# TABLE OF CONTENTS

## VOLUME 1

### SESSION 001 – PANEL: WM SYMPOSIA 2014 PLENARY SESSION

Achievements and Current Challenges for the Swedish Waste Management Program .......................................................... 1  
Christopher Eckerberg  
More Than Two Decades of Partnering for Improvement in Decommissioning, Environmental Remediation and Safety .................................................................................................................................................... 7  
John Leheu

### SESSION 002 – PANEL: HOT TOPICS IN US DOE ENVIRONMENTAL MANAGEMENT (EM)

Management and Leadership Excellence .................................................................................................................................................... 17  
Melody Bell  
Budget Update .................................................................................................................................................................................. 23  
Mark Gilbertson  
Performance Agreement Goal ................................................................................................................................................................... 28  
Jack Surash  
2014 Annual Performance Agreement .................................................................................................................................................. 32  
Matthew Moury  
Hot Topics in Waste Management ........................................................................................................................................................ 36  
Frank Marcinkowski  
FY 2013 Tank Waste Accomplishments ....................................................................................................................................... 40  
Kenneth Picha  
Office of Site Restoration ................................................................................................................................................................... 45  
Mark Gilbertson

### SESSION 003 – PAPERS/PANEL: MONDAY – FINLAND / SWEDEN FEATURED NATIONS: NATIONAL PROGRAM AND LOCAL VIEWS

The Division of Responsibilities between the State and Power Companies in the Management of Spent Fuel and Nuclear Waste in Sweden - 14593 ................................................................................................................................................................... 55  
Ingvar Persson  
Local Community Involvement - The Swedish Example - 14639 ................................................................................................................................................................... 65  
Jacob Spangenberg

### SESSION 005 – RECENT DEVELOPMENTS WITH HIGH LEVEL RADIOACTIVE WASTE GLASS

The Effect of Foaming and Silica Dissolution on Melter Feed Rheology during Conversion to Glass - 14473  
Jose Marcial, Pavel Hrma, Jaehun Chun, Michael Schweiger  
Incorporation of Noble Metals in High Level Waste Borosilicate Glass: Focus on Vitrification Process Developments - 14067  
Virginie Labe, Jean Francois Hollebecque, Philippe Gruber, Stéphane Lemonnier, Helene Nonnet, Eric Chauvin, Eric Boudot, Jean Paug  
Kinetics of Cold-Cap Reactions for Vitrification of Nuclear Waste Glass Based on Simultaneous Differential Scanning Calorimetry–Thermogravimetry (DSC-TGA) and Evolved Gas Analysis (EGA) - 14517  
Carmen Rodriguez, Jaehun Chun, David Pierce, Michael Schweiger, Pavel Hrma  
Characterizing a High-Level Waste Cold Cap via Elemental and Structural Configuration - 14185  
Derek Dixon, Pavel Hrma, Michael Schweiger

### SESSION 006 – PANEL: ESTABLISHING A ROBUST SAFETY CULTURE THROUGH HUMAN PERFORMANCE IMPROVEMENT

Establishing A Safety Culture Through Human Performance Improvement ................................................................................. 119  
Jim Schildknecht, Grover Hettel, John McDonald, Tony Umek, Mike Williams  
Establishing a Safety Culture Through Human Performance Improvement .................................................................................. 121  
Tony Umek  
Columbia: Changing Performance ........................................................................................................................................................ 127  
Grover Hettel  
Establishing a Safety Culture through Human Performance Improvement ..................................................................................... 135  
John McDonald
**SESSION 007 – WASTE CERTIFICATION, ACCEPTANCE AND DISPOSAL FOR LLW, ILW, MW, NORM AND TENORM**

- Development and Qualification of Steel Waste Container for ILW to be Disposed in Geological Repository - 14274
  - Arne Larsson, Tommy Hansson, Liselotte Ekström

- TENORM Waste Processing and Disposal of Filter Cake - 14371
  - Heath Downey, Alejandro Lopez

- Dose Rate Profile Surrounding a Waste Repository - 14281
  - Jenelle Parson, Alexander Brandl, Roman Koppitsch, Norbert Zoeger

**SESSION 008 – D&D OF NUCLEAR FACILITIES (NON-POWER GENERATING FACILITIES) – PART 1 OF 2**

- The D&D Program of GB1 Gaseous Diffusion Plant - 14452
  - Frederic Chambon, Jacques Bonnetaud, Philippe Seurat, Richard Vinoche, Serge Dumond

- Nuclear Aircraft Carrier Inactivation: Approach for Waste Management and Exposure Reduction - 14201
  - Irin Hall, Ashley Williams, Kimberly Grubb

- Actual Results of D&D in Uranium Refining and Conversion Plant - 14076
  - Norisuke Sagitue, Nobuo Takahashi, Yasuyuki Morimoto, Yoshio Tanaka

**SESSION 009 – ENVIRONMENTAL REMEDIATION PROGRESS TOWARD CLOSURE OF CONTAMINATED SITES**

- Success with Soil Vapor Extraction, 200-PW-1 Operable Unit, Hanford Site, Richland, WA - 14017
  - Mark Byrnes, Virginia Rohay, Sally Simmons, John Morse, Gregory Simion, Emerald Lasoja

- Improving Five-Year Reviews at Federal Facility Superfund Sites - 14288
  - Tish O'Connor, Jerry Dicerbo, Monica McEaddy

- Environmental Cleanup of the East Tennessee Technology Park - Year Two - A Status Report - 14060
  - Allen Schubert

- Russian Experience in Regulatory Supervision of the Uranium Mine and Milling Legacy Sites - 14242
  - Evgeny Metlyouev, Nataliya Shandala, Nadezhda Potyapun

**SESSION 010 – COMMUNICATING WITH REGULATORS ON RADIOACTIVE WASTE ISSUES**

- Path Forward to Support TSDF System Modifications and Remedial Activities When the Facility Permit is Being Drafted - 14462
  - Andrea Hopkins, Ellen Mattlin, Felix Miera, Eric Van Mason, Kelly Elshagghen

- Development and Implementation of Regulator Approved Sampling and Analysis and Quality Assurance Program Plans for Underground Radioactive Waste Tank Residuals Characterization at the Savannah River Site - 14412
  - Joseph Pavletich, Mark Mahoney

- Risk Evaluations Differ Depending upon Agency Performing Them: Implications for DOE - 14139
  - Joanna Burger, Michael Gochfeld, Charles Powers, David Kosson

**SESSION 011 – FROM COMMUNITY CLOSURE PERSPECTIVES TO WEB-BASED TOOLS FOR ER CLEANUP PROGRAMS**

- Stigma, Fear and Forgiveness: Perspectives on Environmental Legacy and Community Closure Following Remediation Projects - 14487
  - Robert Zelmer, Liliana Benitez, Brian Geidt, Heather Kleb, Annmar Talic

**SESSION 012 – ACCOMPLISHMENTS AND CHALLENGES AT THE DOE HANFORD SITE**

- DOE Dashboards Eliminate Redundancy, Improve Accuracy, and Speed Decision-Making - 14363
  - Jon Peshong, Marissa Renevitz, Brett Simpson

- Implementation of an Integrated Information Management System for the US DOE Hanford Tank Farms Project - 14224
  - Scott Joyner, Mark Knight, Richard Garrett

- D&D Knowledge Management Information Tool - 2014 - 14190
  - Himanshu Upadhyay, Leonel Lagos, Walter Quintino, Peggy Shaffner, John De Gregory

- DOE Hanford Network Upgrades and Disaster Recovery Exercise Support the Cleanup Mission Now and Into the Future - 14303
  - Todd Eckman, Ali Hertz, J. J. Lane
SESSION 013 – PAPERS/PANEL: FINLAND / SWEDEN FEATURED NATIONS: SITING STATUS AND ISSUES

How to Cope with Nuclear Power Plants and Final Disposal? ................................................................. 340b
Vesa Jalonen

ONKALO - From Concept to Reality - 14494 ..................................................................................341
Reijo Sundell, Posiva Oy, Timo Aksä

Site Selection and Licensing - Challenges in Building and Maintaining Trust over Many Years - 14482 ............350
Olle Olsson

Preparing for Implementation, Construction and Public Support - the Added Value Programme - 14508 ...................357
Erik Setzman

SESSION 014 – PAPERS/PANEL: FINLAND / SWEDEN FEATURED NATIONS: A LICENSING UPDATE

Regulatory Challenges in the Licensing of a Spent Nuclear Fuel Repository in Sweden - 14483 .............................................................367
Johan Anderberg

Transparency, Consent, and Democracy - 14640 ...................................................................................373
Carl Brakenhielm

Regulatory Review and Assessment of the 2012 Construction License Application for an SNF Disposal Facility at
Olkiluoto, Finland - 14243 .............................................................................................................385
Jussi Heinonen, Risto Paltemaa, Kai Hamäläinen

KYT2014 – Research Programme to Support Finnish Nuclear Waste Authorities - 14245 ..................................................393
Kari Baslaitinen, Kaisa-Leena Huuri, Jaana Avolahti

SESSION 015 – PANEL: WORLDWIDE REGULATORY CHALLENGES OF RADIOACTIVE LEGACY SITES –
IAEA WORKING FORUM – PART 1 OF 2

Select IAEA Activities for Uranium Production Legacy Sites .................................................................405
Russel Edge

International Working Forum for the Regulatory Supervision of Legacy Sites ..................................................417
Andrew Persinko

International Support to Regulatory Challenges Related to Legacy Sites in Tajikistan ....................................424
Ilkhon Mirtsaidov

DOE Office of Legacy Management: Contributions to and Benefits from its International Collaborations ..................448
David Shafer

SESSION 016 – PANEL: WORLDWIDE REGULATORY CHALLENGES OF RADIOACTIVE LEGACY SITE –
PROGRESS IN BI-LATERAL COOPERATION – PART 2 OF 2

Radiation Protection Regulation of the Nuclear Legacy: Progress in Bi-Lateral Cooperation between Federal
Medical Biological Agency and Norwegian Radiation Protection Authority .................................................455
Evgeny Metlyaev, Nataliya Shandala, Malgorzata K. Sneve

US EPA Superfund Remedial Program Collaboration with International Community on Radiation Sites Issues .........................................464
Stuart Walker

SESSION 017 – PANEL: HOT TOPICS IN US COMMERCIAL LLW MANAGEMENT

Hot Topics in Commercial LLW Management ..............................................................................................475
Renee Echols

Hot Topics in US Commercial LLW Management ....................................................................................484
Larry Camper

Quantifying the Phantom Four - Improving Accuracy in Reporting "H, "C, "Tc & "I ........................................................................498
Billy Cox

Low-Level Radioactive Waste Forum ........................................................................................................506
Rusty Lundberg

Hot Topics and Emerging Issues for the Texas Low-Level Radioactive Waste Disposal Compact Comission .................515
Leigh Ing

SESSION 018 – SELECTED KEY TOPICS IN US COMMERCIAL LLW MANAGEMENT

How Low Can You Go? - 14669 ..................................................................................................................529
Lisa Edwards

How Long is Too Long? - 14644 ..................................................................................................................538
David Esh, Christopher McKenney, Christopher Grossman
SESSION 019 – D&D OF NUCLEAR FACILITIES (NON-POWER GENERATING FACILITIES) – PART 2 OF 2

Operational Experience and Challenges Associated with Bulk Waste Retrievals from a Legacy Decommissioning Site - 14095 ................................................................. 559
Graham Buck

Removal of Radioactive Waste Tank and Drain Lines from the Whiteshell Laboratories Research and Development Laboratory Complex - 14341 ........................................................................ 569
Kevin Larsen, Len Rasmussen, Bill Cantliffe

The Decommissioning and Abandonment from Regulatory Oversight of Dalhousie University’s SLOWPOKE-2 Nuclear Research Reactor - 14170 ..................................................... 581
Robert Barker

The Design and Construction of a Modular, Transportable, Liquid Effluent Treatment Plant for Use in a NPP Undergoing Decommissioning - 14562 ........................................................................ 598
Ian Crabbie, Robert Keep

SESSION 020 – D&D OF NUCLEAR POWER PLANTS – GLOBAL EMERGING ISSUES AND STRATEGIES

HBPP Decommissioning .......................................................................................................................................................................................... 611
Loren Sharp

Global Emerging Issues and Strategies in D&D ........................................................................................................................................ 619
Jerry Ketis

D&D Upcoming Issues - Global Emerging Issues and Strategies ....................................................................................................... 622
Bruno Thomauske

Decommissioning Worldwide and NEA Activities ................................................................................................................................. 635
Claudio Pescatore, Ivo Trapputi

