2013 International Conference on Fuzzy Theory and Its Applications

(iFUZZY 2013)

Taipei, Taiwan
6-8 December 2013
# TABLE OF CONTENTS

Adaptive Type-2 Fuzzy Tracking Control Of Wheeled Mobile Robots .......................................................... 1
M. Kao, C. Lin, C. Feng, T. Li, H. Yen

Development Of A Fuzzy Logic Wall Following Controller For Steering Mobile Robots .......................... 7
Fahmizal, C. Kuo

Fuzzy Control Design For Nonlinear Dynamic Systems Using Constrained H8/LTR ............................... 13
A. Ashfahani, S. Su, T. Agustinah

Piezoelectric Actuator Design With Micro Positioning Capability And It's Practical Implementation:
Fuzzy Approach........................................................................................................................................ 19
Y. Chen

Adaptive Fuzzy Control For A Class Of MIMO Nonaffine Nonlinear Systems ......................................... 25
J. Wen, Y. Du

Intelligent Multi-Behavior Control And Coordination For The Autonomous Differential Drive Mobile Robot .................................................................................................................. 31
M. Lee, F. Chiu

Adaptive Assessment System For Human Performance Evaluation On Game Of Go .............................. 37

Fuzzy Predicate Logic For Knowledge Representation.................................................................................. 43
P. Reddy

A Horizon-Vertical Dimension Reduction Method For Classification Of Cancer Cell Gene In A Fuzzy
Neural Network......................................................................................................................................... 49
T. Zhang, C. Chen

Implementation Of Human Following Mission By Using Fuzzy Head Motion Control And Q-Learning
Wheel Motion Control For Home Service Robot ......................................................................................... 55
R. Deng, Y. Wang, C. Lin, T. Li

Some Methods Of Fuzzy Conditional Inference And Fuzzy Reasoning .................................................... 61
P. Reddy

Applying Rough Set Method To Analyze The Weighting Of Relevant Subjects In Elementary School
Test Scores.................................................................................................................................................. 65
Y. Chin, H. Chen, K. Wen

Intelligent Complementary Sliding Mode Fault Tolerant Control For Six-Phase Motor Drive System
Using TSK Type FNN .................................................................................................................................. 71
Y. Huang, F. Lin

Speed-Control Of A PMSM Based On Integral-Fuzzy Control .................................................................. 77
H. Chang, C. Hou, C. Chao

A Novel Evolutionary Operator For Variable-Dimensional Optimization................................................ 83
C. Huo, T. Sun

Individual State Variance Constrained Fuzzy Control For Discrete Nonlinear Stochastic Systems ............ 88
W. Chang, B. Huang, Z. Fu

Nonlinear Rudder Roll Stabilization Using Fuzzy Gain Scheduling - PID Controller For Naval Vessel ........ 94
M. Santos, S. Su, A. Aisjah

Design Of Robust Observer For T-S Fuzzy Time-Delayed Systems Subject To Unknown Inputs .................. 100
H. Karimi, M. Chadli

Fuzzy Dynamic Sliding Mode Control Design For High Order Disturbed Systems .................................. 105
H. Karimi, B. Wang, P. Shi

The Robust Previous Step Adaptive Fuzzy Controller For Nonlinear Systems .......................................... 111
T. Tao

Linguistic Fuzzy Modeling Approach For Daily Peak Load Forecasting ................................................. 116
J. Yu, H. Lee, Y. Jeong, S. Kim

Forecast Of Marine Traffic Volume Using Time Series Model .................................................................. 122
S. Yoo, J. Jeong, J. Jong, G. Park

A Part-Based Rotational Invariant Hand Detection .................................................................................... 127
J. Kim, J. Baek, E. Kim

A Fuzzy Logic Approach For Cloud Classification Based On Near-Infrared Image Features .................. 130
K. Kim, D. Song, Y. Bae

A PSO Method For Optimal Design Of PID Controller In Motion Planning Of A Mobile Robot .............. 134
L. Lai, J. Jeng, W. Li, Y. Chang, G. Huang, Y. Zhang
