International Conference on Theoretical and Applied Physics (ICTAP 2012)

Central of Kalimantan, Indonesia
19-20 October 2012

Editor
Ferry Iskandar
Institute Technology Bandung, West Java, Indonesia

All papers have been peer reviewed.

Sponsoring Organizations
Indonesian Physics Society
Palangkaraya University
# Table of Contents

**Preface: The 2nd International Conference on Theoretical and Applied Physics (ICTAP-2012)**

Ferry Iskandar  

**Committees**  

**Superhydrophobic surface as a fluid enhancement material in engineering applications**

Anggito P. Tetuko, Deni S. Khaerudini, Priyo Sardjono, Perdamean Sebayang, and Gary Rosengarten  

**Effect of CeO$_2$ addition on the properties of FeAl based alloy produced by mechanical alloying technique**

Deni S. Khaerudini, Muljadi, P. Sardjono, Anggito P. Tetuko, P. Sebayang, and M. Ginting  

**Fabrication of TiO$_2$ nanoparticles and films and their UV-VIS absorbance**

Henyk Nur Widaryanti and Darminto  

**Qualitative analysis of Pb liquid sample using laser-induced breakdown spectroscopy (LIBS)**

Hery Suyanto, Ni Nyoman Rupiasih, T. B. Winardi, M. Manurung, and K. H. Kurniawan  

**Poling process optimization of piezo nano composite PZT/polimer**

M. Rosyid Ridlo, Titik Lestari, Mardiyanto, and Achiar Oemry  

**Dynamics of carrier generation by photon absorption in semiconductor gallium arsenide**

Masbah R. T. Siregar and Lambhot Hutagalung  

**A simple optical tweezers for trapping polystyrene particles**

Minarni Shiddiq, Zulfa Nasir, and Dwiyanu Yogasari  

**Synthesis of silica nanopowder produced from Indonesian natural sand via alkalifussion route**

Munasir, A. Sulton, Triwikantoro, M. Zainuri, and Darminto  

**Study of filtering Ag liquid sample by chitosan biomembrane using laser-induced breakdown spectroscopy (LIBS)**

Ni Nyoman Rupiasih, Hery Suyanto, Made Sumadiyasa, Christine Prita Purwanto, and Rendra Rustam Purnomo  

**Crystallite size characterization and magnetism properties of composite (BaFe$_{12}$O$_{19}$)$_{1−X}$(SrTiO$_3$)$_X$**

Novizal, Azwar Manaf, and Rahmad Doni
Preparation and characterization of bonded NdFeB permanent magnet
Perdamean Sebayang, Muljadi, Priyo Sardjono, Ayu Yuswitasari, and Wisnu Ari Adi 40

Analysis of corrosion penetration rate (CPR) of exhaust ford laser assembled in 1997 which was coated with chrome (Cr)
Prantasi Harmi Tjahjanti and Herdian Bramantyo 44

Preliminary study of CdTe and CdTe:Cu thin films nanostructures deposited by using DC magnetron sputtering
Putut Marwoto, D. P. Ngurah Made, Sugianto, Edy Wibowo, Zulkafl Othaman, Santi Yuli Astuti, and Nila Prasetya Aryani 48

Magneto-elasticity in hydrogels containing Fe₃O₄ nanoparticles and their potential applications
Sunaryono, Ahmad Taufiq, Munaji, Bahtera Indarto, Triwikantoro, Mochamad Zainuri, and Darminto 53

Solutions of Dirac's equation in Bianchi type I spacetime in teleparallel gravity theory
Triyanta, Supardi, and F. P. Zen 57

Structural and superconducting aspects in REBa₂Cu₃O₇₋δ (RE = Nd, Gd, Eu) superconductors prepared by wet-mixing method and varying sintering temperature
W. G. Suharta, S. Suasmoro, S. Pratapa, and Darminto 62

Effect of different dispersants in compressive strength of carbon fiber cementitious composites
Yulinda Lestari, Saiful Bahri, Eni Sugiarti, Gilang Ramadhan, Ari Yustisia Akbar, Erie Martides, and Deni S. Khaerudini 67

Development of welding defects identifier application on radiographic film using gray level co-occurrence matrix and backpropagation
Zaenal Abidin, Muhammad Angger Anompa, and Muhtadan 70

The effect of Al₂O₃-SiO₂ mixing ratio as steel coating S45C to the thermal and adhesiveness characteristic with flame spray method for rocket nozzle application

Powder metallurgy process for manufacturing core projectile
Taufik Akbar, Vuri Ayu Setyowati, and Widyastuti 80

Effect of weight fraction of carbon black and number of plies of E-glass fiber to reflection loss of E-glass/riproxy composite for radar absorbing structure (RAS)
Widyastuti, Rizal Ramadhan, Hosta Ardhyananta, and Mochamad Zainuri 85

The k-ε and elliptic relaxation model on turbulent mixed convection
S. B. Gunarjo 89
A scheme of pedagogical problems solving in kinematic to observe toulmin argumentation feasibility
   Sondang R. Manurung, Nuryani Y. Rustaman, and Nelson Siregar 94

Thermal expansion coefficient prediction of fuel-cell seal materials from silica sand
   Nurul Hidayat, Triwickantoro, Malik A. Baqiya, and Suminar Pratapa 99
