University

Qian Bian and Fang Yuan

Practice and Thoughts of Large-scale Instrument Performance Evaluation

Liu Yueqi, Liu Fang and Cui Yuanshun

Study on Predicting Method for Haff Value of Eggs Based on Grey Neural Network and Image Processing

Jian Yang, He Pan, Yingying Yin, and Xin Wang

Partner Selection of Agile Supply Chain Based on MAX-MIN Ant System

Li Ling and Zou Feng

Transnational Electronic Information Corporations' Location Choice in China and Its Determinants Based on GVC

Shanshan Liu, Lingchen Zhuo, Zequn Ye, YaoluZhu, and Lai Wei
Research on the Training Effectiveness Evaluation Based on XY Pumped Storage Plant..............539

Yonggui He and Zhifei Jiao

A Hierarchical Location Model for Cultural Center Location Problem........................................543

Jinglei Sun and Wen Wang

A Study on the Relationship between Clinical Nurses' Perceived Social Support and Multiple Happiness.............................................................547

Jianyi Ge, Xiaoming Tian, Qiang Fu, and Jiandan Shen

4S Shop Service Error Prevention Study Based on Moment of Time........................................551

Yubao Chen, Zhiqiang Mu, and Bin Zhao

Study on Ramsey Pricing Based on Telecommunication Industry Prosperity...............................555

Yubao Chen, Chunhua Jin, and Baosheng Li

The Management Research Based on Stepwise Regression Model in the Shanghai Community Endowment Service.........................................................558

Ping Jia, Shouzhong Hu, and Nan Yang

Research of Assignment in Making to Order and Manual Operating System Consideration of Learning Effect........................................................................561

Yu Xiu-li, Zhang Bi-xi, Li Hong, Li Yi-fan, and Liang Ri-fei

Efficiency Evaluation of Provincial Input-output Based on DEA in Rural China: An Empirical Study from 2009 to 2011.................................................................565

Zhang Rui and Liu Hui

Cloud Storage Identity Design Based on Fingerprint Identification........................................569

Guobo Xie and Bingying Yao

Information Management System for Space Science Mission Concurrent Design..........................573

Li Deng, Chao Han, Jinbin Cao, and You Song

Open Innovation Alliances as Complex Adaptive Systems.......................................................577

Wang Jiayang, Sun Lu, and Li Li

Value Co-creation in Open Innovation Alliances..................................................................581

Sun Lu, Li Li, and Wang Jiayang

Analysis of Influencing Factor on Supply of Micro-lending Guaranteed Based on Dummy Variables..........................................................................................................................585

Yang Qin and Hu Wenxiu

Community Structure Discovery and Community Topic Analysis in Microblog..........................590

Chen Xiaolei, Chen Xiang, and Cheng Yijie
Study on the Fluctuation Characteristics of the Yield Rate of Stocks of Chinese Listed Companies in the Agricultural Sector ................................................................. 596

Xin Hou and Pengjun Dai

The Evaluating Method of the Regional Talent Development Potential and Its Application .......... 601

Cao Yanling

Analysis on the Impact of Domestic Income Gap on Intra-industry Trade ............................ 606

Lei Xia and Jinyu Hu

Empirical Research on the Value Creation of Merger & Acquisition----Data from Chinese Listed Companies .................................................................................................. 610

Cao Yanling

Game Analysis on the Motivation of Equity Incentive Contracts in the Presence of Earnings Management ................................................................. 616

Jing Zhou

Design of Fund Rating System in Money Market ....................................................................... 620

Liyan Pang, Shuopeng Wang, and Jiaxin Zhang

Research of Web Information Classifying Based on Neural Network ..................................... 625

Qingjie Meng and Changqing Gong

Analysis on the Impact of Openness and Market Size on Economic Growth ......................... 629

Lei Xia and Min Jiang

Adoption of Mobile Banking Model Based on Perceived Value and Trust .............................. 632

Suping Xiong

Author Index ...................................................................................................................................... 637
Table of Contents

Volume -2

Preface .............................................................................................................................................. I
Organization Committee ...................................................................................................................... III

2013 6th International Conference on Information Management, Innovation Management and Industrial Engineering

Empirical Study on Influencing Factors of Quick Response Ability for Small and Medium Sized Logistics Enterprise .......................................................................................................................... 1

Shen Yan

Major Automatic Repeat Request Protocols Generalization and Future Develop Direction ................. 5

Mingrui Zhang

The Comparative Analysis of Difference between R&D Innovation TFP and Integrative TFP in China's High-Tech Industry .................................................................................................................... 9

Ai Mingye and Piao Meilan

Fuzzy Compensation Control of Engine Torque for Dual Clutch Transmission ........................................ 15

Peng Han, Xiusheng Cheng, Hanyu Jin, and Yinshu Wang

Fluctuations of the Chinese Real Estate Market: Price Stickiness and Non-equilibrium .......................... 19

Li Zhi, Li Weijun, and Wang Yu

The Effect of Specialization on Innovation of Technology in Chinese Cities ........................................ 25

Lei Xia and Jinyu Hu

Wang Feng
The Study on the Sino-Korean Trade Relations in the Post-financial Crisis Period

Wang Yan and Gao He

Study on Mode Selection of College Students' Innovative Undertaking Based on SWOT and AHP

Li Xiaofeng and Huang Li

Research of Cloud Computing Security in Digital Library

Qingjie Meng and Changqing Gong

Research on Information Consumption Demand of Consumers in the Informationalized Consumption Mode

