International Conference on Education Reform and Modern Management

(ERMM 2014)

Advances in Intelligent Systems Research Volume 75

Phuket, Thailand
11 January 2014

ISBN: 978-1-62993-979-7
# TABLE OF CONTENTS

## EDUCATION REFORM AND MANAGEMENT

- Development of the Vocational Colleges in the Construction of Service Education System ........................................... 1  
  *Weiiping Zhou, Guocan Ren, Sufang Yuan*
- Discussion of Teaching Reform of E-Commerce English ................................................................................................... 5  
  *Yilei Pei, Bing Yang*
- On Practice of the Citizen Education in Social Fields in the Early Years of the United States ........................................... 8  
  *Heng Wu*
- The Conception and Practice of Research-Based Teaching in Research Universities .................................................. 11  
  *Xiaoyan Zhang, Peng Nan*
- Empirical Research on MIS Teaching of Non-professional Information Management .................................................. 15  
  *Fang Lu, Ming Yang*
- Education Reform of E-commerce Based on the Concept of "Innovation, Creativity and Entrepreneurship" ........................................... 19  
  *Shengbo Shi*
- The Islamic University: Is There a Winning Combination? ............................................................................................ 22  
  *Haggai Erlich*
- Experience of Computer Science Education Reform Based on Enterprise-University Cooperation ........................................... 25  
  *Xiaoyang Fu, Hendry Feng*
- Research on the Strategy of Higher Occupation Education Development Based on the Regional Industrial and Employment Structure: Taking Shunyi District of Beijing as an Example ........................................... 28  
  *Haolin Di, Wanrui Xu*
- The Paths through Which School Heads’ Transformational Leadership Influence Students’ Outcomes in Public Secondary Schools in Kuwait ........................................................................................................... 32  
  *Fraih Al-Fraih, Maged Ali*
- Action Research and Model Innovation in Backbone Teachers Training for Science Course ........................................... 35  
  *Yufei Wu, Zhongqiang Zhang*
- Construction and Practice of Comprehensive Quality Control System for Undergraduate Education ........................................... 38  
  *Li Yang, Keyong Shao*
- Research on Undergraduate Teaching Reform Based on Overall Quality Management ........................................... 42  
  *Huizhen Zhang, Keyong Shao*
- The Total Quality Management Analysis of Petroleum University Undergraduate Teaching Based on AHP Method ........................................... 46  
  *Tingting Wang, Keyong Shao*
- College’s Academic Organization Construction Based on Perspective of Disciplines ........................................... 49  
  *Min Zhou*
- The Introduction of High-Quality Educational Resources Promotes Students’ Autonomous Learning in Sino-foreign Education Joint Project ........................................... 53  
  *Yan Ma*
- An Analysis of Influencing Factors of Innovative Education and Development Proposals ........................................... 57  
  *Zhaoji Yu, Songtao Zhou, Yingmo Li*
- A Study on the Construction of Modern University System ........................................... 62  
  *Yuting He, Xue Min*
- The Study of the Development of Urban and Rural Preschool Education in Justice—Orientation ........................................... 65  
  *Wenfei Jiang, Huansong Yang, Lihua Xu*
- Study on the Strategies of Service-Based Education in University Library ........................................... 69  
  *Jing Xiong*
- Inspirational Education for College Students from Poor Family ........................................... 72  
  *Ying Liu, Xiaohong Yang*

## HIGHER EDUCATION AND VOCATIONAL EDUCATION

- The Enlightenment of German Higher Education “Dual System” to the China’s High Education System ........................................... 75  
  *Shulei Zhao, Guifang Liu, Qingxi Hou*
Study on the Training of Innovative Talents of Electrical Information Majors by Science & Technology Competition and Innovation & Entrepreneurship Training Programs .......................................................... 79
Yansheng Zhang, Keyong Shao

Research on Teaching Models of Postgraduates’ “English for International Academic Exchanges” in the Circumstance of Multimedia and Internet .......................................................... 82
Hui Yu, Gaoqiao Liao

Construction of Quality Management System of Higher Educational Administrations Based on the ISO9000 Groups of Standards .......................................................... 86
Qinde Mo

Study on Research-Based Teaching for Mechanical Engineering Control Basis .................................................. 90
Hongjun Yang

Analysis of the Present Situation with Insufficient Intrinsic Motivation to Higher Education(HD) in Xinjiang, China .......................................................... 94
Lixia Zhu

