2013 IEEE 63rd Annual Conference International Council for Educational Media

(ICEM 2013)

Singapore
1-4 October 2013
INVITED SPEAKERS

N01
Designing the pedagogies for student support on the large scale. 1
Diana Laurillard

N02
Connecting to Learn 2
John G. Hedberg

N03
Harnessing the power of social and participatory media 3
Grainne Conole

N04
The Larnaca Declaration on Learning Design: Implications for the Future 4
James Dalziel

N05
Looking Glass into the future: Why Augmented Reality will make the World Wide Web seem like a rounding error 5
Matt Bower

N06
Evaluating learning designs: A strategy to create engagement with teachers 6
Carmel McNaught

N07
Learner engagement: A metric for learning 7
James Ballard
GENERAL TRACKS

General Track 1 - Technology and Social Justice: Technology & Inclusivity

G01
Making accommodations for students with visual impairments to participate in the Nominal Group Technique  8
Deirdre E. Van Jaarsveldt, Charity N. Ndya-ndereya

G02
The impact of mobility in Brazilian Infocenters: AcessaSP case study  14
Brasilina Passarelli, Adriana de Araújo Guzzii, Alan César Belo Angeluci, Antonio Hélio Junqueira

G03
‘East versus West’: The descendants of Confucianism vs. evidence-based learning. Mainland Chinese learners in pursuit of Western-Based education in Singapore  23
Kumaran Rajaram

General Track 2 - Creative Teaching and Learning Models

G04
A multi-tiered framework of technological pedagogical change in schools: Cases of developing ICT champion communities  56
David James Woo

G05
Creating adaptive quests to support personalized learning experiences when learning software languages  66
Chris Boesch, Sandra Boesch

General Track 3 - Technology and Social Justice: Issues of Cyber-bullying

G06
Rasch Analysis of students' attitude towards social media and their intention to engage in cyberbullying behaviors  73
Quek Chin Joo

G07
Smartphones being implicitly used: How implicit knowledge affects the usage of a smartphone  74
Jon-Chao Hong, Ming-Yueh Hwang, Shueh Chen Huang, Kai-Hsin Tai
G08
Investigating the emergence themes of cyberbullying phenomenon: A grounded theory approach  81
Hanif Suhairi Abu Bakar

General Track 4 - Design Thinking & Practice: New Models Technology & Teachers

G09
Designing for collaborative learning spaces: An academic staff development pilot program  95
Roger Cook

G10
New media, new media literacy, new methods in education  104
Sandor Forgo

G11
What is the relationship between Learning Design and TPACK?  113
Chris Campbell, Eva Dobozy

General Track 5 - Games & Gamification in Education & Training

G12
‘Why can't we always learn like this?’ Games-based learning and the English language arts classroom: Lessons learned and practical applications  119
Hannah R. Gerber, Anthony Onwuegbuzie

G13
Learning through Augmented Reality: Mobile game application  120
Tan Siew Lan

G14
Modelling learning from Ingress (Google's Augmented Reality Social Game)  125
Lee Yik Sheng

General Track 6 - Distance Education and Online Environments

G15
Virtual and On-line classrooms of eLearning  133
Csaba Komlo, Lajos Kis-Toth
A Trend Analysis on Online Learning Communities  
Şahin Gökçearlsan

Online exam for Distance Educators using Moodle  
Ria Mae H. Borromeo

Is Online and Distance Learning a viable option for teacher education?  
Eva Dobozy

General Track - Social Learning and Media

The use of GOOGLESITES as a formative assessment Tool [EPortfolio] in Higher Education  
Huey Zher Ng, Raja Maznah Raja Hussain

General Track 7 - Social Learning and Media

Assessing adoption of Wikis in a Singapore Secondary School: using the UTAUT Model  
Chin Hwee Toh

Collaboration in online courses: Drawing Insights from the learners for effective course design  
Melinda Dela Pena-Bandalaria

"Studying Alone but not Studying Alone" - Isolated but connected in collaborative construction of knowledge  
Michelle Yeo Mei Ling