Jing-yan Wang, Zhen Zhu, Ren-gen Huang, and Yan-min Zhang

The Dynamic Evolution Mechanism of Interest Groups and Its Stable Strategy Based on Policy-oriented of Mountainous Towns

Honghua Cao

Evolution Mechanism of Ecological Compensation and Its Stable Strategy Research

Honghua Cao

Analysis on the Satisfaction Degree Evaluation and Decision Rules Production of Community Health Service Based on Rough Set Theory

Liqing Li, Xiaojun Zhou, and Zhongjie Li

A Study of Current Coal Mine Drill Rig Technology Training Programs

Zhang Youzhen

Research on the Coupling Relations between Technology Innovation and Business Modes Innovation of IOT Industry Based on SD

Wang Wei and Liu Liping

Agent-based Layered Cloud Resource Management Model

Weinong Wu, Xing Zhang, Yuanbing Zheng, and Huili Liang

Research on China's Stock Market Volatility, Accounting Conservatism and Economic Consequences of the Scale of Investment

Lixin Hu and Lijuan Hou

Research on the Business Model of Digital Cultural Resources

Linglin Wu, Yinghua Shen, Yichun Zhang, Xiaoyu Wu, and Fei Feng

The Value Evaluation System and Applications of Digital Cultural Resources

Yanan Gao, Xiaoyu Wu, Yichun Zhang, Yinghua Shen, and Xiyang Yang
An Empirical Selection of Operating Quality Evaluation Indexes of Innovation System in Hi-tech Industrial Zones………………………………………………………………………………………….86
   Jialong Xie and Shuhua Hu
The Research of Applying Regular Grammar to Making Model for Lexical Analyzer………………90
   Haili Luo
Leverage Effect of Beijing Government R&D Investment on Enterprise R&D Investment…………93
   Hongxia Sun
Study on Regional Difference of Three Type Patent's Economic Contribution…………………...97
   Wang Lijun and Li Huitao
An Analysis on the Financial Input of Xinjiang Forestry Ecological Construction………………..101
   Cheng Guangbin, Wang Yongjing, and Cheng Guanghua
Pricing Decisions of Dual-channel Structures………………………………………………………….104
   Hui Zhang and Tiao-jun Xiao
Study on Capability Evaluation System of a Company Based on Staff Competency Model………..109
   Yanning Chang
Stocks Market Prediction Using Support Vector Machine……………………………………………..115
   Zhen Hu, Jie Zhu, and Ken Tse
Non-negative Matrix Factorization via Projected Gradient Method for Credit Risk Analysis………..119
   Hua Chen, Jinlin Ma, Jiaying Liu, and Jingnan Wang
Support Vector Regression for Prediction of Stock Trend……………………………………………..123
   Yaqing Xia, Yulong Liu, and Zhiqian Chen
Research on the Influence of Team Culture on Team Learning………………………………………..127
   Zijian Zhang, Lin Gong, Yu Xiao, and Jian Xie
Empirical Research Technical Efficiency of Equipment Manufacturing in China Based on Super Efficiency DEA and Malmquist Index…………………………………………………………………131
   Duan Jie
The Entrepreneurial Psychological Capital and the Study of Entrepreneurship…………………………135
   Zhang Ming and Hu Zuguang
Performance Comparison of CBF-TREBOL—Contention-based Forwarding and Tree-Based Routing for Vehicle-to-Internet Communications…………………………………………………………………138
   Tingting Guan, Changqing Gong, and Xiguang Li
Research on the Development Strategy of Medical Logistics Enterprises Based on the New Medical Reform ................................................................. 142
   Yaoli Zhang, Yajuan Niu, and Qizhe Wen
How Does Ownership Promote Innovation in a Transition Economy? Evidence from China ........ 146
   Yan Chen and Bin Zhang
Design and Implement of Mobile Internet Security Middleware .............................................. 150
   Jun Li and Qingsheng Zhang
Study on the Evaluation of Technology Innovation Performance of Equipment Manufacturing Industry Base on Shaanxi's Data ................................................................. 154
   Liang Qiqi and Duan Jie
Improvement and Research on AprioriAll Algorithm of Sequential Patterns Mining ...................... 158
   Ming Hu, Guannan Zheng, and Hongmei Wang
Innovation and Reform Management on the Public Financial Investment of Rural Public Cultural Service in China ........................................................................ 162
   Wei Liu, Jiangbin Qu, and Zi Wang
Study on Strategies to Contain the Spread of Unwanted Information from Social Media Based on Game Theory ........................................................................ 166
   Wang Lianghua and Tian Shuge
Multi_Level Data Pre_Processing for Software Defect Prediction .............................................. 170
   Gabriel Kofi Armah, Guangchun Luo, and Ke Qin
An Implementation of Web Services on Mobile Terminal .......................................................... 175
   Huiling Hao, Chunlai Zhou, and Tianlai Wang
A Study on the Dimensions of Pay Satisfaction in the Small Enterprises of Service Industry in China ........................................................................ 179
   Chunling Li and Junruo Li
Trends and Issues Related to Online Shopping Market in China .................................................. 183
   Kai Sha
Application of Feedback Technology in Green Construction of Underground Engineering .......... 188
   Wang Min
Effect of Warehouse Centralization on Lead Times ................................................................. 192
   Fang Min and Lu Donghong
Constructing Evaluation Index System of Agricultural Products Supply Chain Develop Circular Economic Microeconomic Organization in Process Stage .............................................. 196
   Gao Yan and Leng Zhijie
Research on Building the Information Sharing Platform Based on the OGC Web Services………200