SESSION 021 – EMERGING TREATMENT TECHNOLOGIES FOR LLW, ILW, AND MIXED WASTE

Effect of Sulfate on Rhenium Partitioning during Melting of Low-Activity Waste Glass Feeds - 14116 ................................................. 655
Tongan Jin, Dong-Sang Kim, Michael Schweiger

From Non-Disposable, Treatment of Pyrophoric or Gas Forming Waste Forms for Disposal - 14155 .................................................. 669
Carl Osterberg, Maria Linaberg

The Innovative Plasma Tilting Furnace for Industrial Treatment of Radioactive Waste - 14420 .......................................................... 678
Jan Deckers

Contained Waste Processing System for UK Nuclear Facility - 14025 ................................................................................................. 687
Adam Harper

Innovative Treatment of Problematic (Orphan) and Other Organic Wastes: An Excellent Example of International Technology Transfer between the US and the UK - 14119 ................................................................. 697
Michael Conri-Ramsden, Mike Lodge, Nigel Brown, Laurie Judd, John Ritter, Christine Gelles, Douglas Tonkay, Ana Han, Rosa Elmetti, Richard Groudin, Tom Yarbrough

Evaluation of the Immobilization of Technetium by Incorporation into an Electroless Plated Ternary Alloy - 14179 .................................................. 714
Kevin Hagerty, Eric Tchemitcheff

Assessment of the Cast Stone Low-Temperature Waste Form Technology Coupled with Technetium Removal - 14379 ........................................ 722
Christopher Brown, Brian Rapko, Jeffrey Serne, Joseph Westsik, Alex Cuzzi, Kevin Fox, Daniel McCabe, Charles Nash, William Wilmarth

SESSION 022 – WORLDWIDE PERSPECTIVES OF RADIOACTIVE WASTE MANAGEMENT – CHALLENGES AND SOLUTIONS

The US DOE Office of Environmental Management International Program - 14460 ................................................................. 734
Rosa Elmetti, Ana Han, Jack Craig, Jay Roach

The Regulatory Framework for a United Arab Emirates Spent Fuel and Radioactive Waste Management Strategy - 14090 ................................................................. 749
Sana Bilal

Selecting Nuclear-Powered Submarines in Australia: Nuclear Waste Considerations - 14436 ................................................................. 755
James Voss, Stefan Simons, James Brown, Anthony Owen, Timothy Stone, Helen Cook, Roland Backhaus, Anthony Irwin

Economic Issues of Radwaste Management Law Implementation in Russian Federation - 14020 ................................................................. 761
Denis Fedorov, Dmytro Adamovitch

How Does The Waste Isolation Pilot Plant Benefit From International Cooperation? - 14088 ................................................................. 768
Abraham Van Luik, Roger Nelson, Tom Klein, Russell Patterson, Philip Thesen

French Radioactive Waste Management: a Sustainable Approach - 14507 ................................................................. 776
Henri Zaccai, Jean-Michel Gryggel, Jean-Michel Romary, Géraldine Ouzounian, Géraldine Benoit
Pathway to Arizona’s Nuclear Future - 14235 ................................. 789
John Van De Beuken, Al Melvin

SESSION 023 – PERSPECTIVES ON US REPOSITORY PROGRAMS – AFTER THE US BLUE RIBBON COMMISSION

Introspective Examination of the Issues Associated with the Nuclear Waste Disposal Confidence Situation - 14462 ............................. 797
Donald Vieth, Michael Voegele

Restart of the Yucca Mountain License Application Review Directed by the US Court of Appeals for the District of Columbia - 14645 ................................................................. 813
Michael Voegele, Darrell Lacy, Joseph Ziegler

Resuming Yucca Mountain Licensing in a Post-Blue Ribbon Commission World - 14560 ................................................................. 829
Rod McCullum, Paul Seidler

Nevada and New Mexico: Two Particularly Promising States for HLW Repositories - 14043 ................................................................. 842
Leif Eriksson, George Diels

SESSION 024 – PANEL: RISK REGULATIONS FOR RADIOACTIVE WASTE MANAGEMENT

Risk Informed Regulations for USDOE Radioactive Waste Management ........................................................................................................... 857
Linda Suttora, Frank Di Sanza, J. R. Stroble

SESSION 025 – PANEL: US DOE OFFICE OF LEGACY MANAGEMENT – A VISION

DOE Office of Legacy Management - A Brief History of Time ............................................................................................................................. 867
David Geiser

DOE Office of Legacy Management - Current Mission Goal 1 ................................................................................................................................. 874
Thomas Pauling

DOE Office of Legacy Management - Current Mission Goals 1-5 ............................................................................................................................. 877
Barbara McNeel-Lloyd, Thomas C. Pauling

Our Future Mission: What Will the Program Look Like in Ten Years? ............................................................................................................... 891
April Gil

Emerging Programmatic and Technical Issues and Opportunities ..................................................................................................................... 902
David Shafer

SESSION 026 – ENGAGING CITIZENS – LESSONS LEARNED FROM AROUND THE WORLD

Public Involvement and Participation in Site Selection for Spent Nuclear Waste in Sweden - 14460 ........................................................................ 913
Marie Berggren, Rolf Persson

VOLUME 2

Improving Credibility and Competence in Geological Disposal through International Co-Operation and Initiatives - 14499 ................................................................. 920
Carl Brakenhielm

Ethical Principles for the Management of High-Level Spent Nuclear Fuel (SNF) - 14152 ................................................................................................. 928
Laurel Boucher

A New Mindset in Terms of How the Nuclear Industry Engages the General Public - 14357 ................................................................................................. 942
Laurel Boucher

"CIGEO" Geological Disposal for HLW and ILW: A Technical Dialogue Between the Public Expert and Civil Society - 14106 ................................................................................................. 950
José Luís Da Silva, François Marsal

Site Selection for Canada’s National Repository for Used Nuclear Fuel - 14602 ................................................................................................. 957
Jo-Ann Facella

Update on the Radioactive Waste Position in the UK - 14105 ................................................................................................................................. 966
John Dalton

Mini Encyclopedia of Nuclear Energy – an Important Tool for Public Information - 14124 ................................................................................................. 978
Igor Jencic, Radko Istenic

SESSION 027 – WORLDWIDE MANAGEMENT OF SPENT AND DISUSED RADIOACTIVE SEALED SOURCES, HEU, AND ORPHAN RADIOACTIVE MATERIALS AND CONTROL

Looking Toward Sustainable Long-term Management of Disused Sealed Radioactive Sources - 14280 ................................................................................................. 986
Julia Whitworth, Juan Carlos Benitez-Navarro, Ulmas Friedrich, Kate Roughan

Experiences in the Field of Radioactive Materials Seizures in the Czech Republic - 14147 ................................................................................................. 997
Karel Svoboda, David Sr., Josef Mudra, Josef Podlaha
SESSION 028 – PERSPECTIVES ON THE DOE HANFORD HLW LEAKING TANK – AY-102

Discovery of the First Leaking Double-Shell Tank – Hanford Tank 241-AY-102 - 14222 ................................................................. 1068
Stephanie Harrington, Terry Sams

Double-Shell Tank Visual Inspection Changes Resulting from the Tank 241-AY-102 Primary Tank Leak - 14193 ............................ 1078
Crystal Girardot, Jason Engeman, Dennis Washenfelder, Jeremy Johnson

Tank 241-AY-102 Liner Corrosion Evaluation - 14191 .......................................................... 1091
Kayle Boomer, Dennis Washenfelder, Jeremy Johnson

Washington State Department of Ecology’s Evaluations of the 241-AY-102 Hanford’s First Leaking Double Shell Tank - 14342 .......................................................... 1115
Michelle Hendrixson

SESSION 029A – TRU HOT CELL OPERATIONS AND LESSONS LEARNED

Overcoming Challenges to Dispose of a Shielded Container at the Waste Isolation Pilot Plant - 14348 ................................................. 1131
Steve Koura, Russell Patterson, James Rhoades, Cynthia Rock, Daniel Pancake, Ed Gulbransen

Bridget Ams, Roger Nelson, Kerry Watson

Sodium Separation from Remote-Handled Transuranic Waste via Distillation - 14479 .......................................................... 1150
David Morgan, Chad W. Ross, Rodney Campbell

SESSION 029B – PANEL: DOE ACQUISITION & PROJECT MANAGEMENT – CONTRACTOR VS. FEDERAL BASELINE / BUILD WHAT WAS SOLD

Implementation of Contract/Project Alignment "Two Sides of the Coin" Success .......................................................... 1164
Kenneth Rueter

Procurement Management Peer Review Demonstrates Investment Worthiness .......................................................... 1167
Sandra Fairchild

US DOE Acquisition & Project Management - Contractor Vs. Federal Baseline/Build What Was Sold Contract Alignment at ETTP .......................................................... 1170
Matthew Marston

Two Sides of the Same Coin .......................................................... 1173
Jack Surash

Build/Sold – Expectation Requires Successful Project Delivery .......................................................... 1180
Kenneth Rueter

Keeping Projects and Contracts Aligned .......................................................... 1184
Christopher Honkomp

SESSION 030A – HLW POSTERS: PROCESSING, REGULATORY, AND SAFETY ASPECTS OF HLW STREAMS

Removal of Salt-Soluble Fission Products from the Metal Product of the Electrolytic Reduction Process - 14063 .......................................................... 1192
Iksoo Kim, Seung-Kook Park, Yun Dong Choi, Win Hyoung Cho, Jei-Kwon Moon

Estimating Residual Solids Volumes in Underground Storage Tanks - 14198 .......................................................... 1196
Jason Clark, S. Jason Worthy, Bruce Martin, John Tithey

Experimental Testing of Innovative High-Level-Waste Pipeline Unplugging Technologies - 14601 .......................................................... 1206
Dwayne McDaniel, Amer Awad, Tomas Prbic, Jairo Crespo, Seckin Gokaltun

Computational Fluid Dynamics Modeling of High Level Waste Plug Formation - 14359 .......................................................... 1221
Dwayne McDaniel, Romani Patel, Georgios Tachiev, Deanna Moya

Risk and Performance Analyses Supporting Closure of Waste Management Area C at the Hanford Site in Southeast Washington - 14226 .......................................................... 1230
Marcel Bergeron, Susan Eberlein, Chris Kemp, R. Douglas Hildebrand, Matthew Kozak, Sanil Mehta, Michael Connelly, Alaa Aly
Release Behavior of Radioactive Materials at a Boiling Accident of High Active Liquid Waste in Reprocessing Plants - 14079
Gunzo Uchiyama, Shinsuke Tashiro, Yuuki Amano, Hioki Amo, Yuichi Yamane, Jun Ishikawa

Black Cell Operations - UK National Nuclear Laboratory Experience - 14049
Steven Thomson

Using a Full Scale Support Rig to Enhance the Performance of the Waste Vitrification Plant at Sellafield - 14590
Julian Roe

SESSION 030B – HLW POSTERS: CHARACTERIZATION AND MODELING OF HLW

Experimental Comparison between High Purity Germanium and Scintillator Detectors for Determining Burnup, Cooling Time and Decay Heat of Used Nuclear Fuel - 14488
Peter Jansson, Sophie Grape, Henrik Liljenfeldt, Stephen J. Tobin

Solubility Validation from Boildown Data for Hanford Tank Liquids - 14445
Stephen Agnew, Robert Wilson, Gene Ramsey

Binary Pitzer Model Parameters for Predicting the Solubility of Key Electrolytes in Hanford Waste - 14215
Jacob Reynolds, Robert Carter, Kayla Pierson

Lize Stassen, Janine Suthiram, James Topkin

Transition of Oil and Gas Dynamic Simulation to Nuclear Applications Delivers Big Rewards - 14466
David Cuming

SESSION 030C – HLW POSTERS: REPOSITORY AND STORAGE ASPECTS OF HLW

High-level Waste Storage Project Utilizes Modified SNF Dry Storage Design - 14521
Cynthia Dayton, Heatherly Dukes, Mark Bellis, Lettie Chilson, Daniel Mees, Joseph Ebert, David Karasch

Stability of Silica Colloids Released from Injection Grout Silica Sol - 14130
Pirkko Hölttä, Jukka Lehto, Risto Harju

Interaction of Radionuclides and Colloids Released from Materials Related to the Disposal of SNF - 14273
Pirkko Hölttä, Sari Niemistöaho, Outi Elov, Risto Harju, Jukka Lehto

Integrity Study of Spent PWR Fuel Under the Dry Storage Condition - 14236
Jong Won Choi, Young-Chul Choi, Dong-Hak Kook

CH2M HILL Plateau Remediation Company
John Fulton

SESSION 034 – PANEL: EMERGING ISSUES THAT CHALLENGE TRADITIONAL CONTRACTOR ROLES - WORLDWIDE

Emerging Issues That Challenge Traditional Contractor Roles at Federal Sites
Dennis Carr