General Track 8 - Visualisation, Visual Media & Literacy

Visualization of Thermodynamic Behaviour of Na⁺ Cation and Cl⁻ Anion based on Quantum Calculation for Teaching Material  
Haruo Ogawa, Marijana Zgela, Akira Ikuo
G24
Thinking at a Glance - making thinking visible through technology  190
Keith Alexander Tan

G25
An investigation on how designing video advertisements influences Secondary School Students’ perception of learner autonomy  197
Wang Jieying Clara & Chai Siew Cheng Aileen

General Track 9 - Creative Teaching and Learning Models

G26
Perspective Transformation of instructors in pedagogical strategies: Achieving effective learning for new generation business students in Higher Education  213
Kumaran Rajaram

G27
The effects of Tablet-based learning on Pre-Service Teachers’ learning experiences at Chiang Mai University  224
Thanomporn Laohajaratsang

G28
Digital activities for creative arts and culture: Learning with experienced teachers  235
Fernando Albuquerque Costa, Carla Rodriguez

General Track 10 - Mobile Learning Applications

G29
Applying computer-based Mathematics testing on mobile tablets for Elementary Students  242
Mengping Tsuei

G30
The Project "One to One" and Teaching Practices in Brazil: a Case Study  249
Ronaldo Nunes Linhares, Maria José (Zé) Loureiro, Fernando Manuel Ramos
**General Track 11- Future of Higher Education**

**G31**
Looking at academic practice and complex technology based systems through a different lens: A better way for 21st century universities?  
Suzanne McNamara

**G32**
CG teaching materials based on Quantum Chemical Calculation for basic chemistry an approach to the electronic textbook of basic chemistry linking chemical experiments  
Akira Ikuo, Yusuke Yoshinaga, Haruo Ogawa

**G33**
Learning Ecologies: Informal professional development opportunities for teachers  
Albert Sangra, Mercedes González-Sanmamed, Montse Guitert

**General Track 12 - Professional Development and Teacher Education**

**G34**
Information and communication Digital Technologies and teacher formation in a constructionist, contextual and meaningful approach to generate an inclusive school  
Danielle Aparecida do Nascimento dos Santos, Elisa Tomoe Moriya Schlünzen, Klaus Schlünzen Junior

**G35**
Using the APOS to design computer dynamic activities for learning the linear function  
Chejen Hsieh, Chinq-jyh Li, Meng-Hsun Chen

**G36**
Educational applications of TouchPad technology in Higher Education in Hong Kong: Explorative case studies of University Teachers’ adoption of iPads  
Tianchong Wang, Daniel Churchill

**General Track 13 - Augmented Reality /Games & Gamification in Education & Training**

**G37**
Digital game playing habits of graphic design students and the factors affecting their game choices  
Armağan Gökçearslan
G38
Augmented Reality in education - cases, places and potentials
Matt Bower, Cathie Howe, Nerida Mccredie, Austin Robinson, David Grover

General Track 14 - Professional Development and Teacher Education

G39
Teachers as Game Designers: Using a game in formal learning in a Singapore Primary School  327
Richard Sanford

G40
Development of a Life-span reflection tool using an electronic blackboard and teaching portfolios  328
Takashi Ikuta, Yasushi Gotoh, Manami Ogino

G41
ICT as an education support system quantitative content analysis based on articles published in EMI  334
Tunde Lengyelne Molnar

G42
Online measurement of student engagement: Reflections on a CLASSE pilot in rural South Africa  343
Annette Wilkinson, Lana Swart

General Track 15 - Participative Learning: Students' Experience of Participative Learning

G43
Students’ experience of being assessed using technology integrated with evidence-centred design model  353
Choon Yee Chia

G44
The comprehension of Basic Mathematics among children with hearing impairment, using multimedia in accessible and non-accessible format- A comparative Study  367
Puneet Kumar Gupta, P. J. Mathew Martin
G45
Students' perceptions of a constructivist classroom: A collaborative learning approach 378
Fui Theng Leow, Mai Neo

G46
Explore the relationship of student engagement and personal characteristics in use of the instant response system in Higher Education 389
Yungwei Hao

General Track 16 - Design Thinking & Practice: Different Models of Blending

G47
E-learning content enhanced by active knowledge management techniques 395
Issa Shehabat, Mohammad Berrish