Guangshi Li

Performance of a Push Supply Chain under Partial Cross Ownership with an Effort-contingent Demand..........................................................................................................................204

Jiguang Chen, Jiangfeng Fu, and Qiyong Hu

A Resource Dominated Workflow Net Based on p-time Petri Net.............................................207

Hui Fu, Zhouzhou Ying, Jinping Zhou, and Gang Hu

Impact of International Logistics on International Trade............................................................211

Chen Lan and Wu Bo

Logistics Market Segmentation Based on Extension Classification.............................................216

Yongzhi Ma, Hong Gao, Yi Ding, and Wei Liu

Group Buying on the Web: the Evaluation of Factors Affecting Consumer Purchase Behavior……220

Dan Cheng and Zengrong Zhan

Analysis of the Institutional Dilemma of Innovation Function in Chinese Universities and Reform Measures..................................................................................................................224

Yang Fang

Building Inter-Organizational Learning Mechanism of High-Tech Virtual Enterprise...............228

Han Yun

Based on the System Engineering Theory, Analysis of Structure of Ideological and Political Education Mode towards College Students..........................................................................................232

Pu Chuanxin

Risk Management Methods of High-speed Railway Construction...........................................237

Tang Junhu and Wang Yajie

How the Media Coverage Affects the Stock Returns of Listed Real Estate Companies in China....240

Xin Jin and Na Yang

Business Oriented Service Level Management (BOSELM)..........................................................244

Gianmario Motta, Thiago Barroero, Daniele Sacco, and Linlin You

Research on the Relationships between Hotel Internet Word-of-Mouth and Customers' Behavior Intention Based on Trust..............................................................................................250

Liuying Huang, Jiaping Shao, and Wenwen Wang

Research on the Impact of Social Network Service on Tourists Purchase Intention...............255

Liuying Huang, Do Yeon Kim, and Hong Xu
Construction Study for Ping-pong Tactics Electric Teaching Material Based on "Video Guiding Learning" .................................................................261

Libing Jiang, Dongmei Chen, and Guangjun Li

Study on the Management Innovation Mechanism to Improve the Physical Health Level of Adolescent Students in China ..................................................265

Kejun Pei and Haiying Yang

Fault Feature Extraction and Diagnosis of Phased Array Element Based on Wavelet and Neural Network .........................................................269

Wei Zhe and Huang Shi-zhao

Adaptive Information Hiding Based on Local Sparsity .................................................273

Linlin Zhang and Jianjun Wang

Research on the Relationship between Enterprise Size, Ownership Structure and R&D Investment .................................................................278

Niu Xiaoting and Yu Liying

Influence of Guanxi on Opportunistic Behavior and Special Treatment at the Organizational Level: An Empirical Study ........................................282

Zhang Zai-xiao and Zhang Ming-li

Guanxi, Interpersonal Commitment and Interorganizational Commitment: An Empirical Study in an Industrial Market ........................................287

Zhang Zai-xiao and Zhang Ming-li

Risk Management Model of Electric Power Enterprise's Informatization Projects Based on Knowledge Base ...............................................................291

Xuedong Zhang, Ling Liu, Si Wu, and Peng Li

Analysis of Traffic Safety System Based on Brittleness Link Entropy ..........................294

Lyu Zhilin and Li Dan

Research on Evaluation of the Competitiveness of Regional Intellectual Property Rights and Enhancing Strategies ..............................................................299

Tu Wenjuan and Song Xiaohui

Data Mining Modeling of Employee Engagement for IT Enterprises Based on Decision Tree Algorithm .................................................................305

Qian Chen and Zhizhou Gong

Study on Pattern Fabric Density Detection .................................................................309

Ye Bin and Liu Yi

A Prediction Study on E-commerce Orders Based on Site Search Data ..........................314

Li Na, Peng Geng, Chen Hang, and Bao Jiaxing

Cao Yanling

The Evaluation Research on Enterprise Staff Knowledge Collaborative Ability Based on the Collaborative Process

Cao Yanling

The Channel Selection Access of Wireless Network Based on Cognitive and Frequency Hopping

Yi Peng, Yuping Liu, Guojie Huang, and Cong Fan

Study on Advance Booking Discount Policy with Demand Information Updated

Wan-Xia Mei and Xiao-Hong Zhang

Empirical Study of the Influence Foreign Direct Investment Affecting Port Market Concentration

Rong Wu and Min Tu

Family Firms Human Resource Management: Based on the Perspective of Psychological Contract

Hu Qibo and Cai Jianfeng

Research on Customer Perceived Value of Third Party Logistics Enterprise

Cui Xiaodi and Qiao Li

Multi-Objective Multicast Routing Based on Ant Colony System

Li-dong Hou and Wen Zhang

Analysis of Suitability and Prospect of the Application of Cloud Computing in Agricultural Economy in China

Luo Xiangmei and He Fanglan

Research on Carbon Credit Financing of SMEs Based on Game Theory

Li Hong and Huang Danlin

Research on Training Pattern of Noncommissioned Officers Recruited Directly from Army

Xiuli Zhang and Xirui Yang

Research on NCO Vocational and Technical Education Curriculum System

Xirui Yang and Xiuli Zhang

The Application of LabVIEW in the Strapdown Inertial Measurement System

Xuejie Wei, Yueqiang Chu, Jie Zhang, and Xiao Wang

The Problems and Countermeasures of Construction Enterprises on Logistics Cost Control

Lingyan Luo
Customer Oriented Study on Service Strategy to Improve Service Quality
   Yong Tian and Liying Yu

