

# **2014 Proceedings of the Twenty-Second Domestic Use of Energy**

**(DUE 2014)**

**Cape Town, South Africa  
1-2 April 2014**

**IEEE Catalog Number: CFP1450S-POD  
ISBN: 978-1-4799-4197-1**

# Table of Contents

---

Surname, Title Initial Co-Author <i>Paper Title</i>	Firm, City, Country	PgNo
---	---------------------	------

---

## Customer Needs

Adonis, Dr M Molosi, Ms M <i>Analysis of a Solar Photovoltaic and Wind Renewable Energy Demonstrator</i>	CPUT, Cape Town, South Africa	<b>B15</b>
Mare, M Annergan, Prof H <i>Customer Preferences for Improved Flame-based Cookstove Features in Two South African Study Areas</i>	Tshwane University of Technology, Pretoria, South Africa	<b>7</b>
Franks, Ms L Prasad, Ms G <i>Informal Electricity Re-Selling - Entrepreneurship or Exploitation?</i>	Energy Research Centre, University of Cape Town, South Africa	<b>15</b>

## Tariffs and Metering

De Smedt, G Adonis, M <i>Smart Meter for Renewable Energy Microgrid Island</i>	CPUT, Cape Town, South Africa	<b>23</b>
--	-------------------------------	-----------

## Domestic Appliances

Lloyd, Prof P <i>A Pilot Test of Ethanol Gel as a Paraffin Replacement in a Low-Income Urban Environment</i>	CPUT, Cape Town, South Africa	<b>31</b>
Zhang, Y <i>Key Differences of Performance Test Protocols for Household Biomass Cookstoves</i>	China Agricultural University, Beijing, China	<b>37</b>
Ibraimo, M Pemberton-Pigott, C; Annegarn, Prof H <i>Modelling of bottom-lit down-draft (blodd) Clean-Burning Coal stove</i>	University of Johannesburg, Johannesburg, South Africa	<b>47</b>
Masekamani, D Makonese, T; Annegarn, Prof H <i>Optimisation of Ventilation and Ignition Method for Reducing Emissions From Coal-Burning Imbaulas</i>	University of Johannesburg, Johannesburg, South Africa	<b>53</b>
Mathews, M Mathews, Prof EH <i>Optimising of a Domestic Paraffin Geyser for Rural Application</i>	North-West University, Pretoria, South Africa	<b>61</b>

## Energy Efficiency in the Home

<b>Kimemia, D</b> Annegarn, Prof H	University of Johannesburg, Pretoria, South Africa	
<b><i>Energy Access and Household Risk Transitions in South Africa</i></b>		<b>67</b>
<b>Solome, N</b> Okou, Prof R; Rugumayo, Dr A; Sebitosi Prof B	Makerere University, Kampala, Uganda	
<b><i>Exploring the Potential to Generate Household Cooking gas from Septic Tanks in Uganda: A case study</i></b>		<b>B#5</b>
<b>van Willigenburg, P</b> de Lange, T; Woudstra, J; Stockman, H	The Hague University of Applied Sciences, Delft, Netherlands	
<b><i>First Step to Full DC-Potential: Improving Energy Efficiency in Household Equipment</i></b>		<b>85</b>
<b>Makonese, T</b> Annegarn, Prof H; Forbes, Dr P; Mudau Ms L	University of Johannesburg, Johannesburg, South Africa	
<b><i>Monitoring of Polycyclic Aromatic Hydrocarbon (pah) Emissions from Real World Uses of Domestic Coal Braziers</i></b>		<b>93</b>
<b>Aerts, W; Willem, S</b> Haeseldonckx, D; van Willigenbrug, P; Woudtra, J; de Jonge, S	CORE cvba-so, Leuven, Belgium	
<b><i>Study and Simulation of DC Micro Grid Topologies in Caspoc</i></b>		<b>101</b>
<b>Reydams, H</b> Haeseldonckx, D; van Willigenbrug, P; Woudtra, J; De Jonge, S	GroepT, Diest, Belgium	
<b><i>The Development of a Proof of Concept for a Smart DC/DC Power Plug Based on USB Power Delivery</i></b>		<b>107</b>
<b>Lloyd, Prof P</b>	CPUT, Cape Town, South Africa	
<b><i>The Energy Profile of a Low-Income Urban Community</i></b>		<b>111</b>