Construction and Applications of Database for Hair Mercury Contents of College Students: Innovation to an Environmental Monitoring Experiment .................................................. 98
Lei Zhang

Research on Problems and Responses in the Development from Junior College to University — Taking Business College of Beijing Union University as an Example .................................................. 102
Jing Zhai, Lingna Zhang

The Education Model of Art Design Item Applies to the Service of Regional Development .................................................. 106
Tao Zhu

Graduation Design’s Topic Selection and Ability Cultivation of Engineering Management Major .................................................. 110
Liming Wu, Qi Guo

SWOT Study on the Development of Chinese Adult Education .................................................. 113
Xiaoqiong Wang

Eight-Hour Study Time Management Mode for College Student Based on Credit System .................................................. 117
Jing Xiong, Aimin Wang, Lei Wang, Jiangle Yu

Inward-Looking Japanese Young People: A Case on the Second Year Engineering Students of a Rural National University .................................................. 121
Daisuke Yamashita, Hisaki Watari

Program Development of an Overseas Teaching Practicum for Korean University Students: An Evaluation on the Program between 2009 and 2012 .................................................. 125
Daisuke Yamashita

Introduce Colles to Freshman in Mathematics Teaching .................................................. 129
Jing Guan, Zhan Xu

On the Exploration and Practice of Core Capabilities of Excellence Electronics Engineers .................................................. 132
Yanqian Fu, Jianming Lou

Demand-Oriented Exploration of Interdisciplinary Graduate Students’ Training Method .................................................. 136
Xueping Zhang, Xiaoning Chen, Wen Li, Zaihui Wang

Higher Engineering Education for the 21st Century: American Perspective and Its Implications for China .................................................. 139
Hongbo Shi, Charles Vest

Research on the Problems and Routing Selections of Adult Education in the West of China .................................................. 144
Zhenyi Guo

Research on Information Technology Application in College Physical Education .................................................. 147
Feng Zheng

Quality Evaluation of Undergraduate Thesis as the Goal of Applied Talent's Cultivation --Based on the Self-Assessment Analysis of Accounting Major Theses .................................................. 151
Zhenyi Jin, Shiyou Li, Jian Xu

Research and Measurement on Promoting Quality of Graduate Project for Undergraduate .................................................. 155
Chongfang Fu, Zhongming Li, Min Liu, Fuya Wei

Study on the Application of Participatory Case Teaching in Business Administration of Undergraduate Course .................................................. 158
Jingling Chen

Standardized Administration Practical Exploration of Higher Vocational Colleges’ Sino-foreign Education Joint Project .................................................. 161
Yan Ma

Research on Negative Influence and Strategies of Multimedia Education in Universities .................................................. 165
Ziyan Zhang, Linan Fan

Research & Practice of Stagewise Model in Clinical Medicine Teaching .................................................. 169
Haogang Xue, Shougang Wang
Case Studies of University Funds Source Structure Impact on University Rankings in U.S. .......................................................... 172
Shujuan Zhang, Ling Xu

Understanding and Practice in China National Standard-Referenced Accreditation of Medical Education from Moral and Professional Quality ........................................................................................................ 177
Hong Xie, Xiongying Zhang, Juan Liu, Guangtao Xu

Reflections on Doubts from the In-service Chemistry Teachers in Secondary School — Based on the Survey toward Education Master Degree Candidates .......................................................... 181
Sajing Dong, Xia Li

Correlations of Cancer Stem Cell-Related Markers CD44+/CD24- and ALDH1 Expression in Breast Cancer and Its Significance .......................................................... 185
Yajun Fu, Juanjuan Zuo, Xiaohong Jiang, Peng Ren, Xiongying Zhang, Guangtao Xu

TFCM Induced Vasodilation of Isolated Rat Thoracic Aorta .......................................................... 189
Mei Lv, Bin Li, Wenjun Shi, Junchao Zou, Xiaowei Fei, Zile Yu, Yibing Bu, Shiyue Tang, Guangtao Xu, Xionmei Zhou

CURRICULUM AND PEDAGOGY THEORY

Research on Heuristic Curriculum Reformation of Mechanical Innovation Design Based on Virtual Design .................................................................................................................. 193
Ping Xu, Jiangang Yi

The Research and Analysis of Teaching Pattern Reform Based on Synergistic Learning .................................................................................................................. 196
Xuheng Zhang, Peng Ba

Deeper Learning Cycle (DELC) Practiced in Computer Programming .................................................................................................................. 199
Chaoyan Zhu, Genliang Chen