CDO Pricing in VG Copula Model with Stochastic Correlations
   Yinhui Zhong, Qunfang Bao, and Shenghong Li

A Study on the Toy Safety Assessment Model
   S. L. Mak and H. K Lau

County Level of Urbanization Quality Classification Based on Support Vector Machine
   Zhao Jing and Guo Haixing

An Analysis of the Development of Student Entrepreneurship Abilities Based on PBL Mode of Instruction
   Shi Juan and Zhang Lingling

Safety System Engineering Management of High-speed Railway Tunnel Construction
   Tang Junhu and Wang Xuefang

China's Eastern and Western Construction Enterprise Energy Measurement and Management Research
   Li Hong and Wang Xiaofei

Optimized WebGIS Application and Research Based on Three-tier under .Net Environment and Distributed Browser/Server Architecture
   Dong Jing and Dong Dechun

Study on Assessment of Enterprise Tacit Knowledge
   Liu Yang

A Brief Analysis on the Construction of Urban Greenway Network in Zhongshan
   Xiangxiao Min

Spatial Econometric Analysis of Regional Economic Structure and Air Quality
   Lei Chen

Economic Adaptability Evaluation of the Main Ports of Artery of Yangtze River
   Wang Xuanxuan and Zhan Bin

Discussion Fiscal Policy Impact on Carbon Emissions in China
   Xia Zhou

Research on Indicator System for High-tech Enterprise Innovation Performance Evaluation
   Li Xiangdong, Ma Ling, Zhang Xin, Li Suhong, and Meng Jia

Study of Scientific Research Quality Monitoring System Based on Control Theory
   Xiao Pingping and Wang Yulan
Study on the Optimal Strategy for the Foreign Capital Entering into the Port Market of China

Zhang Wenfen and Tu Min

Keyword Bid Ranking System on the Search Engine Business Value Impact

Wei Lai and Li Chen

Culture and Consumers’ Decision-Making Styles: An Experimental Study in Individual-Level

Aihua Zhang, Mingxing Zheng, Nan Jiang, and Jianing Zhang

Explore the Driving Factors Behind the Imitation and Innovative Imitation of Chinese Internet Companies: A Perspective of Institutional Theory

Tingting Zhang and Wenfu Zheng

An Evolutionary Game Analysis for Internal Corporate Governance

Wang Fei and Zhang Wenhai

Study on Prediction Model of Building Construction Safety Accidents Based on GA-SVM

Feng Yajuan and Cui Jia

Optimal Emergency Rescue Route for Traffic Accident Considering Variable Travel Time

Chengsong Wang, Hui Fu, and Gang Hu

A Study on the Innovation of Corporate Culture Construction and Transmission on the Theory of Excellent Quality

En Deng, Bo Jiang, Qian Zuo, and Yu Long

Post-crisis Era of SMEs Management Innovation in E-commerce

Wang Lihua

Study on the Integrated Framework of Supply Chain Core Enterprise Data Center Based on SOA

Yuzhu Liu and Chen Li

Evolution of the Business Ecosystem: A Case Study of the Walt Disney Company

Mengfei Lyu, Yijia Han, and Wenfu Zheng

The Relationship among High-tech Enterprises' Strategic Orientation, Network Capability and Innovation Performance

Fang Wang and Xinghua Dang

Empirical Research on the Integration Process of Urban and Rural Education

Yuanyuan Li, Luping Ding, and Yumiao Zhang

The Exploration for the E-Commerce Protection Support System

Erhao Zhong, Yifan Zhu, and Zhenyu Xiahou
Relations among Employees' Perceived Supervisory Support, Perceived Organizational Support, and Organizational Citizenship Behaviors: The Moderating Role of Supervisor's Organizational Embodiment and Organizational Embeddedness ................................................. 496

Ming-jian Zhou and Na Liu

Research of Revenue Sharing Contract in Many-to-One and Retailer-Dominant Supply Chain with Fuzzy Demand ................................................................. 500

Li Hongkuan and Li Chen

The Estimation of Collision Risk on Identical Airway ............................................. 506

Long Haibo and Qu Yuling

Can Supervisor Feedback Always Promote Creativity? The Moderating Role of Employee Self-Monitoring ................................................................. 510

Ming-jian Zhou and Shu-kun Li

Study on the Cultivation of Corporate Culture to Promote the Development of SMEs .......... 513

Liang Jiahui

A CUSUM Scheme for Monitoring the Frequency and Magnitude of a Negative Event .......... 517

Yafen Liu

The Enterprises' Core Competencies Evaluation Based on Knowledge Capitals: An Empirical Study in Hotel Industry ................................................................. 522

Wei Zhang

The Impact of Environmental Performance Information Disclosure on Financing Constraints .... 526

Yun Yan and Ke Peng

Study on Identification Model of Management Fraud of China's Listing Corporation Based on Factor Analysis Method and BP Neural Network ................................................................. 530

Zhang Tao and Wang Yan

Study on Theories of Product Innovation Based on Generalized Experts ......................... 534

Jinliang Chen, Feng Zhao, and Hui Cao

A Novel Adaptive Waveform Design Method ......................................................... 538

Bin Wang, Jinkuan Wang, Wenfang Yang, and Fengming Xin

An Empirical Study on the Impact of Industrial Clusters on Regional Economic Growth .......... 542

Qiao Meihua and Qin Shanyong

Knowledge Acquisition from Generalized Experts Oriented to Product Innovation ................. 546

