Contents

Preface
Andrew V. Jones and Nicholas Ng .............................................. i

Keynotes
Laws of programming with concurrency
Tony Hoare .......................................................... 1
Building Better Online Courses
Peter Norvig .......................................................... 2

Regular Papers
A swarm based heuristic for sparse image recovery
Theofanis Apostolopoulos ............................................ 3
Scalable and Fault-tolerant Stateful Stream Processing
Raul Castro Fernandez, Matteo Migliazaca, Evangelia Kalypianaki,
and Peter Pietzuch .................................................. 11
Generalizing Multi-Context Systems for Reactive Stream Reasoning Applications
Stefan Ellmuthaler .................................................... 19
Conformal Prediction under Hypergraphical Models
Valentina Fedorova, Alex Gammelman, Ilia Novarettnov, and Vladimir Voek .... 27
Relational Knowledge Extraction from Attribute-Value Learners
Manoel V. M. Franca, Artur S. D. Garcez, and Gerson Zaverucha ............. 35
Tools for the implementation of argumentation models
Bas van Gijzel ......................................................... 43
Towards the Development of a Hybrid Parser for Natural Languages
Sardar F. Jaf and Allan Ramsay ...................................... 49
Improving the quality of APIs through the analysis of software crash reports
Maria Kechagia, Dimitris Mitropoulos, and Diomidis Spinellis ................. 57
Fast Implementation of the Scalable Video Coding Extension of the
H.264/AVC Standard
Xin Lu and Graham R. Martin ......................................... 65
Improved Rate Control Algorithm for Scalable Video Coding
Xin Lu and Graham R. Martin ......................................... 73
An Optimal Real-time Pricing Algorithm for the Smart Grid:
A Bi-level Programming Approach
Fan-Lin Meng and Xiao-Jun Zeng .................................... 81