G48
Developing culturally-responsive lessons on the iPad for teaching English as second language to Chinese learners 403
Jennifer Aw-Yong, Neil Anderson, Philemon Chigeza

G49
Integrating project management into project-based learning: Mixing oil and water? 414
Cheng Chang (Sam) Pan

General Track 17 - Research and Evaluation Methods in Educational Technology

G50
On track for a Digital School 416
Fernando Albuquerque Costa, Carla Rodriguez, Elisabete Cruz, Nádia Gomes, Cátia Santos, Joana Viana Helena Peralta, Eloísa Branco, Sandra Fradão

G51
Integrating ICT into teaching and learning – Observations from an elementary level future school in Singapore 428
Lee Yong Tay, Shanthi Nair, Siew Khiaw Lim
General Track 18 - Professional Development, Teacher Education, and the Future of Higher Education

G52
The iTEACH implementation model: Adopting a best-fit approach to implementing ICT in schools. 436
Michael Choy

G53
Teachers’ attitudes towards a learning management system, MC online: An exploratory study in a Singapore secondary school 446
Siti Rashidah Binte Abdul Rahim

G54
Teacher education and miseducation: An experience from a community of English teacher educators in Brazil 464
Juliana Zeggio Martinez

G55
Using Constructivist learning strategies in figure courses 471
Selda Mant

General Track 19 - Participative Learning

G56
Creating personal learning environments to enhance learning engagement 479
Jie Lu, Daniel Churchill

G57
The study of integrating animation curriculum into exhibits in primary school 487
Koun-Tem Sun, Meng-Hsun Chen, Chun-Huang Wang, Chien-Chih Wang

General Track 20 - Professional Development and Teacher Education and the future of Higher Education

G58
Decoding learning in Law: Collaborative action towards the reshaping of university teaching and learning 497
Annette Wilkinson
Beyond the parameters of e-learning: In diverse learning environments Me-learning comes before We-Learning  
Deirdre E. Van Jaarsveldt

General Track 21 - Design Thinking and Practice: Sustainability

Keeping it “simple” for scalability, sustainability and transferability - A reflection of our journey in building and sustaining a future school  
Boon Cheng Lim, Lee Yong Tay

Collaborative learning in Japanese higher education: application of collaborative site to 3D world heritage creation project  
Mizuho Iinuma, Tagiru Nakamura, Hiroaki Chiyokura

The design maturity of online courses in light of marginal analysis: Is it good enough now?  
Pan Cheng Chang (Sam)

General Track 22 - Mobile Learning Application

A multidimensional approach to adopting iPads in medical education  
Bronwen Dalziel

Willingness of students to use tablets as a learning tool  
Timothy Joseph Perez Decano

A study on the academic uses of Facebook in vocational education  
Hanley Loo, Timothy Ong Chee Aik, Raymond Wee Keat Kheng & Lim See Yew

G66
Perception of students towards e-learning  548
Mohammad Rinaldi

G67
Utilization of e-learning at Universitas Siswa Bangsa International: Issues and challenges  552
M. Kom Witdono

General Track 24 - Game-based Learning and Gamification

G68
Online gaming as an educational experience: The adventures of an academic practitioner  558
Marj Horne

G69
Games for learning social dilemmas: From the viewpoint of enhancing knowledge, morality, and trust  564
Yuki Fukuyama, Yusuke Morita

G70
Online learning with games: The University of the Philippines Open University setting  572
Al Francis Librero

G71
Busy Missy  581
Chiew Hun Phang, Geok Mui Koh, Maw Tun Myat, Zhen Yuan Jennifer Bao

G72
Determining factors of affecting use of Moodle by using Technology Acceptance Model: A tale of University after an earthquake  583
Eylem Kilic
SPECIAL TRACKS

Special Track 1 - Games and Gamification in Education and Training

S01
Learning Singapore history in a virtual world  600
Linda Fang and Jasmine Tan with Shivan Subramaniam, and Michelle Ming Li Loi

Special Track 2 - ePortfolios

S02
Assessment strategies in e-portfolio: Overview and goal setting of the workshop  610
Tosh Yamamoto, Chiaki Iwasaki, Masahiro Funakawa,; Maki Okunuki