Jinliang Chen, Feng Zhao, and Hui Cao

A Research of the Advantages of Internet Entrepreneurship Based on Microblog .................. 550

Ye Peiqun
Corporate Brand Innovation Path Choice for China in Economic Globalization

Wang Xueting, Guo Jiangzhen, and Ma Jianqiang

Study on Process and Preparation System of Enterprise Technology Roadmap

Xiangdong Li, Ning Liu, Chunping Huang, and Zhiying Zhang

Foreign Technology or Indigenous Innovation

Qiuling Liu and Zhizhong Jie

Research on Relationship between Goodwill Trust, Competence Trust and Alliance Performance

Li Wei and Veysel Yucetepe

Comparative Study on Competitive Advantage between Civil Aviation and High-speed Rail Based on Customer Value

Lin Yan

New DOA Algorithm Using Subspace Projection and Synthetic Spatial Spectrum

Lan Xiaoyu and Zou Yan

Application of Mobile Learning in College Students' Learning

Pan Qiang

Optimization of Traditional Valuation Methods in Mergers & Acquisitions using Fuzzy Theory

Wu Leixin

The Construction and Development of University Mobile Learning System

Guoxin Miao

Uterine Calcifications Segmentation and Extraction from Ultrasound Images Based on Level Set

Quanquan Zheng, Yingjie Liu, and Weiliang Zhu

Revision of the Construction Project Contract Model Text in China

Su Hui and He Bai-zhou

A Detection Method of JTIDS Signal Based on Overlapped Spectrogram

Liu Congxin, Yu Tieming, Xue Jidong, and Fan Ruixing

SMEs' Organization Improvisation and NPD Performance under Turbulent Environment: the Moderating Role of Absorptive Capacity

Ruan Guoxiang and Chen Zhangliang

The Dynamic Mechanism of Liaoning Productive Service Cluster Areas' Development and Management

Bo Zhang and Shu Meng
Research on Collaborative Innovation Mechanism of the Industrial Cluster "China Titanium Valley in Baoji" ................................................................. 611

   Yanhu Han and Fuzhou Luo

Leader Empowerment Behavior, Self-efficacy and Employees' Voice Behavior: An Empirical Research on IT Knowledge Employees ................................................................. 615

   Zai-Lan Tian and Pei-lun Huang

Based on the User Behavior Characteristics of Mining Database Anomaly Detection Model Design ................................................................. 619

   Liu Hong

Research on Improving Liaoning Enterprise's Self-innovation Ability ................................................................. 623

   Shaofu Sun

Data Mining Model Based on Rough Set Theory ................................................................. 627

   Li Fangling

International Comparisons of Animation Industrial Marketing Modes and the Inspirations to China ................................................................. 631

   Yanfei Cheng, Yan Yang, and Feng Su

Relationship Research of EVA and Earnings Management ................................................................. 635

   Ping Du and Jingwen Li

The Development and Evaluation of the Ecological Housing Based on Gray Clustering Method ........... 639

   Yang Guang-ming and Zhao Guang-zhou

Constructing Dynamic Mechanism Model of China's Bank Card EMV Migration ......................... 643

   Luo Liping and He Weijun

Research on Contagion Effect among China's Bond Market and Stock Market ................................. 648

   Hou Xianping, Huang Dengshi, Xu Kai, and Zhang Hu

Author Index ................................................................. 653
2013 6th International Conference on Information Management, Innovation Management and Industrial Engineering

ICIII 2013

Table of Contents

Volume -3

Preface..................................................................................................................................................I
Organization Committee..................................................................................................................III

2013 6th International Conference on Information Management, Innovation Management and Industrial Engineering

A Method of WESoS Capability Assessment Based on DM2 and ABS…………………………………1
Zhi-fei Li, Dong-liang Qin, Hui Yuan, Feng Yang, and Yi-fan Zhu

The Approach for Critical Infrastructure Sectors Classification Using the Inoperability Input-output Model (IIM)........................................................................................................................................7
Meiyun Liu and Wenping Xu

Studies on the Influences of Use of Innovative Intention in Choosing of IPTV Service in Jiangsu Province....................................................................................................................................................11
Wang Feng

Evaluation Model of TPL Provider of Agricultural Products Basing on Analytic Network Process……14
Yang Huaizhen, Xie Dongmei, and Li Lei

Coal Sales System Based on Data Mining..........................................................................................20
Yan Zhang, Hui Zhang, and Anyuan Deng

Human Factors Analysis to Yangtze River Water Traffic Accidents Based on Fault Tree...............23
Lei Xu and Qing Liu

Empirical Research of the Economic Effects of the Quantitative Easing Monetary Policy………………26
Jing Huirong
Study on the Online Reverse Auction & the Innovation of Enterprise Management
Jing Huirong

30
Export-oriented Economy as Moderator of the Relationship between Technology Acquisition Model and Independent Innovation
Yongdong Wang and Liejin Lu

34
A Novel Security Private Cloud Solution Based on ECryptfs
Zong-pu Jia and Xiao Tian

38
Design of Non-Weighing Type Desert Plant Lysimeter Observation System Based on PIC18
Weiliang Zhu, Yafei Tian, and Shan Wang

42
The Construction of "The Whole-Course and Personalized" Comprehensive Entrepreneurship Education Model
Jinjian Wang and Chunxiao Chen

45
The Analysis on Co-integration Testing of Foreign Direct Investment and Economic Growth in Liaoning Province
Gao Lianting

