34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Communication, Interaction and Social Intelligence

The Reign of Catz & Dogz: The second AISB symposium on the role of virtual creatures in a computerized society

Aberdeen, United Kingdom
1-4 April 2008

Volume 1 of 12
## Contents

The AISB’08 Convention .............................................................. ii
*Frank Guerin & Wamberto Vasconcelos*

Symposium Preface ............................................................... iii
*Shaun Lawson & Thomas Chesney*

On the design of an emotional interface for the huggable robot Probo ........................................ 1
*Jelle Saldien, Kristof Goris, Bram Vanderborght & Dirk Lefeber*

The Haptic Creature Project: Social Human-Robot Interaction through Affective Touch ................ 7
*Steve Yohanan & Karon E. MacLean*

Utilizing Physical Objects and Metaphors for Human Robot Interaction ..................................... 12
*Cheng Guo & Ehud Sharlin*

An Inferential Dynamics Approach to Personality and Emotion Driven Behavior Determination for Virtual Animals ................................................................. 17
*Ben Goertzel, Cassio Pennachin & Samir Araujo de Souza*

The huggable robot Probo: design of the robotic head ................................................................. 23
*Kristof Goris, Jelle Saldien, Bram Vanderborght & Dirk Lefeber*

Learning to care for a real pet whilst interacting with a virtual one? The educational value of games like Nintendogs ................................................................. 30
*Thomas Chesney & Shaun Lawson*
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Communication, Interaction and Social Intelligence

Affective Language in Human and Machine

Aberdeen, United Kingdom
1-4 April 2008

Volume 2 of 12

ISBN: 978-1-63266-837-0
## Contents

The AISB’08 Convention .................................................................................... ii

*Frank Guerin & Wamberto Vasconcelos*

Symposium Preface ......................................................................................... iii

*Chris Mellish*

Attitude Display in Dialogue Patterns ................................................................. 1

*Alessia Martalo, Nicole Novielli & Fiorella de Rosis*

Towards Affective Natural Language Generation: Empirical Investigations .......... 9

*Ielka van der Sluis & Chris Mellish*

Evaluating humorous properties of texts .............................................................. 17

*Graeme Ritchie, Robyn Munro, Helen Pain & Kim Binsted*

Affect in Metaphor: Developments with WordNet ............................................... 21

*Tim Rumbell, John Barnden, Mark Lee & Alan Wallington*

Simulating emotional reactions in medical dramas .............................................. 25

*Sandra Williams, Richard Power & Paul Piwek*

“You make me feel…”: Affective Causality in Language Communication ................. 33

*Andrzej Zuczkowski & Ilaria Riccioni*

Sentiment Analysis: Does Coreference Matter? ................................................... 37

*Nicolas Nicolov, Franco Salvetti & Steliana Ivanova*

Towards Semantic Affect Sensing in Sentences .................................................. 41

*Alexander Osherenko*

Applying a Culture Dependent Emotion Triggers Database for Text Valence and Emotion Classification ............... 45

*Alexandra Balahur & Andres Montoyo*

Feeler: Emotion Classification of Text Using Vector Space Model .......................... 53

*Taner Danisman & Adil Alpkocak*

Old Wine or Warm Beer: Target-Specific Sentiment Analysis of Adjectives ............ 60

*Angela Fahrni & Manfred Klenner*

Detecting and Adapting to Student Uncertainty in a Spoken Tutorial Dialogue System ......................... 64

*Diane Litman*

Adjectives and Adverbs as Indicators of Affective Language for Automatic Genre Detection .................. 65

*Robert Rittman & Nina Wacholder*

Verbs as the most “affective” words ................................................................. 73

*Marina Sokolova & Guy Lapalme*

eXTRA: A Culturally Enriched Malay Text to Speech System .............................. 77

*Syaheerah L. Lutfi, Juan M. Montero, Raja N. Ainon & Zuraida M. Don*

Single Speaker Acoustic Analysis of Czech Speech for Purposes of Emotional Speech Synthesis .................. 84

*Martin Gruber & Milan Legát*

Interplay between pragmatic and acoustic level to embody expressive cues in a Text to Speech system .............. 88

*Enrico Zovato, Francesca Tini-Brunozzi & Morena Danieli*
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Persuasive Technology

Affective Language in Human and Machine

Aberdeen, United Kingdom
1-4 April 2008

Volume 3 of 12

ISBN: 978-1-63266-837-0
## Contents

The AISB’08 Convention ................................................................. ii  
*Frank Guerin & Wamberto Vasconcelos*

Symposium Preface ................................................................. iii  
*Judith Masthoff, Chris Reed & Floriana Grasso*

Using Digital Images to Enhance the Credibility of Information .................................................. 1  
*Hien Nguyen & Judith Masthoff*

The persuasive effects of positive and negative social feedback from an embodied agent on energy conservation behavior ................................................................. 9  
*Cees Midden & Jaap Ham*