Intro - Emerging Issues that Challenge Traditional Contractor Roles
Kenneth Rueter

SESSION 035 – PANEL: INTERNATIONAL PANEL ON SAFETY CULTURE IN WASTE MANAGEMENT AND D&D

Safety Culture for “New” Nuclear Construction
Melinda D'Ouville

Safety Culture in the Context of Decommissioning - a Perspective from the Swedish Regulator
Simon Carroll

The Nuclear Regulatory Commission's Oversight of Safety Culture
Diane Sieracki

Dounreay's Perspective on Safety Culture during Site Decommissioning
Mark Rease

International Panel on Safety Culture in Waste Management and D&D
Julie Goeckner
SESSION 036 – FINLAND / SWEDEN FEATURED NATIONS – KBS-3 DISPOSAL METHOD TECHNOLOGY DEVELOPMENT

Repository Layout, Adaptation to the Site Characteristics and Input to the Safety Case - the Finnish Example - 1445
Heini Laine, Nario Marcou, Timo Saanio, Pirjo Hellä, Annika Haggos, Ismo Aaltonen

Going Underground for Testing and Demonstration: Challenge of Implementation of a Disposal System - 14546
Tiina Jalonen, Ismo Aaltonen, Timo Aikäs

Nordic Full-Scale Demonstrations of Tunnel Plugging Technologies for Repository Conditions - 14282
Erlina Holt, Johanna Hansen, Petri Koho, Marjatta Palma, Pär Grahn

Next Target Operating License: Challenges in Building Facilities for Spent Fuel Disposal - 14544
Erikki Palonen, Timo Aikäs

Resolved and Remaining Issues for KBS-3 – SKB’s Research, Development and Demonstration Programme 2013 - 14481
Olle Öslen, Karin Pers

Challenges in Developing the Basic Design of the KBS-3 System into a Qualified and Industrially Viable Operation - 14465
Johan Andersson, Tiina Jalonen

The International Peer Review under Aegis of the OECD/NEA, of SKB’s Post-closure Safety Case for a Spent Fuel Repository in Sweden - 14641
Claudio Pescatore

Äspö International - Role of the Äspö HRL as an International URL - 14501
Ann McCull, Torsten Eng

SESSION 037 – PROCESSING OF COMPLEX RADIOACTIVE HIGH LEVEL SALT WASTE

A Methodology for Monitoring Concentrations of Complex Waste Solutions - 14182
Daniel Griffin, Ronald W. Rousseau, Martha A. Grover, Yoshiki Kawajiri

Single Stage Contactor Testing of the Next Generation Solvent Blend - 14287
David Herman, Thomas P Peters, Mark Duignan, Michael Williams, Earl Brass, Anna Garrison, Edward Ketucky, Michael Poitier

Implementation of NGS in the MCU Process for Increased Removal of Cesium at SRS - 14266
Earl Brass, Celia Aponte, Edward Ketusky, Ann Garrison

SESSION 038 – SEPARATIONS FOR RECYCLE OF USED NUCLEAR FUEL

Tritium Behavior in Zircaloy Cladding from Used Light Water Reactor Fuel Rods - 14087
Sharon Robinson, Robert Rubin, Joseph Giaquinto

UNEX-T Solvent for Cs, Sr and Actinides Separation from PUREX Raffinate - 14154
Igor Smirnov

John Mason, Kevin Burke, Tom Jennings, Curtis Keener, Katherine Mejias, Barry Scott, Antony Towner, Graeme Wood

SESSION 039 – TANK WASTE STORAGE AND RETRIEVAL OF HLW

Evaluation of Hanford Single-Shell Waste Tanks Suspected of Water Intrusion - 14196
Amie Feero, Dennis Washenfelder, Jeremy Johnson, John Schofield

Deep Sludge Gas Release Event Analytical Evaluation - 14225
Terry Sans

Overview of Hanford Single-Shell Tank (SST) Structural Integrity - 14203
Rick Rast, Dennis Washenfelder, Jeremy Johnson

Evaluating Feed Delivery Performance in Sealed Double Shell Tanks - 14070
Kearn Lee, Mike Thien

Evaluation of Sludge Heel Dissolution Efficiency with Oxalic Acid Cleaning at Savannah River Site - 14205
Christie Sudduth, Jason Vitali, Mark Keefer

Demonstrating Reliable High Level Waste Slurry Sampling Techniques to Support Hanford Waste Processing - 14194
Steven Kelly

Development and Deployment of the Extended Reach Sluicing System (ERSS) for Retrieval of Hanford Single Shell Tank Waste - 14206
Roger Bauer, Reed Figley, Alex Innes

A New Adsorbent for Simultaneous Removal of Cesium and Strontium - 14110

SESSION 047 – NPP POSTERS: MANAGEMENT OF NUCLEAR POWER PLANT (NPP) WASTE

The Influence of Calcium Ions on Migration of Colloidal Silicic Acid in the Presence of Solid Phase - 14123

Hydrogeologic Simulations of a Deep Seated Groundwater System: Bruce Nuclear Site - 14484

In-situ Experiments for Investigating the Retention Properties of Rock Matrix in ONKALO, Olkiluoto, Finland - 14258

Permeability and Dispersion Coefficients in Rocks with Fracture Network - 14156

Analysis of Pore Structure Effects on Diffusive Reactive Transport in Bentonite via Pore Network Models - 14068

Web-Based Geographic Information System Tool for Accessing Hanford Site Environmental Data - 14447

Building the Community of Practice for Performance and Risk Assessment in Support of Risk-Informed Environmental Management Decisions - 14575

SESSION 044 – PANEL: GRADUATING STUDENTS AND NEW ENGINEERS – WANTS AND NEEDS – ARE COMPANIES EVEN LISTENING?

Graduating Students and New Engineers Wants and Needs - 2026

Attracting and Engaging Young Nuclear Professionals - 2035

Regional Center for Nuclear Education & Training - 2045

Graduating Students and New Engineers Wants and Needs - 2057

SESSION 045 – PANEL: YOUNG PROFESSIONALS IN NUCLEAR SCIENCE AND ENGINEERING

North American Young Generation in Nuclear - 2074

Young Professionals in Nuclear Science & Engineering - 2080

SESSION 046A – LLW POSTERS: SAMPLING AND TREATMENT OF LLW, ILW, AND MIXED WASTE

Novel Inorganic Complexes for Te Management in the Tank Waste - 14345

Prospects on Immobilization of Liquid Organic Radwaste with the Use of High Technology Polymers - 14065

Waste Processing Using WCATS with Its Underlying Task-Based Architecture - 14662

SESSION 046B – LLW POSTERS: MANAGEMENT OF LLW, ILW, MW, NORM AND TENORM

The Expanded Capabilities of the Cementitious Barriers Partnership Software Toolbox Version 2.0 - 14331

Waste Information Management System with 2013-14 Waste Streams - 14192

Permeability and Dispersion Coefficients in Rocks with Fracture Network - 14156

In-situ Experiments for Investigating the Retention Properties of Rock Matrix in ONKALO, Olkiluoto, Finland - 14258

SESSION 047 – NPP POSTERS: MANAGEMENT OF NUCLEAR POWER PLANT (NPP) WASTE

A New Adsorbent for Simultaneous Removal of Cesium and Strontium - 14110
Separation of Radiocobalt and Radionickel from NPP Evaporation Concentrates - 14395
Risto Koivula, Risto Harjula, Maria Kaipiainen

Test Works of Treatment of Problematic Evaporator Concentrate from Kola NPP - 14081
Alexander Savkin

SESSION 048 – P&T POSTERS: EMERGING PACKAGING AND TRANSPORTATION ISSUES

Experimental Investigation of RAM Packages Impact Limiters - 14256
Andre Masuolf, Thomas Quercetti, Bernhard Droste, Karsten Müller, Klaus-Peter Gruender

Methodology and Experiences of Experimental Drop and Fire Testing of Radioactive Waste Containers for Final Disposal - 14478
Thomas Quercetti, Karsten Müller, Bernhard Droste, Holger Vilāžek, Uwe Zencker, Günter Wieser, Tino Neumeyer

Development of a Wood Material Model for Impact Limiters of Transport Packages - 14111
Germar Eisenacher, Frank Wille, Bernhard Droste, Martin Steuermann

Potential Impact of Interfacial Bonding Efficiency on Used Nuclear Fuel Vibration Integrity during Normal Transportation - 14502
Jy-An Wang, Hao Jiang, Hong Wang

SESSION 049 – TUESDAY US DOE FEATURED SITE: HANFORD – OFFICE OF RIVER PROTECTION – PART 2 OF 2

Protecting the Columbia River: The Office of River Protection Mission
Kevin Smith

Waste Treatment and Immobilization Plant Project
William Hamal

Tank Farms Project
Thomas Fletcher

Hanford Tank Operations Contract
Dave Olson

SESSION 050 – FINLAND / SWEDEN FEATURED NATIONS: NPP D&D AND WASTE DISPOSITION

Decommissioning and Disposal of the Decommissioning Waste at the Site of the Loviisa Nuclear Power Plant - 14254
Matti Kaisanlahti

On-Site Disposal of Radioactive Waste as a Part of Finnish Radioactive Waste Management System - 14547
Jari Taunanen, Pekka Viitanen

Assessment of Radioactivity Inventory in Swedish LWRs at time of Decommissioning - 14279
Arne Larsson, Klas Lundgren

Detailed Decommissioning Plans for the Oskarshamn and Forsmark Nuclear Power Plants in Sweden - 14008
Niklas Bergh, Gunnar Hedin, Fredrik De La Gardie

Reactor Internals Segmentation Experience in the Nordic Region - 14267
Per Segerud, Stefan Fallstrom, Lennart Nilsson

RPV In-Situ Segmentation Combined with Off-Site Treatment for Volume Reduction and Recycling - 14286
Per Lidar, Arne Larsson, Per Segerud, Gunnar Hedin

Planning for the Dismantling of the Barsebäck NPP - 14558
Håkan Lorentz

Disposal of LLW/ILW: The Extension of the SFR-Repository for Handling and Disposal of Decommissioning Waste - 14489
Börje Torstenfelt, Peter Larsson, Fredrik Vahlund

SESSION 051 – PANEL: US DOE – ENERGY FACILITY CONTRACTORS GROUP’S KNOWLEDGE PORTAL (EFCOG) REVIEW

Working Together: More Than 20 Years of Sharing Best-in-DOE Solutions and Lessons Learned to Meet Mission
Susan Stiger

ISMS Safety Culture Improvement Initiative
John McDonald

Work Planning and Control Initiative
Donna Governor

New Radiological Waste Requirements and Transportation Release Issues Initiative
Sonny Goldston

Acquisition/Contracting/Training Initiatives
Joseph Yanek
Key Issues/Actions in Implementing DOE 413.3B ................................................................. 2411
Paul Henry

SESSION 052A – PANEL: ADDRESSING THE SMALL BUSINESS BARRIERS IN CONTRACTING WITH THE US DOE

Environmental Management Small Business Program ............................................................. 2418
Jack Surash
Department of Energy's Small Business Program - Overview .................................................... 2423
John Hale

SESSION 053 – PANEL: US NUCLEAR POWER PLANT WASTE MANAGEMENT – LLW DISPOSAL ISSUES

WCS WM2014 Update .................................................................................................................. 2430
Dan Burns
LLRW Clive Disposal Update ........................................................................................................ 2440
James Miller

SESSION 054 – PANEL: US NUCLEAR POWER PLANT WASTE MANAGEMENT – LLW PROCESSOR ISSUES

Solutions for the Nuclear Industry ............................................................................................... 2452
Scott Eckler
Perma-Fix Environmental Services, Inc. (Perma-Fix) .................................................................. 2467
John Hagan

SESSION 055 – EFFICIENCIES AND LESSONS LEARNED IN TRANSPORTATION

Optimizing a National Transportation Program for Efficiency and Effectiveness - 14187 ................................................................. 2486
Stephen O'Connor, Ella McNeil
Operating Experience and Lessons Learned in the Use of Soft-Sided Packaging for Transportation and Disposal of Low Activity Radioactive Waste - 14112 ........................................................................................................ 2495
Ashok Kapoor, Sydney Gordon, Sonny Goldston

SESSION 056 – PANEL: CHALLENGES IN MANUFACTURING OF RADIOACTIVE MATERIAL PACKAGES AND CONTAINERS

Challenges in Manufacturing of Radioactive Materials Packages and Containers .................. 2514
Mike Lewis
Skolnik Industries WMS Presentation 2014 ................................................................................. 2520
Howard Skolnik, W. Dean Ricker

SESSION 057 – PANEL: PROGRESS IN DEALING WITH THE WORLD'S STOCKPILE OF USED NUCLEAR FUEL – HOW CAN CONSOLIDATED INTERIM STORAGE AND REPROCESSING HELP?