## Electrification, mini grids & smart grids

<b>Heunis, Dr S</b> Dekenah, M	Enerweb (pty)LTD, Johannesburg, South Africa	
<b><i>A Load Profile Prediction Model for Residential Consumers in South Africa</i></b>		<b>119</b>
<b>Reckson, Ms S</b> Madhlopa, A	University of Cape Town, Cape Town, South Africa	
<b><i>Assessment of Perceived Characteristics of Solar Lamps in Khayelitsha</i></b>		<b>125</b>
<b>Booyesen, J</b> Sethlogo, L; Dekenah, M	Enerweb (Pty) LTD, Johannesburg, South Africa	
<b><i>Domestic Building Density Estimates for Network Planning</i></b>		<b>131</b>
<b>Heunis, Dr S</b> Dekenah, M	Enerweb (pty)LTD, Johannesburg, South Africa	
<b><i>Domestic Load Research Data Collection Using Open Data Kit</i></b>		<b>139</b>
<b>Szewczuk, S</b> von Gavel, S; Verhagen, P; Schreuder, M; Mamphweli, Dr S	CSIR, Pretoria, South Africa	
<b><i>Global Research Alliance (GRA) - Smart Sustainable Energy for Rural Community Development</i></b>		<b>145</b>

<b>Figlan, T</b> Sethlogo, L; Prinsloo, P; Dekenah, M <i>Implementation of a Remote Data Logging System</i>	Eskom Holdings SOC Ltd, Rosherville, South Africa	<b>153</b>
<b>Lawrence, V</b> Singh, N <i>Micro Grids and Their Impact on the Great Network</i>	Eskom Holdings SOC Ltd, Johannesburg, South Africa	<b>B#5</b>
<b>Ilupeju, S</b> Inambao, Dr F <i>Potentials of Small Hydro Power in South Africa: The Current Status and Investment Opportunities</i>	University of Kwa-Zulu Natal, Durban, South Africa	<b>167</b>
<b>Almaktoof, A</b> Atanda, R; Kahn, Prof T <i>Sizing and Evaluation of a Battery-less PV System-Driven Desalination with RO for Rural Areas – Case Study</i>	CPUT, Bellville, South Africa	<b>B#5</b>
<b>Mudziwepasi, S</b> <i>Towards the Exploration of Renewable Energy Technologies as an Alternative to Grid Extension for Rural Electrification in South Africa</i>	University of Fort Hare, Alice, South Africa	<b>181</b>

## **Renewable Energy (Solar,wind,hydro & bio)**

<b>Eloka-Eboka, A</b> Inambao, Dr F <i>Hybridisation of Feedstocks - A new Approach in Biodiesel Development: a Case of Moringa and Jatropha seed oils</i>	University of Kwa-Zulu Natal, Durban, South Africa	<b>189</b>
<b>Maharaj, S</b> Govender, P <i>A Prototype Thermo-Electric Cogeneration Unit</i>	Durban University of Technology, Durban, South Africa	<b>197</b>
<b>Matenda, M</b> Raji, Dr A; Fritz, Dr W <i>Applications of Solar Air Conditioning Assisted Systems in sub-Saharan Africa for residential buildings</i>	CPUT, Bellville, South Africa	<b>209</b>
<b>Martial, G</b> Kahn, Prof T <i>High Voltage Direct Current (HVDC) in Applications for Independent Power Providers</i>	CPUT, Bellville, South Africa	<b>215</b>
<b>Luta,D</b> Raji, Dr A; Fritz, Dr W <i>Simulation of Solar Absorption Cooling system for a Residential Building in South Africa</i>	CPUT, Bellville, South Africa	<b>219</b>
<b>Lukhwareni, T</b> Dobzhanskyi, O; Grows, R <i>Solar Power Pumping System for Domestic Appliances</i>	North-West University, Potchefstroom, South Africa	<b>223</b>

## **Smart Heating Technology**

<b>Tangwe, S</b>	Atlantic International University, Hawaii ,USA	
Simon, M		
<b><i>Empirical Models to Determine Electricity Demand Reduction in the South Africa Residential Sector by Retrofitting Geysers with Air Source Heat Pump</i></b>		<b>229</b>
<b>Malengret,Prof,</b>	University of Cape Town, Cape Town, South Africa	
<b><i>Using Thévenin Equivalents to Improve Electricity Delivery Efficiency in AC and DC Systems</i></b>		<b>237</b>
