18th International Conference on Pipeline Protection 2009

Antwerp, Belgium
4-6 November 2009

CONTENTS

FOREWORD 1

3 LAYER COATING PERFORMANCE 5
Residual stresses in 3LPO external pipeline coatings – disbondment and cracking
B T A Chang, PolyLab LLC; S Hung-jue, J Han, Texas A&M University, USA; D Wong, ShawCor, Canada; A Kehr, Alan Kehr Anti-Corrosion; M Mallozzi, 3M; F Aguirre, H Pham, The Dow Chemical Company; W Snider, NOV Tuboscope, USA

FBE APPLICATIONS 25
A new application process that assures good adhesion of fusion bonded epoxy coating exposed to very severe conditions
G Gaillard, J L Bouliez, BS Coatings, France

Adhesion failure of external 3 layer extruded polyethylene (3LPE) based coatings for gas/oil transmission pipelines buried under soil
A Hussain, C Pflugbeil, Comtech GmbH, Germany

FBE POWDER 43
Development and performance of a low application temperature FBE coating
J K Pratt, M L Mallozzi, 3M Company, USA

Design of Mid.Tg FBE powder coatings to meet the requirements of pipe coaters and pipeline owners
M Patterson, S Drew, V Boerschel, Akzo Nobel Powder Coatings GmbH, Germany

Rheokinetic modeling of fusion bonded epoxy powder coatings at standard and low application temperature
M A Shafi, F Aguirre, E Trottier, S Falcone-Potts, The Dow Chemical Company, USA
FIELD JOINTS

PNC: A new solution for offshore field joint coatings
M Mallozzi, M Perez, 3M Company, USA
95

Novel field joint coating solutions for the construction of subsea pipelines
D Tailor, E Tacoma, Canusa-CPS, Canada
103

MAINTENANCE

Pipeline rehabilitation for the 21st century
T J M Bond, Pipetream® Inc, USA; D J Miles, Xodus Group Ltd, UK;
R N Burke, N J Vennero, Pipetream® Inc, USA
117

The impact of logistic operations on coatings in the supply chain of pipelines
I M van Assema, Dhatec BV, The Netherlands
137

Rapid hardening concrete cloth for oil, gas and water pipeline protection applications
F A Orr-Adams, Applied Concrete Systems Partnership; P Brewin, Concrete Canvas Ltd; E Hiam, Applied Concrete Systems Partnership, UK
151

Dow products for 3LPE steel pipe coating – AMPLIFY™ GR 320 and HDPE 12110G
O Henschke, Dow Europe GmbH, Switzerland
161

REHABILITATION

Rehabilitation of corrosion protective coatings on buried steel pipelines
M Schad, C Ströter, T Rehberg, DENSO GmbH, Germany
169

The challenge – renovation project in new dimensions: the renewal of the anti-corrosion protection of the hydropower station at Wehr, Germany
A Zwanzinger, Corro Tec Korrosionsschutz Vertriebsges.m.b.H.; E Rainer, TIWAG-Tiroler Wasserkraft AG; T Huber, Schluchseewerk AG, Germany
185

WATER

Foamed cement mortar to protect coated steel pipelines from external acid attack
D D P Trebicki, Rand Water, South Africa
201

AUTHOR INDEX