Progress in Dealing with the World's Stockpile of Used Nuclear Fuel - How Can Consolidated Interim Storage and Reprocessing Help? .................................................................................................................. 2528
Frederic Bailly
The Case for Interim Storage Remains Valid Today ..................................................................... 2537
Jeff Williams
Waste Confidence - Status Update ............................................................................................... 2541
Keith McConnell
How Government Policy on Spent Fuel Management is Being Implemented in the UK ........... 2545
Graham Jonsson
Progress in Dealing with the World’s Stockpile of Used Nuclear Fuel - How Can Consolidated Interim Storage and Reprocessing Help? - The German Case ........................................................................ 2552
Horst Geckeis
Progress in Dealing with World’s Stockpile of UNF .................................................................... 2557
Chris Phillips

SESSION 058 – GEOLOGIC DISPOSAL METHODOLOGIES AND MODELING

A Decision Methodology for Prioritizing R&D Supporting Geologic Disposal of SNF/HLW in Salt - 14030 .................................................................................................................. 2564
S. David Sevougian, Robert Mackinnon
### SESSION 059 – STABILIZATION / IMMOBILIZATION OF HLW, SNF/UNF AND LONG-LIVED ALPHA / TRU

SESSION 062 – WASTE OPTIMIZATION / MINIMIZATION AND HARMONIZATION D&D

Turning the Surface Contamination Object (SCO) Process into a Production Operation for the Remediation of the TRU Waste as Part of the Los Alamos National Laboratory (LANL) 3,706 m³ Campaign - 14115
Deborah Williams, Miles Smith, Leah Lavallée, Edith Wilson, Michael J. Romero, David Nickless, Lee Bishop

Waste Offsetting: The Commodification of Low-Level Radioactive Waste (LLW) - 14220
Andrew Stewart

Operation of a Waste Management Area during Decommissioning - 14327
Jason Martino, Dwanye Onagi

Development of Decommissioning Strategy for Humboldt Bay Power Plant - 14527
John Krsiaković, Robert Cronin, Kerry Rod, Steven Shelanskey

Cesium And Strontium Removal With Highly Selective Ion Exchange Media In Fukushima And Cesium Removal With Less Selective Media - 14018
Esko Tasa

Characterization and Thermal Treatment of Carbon-14 on Irradiated Graphite Surfaces III - 14204
Mary Lou Dunzik-Gougar, James Cleaver, Daniel Lubrié, Tara Smith, Kathy Nelson, Shilo McCrory

Enhanced Recovery Of Radionuclides From Irradiated Graphite by Sulfuric Acid-Graphite Intercalation and Leaching - 14551
Jacques Boneso, Gabriel Rodríguez Chiti, Abdessalem Abdesloua, Emmanuel Costa

SESSION 063 – INNOVATIVE FIELD MONITORING FOR ENVIRONMENTAL REMEDIATION

Innovative Field Monitoring: Legacy Successes and the Future of Long-term Monitoring - 14571
Jeff Myer, Dean Hoffman, Michael Boerste

US EPA Superfund Counts Per Minute (CPM) Electronic Calculator - 14336
Stuart Walker

Radiological Assessment for the Removal of Legacy BPA Power Lines/ Components that Cross the Hanford Site - 14039
James Conca, Joe Sears, Larry Lockrem

Data Integration with Geospatial Visualization Tools at the Hanford Site - 14369
Jon Peschong, Marisa Renezvitz, Brett Simpson

High Performance 3D Geophysical Imaging and 4D Time-Lapse Monitoring of Subsurface Contamination and Associated Processes at the Hanford Site - 14362
Tim Johnson, Dawn Wellman, John Zachara, Michael Truex, Chris Strickland, Jon Thomle, R. Douglas Hildebrand, Dale Rucker, Roelf Versteeg

A Technology for Real-Time Monitoring of VOCs Emanating from the Hanford Tank Farms - 14360
James Conca, Joe Sears, Larry Lockrem

Improved Three-Dimensional Resistivity Data Acquisition Capabilities at the Hanford Site - 14146
Danne Glaser, Susan Eberlein, Marc Levitt, Nigel Crook, Michael McNeill, R. Douglas Hildebrand

MARSAME Applications at Humboldt Bay Power Plant - 14529
John Albers, Marty Erickson, William Bailey

SESSION 064 – DEEP VADOSE ZONE CHARACTERIZATION AND REMEDIATION TECHNOLOGIES

Radionuclide Containment Properties of Fractured and Faulted Volcanic Tuff Units at the T-Tunnel Complex, Rainier Mesa, Nevada National Security Site - 14033
William Milby, Daniel J. Brush

Flux-Based Evaluation of Perched-Water in the Deep Vadose Zone at the Hanford Site - 14051
Michael Truex, Mart Oostrom

The Effect of Ca Ions on the Removal of U(VI) via In-Situ Ammonia Gas Injection at the Hanford Site 200 Area - 14434
Yelena Katsenovich, Claudia Cardona, Leonel Lagos

Modeling of Electrical Resistivity Data in the Presence of Electrically Conductive Well Casings and Waste Storage Tanks - 14409
Tim Johnson, Mark Triplett, Dawn Wellman

SESSION 065A – ER POSTERS: ENVIRONMENTAL REMEDIATION AT THE US DOE HANFORD SITE

Technical Basis for Contaminated Pore-Water Extraction from the Vadose Zone - 14052
Michael Truex, Mart Oostrom

A Comparison of Toxicology Studies of Vulnerability of Early Life Stages of Salmon to Hexavalent Chromium at Hanford - 14140
Joanna Burger, Michael Gochfeld

High-Resolution Spectral Gamma Logging for Characterization of Radiological Contaminant Plumes in the Deep Vadose Zone - 14538
Rick McCain, Paul Hemwood, Arron Pope
SESSION 065B – ER POSTERS: STRATEGIES FOR ENVIRONMENTAL REMEDIATION

Plateau Remediation Company – Going Green with an Automated Procedure System - 14611 .................................................................3078
  Sara Austin, Ron Nelson, Kathy Hibbs, Adrija Johnson

Four Pillars of Successful Cross-Agency Partnering for Environmental Remediation - 14349 .................................................................3084
  Laurel Boucher

SESSION 065C – ER POSTERS: RADIOLOGICAL AND ANALYTICAL EMERGING ISSUES

Change of Radioesium Concentration in Trees Leaves: Two Years’ Observation Following the Fukushima Daiichi Nuclear Power Plant Accident - 14150 .................................................................3096
  Shigeo Uchida, Keiko Tagami

The Auxiliary Radiation Detection System for Monitoring Radiation Level of the Spent Fuel Pool - 14157 .................................................................3102
  Chan Hee Park, Joo Hyun Moon, Binah Kim, Arim Lee

Fast Analysis of Chlorinated Phenoxy Herbicides in Environmental Samples by Negative ESI LC-MS/MS - 14337 .................................................................3110
  Wenjun Han, Benjamin Hicks, Elaine Wild

Inorganic Sorbents for Iodine Removal from Subsurface Plumes - 14347 .................................................................3119
  Tatiana Levitskaia, Syandev Chatterjee, James Peterson, Emily Campbell

Concentration Ratios of Radioesium from Soil to Wild Boar Observed in Fukushima Prefecture - 14151 .................................................................3129
  Keiko Tagami, Shigeo Uchida

SESSION 066 – CE&T POSTERS: COMMUNICATIONS, EDUCATION AND TRAINING ISSUES

Accessing, Integrating and Using Existing Data to Make Critical Nuclear and Hazardous Waste Management Cleanup Decisions - 14319 .................................................................3136
  Jon Peschong, Brett Simpson

US EPA Superfund Radiation Risk Assessment: A Community Toolkit - 14338 .................................................................3142
  Stuart Walker, Dain Thorpe, Melissa Greer Dreyfus

SESSION 067 – ST POSTERS: SPECIAL TOPICS (ST) AND WM TRACK CROSS CUTTING TECHNOLOGY TOPICS

Weld Repair of a Stamped Pressure Vessel in a Radiologically Controlled Zone - 14006 .................................................................3150
  Gary Cannell, Jeff Huth, Randy Hallum

The Effective Elastic Coefficients of Porous Media with Simple Pore Geometries - 14239 .................................................................3158
  Cheo Kyung Lee

Estimation of Permeability Changes Due to Contact with Highly Alkaline Ca-Rich Solution by Micro Flow-Cell of Granite Chip - 14094 .................................................................3171
  Daiki Kurata, Taiji Chida, Yuichi Niibori, Hitoshi Mimura

Critical Dose of Internal Organs Internal Exposure - 14332 .................................................................3180
  Gagik Grigoryan, Narek Grigoryan, Armen Amirjanyan

Air Sample Conditioner Helps the Waste Treatment Plant Meet Emissions Standards - 14646 .................................................................3192
  John Glessmeyer, Julia Flaherty, Mikhail Pekour

SESSION 068 – PANEL: US DOE PROCUREMENT AND CONTRACTING OPPORTUNITIES

Environmental Management Procurement Update .................................................................3206
  Jack Surash

US DOE Procurement and Contracting Opportunities .................................................................3208
  Dave Hess

Upcoming Contract Opportunities .........................................................................................3215
  Christopher Honkomp

SESSION 069 – PANEL: SMALL BUSINESS PROCUREMENT AND CONTRACTING OPPORTUNITIES WITH DOE AND DOE PRIME CONTRACTORS

Small Business Procurement and Contracting Opportunities with DOE and DOE Prime Contractors .................................................................3226
  Dave Hess

URS - Small Business and Supplier Diversity Program .................................................................3240
  Sam Arisz

Small Business Procurement and Contracting Opportunities with US DOE Prime Contractors .................................................................3256
  William Badger

Small Business Contracting Opportunities ................................................................................3265
  Joseph Yanek

Partnering with Small Business WM 14 Symposia ................................................................................3275
  Chuck Bernhard
SESSION 070A – INTERNATIONAL DEEP REPOSITORY PROGRESS – PART 1 OF 3

A Big Progress at High Level Radioactive Wastes Disposal in China: From Follow Suit to Science Driven - 14064
Chun Li

Bernt Haverkamp, Wolfgang Filbert, Philipp Herold, Gerald Nieder-Westermann, Philippe Van Marecke

The Implementing Geological Disposal of Radioactive Waste Technology Platform (IGD-TP) - Main Achievements to Date and Way Forward - 14078
Jacques Delay, Philippe Lalieux, Raymond Kowe

SESSION 070B – PANEL: INTERNATIONAL DEEP REPOSITORY PROGRESS – PART 2 OF 3

WIPP Status and Plans – 2014
Roger Nelson, Jose Franco

International Deep Repository Progress - The German Case
Horst Geckels

SESSION 071 – PAPERS/PANEL: IAEA INTERNATIONAL DECOMMISSIONING NETWORK: MAXIMIZING THE BENEFITS OF COLLABORATION AND SHARING OF EXPERIENCE

Risk Management on Strategic and Operational Level during Decommissioning – First Outcomes of the DRiMa Project at IAEA - 14467
Patrick O'Sullivan, Vladan Ljubenov, Joerg Kaulard, Patrice Francois, Mark Pennington, Kristian Schruder, Sasa Medakovic

Risk Management in the Execution of Decommissioning Programs: A Comparison Of International Approaches - 14535
Kristian Schruder, Mark Pennington

Identifying and Managing Risks during Decommissioning of Jose Cabrera NPP - 14649
Manuel Rodriguez Silva

In Situ Decommissioning Project Risk Management - 14596
Maria Elena Crespo, Charles Negin

SESSION 072 – PANEL: 10 CFR PART 61.55 WASTE CLASSIFICATION SCHEME: IS IT STATE OF THE ART OR ARE ANY CHANGES WARRENTED?