51
The Screen Adaption Strategy for Mobile Media Based on Multi-screen Integration
Jiantong Yu and Sanxing Cao

54
Performance Evaluation of Customer Knowledge Management Competence Based on Balanced Scorecard
Guoyi Chen and Jiansheng Zhang

58
The Establishment and Application of CMM-IPD
Wang Wei, Pan Qunli, Li Xuan, and Mu Manman

62
Focus Flank Attack Strategy and Its Approaches
Tang Jianmin and Li Guangjin

66
Buffer Sizing Approach in Critical Chain Project Management under Multiresource Constraints
Jing Yu, Zhe Xu, and Chen Hu

71
A Study on the Measurement of Technology Innovation Ability in Liaoning Province
Ye Bai-qing and Su Cui-lian

76
A New Satellite Selection Algorithm in GNSS
Anhong Tian, Chengbiao Fu, Shunji Zhang, and Mu Zhou

81
An Empirical Study of the Influence Factors of College Students' English Course Target Demands
Minfen Zhou

85
Research on the Capacity Early Warning of Oil Tanker Based on PCA-BP Neural Network Method…89

Xu Cunyi, Ding Tao, and Sheng Qing

An Analysis of the Income Gap between Urban and Rural Residents’ since Reform and Opening up....93

Xu Yao

Research on Duration Risk Assessment of Public Construction Project…………………………96

Chang Jingui, Luo Fuzhou, and Li Hanwen

A Classical Inventory Model Amendment Based on Management Accounting……………………101

Yiming Xue

Context-aware Recommender Systems in Mobile Applications……………………………………..104

Ke Jia and Zhou Yi

System Simulation of Industrial Development in Guangzhou Based on System Dynamics……….108

Shouzhe Zhang

China's Private Express Service Quality Complaints Analysis and Countermeasures Research……112

Shi Xiao-yuan and Zhang Wei-hua

Study on R & D Enterprise Innovation Capacity Building………………………………………116

Manchen Xiong

Study on the Promotion Mode of Chinese Animation Derivatives…………………………………119

Feng Su, Xin Liu, and Yafeng Zhang

Agricultural Products Circulation Problem Analysis and Optimization of Logistics Operations……123

Shi Xiao-yuan and Zhang Wei-hua

Research on Urban Water Supply Pipe Network Accident Locating Based on Network Modeling…..127

Ding Li, Wang Dongmei, Ren Yongchang, and Liu Jingzhong

Regression-based Learning for Management Motivation and Earnings Management Methods……131

Yang Zhonghai, Sun Ying, and Zhang Qianqian

A Research on the Constraints and the Solutions to Our Country’s Construction of Logistics Informatization in New Stage………………………………………………………………………135

Ji Hong and Fan Yan

The Influence Factors of Enterprise Innovation Ability Construction and the Strategy Research……139

Liu Jing and Wang Mengting

Fuzzy AHP Analysis on the Impact of Innovation on Economic Development Models Transformation…………………………………………………………………………………143

Xiang Ying and Li Jinchang
The Research on the Metropolitan Public Transport Management .................................................. 214
   \textit{Li Yongkui, Lv Xinran, and Li Yezhou}

The Quantitative Research on Status of Human Capital in China .............................................. 217
   \textit{Yajie Wang, Jingxin Dai, Suying Gao, and Jianying Song}

Comparative Research of Management on Professional Sports between China and France ............ 221
   \textit{Xijia Liu, Jianxia Li, Tao He, and Jidong Li}

Production Process Improvement Based on Value Stream Mapping for CY Company ................. 226
   \textit{Zhang Longhan, Lv Hong, and Xu Shiwei}

System Construction and Empirical Study on Comprehensive Ability of Regional Centre for Cities .......................................................... 230
   \textit{Zhen Zhang and Jialong Xie}

Based on College Counselors Work Performance of the WSR System Research .................... 235
   \textit{Hu Chunhua}

Design for Power Lithium Battery Management System of Electric Vehicle .......................... 239
   \textit{Yang Wenrong, Li Lulu, and Zhan Junyi}

Study on the Overseas Communication Strategies of Chinese Animation Products under the Background of Cultural Export .................................................. 243
   \textit{Yanfei Cheng, Sifan Huang, and Feng Su}

Study on the Tibetan Network Public Opinion Dissemination Behavior Evolution Prediction Based on the Cloud Model ...................................................... 247
   \textit{Yingxing Li and Suduo Li}

How to Improve Customer Participation through Customer Education: From the Perspective of Customer Readiness .............................................................. 251
   \textit{Huang Min-xue, Huang Yong, and Deng Ya-ni}

The Policy of Kuomintang Government to Receive and Sort Local Bonds ................................. 255
   \textit{Liu Xiaoquan}

Research on Knowledge Management Maturity Model: Based on the Life Cycle of the Industry .... 259
   \textit{Yang Ruiming and Yu Qingan}

Study for the Car Sales Enterprise Customer Satisfaction Based on EC Management ................ 263
   \textit{Gao Tingting}

The Model of Energy Demand Forecast Based on Support Vector Machine .......................... 267
   \textit{Wang Shuai, Yong Qidong, and Liu Ye}
Management Logic Verification of a Workflow Model .................................................................270
   Yuzhen Dong

Organization Oriented Web Search Management .................................................................274
   Yuzhen Dong and Jianqiang Li

Study on BIM Technology Application Prospect in Engineering Management Industry ..........278
   Hua Liu and Ying Ran

Confocal Tomography Imaging in Near-field Based Spherical Wave Focusing Convolution Integral
Algorithm .................................................................................................................................281
   Tian Balin, Li Kezhao, Chen Yao, Luo Yongjian, and Xia Chunjing