The Exploration and Practice of Surveying Course Teaching Reform .................................................................................................................. 203
Wei Li, Chang Wang, Liangbo Gao

The Investigation of Undergraduate Course System Reform for the Major of Measure & Control Technology and Instrument .................................................................................................................. 206
Fangfang Han, Baofeng Zhang, Hong He, Lina Liu

The Format of Educational Tasks for the Course of Computer Imposition in LaTeX .................................................................................................................. 210
Irina L. Fuks, Gennady M. Koshkin

Improve Teaching Quality of Machine Design Course by Comprehensive Application of Multiple Methods .................................................................................................................. 213
Fang Tian

On the Realities, Value and Strategies of Implementing Literary Appreciation into Chinese Rural Senior High Schools —— Take the Rural Senior High Schools of Shaanxi Province as an Example .................................................................................................................. 216
Yingjie Guo, Qing Zhao

A View of the Political Environments of Implementing Literary Appreciation into Chinese Rural Senior High Schools: Take the Rural Senior High Schools of Shaanxi Province as an Example .................................................................................................................. 220
Yingjie Guo, Qing Zhao

Construction and Practice of Surveying and Mapping Engineering Specialty Practice Teaching System .................................................................................................................. 224
Xiang Cao, Jianguang Qu, Jinling Yang, Yingqi Guo, Weicheng Zhang, Haiyan Si

Research and Practice on the Teaching Reform of Database Course .................................................................................................................. 229
Jingmin Wang, Hao Li Chen

Research on the Course Reform of Structure Analysis Based on Practice Project .................................................................................................................. 232
Zhe Liu

Research on Curriculum of Valuation Profession in China: From Industry Development and Employment Perspective .................................................................................................................. 236
Jingjing Zhang, Ban Zhang

The Research on College Students’ Silence in the English Classroom .................................................................................................................. 239
Xuehua Wang

Experimental Teaching of Econometrics and Cultivation of Student’s Creative Ability .................................................................................................................. 242
Yun Xu, Ying Ma

Out of the Dilemma, Wonderful Teaching—Some Viewpoints on Improving the Teaching Effectiveness of Ideological and Political Theory Course .................................................................................................................. 246
Jie Li

Reform in Teaching of Projective Comprehensive Training of Higher Vocational Mathematics Based on Capstone Course Theory .................................................................................................................. 250
Xincheng Wang
Building an Experimental Platform for Cloud and Big Data Education .................................................. 254
    Genlang Chen, Shiting Wen, Jiuqia Yang, Guanhui Song
Research and Practice on Experimental Teaching of 3D Innovation and Technology Series Courses .......... 258
    Hua Fang, Mei Li
Study of Environmental Expanding and Education Methods in Practical Teaching of Advertising
Professional .......................................................... 262
    Fangfang Bao, Wenchao Wang, Jie Ren
The Effectiveness of Digital Teaching Materials on Introduction Statistics ........................................... 267
    Linghui Yang, Tongsheheng Wang, Derching Yang, Pohsuan Wu
An NFC E-Learning Platform for Interactive and Ubiquitous Learning ............................................. 271
    Wei Hsun Lee, Ming Chieh Kuo
An Exploration on “Systematic Class” Teaching Reform for Economics and Management Majors in
Universities ................................................................. 275
    Chunchao Wang, Qin Ye
Undergraduate Students and Curriculum Design: A Short Literature Review ........................................ 279
    Xiaobo Tao, Xinrui Zhang
Educational Innovation and Practice of the Theory of Geographic Information System Based on
CDIO ................................................................. 282
    Jinling Yang, Xiangge Cao, Mingshuang Wang, Xin Liang, Yan Liu, Dan Li
An Empirical Analysis of Relationship between Teacher’s Quality and Student’s Achievement ................. 286
    Fang Li, Chaofeng Zhang, Qiang Feng
Tolerance for Disagreement for Students ......................................................................................... 291
    Ivana Miloloža, Vladimir Simovic, Marin Milkovic, Heri Bezic, Ljubica Bakic-Tomic, Edmond Vlashaj
Reflection on the Developing of the Network Courseware of Specialized Course for Engineering
College Students .......................................................... 295
    Biqiong Li, Qiong Hu, Qilong Wang
Business Education: Developing Professional Competences through Gaming ..................................... 298
    Irina Sedelnikova, Natalya Emelyanova
A Game Based Interactive Development Environment for Non-computer Science Majors ................... 303
    Bo Chen, Yan Liu
An Empirical Study of Teacher’s Behavioral Intention to Use Online Teacher Communities ................. 307
    Ming-Chou Liu, Wen-Chung Chan, Kuan-Hung Wang, Jian-Hong Pan