10 CFR Part 61.55 Waste Classification
Christopher McKensney

USDOE Regulatory Approach - Low Level Waste Classification
Mark Gilbertson

NRC Waste Classification Table Analysis
Lisa Edwards

Impact of ICRP 60/72 Dose Conversion Factors
William Dornsife

Waste Classification - Utah Perspective
Rusty Lundberg

10 CFR Part 61.55 Waste Classification Scheme
Thomas Magette

SESSION 073 – PANEL: US DOE MIXED WASTE: ADDRESSING PROPOSALS FOR DEALING WITH PROBLEMATIC WASTE STREAMS AND POLICY CHANGES AFFECTING WASTE DISPOSITION

Prioritizing And Waste Management At - Advanced Mixed Waste Treatment Project
Michael Auble

Problematic Mixed Waste from SRS Legacy TRU Program
John Gilmour

Getting More Done With Less
Kenneth Grumski

Mixed Low-Level Radioactive Waste (MLLW) Disposal at the Nevada National Security Site (NNSS)
Scott Wade

Transition in LANL Mixed Waste Management Process
Steven Singledecker
The Disposition of Former “No Path to Disposal” Wastes
Scott Anderson

SESSION 074 – REGULATORY AND PROGRAMMATIC ISSUES AND SOLUTION FOR LLW, ILW, MW,
NORM, TENORM & DEPLETED URANIUM

An Evaluation of the 2007 Strategic Assessment of the US NRC’s Low-Level Waste Regulatory Program - 14433
Janelle Jessie, Melanie Wong, James Kennedy

Adaptive Management Facilitates Remedial Decision-Making in the Face of Uncertainty - 14171
Sidney Garland, Lynn Sims, Mark Peterson

Understanding and Managing the Radiological Issues Associated with the Hydraulic Fracturing for Oil and Gas - 14600
Alejandro Lopez

Technical Design of the National Disposal Facility at Radiana in Bulgaria - 14291
Thilo Von Berlepsch, Enrique Biurrun, Emiliano Gonzalez Herranz

Recovery and Recycling of Aluminum, Copper, and Precious Metals from Dismantled Weapon Components - 14176
Dwight Stockham, Leroy Duran

Estimation of the Probability of Human Disturbance Using GIS - 14446
Allen Gross, David Esh

SESSION 075 – GEOLOGICAL DISPOSAL PHENOMENOLOGY AND R&D

Long-Term Behaviour of Salt Concrete – a Material for Engineered Barriers in Final Repositories in Salt Formations – Development of Reactive Transport Models for Matrix Corrosion and Corrosion on Cracks - 14177
Horst-Jürgen Herbert

The Salt Defense Disposal Investigations (SDDI): Current Status and Future Plans - 14486
Bruce Robinson, Douglas Weaver, Philip Stauffer, Nancy Buschman, Roger Nelson

Flume Testing of Surrogate Waste Materials Leading to a Recommendation for the Lower Limit for TAUFAIL - 14172
Courtnay Herrick, Michael Schuhlen

Assessment of Bentonite Characteristics in KBS3 Method - 14344
Markus Olin, Kari Rasilainen, Leena Korkiala-Tanttu, Mia Tillander, Pirko Hiltunen, Riina Serimaa, Markku Kataja, Mika Laitinen

The Feasibility of Using the KBS-3 Technology for Disposal of US Department of Energy's Used Nuclear Fuel - 14438
Claes Lindberg, Hans Fossström, Peter Wältke, Hitesh Nigam

EPA’s Confirmatory PA Analysis of DOE’s Proposed Run-Of-Mine Salt Panel Closure System for the WIPP - 14058
William Nutt, Travis Mui

SESSION 076 – TRU WASTE OPTIMIZATION AND PROGRESS

The National Transuranic (TRU) Program - 14069
J. R. Stroble

Minimization of Risk and Cost Associated with Transuranic Mixed-Waste Characterization - 14143
Karen Day, Eric D’Amico, Robert Kehrman, Rick Chavez, George Basabilvazo

Beverly Crawford, Kapil Goyal, Betty Humphrey, Thomas Krause, Jeff Gluth, Tom Morgan

Key Factors in Successful Execution of the LANL 3,706 m³ TRU Waste Campaign - 14086
Kathryn Johns-Hughes, James Steve Clemmons, Daniel Cox, Kenneth Hargis, David Nickless

Newly-Generated, Remote-Handled TRU Characterization and Certification at Sandia National Laboratories/New Mexico (SAND # 2013-6707C) - 14199
Betty Humphrey, Michael Sporner, Warren Strong, Randell Salver, Richard Aguilar, Todd Erenstein

ISOCS Waste Measurement Applications at the Oak Ridge National Laboratory - 14138
Joseph Wachter, Kevin Meyer, Sean Stanfield, Robert Coo

VOLUME 5

Nuclear Footprint Reduction at Argonne National Laboratory - Out with the Old (Material), In with the New (Mission) - 14665
Daniel Pancake, Cynthia Rock, Dale Dietzel, Andrew Gabel
SESSION 077 – AN UPDATE ON THE FUKUSHIMA RECOVERY PROJECT & ITS GLOBAL IMPACT

Effects of Fukushima on Global Nuclear Development - 14621 ................................................................. 3699
Charles McCormick

Impermeable Graphite Matrix IGM for the Conditioning of Spent Absorbers at Fukushima - 14186 .............. 3708
Georg Briechler, Karl-Heinz Grosse, Walter Mueller, Eric Marsai, Johannes Fachinger

Development of a Reactive Transport Model for the Optimization of Ion Specific Media Used at the Fukushima Dai-ichi Nuclear Power Plant - 14579 ............................................................... 3717
Joshua Mertz, Mark Denton, Brian Powell, Lawrence Murdoch

Frozen Soil Barrier Technology – Facts, The Oak Ridge National Laboratory Barrier - 14554 ......................... 3727
Elizabeth Phillips, Edward Yarmak

Severe Accident Management Hierarchy and Resilience Architecture Post Fukushima - 14510 ................. 3739
Anne Woolley

Fukushima Water Treatment Update - 14257 ...................................................................................................... 3745
James Braun

Absorbers for Removal of Sr-90 from Sea Water at Fukushima Site - 14184 ................................................. 3753
Georg Briechler, Alexander Zulau, Valentin Avramescu, Tatyana Sokolnitskaya

Lessons Learned from the Fukushima Daiichi Nuclear Accident – A Discussion from a Neutral Point of View - 14384 .................................................................................................................. 3761
Ming Zhang

SESSION 078 – NUCLEAR POWER PLANT ONSITE SNF/UNF STORAGE

Regulation of Waste Streams from Small Modular Reactors and Advanced Reactors - 14061 ......................... 3773
Anna Bradfورد

Lessons Learned after 20 Years of Experience with the 10 CFR 72 General License Process - 14019 ............... 3779
Brian Gutterman

Containers for Storage and Transport of Spent Fuel and Waste from the Operations, Decommissioning and Dismantling of Nuclear Power Stations - 14163 .............................................................................. 3789
Allen Jack, Juergen Skrzypek, Joerg Viernemann, Wolfgang Steinwutz

Technical Feasibility of Storing 1 Month Old SNF in an Onsite Irradiation Facility - 14233 ......................... 3794
Russell Goff

Situation of Interim Storage of Spent Nuclear Fuel (SNF) and Highly Active Waste (HAW) in Germany - 14249 ........................................................................................................................................... 3810
Christoph Gastl

Integrated Data and Analysis System for Commercial Used Nuclear Fuel Safety Assessments - 14657 .......... 3815
John Scaglione, Joshua Peterson, Kaushik Banerjee, Kevin Robb, Robert Lefebvre

SESSION 079 – ER CHALLENGES – ALTERNATIVE APPROACHES TO ACHIEVING END STATE

An Integrated Endpoint Approach for Complex Sites - 14599 ........................................................................ 3829
Michael Truc

Innovative Strategy for Long Term Monitoring of Metal and Radionuclide Plumes - 14380 .......................... 3841
Carol Eddy-Dilek, Margaret Millings, Brian Looney, Miles Denham

Hanford Site River Corridor Cleanup – Effectiveness of Interim Actions and Transition to Final Actions - 14468 ........................................................................................................................................... 3853
Jeff Lerch, Laura Cusack, James Hansen

Remediation of Contaminated Groundwater at Complex Sites: Overview of Alternative Endpoints and Approaches - 14400 .................................................................................................................. 3865
Rula Deeb, Elisabeth Hawley

Systems-Based Framework for Remediation Endpoints - 14355 ................................................................. 3879
Michelle Lee, Michael Truc, Dawn Wellman, Amoret Bunn, Mark Freshley, Danny Katzman, Velimir Vesselinov, Miles Denham, Carol Eddy-Dilek, John Morse, Michael Thompson, Kurt Gerdes, Skip Chamberlain, Eric Pierce

Engineered Media for Removal of Fission Products from Aqueous Streams - 14580 ........................................ 3887
Abigail Holmquist

Results of Laboratory Microral Testing for Enhancing Bioremediation of Petroleum-Contaminated Soils at the Hanford Site’s 100-N Area - 14592 ................................................................................................. 3898
Wendy Thompson

Evapotranspiration and Geochemical Controls on Groundwater Plumes at Arid Sites: Toward Innovative Alternate End-States for Uranium Processing and Tailings Facilities - 14631 ......................................................... 3910
Brian Looney, Miles Denham, Carol Eddy-Dilek, Margaret Millings, Mark Kaunsky

SESSION 080 – GROUNDWATER REMEDIATION PROJECTS

Geophysical Logging to Assess Annular Seals in Groundwater Monitoring Wells at the Hanford Site - 14536 ........................................................................................................................................... 3925
Rick McCain, Paul Hamwood, Arron Pope

In Situ Precipitation of Radionuclides in Groundwater at US DOE Savannah River Site - 14559 .................. 3933
Chris Lutes, Angela Frizzell, Jeff Gillow, Jeff Beckner

Genome-Enabled Systems Approach to Predict Immobilization of Technetium in the Subsurface - 14351 ........................................................................................................................................... 3947
Hope Lee, Danielle Saunders, Brady Lee
Evaluating the Potential for Microbial Iodine Immobilization: Humic Acid Bioremediation - 14354

The Importance of Micronutrients to Biological Treatment, 200 West Pump and Treat, Hanford Site, Richland, WA - 14021

Identification of Major Risk Drivers and Contaminants of Potential Concern for a Complex Groundwater Aquifer - 14350

Decommissioning of Underground Storage Tanks of Liquid Radioactive Waste at the A1 NPP in Slovakia - 14252

Licensing Process for Decommissioning Low Flux Reactor Petten - 14490

Benefits of a Dedicated Decommissioning Team for the B300 Project at Whiteshell Laboratories - 14368

New Method for the Decontamination of Labyrinth-Seals of Control Rod Drives (CRD) - 14167

Sorption (K_d) Measurements in Support of Dose Assessments for Zion Nuclear Station Decommissioning - 14228

Dismantling and Release of Large Metallic Components at the GNS Premises in Duisburg on the Example of a CASTOR® S1 Container - 14165

Kazakhstan: Treatment and Safe Disposal of Liquid Radioactive Waste from the BN-350 Reactor Unit at the LRW Processing Facility - 14016

Cutting Performance of Remote Fiber Laser Cutting System for Dismantling HLW Glass Melter - 14093

Experience from Fukushima 1F-3 Spent Fuel Removal System Project - 14573

The Preparation for the Clearance System and Its Operational Issues in FUGEN - 14055

Removing of Equipment of Loop Facilities and Preparation for Dismantling of Core of MR Reactor - 14083

Ultra-Light Gamma-Camera for Security and Emergency Situation - 14066

Development of 3D Visualization Technology for Medium- and Large-sized Radioactive Metal Wastes from Decommissioning Nuclear Facilities - 14159

Determination of Components of a Fuel Matrix in Water and in Bottom Slimes in the MR Reactor Ponds in NRC “Kurchatov Institute” - 14038

Arim Lee, Joo Hyun Moon, Chan Hee Park, Rinah Kim, Jung Min Lee

Path to Success - 14330

Kathryn Johns-Hughes, Steve Clemmons
Planning for Success: Future Cleanup Work at Los Alamos National Laboratory ................................................................. 4179
Daniel Cox

SESSION 083 – PANEL: RISK & DOSE ANALYSIS FOR DECOMMISSION OF NPPS AND COMPLEX MATERIAL FACILITIES

Determining Remediation Goals for Nuclear Power Plants ........................................................................................................ 4191
Christopher McKenney
Evaluation of Dose and Risk in the Site Release Process for Commercial Power Reactors ................................................................. 4195
Richard Reid
Dose/Risk Analyses to Support Facility Closure .................................................................................................................. 4211
Roger Seitz

SESSION 084 – PANEL: INNOVATIONS TO NUCLEAR D&D: PROGRESS IN FUKUSHIMA

Innovations in Nuclear Decontamination and Decommissioning: Global Support to Fukushima Challenges ........................................ 4221
Jeff Griffin, Wayne Johnson
Progress of Offsite Decontamination in Fukushima ............................................................................................................................ 4224
Sang Don Lee
Remediation and Waste Management Challenges for Fukushima Offsite Recovery Efforts ................................................................. 4231
Mark Triplett
Importance of Innovation for D&D at Fukushima Daiichi NPS ........................................................................................................ 4238
Kazuhiro Suzuki