Research on SQL Server Trigger to Implement Referential Integrity ....................................286
   Ding Li, Zeng Fanjin, Chen Xiaoji, and Liu Jingzhong

Predicting Freight with Fuzzy Granular Computing and Support Vector Machine Model .......289
   Ye Li, Yan Chen, and Xiaodong Liu

Research and Application of the Maintenance Indexes for Equipment ...................................293
   He Qing and Hong Yanyun

Research on Route Optimization for ATN/IPS ........................................................................296
   Haibo Ye, Changqing Gong, and Kaili Tan

The Forecasting For GDP Development of Liaoning Province Based on Grey System Theory …300
   Liangshan Shao and Wenbin Zhou

RFID Technology-based Museum Ticketing and Visitor Management Systems ......................304
   Shao Xiwen

Collaborative Filtering Recommendation Based on User Personality ......................................307
   Zhichao Quan

The Impact on the Solvency in Non-Life Insurance Industry in China: Based on the Investment Assets
Management ............................................................................................................................311
   Lingling Pan and Bing Xu

Agriculture Microfinance Risk Control Based on Credit Score Model in China .......................316
   Yao Fengge and Wang Jing

Analysis on the Securities Industry and Capital Market Development Situation of Jilin Provinces …321
   Wei Lan

An Empirical Analysis on the Relationship between Energy Consumption and Economic Growth in
Hebei Province ........................................................................................................................326
   Wang Dianru and Yin Ana
Effects of Industrial Structure on Energy Intensity in Hebei Province

Hao Dongheng, Wang Dianru, and Yin Ana

Research on Electronical Information Source Reconstructing Traffic Accident

Chao Wei and Miaoxin Nie

Survey of Personalized Recommendation Based on Society Networks Analysis

Liu Beilin and Sun Yi

Comprehensive Evaluation Research on Cyclic Economy Based on Entropy Value Method

Fei Li

Fuzzy Effective Degree Analysis in Mining Machine Based on the Structured Element Theory

Yan Yan and Zhao Bao-fu

The Negative Growth of Agricultural Technical Progress Base on the Quantitative Analysis of Time Series Data in China (1978-2010)

Wang Yueyi

Energy-saving Study of Green Data Center Based on the Natural Cold Source

Zhengang Li and Yongliang Lin

Analysis of Influencing Factors of Iron and Steel Enterprise Environmental Information Disclosure in China

Xiaolin Zhu and Yongmei Guan

Study on the Relationship between Iron and Steel Industry Output Value and the "Three Wastes" Emission

Xiaolin Zhu and Huang Dong

The Research on the Competitiveness of Commercial Banks by Factor Analysis

Zhou Maochun and Shan Zhixu

Vehicle Interaction Behaviors Model Based on Drivers Characteristics at Expressway-Ramp Merging Area

Yunlong Tan and Hongfei Jia

Small and Medium-sized Banks and Small and Medium-sized Enterprise Relationship Lending: Case of Zhejiang Tailong Commercial Bank

Guo Yan'an

The Research and Application of the Risk Evaluation and Management of Information Security Based on AHP Method and PDCA Method

Meng Meng

An Innovative Framework of Strategy Making: A Case-Study of JuMei Incorporation

Yi-di Wang, Han-ye Wei, Bing-jie Liao, and Wen-fu Zheng
Research of Innovation System about Project Management Audit

Guan Yamei

Innovation Management Research of Public Rental House in China Based on “Four-Three Structure”

Cheng Yanmei and Cheng Jie

A Study of Analyzing the Heat Distribution on Varying Types of Pans and Its Optimal Choice

Zhang Wenting, Cheng Jie, and Jin Qianqian

Study on the New-generation Rural Migrant Workers’ Promoting Happiness in Hubei Province

Li Qi and Cheng Jie

Research on Control Strategy of Development Cost of Innovative and Entrepreneurial Human Resource

Liu Jun

Determinants of Intercity House Price Difference in Shaanxi Province

Guo Bin, Xiao Hanyue, and Pan Lihao

Research on the Mode of Present Transportation in China and the Analysis of Railway Transportation

Gao Xukuo and Wang Qiong

A Study of Job Attribute Preferences among Engineering Graduates in China

Zhao Min

An Overview on the Application of Knowledge Management in Educational Field

Jixin Pan, Fang Jing, Fuping Guo, and Liping Liu

Strategic Orientation, Knowledge Competence and Innovation Performance

Sun Yonglei and Dang Xinghua

Core Enterprise Leadership Style, Inter-Organizational Trust and Cooperation Performance

Song Jing and Chen Juhong

A Common Component Architecture (CCA) Based Design and Implementation for Distributed Parallel Magnetotellurice Forward Model

Shanshan Li, Paulus T. Mulunga, Qiuge Yang, and Xiaoling Sun

The Impact of Team External Learning on Team Effectiveness

Haixia Wang and Fengjun Liu

Energy Management Strategy Research and Performance Simulation for Electric Vehicles Based on Dual-Energy Storage System

Daxu Sun, Fengchong Lan, and Jiqing Chen
IT-enabled Relational Capabilities and Open Innovation Performance

Shuting Zhu, Weijun Zhong, and Shu’e Mei

Study on the Current Situation of World Animation Education: An Empirical Analysis from the Perspective of Industrial Cluster

Feng Su and Yandong Wang

Status Quo Analysis of Chinese Service Trade

Huang Hui

Research on Combined Evaluation of the Rural Low-Carbon Economic Model's Construction Level

