Non-Coherence in Estimation and Control ................................................................. 189
Ranade, Gireeja*  
Sahai, Anant  
University of California, Berkeley  
University of California, Berkeley

Modular Filters based on Filter Sharpening and Optimal Minimax Design .................. 197
Demirtas, Sefa*  
Oppenheim, Alan V.  
Massachusetts Institute of Technology  
Massachusetts Institute of Technology

WeB1 – Topics in Information Theory II
Chair: Viswanath, Pramod (University of Illinois)  
Organizer(s): Viswanath, Pramod (University of Illinois)

An Achievable Rate Region for Gaussian Interference Channel with Intermittent Feedback ........ 203
Karaku, Can  
Wang, I-Hsiang  
Diggavi, Suhas*  
University of California, Los Angeles  
École Polytechnique Fédérale de Lausanne  
University of California, Los Angeles

Communication Requirements for Secure Computation ................................................ 211
Prabhakaran, Vinod M.*  
Tata Institute of Fundamental Research  
Tata Institute of Fundamental Research

A Rank Ratio Inequality and the Linear Degrees of Freedom of X-Channel with Delayed CSIT .... 218
Lashgari, Sina  
Avastimehr, A. Salman*  
Suh, Changho  
Cornell University  
Cornell University  
Korea Advanced Institute of Science and Technology

Pilot Contamination Precoding for Interference Reduction in Large Scale Antenna Systems .......... 226
Li, Liangbin  
Ashikhmin, Alexei*  
Marzetta, Thomas  
University of California, Irvine  
Alcatel-Lucent Bell Labs  
Alcatel-Lucent Bell Labs

A New Upper-Bounding Technique for a Primitive Relay Channel based on Channel Simulation .... 233
Xue, Feng*  
Intel Corporation

Wiretap Channel with Causal State Information and Secure Rate-Limited Feedback .................. 240
Cohen, Alejandro*  
Cohen, Asaf  
Ben-Gurion University of the Negev  
Ben-Gurion University of the Negev

WeB2 – Decentralized and Distributed Control I
Chair: Beck, Carolyn (University of Illinois)  
Organizer(s): Beck, Carolyn (University of Illinois)  
Nedich, Angelia (University of Illinois)  
Olshevsky, Alexander (University of Illinois)

Leader Selection in Consensus Networks: A Convex Relaxation Approach .......................... n/a
Lin, Fu  
Fardad, Makan  
Jovanovic, Mihailo*  
University of Minnesota  
Syracuse University  
University of Minnesota
Fragility and Robust Design of Optimal Auctions ................................................................. 248
Kotsalis, Georgios*  
Shamma, Jeff S.  
Georgia Institute of Technology  
Georgia Institute of Technology

A Separation Signal for Heterogeneous Networks ................................................................. 254
de la Croix, Jean-Pierre*  
Egerstedt, Magnus  
Georgia Institute of Technology  
Georgia Institute of Technology

Optimal Plug-In Electric Vehicle Charging with Schedule Constraints ............................... 262
Cortés, Andres*  
Martínez, Sonia  
University of California, San Diego  
University of California, San Diego

A Distributed Algorithm for Solving a Linear Algebraic Equation .................................. 267
Mou, S.  
Liu, J.  
Morse, A.S.*  
Yale University  
Yale University  
Yale University

A Multi-Agent Projected Dual Gradient Method with Primal Convergence Guarantees .......... 275
Lu, Jie*  
Johansson, Mikael  
KTH Royal Institute of Technology  
KTH Royal Institute of Technology

WeB3 – MIMO Systems  
Chair: Nazer, Bobak (Boston University)  
Butternut

Successive Integer-Forcing and its Sum-Rate Optimality .................................................... 282
Ordentlich, Or  
Erez, Uri  
Nazer, Bobak*  
Tel Aviv University  
Tel Aviv University  
Boston University

Massive MU-MIMO Downlink TDD Systems with Linear Precoding and Downlink Pilots .... 293
Ngo, Hien Quoc*  
Larsson, Erik G.  
Marzetta, Thomas L.  
Linköping University  
Linköping University  
Alcatel-Lucent Bell Labs

Complex Low Density Lattice Codes for the 2x2 MIMO Fading Channel ............................ 299
Yona, Yair*  
Feder, Meir  
Tel-Aviv University  
Tel-Aviv University

Statistical CSI Based Zero-Forcing Beamforming for Cooperative Two-Cell Downlink Transmission .... 307
Xu, Jing*  
Li, Jiangyuan  
Zhang, Yizhai  
Xi'an Jiaotong University  
Rutgers University  
Rutgers University