SESSION 085 – PANEL: INFORMED PERFORMANCE BASED DECISION MAKING

Risk-Informed Decision Making at Department of Energy Sites ........................................................................................................ 4249
William Levitan

SESSION 086 – PANEL: RECENT DEVELOPMENTS AND TRENDS IN INTEGRATED RISK ASSESSMENT METHODS, TOOLS, AND DECISION ANALYSIS SUPPORT

Decision Analysis Sketch for Performance Assessment .................................................................................................................. 4255
Paul Black, Tom Stockton, John Tause, Kate Catlett
Jennifer Heimberg
A Few Perspectives on Risk ................................................................................................................................................................. 4265
David Kosson, Charles C. Powers

SESSION 087 – TECHNICAL INNOVATIONS IN ENVIRONMENTAL REMEDIATION AND SITE CLOSURE

The Art & Power of Visual Data Imaging - 14622 .................................................................................................................. 4275
Jeffrey Lively
Pore Water Extraction Test Near 241-SX Tank Farm at the Hanford Site, Washington, USA - 14168 .................................................. 4288
Danny Parker, Melissa Holm, Susan Eberlein, Harold Sydnor, Cynthia Tabor, R. Douglas Hildebrand, Michelle Hendrickson, Maria Skorska, Colin Henderson
Strategy for Demonstration of Attainment of Groundwater Cleanup Levels - 14618 ................................................................. 4297
Alaa Aly, Trevor Budge
Rate of Uranium Release from Calcium Meta-Autunite: Effect of Bicarbonate Solutions on the Dissolution - 14218 ................. 4310
Ravi Krishna Prasanth Gudavalli, Yelena Katsenovich, Leonel Lagos, Dawn Wellman
Web-Based Tool Identifies and Quantifies Potential Cost Savings Measures at the Hanford Site - 14366 ........................................ 4323
Jon Peschong, Briant Charboneau, Marisa Renevitz, Brett Simpson

SESSION 088 – THE AGING US DOE INFRASTRUCTURE – CRITICAL INVESTMENTS / ALTERNATIVES TO GET TO THE FINISH LINE

Finishing an Era: Accelerated Decontamination and Decommissioning at the K-25 Building, East Tennessee Technology Park, Oak Ridge, Tenn. - 14141 ......................................................................................................................................... 4331
Steven Dalgren
Supporting the Largest D&D Project with Innovative Waste Management Approaches Oak Ridge, Tennessee - 14628 ................................................................................................................................................................. 4344
John Wegrzyn, Scott Anderson, Mike Ferrari, Roland Weiskittel
Administrative and Engineering Controls for the Operation of Ventilation Systems for Underground Radioactive Waste Storage Tanks - 14197 ................................................................................................................................................................. 4349
Bruce Wiersma, Adam Hansen
SESSION 089 – MANAGEMENT OF NUCLEAR POWER PLANT DRY WASTE

Building Context for Radioactive Waste Characterization - 14040  ..............................................................................................................................................................................................................4409
Thomas Kalinowski, David James

Retrieval and Conditioning of Powdery Waste: Investigations Carried Out in a Storage Pit to Consolidate Input Data Prior to Conditioning - 14207  ........................................................................................................................................................................................4426
Valérie Thiebaut, Anne Courtaudon, Olivier Dugne, Jean Michel Fulconis, Frédéric Rascalou

Comparative Life Cycle Assessment (LCA) of Protective Garments: Reusable vs. Disposable in Radioactive Material Applications - 14634  .............................................................................................................................................................................4437
John Jewell, Margaret Wildenerauer

SESSION 090 – MANAGEMENT OF NUCLEAR POWER PLANT LIQUID AND WET WASTE

150 GPM Solids Removal System - EnergySolutions SRS-150 XUF™ Grand Gulf Operating Experience Update - 14454  ............................................................................................................................................................................................................4447
Greg Broda, Kenneth Johnson

New Facilities to Reduce Releases from Swedish BWRs - 14009  ..............................................................................................................................................................................................................4452
Niklas Bergh, Gunnar Hedin, Jörgen Eriksson, Ulf Borgvald

Selective Separation of Radionuclides from NPP Evaporator Bottom Residue - 14091  ..............................................................................................................................................................................................................4458
György Pálta, Emil Coroka, Csiilla Tomko, János Ochterbeen, Ferenc Felli, Gabor Patek

Testing of New Antimony Selective Media SbTreat at Loviisa NPP, FINLAND - 14241  ..............................................................................................................................................................................................................4466
Risto Harjula, Risto Koivula, Esko Tasa, Pasi Kelokaski, Roger Kvarnström, Ilkka Rapponen, Laura Togneri

SESSION 091 – OPERATING EXPERIENCE IN THE TREATMENT AND STORAGE OF LLW, ILW, MW, NORM & TENORM

Embedding a Strategy - Changing a Culture - 14542  ..............................................................................................................................................................................................................4473
Becky Ruddy, Dennis Thompson, Cath Giel

Implementation and Performance Testing of a Sensitive Bulk Laundry Monitor for Use in Nuclear Power Stations - 14004  ..............................................................................................................................................................................................................4486
Christine Langton, David Stefanko, Donald Miller, Rick Minichan, Philip Almond, David Healy

AREVA Experiences in Cementation Technologies to Immobilize Radioactive Waste - 14457  ..............................................................................................................................................................................................................4499
Michael Blase, Nathalie Segond, Damien Avril

Immobilization of Liquid Organic and Aqueous Radioactive Waste Decommissioning in Porous Cement Matrix - 14405  ..............................................................................................................................................................................................................4505
Andrey Varlakov, Leonid Sukhanov, Aleksandr Germanov

Comparison of Depth Discrete Oxidation Front Results and Reduction Capacity Measurements for Cementitious Waste Forms - 14330  ..............................................................................................................................................................................................................4511
Christine Langton, David Stefanko, Donald Miller, Rick Minichan, Philip Almond, David Healy

European, Transboundary Projects for Transport, Treatment and Recycling of Large Retired NPP Components in Studsvik - 14365  ..............................................................................................................................................................................................................4529
Arne Larson, Gregor Krause

Microbially Induced Corrosion of Carbon Steel and Stainless Steel in Alkaline Ground Water - Composition and Metabolic Functionality of Biofilm - 14391  ..............................................................................................................................................................................................................4534
Pauliina Rajala, Leena Carpen, Maitt Bomberg, Mari Raulio, Mikko Vepsäläinen

SESSION 092 – PANEL: UK/USA PARTNERING ACROSS THE POND – ACCOMPLISHMENTS AND LESSONS LEARNED

Update on US DOE / UK NDA Bilateral Activities - 4551  ..............................................................................................................................................................................................................4551
Laurie Judd

UK/USA Partnering Across the Pond (Sellafield & Savannah River) - 4559  ..............................................................................................................................................................................................................4559
Graham Jonsson
UK/USA Partnering Across the Pond .................................................................................................................................................................................. 4564
Dave Moody

SESSION 093 – STORAGE OF SPENT / USED NUCLEAR FUEL AND SOLID HLW

Perspectives on Interim Storage Solutions of Used Nuclear Fuel in the Long Term - 14041 ................................................................. 4573
Catherine Shelton, William Braycey

Single Storage Canister to MACSTOR - 14578 ................................................................................................................................. 4582
Miroslav Petrovic, J. Hashmi

Nuclear Industry Study on the Feasibility of Standardized Transportation, Aging and Disposal Canisters for Used Nuclear Fuel - 14011 .................................................................................................................................. 4598
Chris Phillips, Ivan Thomas, Steven McNiven

Test Results and Analyses in Terms of Aging Mechanisms of Metal Seals in Casks for Dry Storage of SNF - 14255 .................. 4613
Sven Nagelschmidt, Ulrich Probst, Uwe Herbrich, Dietmar Wolff, Holger Völzke

VOLUME 6

Closed Fuel Can Venting and Hydride Passivation - 14305 ..................................................................................................................... 4622
Jonathan Fitzpatrick, Gerard Peplinskie, Cody Ziebarth

Applicability of Commercial Nuclear Power Used Fuel Handling and Dry Storage Solutions to DOE Non-Fuel Waste Forms - 14461 ........................................................................................................................................ 4638
David Bland, Jennifer Gamble

SESSION 094 – GEOLOGIC DISPOSAL DESIGN & ENGINEERING

Inflow Handling during the Emplacement of the Backfill in the KBS-3 Concept - 14238 ................................................................. 4650
Ville Kostinen, Torbjörn Sandén

Designing, Commissioning And Monitoring Of 40% Scale Bentonite Buffer Test - 14260 ............................................................................... 4663
Harri Kivikoski, Pasi Rantamäki, Pieti Marjavaara

Instrumentation and Monitoring of Tunnel Plug in ONKALO - 14261 ............................................................................................ 4673
Ilkka Hakola, Erika Holt, Matti Halonen, Edgar Böhner, Kimmo Kemppainen, Petri Koho, Antti-Jussi Kylläinen

Customized Bentonite Pellets - Extrusion Manufacturing and Gap Filling & Thermal Performance Properties - 14262 ................................................................................................................................. 4687
Pieti Marjavaara, Erika Holt, Pasi Rantamäki

Designed Buffer Components for Finnish KSB-3V Concept - 14285 ............................................................................................. 4697
Erika Holt, Markku Juvaankoski, Pasi Rantamäki

Preliminary Evaluation of Dual-Purpose Canister Disposal Alternatives - 14506 ........................................................................ 4715
Ernest Hardin, Robert Howard, John Scaglion, Harris Greenberg, Joe Carter, William Nut, Robert Clark

SSM’s Evaluation of the Long-Term Safety of the Proposed Repository for Spent Nuclear Fuel at the Forsmark Site in Sweden: Early Experiences from the Main Review Phase - 14555 .......................................................................................... 4731
Bo Strömberg, Björn Overstorp

SESSION 095 – PANEL: CHALLENGES IN US DOE HLW TANK MANAGEMENT

Challenges in US DOE HLW Tank Management Idaho Perspective ........................................................................................................ 4748
Ken Whitham

Hanford Tank Farm Challenges ............................................................................................................................................................... 4752
Dave Olson

Challenges in DOE HLW Tank Management ........................................................................................................................................... 4761
Kenneth Rueter

Tank Waste Risk Reduction at SRS .......................................................................................................................................................... 4767
Jean Ridley

SESSION 096A – INTERNATIONAL DEEP REPOSITORY PROGRESS – PART 3 OF 3

WIPP Status and Plans – 2014 - 14442 ................................................................................................................................................................. 4776
Roger Nelson, Joe Franco

Cigeo, the Project for Geological Disposal Project of Radioactive Waste in France - 14014 ........................................................................ 4788
Gérald Ouazzani, Alain Harman, Thibaud Labalette, Marie-Claude Dupuis

Final Disposal and Retrievability in the German Repository Concept - 14100 .......................................................................................... 4795
Frank Charlier, Bruno Thomasauské
SESSION 096B – PERFORMANCE OF DISPOSAL SYSTEMS, FACILITIES AND SITES FOR LLW – PART 2 OF 2

Performance Assessment for the Environmental Restoration Disposal Facility, Hanford Site, Washington - 14216

Waste Acceptance and Disposal at the Nevada National Security Site - 14448
Vefa Yucel, Greg Shott, Pat Arnold, Jhon Carilli

Integration between Performance Assessments Does Not Equal Duplication - 14577
Kent Rosenberger

Liquid Waste Operations Initiatives in Performance Assessment Evolution - 14469
Mark Layton

SESSION 097 – PROJECT MANAGEMENT IMPROVEMENTS – PLANNING THROUGH COMPLETION - SCOPE, COST, & SCHEDULE CONTROL

Project Assessment: An Essential Element of Project Management During Project Execution - 14505
James Burritt

Dan Plung, Douglas Aoyama

Waste Management System Architecture Evaluations - 14564
William Nutt, Edgar Morris, Francisco Puig, Robert Howard, Joshua Jarrell, Robert Joseph III, Thomas Cotton

Costing and Financing of the Swedish Waste Management System - 14540
Per-Arne Holmberg, Lars Ageskog, Maria Wikström

SESSION 099 – PANEL: TECHNOLOGY SUPPORT AND IMPLEMENTATION FOR CLEAN UP OF FUKUSHIMA DAIICHI NPP

Technical Cooperation for Improving Cradle-to-Grave Control of Sealed Radioactive Sources in the Mediterranean Region - 14655
Juan Carlos Benitez-Navarro, Vilmos Friedrich, Monika Kinker, Eric Reber, Manuel Recio, Jose Miguel Roncero Martin