Wenhua Kong

Policies-Oriented Research of the First Industrial Adjustment Based on the Adjustment of the Regional Industrial Structure

Yonggui He and Guangwei Zhang

Study on Ecological Adaptability of Technology

Mao Jianqi and Xu Yanhong

The Application of Repeated Sales Model to calculating House Price Index among Small Cities

Feng Yajuan and Gong Tingting

Review of Research on the Industrial Water Environmental Regulation

Huang Bin and Zhao Shuang

Bandwidth Prediction Research Based on BP Neural Networks in SoftSwitch Power Dispatching Network

Jun-hong Ni, Nan-nan Sun, and Zong-wei Duan

A Research on Motivations of R&D Expenditures Capitalization

Ming Chen and Xiao-hui Shi

Primary and Secondary School Teachers How to Use the Education Cloud for Personal Knowledge Management

Jun Lan

Study on Production Line Balancing Based on Heuristic Balancing Algorithm

Shan Hongying, Hu Lulu, and Guan Qingzhu

Research of Information Presentation for Electronic Medical Record Based on Ontology

Chenguang Zhao and Luwei Zhang

The Financing Risk Warning System for Multinational Corporations and its Evaluation

Yuan Yun
The Dynamic Analysis on Ecological Footprint and Ecological Capacity of Hebei Province

Xianshi Li and Jian Li

The Construction and Application of Bayesian Network in Data Mining

Liwei Zhang, Jing Zhang, and Yan Sun

The Analysis of the Institutional Barriers in the Cluster Developments of the Equipment Manufacturing Industry

Xiao-guang Hu and Xu Cai

The Studies of Equipment Manufacturing Industry Base Development Pattern

Xiao-guang Hu and Xu Cai

Research of Innovation-driven Development Strategy Accelerating the Transformation of Economic Development Mode

Liu Jian

Economic Analysis on Chinese Green Buildings in the Context of Life Cycle Costing

Jiang Qifa

Research on the "Three-in-one" Innovation Dynamic Mechanisms for the University Science Parks, Universities and Enterprises in Jilin Province

Chen Lixia and Meng Bo

The Design and Application of Supplier Evaluation Index System in the Supply Chain Management

Jianyong Bai and Jingmin Wang

Forecast of Civil Aviation Freight Volume Using Unbiased Grey-Fuzzy-Markov Chain Method

Jinlin Ma, Zhiqian Chen, and Ken Tse

Study on the Relationship among Work-Family Conflict, Organizational Support and Job Satisfaction

Yan Dan

Dynamic Multi-attribute Decision Making Model Based on Intuitionistic Trapezoidal Fuzzy Numbers

Yuwen Shi

The Existing Problems and Countermeasures Analysis of Yunnan Germanium Value Chain

Fuchang Li

The Difficult Points and Development Countermeasures Analysis on Yunnan Germanium Industry Chain

Fuchang Li
An Empirical Research on the Relationship between Income and Traffic-Communications Consumption of the Urban and the Rural Residents in China

Chunmei Li, Ying Mao, and Qiaoqiao Lu

Study and Empirical Analysis on Influence of Monetary Policy on Stock Market Price in China Based on Golden Model

Yao Fengge and Wang Tianhang

The Study of Rural Financial Development and Rural Economic Growth in the Heilongjiang Province

Yao Fengge and Jiang Xue

Consider A Balanced Multi-Target Multi-Mode Project Payment Scheduling Problems

Feng Yajuan and Zang Yanmin

Empirical Study on Total Factor Productivity of National Joint-stock Commercial Banks

Yao Fengge and Liu Bo

Study on Tibetan Network Public Opinion Propagation Behavior

Yingxing Li, Jingwei Deng, and Kaiying Deng

Measuring Reverse Technology Transfer Effect of OFDI from OPEC to China: Application of Revised BK Model

Zhang Honglei, Li Yan, and Han Botang

The Technical Analysis on Computer-supported Distance Learning

Chen Chen

Revenue Models of Inventory Management in Guangxi Qingzhou Bounded Port

Fan Fan

Research on the Inventory Management Operations of Thermo-technical Spare Parts in the Electric Power Group Based on E-Marketplaces

Jun Liu, Tian Jiang, and Huayun Yang

A Study on the Mechanism of Relationship among Intellectual Property Rights, Technical Innovation and Standardization

Liu Hui, Bai Dianyi, and Liu Jin

Technology Selection in the Development of Low-carbon Industry in Hebei Province

Yin Ana, Deng Siyuan, and Huo Qingqing

Researches on Valuation of Listed Banks

Xiaodan Chen

Empirical Analysis of Motives of Private Placement of Listed Companies

Dan Zhang, Lin Song, Yuan Li, and Jindong Zhao
Based on Industrial Cluster Competitiveness Evaluation of High-tech Zone

Chenyang Dang and Jiaqiang Mao

The Empirical Study on Correlations between the Motivation of Private Placement and Profitability of Listed Companies

Haiqing Hu, Jie Cui, Kejia Bi, and Yuan Li

A Study on the Mechanism of For-profit Cultural Industry Financial Subsidies

Liu Peng and Li Xiaobei

The Study of Kunming's Financial Risk Early Warning Based on the Perspective of Financial Ecological Environment

Yang Yang

Evaluation of Knowledge Management Performance for HTVE Based on Sequential Fuzzy Comprehensive Evaluation Method

Han Yun

University Capabilities and Science Park Performance: An Empirical Study of the National University Science Park of China

Min Zhang

Author Index