SOCIAL SCIENCE AND ENTERPRISE MANAGEMENT

Maturity Assessment of Railway Station Business District on the Entropy Fuzzy Synthesis Evaluation
Model ........................................................................ 311
    Wenwei Dai, Guixia Guan
Logistics Information System Analysis and Design for Terminal Distribution in Delivery Companies .......... 315
    Yue Hu, Yujia Liang
An Empirical Study on Economic Growth and Carbon Emissions of G20 Group .................................. 318
    Huayong Niu, Han Li
The Spiritual and Cultural Perspective of Xinjiang Nomadic Nationality Traditional Sports .................... 322
    Liqun Peng, Shuai Cheng, Baoqing Wang, Tao Liu
Research on the Regional Logistics Index System of Sustainable Development ................................ 326
    Xiuhua Li, Yuan Tian, Hui Tang
Research of IT Talents’ Training in Mobile Internet Application Development .................................... 330
    Bing Zhang, Duobao Ning
Study on the Liability-Sharing of Carbon Emissions in Cities of Hebei Province Based on DEA Model .... 333
    Jingmin Wang, Lei Feng
The Effects of Trust on the Logistics Alliance's Stability ..................................................................... 337
    Yuqing Wei
A Relationship Examination of Uncertainty Avoidance, Guanxi Building and Organisational
Socialisation among Newcomers ........................................ 340
    Yuye Zhang
North Korea’s Middle School Education ................................................................................. 344
    Shin Ju-Cheol
A Study on the Korean Culture (History) Education for Foreign Learners ......................................... 348
    Lee Hee Jung
On the Value of Perspective about System Superiority of Chinese Socialism ........................................ 351
    Yong Liu
Talk About the New Product Development Strategy from the Innovation Level ................................................................. 355
Xuesheng Pei

Privacy Recognition by Nurses and Necessity of Their Information Security Education .................................................. 358
Yukari Nii, Katsumasa Ota

Research of College Students’ Social Cognitive Abilities Based on Social Practice Education ........................................ 362
Zhichun Li

History and Status Quo of the Mongolian Nadamu ........................................................................................................ 367
Wanhu Li

Preventive Replacement Policy and Imperfect Maintenance Model with Random Working Times ........................................ 370
Chieh-Chih Chang

Optimization of Age Replacement Policy for Aging Multi-state System with Imperfect Maintenance ............................. 374
Yen-Luan Chen

Analysis of the Influence of Cultural and Social Psychological Factors on Sports Consumption ..................................... 378
Yan Zheng

Competitiveness Evaluation of Service Industry in Guangxi Based on the Factor Analysis ............................................ 381
Xin Zhu, Qian Chen

Compare the Principal Component Analysis and Linear Weighting Decision Method Consumption of the Urban Residents in China ................................................................. 385
Keying Zhang, Mi Tian, Xiaoli Zhang

Reforming Education for Economic, Social & Other Developments .............................................................................. 389
Emdad Khan

Application of Visual Management in Workshop ........................................................................................................... 397
Mingyue Hao, Zehua Wei, Yuan Tian

Evaluation of Independent Innovation Capability of Enterprises Based on Factor Analysis ............................................ 401
Xin Zhu, Liang Xu

The Robust Analysis of Examination and Approval Process Based on Markov Chain ................................................... 405
Fan Bo, Yihong Ru, Li Ma

Exploratory Study on Difficulties and Corresponding Countermeasures of Qinghai Pastoral Area Third Party Logistics Development ................................................................................ 409
Huanhuan Shen

Research of Function Area Layout with an Improved SLP of Logistics Park ........................................................................ 412
Tinglu Mi, Xianliang Shi

A Study of the Functions and Pitfalls of Design Leadership: How Leadership of the Creative Industry Attains Effectiveness ........................................................................................................ 415
Jie Ren, Fangfang Bao

Joint Order of Multi-item Inventory Control Model: Takes the Operation Center of D Express Enterprise as an Example ........................................................................................................ 421
Yu Tian

Exploration & Practice of Intelligent System Concepts Based on CDIO Mode .................................................................. 424
Shuang Zhang, Jingang Gao, Da Yi Yang, Hua Wang

The Basic Framework of Bukharin’s Ideas about the Relationship between Planning and Market ..................................... 428
Yanning Hu