The IAEA Activities in the End-of-Life Management of Disused Sealed Radioactive Sources - 14648
Gerard Braun, Paul Degnan, Monika Kinker, Kai Moeller

Nuclear Supply Chain: Perspective of a Component and Sub-system Fabricator - 14474
James Stouch

Technical Support and Implementation for Cleanup of Fukushima Daiichi – Groundwater Challenges
Wayne Johnson, Jeff Griffin

System Perspective in Environment Remediation of Lands Contaminated from the Fukushima Accident
Robert Sindelar

IAEA Activities in Support to Decommissioning and Remediation Activities in Fukushima
Irena Mele

Delivering Timely Solutions under Emergency Conditions
John Raymont

SESSION 100 – PANEL: OAK RIDGE RESERVATION INNOVATIVE CLEANUP APPROACHES

Recent Accomplishments and Looking Forward
Mark Whitney

Developing a Comprehensive Groundwater Strategy for the Oak Ridge Reservation
William McMillan

Steven Dahlgren

The Future of the K-25 Site through Historic Preservation and Reindustrialization
Susan Cange

Cleanup Collaboration
Franklin Hill

Partnership with the Community: Moving Oak Ridge Forward
Jenny Freeman

SESSION 102 – RECORDS, KNOWLEDGE AND MEMORY (RK&M) FOR GEOLOGIC REPOSITORIES OF NUCLEAR WASTE – PART 1 OF 2

Claudio Pescatore
When Dealing with the Long-Term, Care as to How Terms are Used: Reflections from the OECD/NEA RK&M

Project Glossary - 14437

Nuclear Waste as Cultural Heritage of the Future - 14361

Cornelius Holof, Anders Högberg

The First International Decennial Appraisal of the Detailed Memory of the Manche Disposal Facility - 14470

Jean-Noël Dumont, Gaëlle Sauvage, Jun Lin

How to Increase Knowledge of the Existence of a Nuclear Disposal Facility to Future Generations: Knowledge

Footprint - A Perspective From an Operational Facility - 14221

Steve Wagner

Reasons for Post-closure Monitoring of the Waste Isolation Pilot Plant Repository - 14531

Panam Thakkar, Abhilash Van Luik

Contribution of Metrology to a Qualified Disposal Monitoring System Stable over Centennial Timescales - 14031

Johan Bertrand, Patrick Sollent, Stéphane Plumet, Stephane Buschaert, Olivier Beaumont

Application of Knowledge Management in the UK’s Radioactive Waste Management Programme - 14651

Simon Wisbey, Alastair Clark

SESSION 103 – WORLDWIDE WASTE MANAGEMENT REGULATORY AND OVERSIGHT CROSSCUTTING PROGRAMS

Regulatory Oversight of Disposal Facility Construction and Component Fabrication - 14244

Jussi Heinonen, Riisto Paltemaa, Kai Häimiläinen

Disposal of U-233 as Low Level Waste at the Nevada Nuclear Security Site - 14175

Michael Voegele, Joseph Ziegler, Darrell Lacy

Nuclear Fuel Site Decommissioning and License Termination - 14378

Heath Downey, Nelson Walter

Site Selection in Germany - A Restart - 14103

Konstantin Chizhov, Mazur Ivan, Viktor Kryuchkov, Ilya Kudrin, Malgorzata Sneve

User Interface Features of Information-Analytical System for Radiation Safety of Personnel on the Example of Northwest Center for Radioactive Waste Management ”SevRAO” - 14625

SESSION 104 – ROUNDTABLE: WASTE MANAGEMENT ENERGY FACILITIES CONTRACTOR OPERATING GROUP (EFCOG)

Y-12 Waste Management FY2014 & FY2015 Update

Scott Lovless

EFCOG WMWG - Mark Duff

Mark Duff

West Valley Demonstration Project Waste Management Update

Craig Reeman

EFCOG Update For CHPRC/Hanford Plateau Contract

Ty Blackford

Hanford Office of River Protection EFCOG WM Update

Scott Saunders

Current and Future Plans at the East Tennessee Technology Park

Scott Anderson

3706 TRU Waste Campaign Completion and Follow-On Framework Campaigns

Kathryn Johns-Hughes

LANL Enduring Waste Management Program Updates, Goals, and Challenges

Steven Singledecker

SRS Waste Program Update EFCOG WM Working Group

John Gilmour

EFCOG WMWG Round Robbin

Bob Petras

Status of Activities at SRNL to Waste Management Energy Facilities Contractor Operating Group

Jeannette Hyatt

Update for the Advanced Mixed Waste Treatment Project

Danny Nichols

Disposal Status at the Nevada National Security Site

Sydney Gordan

SESSION 105 – NON-US NUCLEAR POWER PLANT WASTE TREATMENT AND ALTERNATIVES

Handling and Treatment of Low Level Waste in a Sorting, Drying and Compaction Facility in Changjiang, NPP

Unit 1/2 - 14309

Stefan Klute, Tristan Helwig, Peter Reinsdorf
An Innovative Method to Detect Leaks in a Pipe-in-Pipe Active Liquid Drain System - 14005 ............................... 5189
Malcolm Clough

NPP Containment Vent Protection. Why There Is No One-size-fits-all Solution - 14424 ........................................ 5204
Chris Chadwick, Adam Swan

SESSION 106 – CROSSCUTTING PERFORMANCE ASSESSMENTS RISK MANAGEMENT AND MODELING

Shulan Xu, Björn Overstorp, Maria Norden

New Methodology for Realistic Integration of Sorption Processes Safety Assessments - 14153 ........................................ 5237
Jörg Mönnig, Ulrich Neseck, Susan Britz, Judith Flügge, Vincenz Brendler, Madlen Stockmann

Present Status of the Closure Plan for Radioactive Waste National Repository from Baita, Bihor, Romania - 14023 ............. 5253
Gheorghe Băvărău, Raheca Madalina Fako, Florin Sociu, Felicia Nicoleta Dragolici, Elena Neacșu

SESSION 107 – ADVANCES IN NUCLEAR SAFETY MANAGEMENT

Safety Culture Lessons Learned from the U.S. Chemical Safety Board Incident Investigations - 14556 ................................ 5268
Lyndsay Pfits, Steven Kruth, James Hutton, Julie Goeckner

Evaluation of Potential Cross-Cutting Trends Associated with Incidents at Washington Closure Hanford - 14495 ........................................ 5276
Megan Proctor

Improving Safety and Emergency Preparedness for Storage of Cs/Sr Capsules from Lessons Learned From Fukushima Events - 14022 ........................................ 5283
Connie Simiele, Ty Blackford, David Levinskas, Jay Lavender, Sheila Godfrey, Janice Piernock, Lori West

A New Approach for Feature, Event, and Process (FEP) Analysis of UNE/HLW Disposal - 14314 ........................................ 5293
Geoff Freeze, Christi Leigh, S. David Sevougian, Michael Gross, Jens Wolf, Jörg Mönnig, Dieter Ruhmann

SESSION 108 – D&D OF US DOE FACILITIES

Managing Changed Conditions/Activities—D&D of the Paducah US DOE C-340 Metals Reduction Complex - 14304 ............................ 5308
Craig Jones, Brad Montgomery, Rob Seifert

Removal of the 340 Vault from the Hanford 300 Area using Disodium Phosphate - 14343 ........................................ 5320
Brad Herzog, Rudolph Guercina, Chris Strand, Eric Ison

Project Planning Integration and Controls Organization Approach Success at East Tennessee Technology Park (ETTP) Contract, Oak Ridge, TN - 14370 ........................................ 5327
Patrick Timney, Ray Haynes

618-10 Burial Ground: Vertical Pipe Units Remediation - 14532 ........................................ 5334
Scott Myers

K-27 Program & Project Implementation (Separating Operations Activities from Capital Asset Project) - 14098 ........................... 5340
Daniel Macias

In Situ Decommissioning Lessons Learned - 14042 ........................................ 5344
Charles Nagin, Andrew Szilagyi, Charles Urland

Contaminated Waste Minimisation Using Chemical Extraction Technology - 14316 ........................................ 5358
Mark Musgrave, Scott Fay

Scintillating Phosphor Spray for Remote Detection of Te-99 - 14183 ........................................ 5372
David Glasgow, Linda Lewis, Brenda Smith, Rick Moyer, Fred Montgomery, Cyril Thompson, Andrew Szilagyi

SESSION 109 – APPLICATION OF INNOVATIVE D&D TECHNOLOGIES

New Developments in Laser Cutting for Nuclear Decommissioning - 14045 ........................................ 5384
Paul Hilton, Ali Khan

A Trial of 4D Cross-Borehole Electrical Resistivity Tomography (ERT) for Detecting and Monitoring Subsurface Leakage and Contaminant Transport, Supporting the Decommissioning of Legacy Silos at the Sellafield Site, UK - 14162 ........................................ 5399
Oliver Kuras, Paul Wilkinson, Phil Meldrum, Lucy Osby, Sebastian Uhlmann, Jonathan Chambers, Andrew Binley, James Graham, Gareth Dewey, Nick Atherton

An Evaluation of Electrokinetic Transport of Radioactive Species through Concrete for Application as a Non-Destructive In Situ Remediation Technique - 14102 - 14102 ........................................ 5412
Andrew Parker, Malcolm Joyce, Colin Boulall

Remote Characterisation Technology for Decommissioning - 14131 ........................................ 5425
Simon Watson, Barry Lennox, Alexandru Stanca, Peter Green, Mark Dowson

A New Modular Hydraulic Power Manipulator for Remote Handling Operations in High Radiation Environments - 14169 ........................................ 5433
Geoff Ashworth, Carwyn Jones

The Ground Environment Management Scheme (GEMS): Technologies for Detecting and Monitoring Subsurface Leakage and Contaminant Transport, Supporting the Decommissioning of Legacy Silos at the Sellafield Site, UK - 14162 ........................................ 5441
Gareth Dewey, Nick Atherton, Oliver Kuras, Paul Wilkinson, Phil Meldrum, Tony Ball
Freeze Technology Applications for the Nuclear Industry, Applicable to VLLW, LLW, ILW as well as in ER and the NORM Industry - 14594

CNC Milling as a Decontamination Method for Magnox Pond Skips - 14322
Herbert Cruckshank, Ian Pullin, Phil Kightley

SESSION 110 – US – FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM (FUSRAP) AND OTHER US ARMY CORP OF ENGINEERS PROJECTS

Hydrogeologic Conditions at the Niagara Falls Storage Site, New York - 14142
William Frederick, John Busse

Colonie FUSRAP Site Two Year Monitored Natural Attenuation Study of Groundwater - 14441
James Moore, Phyllis Della Camera, Mark Hardner, Tom Mathison

Sources of Bias in Environmental Sample Radioisotope Activity Measurements at USACE FUSRAP Maywood Laboratory - 14353
Brian Tucker, Joaquin Donakowski, David Hays

Vicinity Property Assessments at Formerly Utilized Sites Remedial Action Program Project Sites in the New York District - 14188
Ann Evey, David Hays

Application of Soil Sorting for Depleted Uranium Fragments - 14373
Deon Downey, Jeffrey Lively

VOLUME 7

SESSION 111 – PACKAGE DESIGN

Numerical Analysis of Cask Accident Scenarios in Storage Facilities - 14541
Mike Weber, Uwe Zecher, Diemar Wolf, Holger Völzke, Uwe Herbrich, Sven Nogelschmidt

A Case-Study: Implementation of Independent Final Status Survey in Support of Remediation at a FUSRAP Site - 14318
Nick Berliner, Mike Winters, Scott Hay, Eric Barbour, Brian Hearty

Addressing Beryllium Health and Safety at the Lucky S FUSRAP Site - 14647
Stephen Buechi, Stephen Bousquet, John Busse, Karen Keil

Importance of On-Site Meteorological Data for Remedial Action Projects: NFSS Example - 14680
John Busse, Karen Keil, Jane Stangen, Neil Miller, Michelle Barker, Young-Soo Chang, Margaret Macdonell, Lisa Durham

SESSION 112 – PANEL: MANAGEMENT OF RADIOACTIVE WASTE FOLLOWING A NUCLEAR ACCIDENT OR EXTREME CONTAMINATION SCENARIO

The Windscale Pile 1 Accident in 57, Subsequent Clean-Up & Decommissioning
Martin Cross

Post-Accident Remediation - Critical Lessons
Jack Devine

Risk/Waste Management at Chernobyl
James McVitaine

Management of Radioactive Waste Following a Nuclear Accident or Extreme Contamination Scenario
Robert Kary