Approximate Capacity of the K-user Fading MIMO MAC with Common Information .......... 315
Romero, Henry P.*  
Varanasi, Mahesh K.  
University of Colorado, Boulder  
University of Colorado, Boulder
Distributed Storage Allocation for Heterogeneous Systems .................................................. 320
Li, Zhao*                              California Institute of Technology
Ho, Tracey                              California Institute of Technology
Leong, Derek                            Institute for Infocomm Research
Yao, Hongyi                             California Institute of Technology

On Prioritized Coding for Real-Time Streaming under Packet Erasures ................................ 327
Wei, Yunkai*                           University of Electronic Science and Technology of China
Ho, Tracey                              California Institute of Technology

Anytime Characteristics of Spatially Coupled Code ............................................................. 335
Noor-A-Rahim, Md*                      University of South Australia
Nguyen, Khoa D.                        University of South Australia
Lechner, Gottfried                     University of South Australia

On the Convergence Speed of Spatially Coupled LDPC Ensembles ........................................ 342
Aref, Vahid*                           École Polytechnique Fédérale de Lausanne
Schmalen, Laurent                      Alcatel-Lucent Bell Labs
ten Brink, Stephan                     Alcatel-Lucent Bell Labs

Delete-and-Conquer: Rateless Coding with Constrained Feedback ........................................ 350
Hashemi, Morteza*                      Boston University
Trachtenberg, Ari                       Boston University
Cassuto, Yuval                          Technion - Israel Institute of Technology

Decentralized Decision-Making on Robotic Networks with Hybrid Performance Metrics .......... 358
Rossi, Federico*                       Stanford University
Pavone, Marco                          Stanford University

Examples of Distance-Based Synchronization: An Extremum Seeking Approach ....................... 366
Dürr, Hans-Bernd*                      University of Stuttgart
Stanković, Miloš S.                   University of Belgrade
Johansson, Karl Henrik                 KTH Royal Institute of Technology
Ebenbauer, Christian                   University of Stuttgart

Optimal Decentralized Control in Unidirectional One-Step Delayed Sharing Pattern ............... 374
Nayyar, Naumaan*                       University of Southern California
Kalathil, Dileep                       University of Southern California
Jain, Rahul                            University of Southern California

Decentralized Sequential Hypothesis Testing with Common Observations .............................. n/a
Mahajan, Aditya*                       McGill University

Privacy in Stochastic Control: A Markov Decision Process Perspective .................................. 381
Venkitasubramaniam, Parv*              Lehigh University

### Stable Real-Time Pricing and Scheduling for Serving Opportunistic users with Deferrable Loads

Dalkilic, Ozgur*  
Eryilmaz, Atilla  
Lin, Xiaojun  

Ohio State University  
Ohio State University  
Purdue University

### Implementing Sponsored Content in Wireless Data Networks

Andrews, Matthew*  

Alcatel-Lucent Bell Labs
## ThC6 – Deletion Codes: Bounds and Applications

**Chair:** Kiyavash, Negar *(University of Illinois)*  
**Organizer(s):** Dolecek, Lara *(University of California, Los Angeles)*  
Kiyavash, Negar *(University of Illinois)*

### A Practical Framework for Efficient File Synchronization  
Bitouzé, Nicolas  
Sala, Frédéric  
Tabatabaei Yazdi, S.M. Sadegh  
Dolecek, Lara*

### An Improvement of the Deletion Channel Capacity Upper Bound  
Rahmati, Mojtaba  
Duman, Tolga M.*

### On the Number of Subsequences Obtained via the Deletion Channel  
Yuvalal, Liron  
Langberg, Michael*

### Efficient Interactive Algorithms for File Synchronization under General Edits  
Venkataramanan, Ramji*  
Narasimha Swamy, Vasuki  
Ramchandran, Kannan

## ThD1 – Sparse Data Analysis

**Chair:** Studer, Christoph *(Rice University)*

### Recovering Sparse Low-Rank Blocks in Tandem Mass Spectrometry  
Studer, Christoph*  
Pope, Graeme  
Navarro, Pedro  
Baraniuk, Richard

### GROTESQUE: Noisy Group Testing (Quick and Efficient)  
Cai, Sheng*  
Jahangoshahi, Mohammad  
Bakshi, Mayank  
Jaggi, Sidharth

### Compressed Sensing of Streaming Data  
Freris, Nikolaos M.*  
Öçal, Orhan  
Vetterli, Martin

### A Fast Hadamard Transform for Signals with Sub-Linear Sparsity  
Scheibler, Robin*  
Haghighatshoar, Saeid  
Vetterli, Martin
Sample-Optimal Average-Case Sparse Fourier Transform in Two Dimensions ................................. 1258
Ghazi, Badih
Hassanieh, Haitham*