Special Track 3 - Distance Education and Online Environments

S03
Using video conferencing for international teaching: A case study linking the US to Central America  617
Donald Wise, Marie Destarac, Otto Benavides

Special Track 4 - Creative Teaching and Learning Models

S04
Maths@RV: A dual-component framework in designing one-to-one computing lessons in Mathematics  630
Lim Beng Jin Desmon, Low Kok Soon, Zhou Peng

Special Track 5 - Professional Development, Teacher Education and Lifelong Learning

S05
Web 2.0 and Higher Education: Its educational use in the university environment: Content creator vs. information consumer  643
Raúl Santiago, Otto Benavides, Fermín Navaridas, Manuel Serrano
Special Track 6 - Mobile Learning

S06 (Abstract)
Case study on use of location-based technology and rapid authoring tool to transform outdoor learning: Transforming outdoor learning with location-based technology and rapid authoring tool: Singapore experience  652
Png, Bee Hin

Special Track 7 - Educational Media Production and Distribution

S07
“Audiovision” for training teachers of Nigerian nomadic children  654
Jack Koumi

S08
Synchronous computer-mediated instruction: Video recording with Blackboard Collaborate  663
Sze-Kiu Yeung

S09
The sudden revival of educational video  672
Jon Baggaley

Special Track 8 - Creative Teaching and Learning Models

S10
An experiment on developing media for junior high school kids: Biogas  678
Thepparit Sinthamrongruk, Apichaya Gunhasuit, Thongchai Fongsamootr, Kongtat Thongpoon, Sumalee Sangamuang

Special Track 9 - Distance Education

S11
A cycle of online education ecstasy/agony: To MOOC or not to MOOC  691
Chih-Hsiung Tu, Marina McIsaac, Robert Doyle, Hakan Aydin, Ali Ekrem Ozkul
Special Track 11 - Future of Higher Education

S12
International organizations: Roadmap for collaboration 701
Richard Cornell, Pan Cheng Chang(Sam), Marina McIsaac, Chih-Hsiung Tu, Gautama Bachtiar

POSTERS

P01
Games-based Learning: Teachers’ perspectives and application of new literacy practice 711
Hannah Gerber, Anthony Onwuegbuzie, Debra Price, Melinda Miller

P02
Comparing educator with beginner educational skill by voice analyze 713
Keita Kobayash, Ryouta Saeke, Shingo Shiota, Syouta Wada, Hiroshi Onida, Katsuya Nagata

P03
Mobile application tools for learning and quiz based on Android 714
Li Dan Cheng, Xiao Cheng Wang

8TH INTERNATIONAL LAMS AND LEARNING DESIGN CONFERENCE

L01
Teacher design thinking: The design processes of expert school teachers 715
Sue Bennett

L02
Discipline differences in sharing learning designs 716
Leanne Cameron

L03
A deeper understanding of re-use 717
Sandra Wills
The evaluation of the de Bono LAMS sequences  718  
Eva Dobozý

Using learning response systems in higher education  719  
Chris Campbell

Diffusion of research ideas in learning design  720  
Emil Badilescu-Buga

A technical architecture for implementing apps in learning design systems  721  
James Dalziel

A framework for adaptive learning design in a multimodal learning environment  722  
Matt Bower

Part-time LAMS: Designing learning modules for NTU B.Eng. Part-time program  723  
Mohamad Ridwan Bin Othman

The relationship of critical digital literacy to the learning design conceptual map  724  
Simon Walker

INNOVATIONS IN TEACHING SEMINARS

Online methods and student preparation  725  
Roderick W. Bates

Experiences in the use of Interactive media in engineering education  726  
Jörg Uwe Schlüter
MOOCs: A diminution, evolution or revolution in university teaching?  727
Timothy John White, Low Hou Ran, Mohamad Ridwan Bin Othman, Roy Ng Jin Hou

Case-based approach to evolution through study of animal behavior  728
Ajai Vyas

e-learning initiatives at Taylor's University: To educate, we innovate  729
Lim Chee Leong

Beyond the classroom walls: Reinventing yourself, your class, and your teaching methods  730
Laurie Burruss