Radioactive Waste at Fukushima Daiichi NPS
Kazuhiro Suzuki

Communicating With the Public During a Nuclear Crisis
Francis Cameron
SESSION 113 – PAPERS/PANEL: PROSPECTS FOR AN INTERNATIONAL (MULTI-COUNTRY) REPOSITORY

John Mathieson

Multinational Repositories ................................................................................................................ 5742
Graham Fairhall

The IAEA’s Role in the Development of Multilateral/Regional Cooperation Opportunities for Radioactive Waste Repositories ........................................................................ 5747
Paul Dogman

Multinational European Nuclear Waste Disposal, Looking Off-Shore - 14099 ........................................ 5757
Hans Codee, Ewoud Verhoef

Towards a European Regional Geological Repository - 14620 .......................................................... 5767
Charles McComb, Neil Chapman, Ewoud Verhoef

Macroeconomic Impacts of an International Repository - 14048 .......................................................... 5774
James Foxe, Ralph Stoll, Michael Simpson

SESSION 114 – PAPERS/PANEL: RECORDS, KNOWLEDGE AND MEMORY (RK&M) FOR GEOLOGIC REPOSITORIES OF NUCLEAR WASTE – PART 2 OF 2

Records, Knowledge and Memory for Near-Surface Disposal ............................................................. 5783
Roger Seitz

Records, Knowledge and Memory (RK&M) for Geologic Repositories of Nuclear Waste ................ 5788
Peter C. Van Wyck

Markers and Deep Geological Repositories – Learning within the OECD/NEA Project on the Preservation of Records, Knowledge and Memory (RK&M) across Generations - 14589 ...................................................... 5793
Claudio Pescatore, Jantine Schröder

Preservation of Information and Communication With Future Generations - 14509 .................................. 5798
Erik Setzman

SESSION 115 – US DOE TANK WASTE PROGRAM INTEGRATION

Waste Treatment Planning for Challenging Hanford Tank Waste - 14114 ............................................ 5811
Paul Certa, Tom Crawford, Jeremy Belsher, Lauree Cree, Taran Dhillwal, Eric Slaathaug

One System Integrated Project Team Progress in Coordinating Hanford Tank Farms and the Waste Treatment Plant - 14144 ........................................................................ 5833
Garth Duncan, Raymond Skwarek, Chris Harrington

Implementation of Recommendations from the One System Comparative Evaluation of the Hanford Tank Farms and Waste Treatment Plant Safety Bases - 14137 ............................................................................... 5839
Richard Garrett, Ingrid Paik, Fred Beranek, Jeffrey Bueck, Mukesh Gupta, Jeffrey Lietzow, Frank McCoy, Belinda Niemi

SESSION 116 – STORAGE AND RETRIEVAL OF HLW

Remediation of the Active Liquid Waste Tanks at Chalk River Laboratories, AECL - 14339 .................. 5857
Mark Polley, Megan Vickery, Gerard Poplawski

Forensic Investigation of Hanford Double-Shell Tank AY-102 Radioactive Waste Leak - 14178 .......... 5870
Dennis Washenfelder

Hanford Double-Shell Tank Extent-of-Condition Construction Review - 14174 ................................... 5884
Theodore Venetz, Jason Gunter, Kayle Boomer, Dennis Washenfelder, Travis Barnes, Jeremy Johnson

SESSION 117 – HLW RETRIEVAL, CLOSURE AND PROCESSING OPERATIONAL EXPERIENCE

World Premiere Industrial Vitrification of High Level Liquid Waste Produced by Uranium/Molybdenum Fuel Reprocessing in La Hague’s Cold Crucible Melter - 14035 ................................................................ 5901
Regis Didierlaurent, Eric Chauvin, Jean Francois Hollebecque, Jacques Lacombe, Christian Menil, Catherine Veyer, Olivier Pinet

Retrieval and Conditioning of Legacy Radioactive Sludge from the Effluent Treatment Facility at La Hague Plant - 14456 ...................................................................................................................... 5916
Gregoire Lemiere, Tahn Zanife, Pascal Giavarini, Nathalie Segond, Christophe Bordeaux, Frederic Chambon, Eric Tchemitcheff

SESSION 118 – WASTE FORM DEVELOPMENT, DEMONSTRATION, AND CHARACTERIZATION

Design Principles for Optimizing Nuclear Waste Glass Formulation for Industrial Implementation - 14107 ........................................................................................................ 5927
Eric Chauvin, Anthony Prod’Homme, Catherine Veyer, Eric Boudot, Badia Amekraz, Olivier Pinet, Jean-Luc Dussossoy, Christian Ladirat, Nolwenn Chouard, Frederic Bailly
SESSION 119 – TRANSPORT SUBSEQUENT TO STORAGE

Cask Assembly Level Modeling to Determine Used Nuclear Fuel Assembly Loading Environments Resulting From Normal Conditions of Rail Transport - 14511

John Bignell, Gregg Flores, Douglas Immelman

Assembly Level Modeling and Transportation Damage Prediction of Used Nuclear Fuel (UNF) Cladding - 14569

Scott Sanborn, Brian Koeppel, Nicholas Klymszyn, Harold E. Atkins Jr, Kenneth Geelhoed

Damaged Irradiated Nuclear Fuel; Development of Transport and Intermediate Storage Solutions - 14613

Anna Wikmark

Reversal Bending Fatigue Testing on Zry-4 Surrogate Rods - 14503

Jy-An Wang, Hong Wang, Bruce Bledar, Robert Howard

Detailed PWR Fuel Rod and Grid Finite Element Analysis to Provide Equivalent Rod Stiffness and Damping and Equivalent Grid Shell Thickness to PWR Used Nuclear Fuel (UNF) Assembly - 14525

Justin Coleman, Robert Spears

Toil and Trouble: Recommendations for the Preparation of the DOE National Transportation Plan - 14450

Fred Diliger, Bob J. Halstead, James Ballard

An Integrated Approach to the Technical Development and Procurement of the UK’s Intermediate Level Waste Containers - 14195

Jason Dean, John-Patrick Richardson, John Collins

Russian Research Reactor Spent Nuclear Fuel Repatriation from the Reactor Country to the Russian Federation for Reprocessing - 14149

Karel Svoboda, Frantisek Svitak, Josef Podilaha

SESSION 120 – EXPERIENCES IN ER OF RADIOACTIVELY AND CHEMICALLY CONTAMINATED SITES IN URBAN AND SUBURBAN AREAS

Emergency Response Planning for Urban Remediation Project - 14392

Paul Jung, Rebecca Scarborough, Kevin Andrews, Lawrence Colburn, Adam Hibbard

From Nuclear/Fossil Fuel Research Facility to Redevelopment - 14498

Eugene Shephard, Heath Downey, Nelson Walter, Keith Knauerhase

Challenges and Successes during Implementation of Residential Soil Remediation Program - 14567

Libby Bowen

Radionuclide Contamination from the 1940s in a New York City Park - 14518

Carl Young

SESSION 121 – SUSTAINABLE GREEN REMEDIATION PROCESSES

Policy Perspective: Meeting the Challenge of Sustainability - 14603

Jennifer C. Macdonald

Increasing Energy Efficiency Through Innovative Delivery Methods - 14144

Darcy Immerman, Anthony Romer

Zero Waste and Maximum Fun: How 2,800 People Used Sustainable Practices and Made CHPRC History - 14209

Sara Austin

SESSION 122 – COMMUNITY ENGAGEMENT AND CAPACITY BUILDING APPROACHES FOR AGENCIES, PRACTITIONERS & THE PUBLIC

Centralized Used Fuel Resource for Information Exchange (CURIE) - 14656

Joshua Jarrell, Devin White

National Analytical Management Program (NAMP) Education and Training in Radiochemistry via Public Webinars - 14027

Patricia Pavier, Mansour Akbarzadeh, John Griggs, Berta Oates

International Training to Support the Environmental Remediation of Sites Contaminated with Radioactive Materials - 14604

Robert Johnson, Lawrence Basing, Charley Yu, Pamela Richmond, Lisa Durham, Karen Smith, Horst Monken Fernandez, Patrick O'Sullivan, Peter Booth, Eugene Jablonski, Brian Cooper, John Canar, Steve Meiners

The DOE-FIU Cooperative Agreement – Addressing DOE-EM’s Technical Challenges - 14607

Leonel Lagos, Peggy Shoffner
SESSION 123 – WORKPLACE MANAGEMENT AND PERFORMANCE SOLUTIONS

The Management School of Hard Knocks – The Deepest Learning - 14122 ................................................................. 6191
Christi Leigh

Workplace Management: Performance is a Deliverable - 14231 ................................................................. 6196
Laurie Ford

Lifecycle Management for Environmental Remediation Projects - 14084 ................................................................. 6212
Peter Booth

Advancing Cultural Change through Communications - 14428 .................................................................................. 6220
Sonya Johnson

SESSION 124 – RADIOLOGICAL DISPERSION DEVICES AND OTHER NUCLEAR WEAPONS OF MASS DESTRUCTION: DETECTION, RESPONSE, DECONTAMINATION AND RECOVER

Irreversible Wash Aid Additive for Mitigation of Urban Radioactive Contaminations - 14328 ........................................ 6227
Michael Kaminski, Carol Merz, Nada Kivnas

Integrating Decontamination Strategies into a Waste Estimation Support Tool for Radiological Incidents - 14324 ................. 6241
Paul Lemieux, Daniel Schultheisz, Thomas Peake, Timothy Boe, Colin Hayes

SESSION 125 – NON RADIOLOGICAL CHARACTERIZATION FOR LLW, ILW, MW, NORM AND TENORM

Waste Management Lessons Learned from the Paducah C-340 Metals Reduction Complex D&D - 14300 ...................................................................................................................... 6257
Myrna Redfield, Brad Montgomery, Rob Seifert

Properties of Tc(I) Tricarbonyl Derivatives Relevant to Hanford Tank Waste Supernatants - 14352 ............................................ 6264
Tatiana Levitinskaya, Brian Rapko, Synder Chatterjee, Mathew Edwards, Sergei Sinkov, Reid Peterson

Measurement and Modelling of Legacy Sludge Separation and Transport Processes - 14250 ............................................. 6275
Timothy Hunter, Michael Fairweather, Steven Freear, Jeff Peakall, Simon Biggs, Hugh Rice, David Cowell, Geoff Randall, David Burt

In Situ Characterization of Mobilization, Dispersion and Re-Settling in Impinging Jet Ballast Tanks with an Acoustic Backscatter System - 14097 ................................................................................................. 6286
Jaiyana Bux, Timothy Hunter, Neepa Paul, Jeff Peakall, Simon Biggs, Jonathan Dodds, Dominic Rhodes

SESSION 126 – CROSSCUTTING PERFORMANCE ASSESSMENTS, RISK MANAGEMENT AND MODELING

Development of a Dimensionless Number to Assess Risk for LLW Disposal Facilities - 14585 ........................................... 6303
Joseph Rustick, David Kosson, Steven Krahn, Michael T. Ryan, James Clarke

Advanced Simulation Capability For Environmental Management Initial User Release - 14134 ........................................... 6307
Mark Freshley, Tim Scheibe, David Moulton, Susan Hubbard, Haruko Wainwright, Stefan Finsterle, Carl Steefel, Vicky Freedman, Greg Flach, Roger Seitz, Paul Dixon, Justin Marble

Understanding the Impact of Model Assumptions on Estimating Constituent Leaching during Disposal of Cementitious Waste Forms - 14382 .................................................................................. 6320
Kevin Brown, David Kosson, Joshua Arnold, Hans Van Der Sloot, Johannes Meeussen

Thilo Von Berlepsch, Ramon Gasull Anguera, Enrique Biurrun

Coupled Vadose Zone/Saturated Zone Models for Nearfield Analyses - 14289 ...................................................................... 6340
Charles Hostetler, Margaret Preston, Shea Nelson, Mary Burandt

The Effects of Site Complexity on Model Performance – Long-term Groundwater Performance Assessment - 14292 .......................................................................................................................... 6348
Charles Hostetler, Margaret Preston, Shea Nelson, Mary Burandt

SESSION 127 – PANEL: THURSDAY US DOE FEATURED SITE: LEXINGTON, KY OFFICE (PORTSMOUTH & PADUCAH SITES)

Portsmouth/Paducah Project Office: Navigating Through Changing Conditions ..................................................................... 6367
William Murphy, Vince Adams, Mark Duff, Dennis Carr, Kent Fortenberry

Portsmouth Site ........................................................................................................................................................................ 6418
Vincent Adams

Portsmouth D&D Progress & Lessons Learned .................................................................................................................. 6425
Dennis Carr

LATA KY Remediation Project .................................................................................................................................................. 6447
Mark Duff

DUF6 Conversion ........................................................................................................................................................................ 6457
Kent Fortenberry