Emotional And Non Emotional Persuasion Strength ................................................................. 14  
*Irene Mazzotta, Vincenzo Silvestri & Fiorella de Rosis*

Social and Persuasive Argumentation over Organized Actions .................................................. 22  
*Maxime Morge*

MAgtALO: An Agent-Based System for Persuasive Online Interaction ........................................ 29  
*Simon Wells & Chris Reed*

When the experiment is over: Deploying an incentive system to all the users ................................. 33  
*Rosta Farzan, Joan M. DiMicco, David R. Millen, Beth Brownholtz, Werner Geyer & Casey Dugan*

Encouraging Community Spirit with Situated Displays ................................................................. 39  
*Nick Taylor, Mark Rouncefield, Keith Cheverst & Shahram Izadi*

A Dominance Model for the Calculation of Decoy Products in Recommendation Environments .................. 43  
*A. Felfernig, B. Gula, G. Leitner, M. Maier, R. Melcher, S. Schippel, E. C. Teppan*

Persuasion Technology Through Mechanical Sophistry ................................................................. 51  
*Micah Clark & Selmer Bringsjord*

Persuasive gaze in political discourse ............................................................................... 55  
*Isabella Poggi & Laura Vincze*

Persuasive technology for shaping social beliefs of rural women: Development of group based health information kiosk ................................................................. 63  
*Vikram Parmar*
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Behaviour Regulation in Multi-agent Systems

Affective Language in Human and Machine

Aberdeen, United Kingdom
1-4 April 2008

Volume 4 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ................................................................. iii
Nir Oren & Michael Luck

Modelling MAS with Finite Analytic Stochastic Processes ...................... 1
Lake Dickens, Krysia Broda & Alessandra Russo

Automated Mechanism Design Using Process Algebra ......................... 8
Emmanuel M. Tadjouddine

Using Recency and Relevance to Assess Trust and Reputation .................. 13
Sarah N. Lim Choi Keung & Nathan Griffiths

Modelling and Administration of Contract-Based Systems ...................... 19
Simon Miles, Nir Oren, Mike Luck, Sanjay Modgil, Noura Faci, Camden Holt & Gary Vickers

Cooperation through Tags and Context Awareness .............................. 25
Nathan Griffiths

An Argumentation-based Computational Model of Trust for Negotiation ........ 31
Maxime Morge

Handling Mitigating Circumstances for Electronic Contracts .................. 37
Simon Miles, Paul Groth & Michael Luck

Automated Requirements-Driven Definition of Norms for the Regulation of Behavior in Multi-Agent Systems .... 43
Martin Kollingbaum, Ivan Jureta, Wamberto Vasconcelos, Katia Sycara

Intelligent Contracting Agents Language ....................................... 49
Sofia Panagiotidi, Javier Vazquez-Salceda, Sergio Alvarez-Napagao, Sandra Oriega-Martorell, Steven Willmott, Roberto Confalonieri & Patrick Storms

Argumentation for Normative Reasoning ....................................... 55
Nir Oren, Michael Luck & Timothy Norman
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Affective Language in Human and Machine

Aberdeen, United Kingdom
1-4 April 2008

Volume 5 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention .................................................................................... ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ......................................................................................... iii
Slawomir J. Nasuto & Faustina Hwang

Brain Computer Interfaces: Psychology and Pragmatic Perspectives for the Future ........................................... 1
Ray Adams, Gisela Susanne Bahr & Benigno Moreno

Toward Construction of an Inexpensive Brain Computer Interface for Goal Oriented Applications ................. 7
Anthony J. Portelli & Slawomir J. Nasuto

Single-Trial Event-Related Potential Analysis for Brain-Computer Interfaces .................................................... 13
Nicoletta Nicolaou, Slawomir J. Nasuto & J. Georgiou

Adaptive Brain-Body Interfaces ........................................................................ 20
Paul Gnanayutham & Jennifer George

Towards natural human computer interaction in BCI .................................................. 26
Ian Daly, Slawomir J Nasuto & Kevin Warwick

BrainGain: BCI for HCI and Games ................................................................... 32
Anton Nijholt, Jan B.F. van Erp, Dirk Heylen
Agent Cognitive Ability and Orders of Emergence

Aberdeen, United Kingdom
1-4 April 2008

Volume 6 of 12
## Contents

The AISB’08 Convention ................................................................. ii  
*Frank Guerin & Wamberto Vasconcelos*

Symposium Preface ................................................................. iii  
*Chris Goldspink & Nigel Gilbert*

Control over Emergence .......................................................... 1  
*Martijn Helmhout, Henk Gazendam & René Jorna*

Cognitive architectures of agent systems and social mechanisms of emergence and immergence .................. 9  
*Martin Neumann*

*Paul Ormerod*

Agent Cognitive capabilities and Orders of Emergence: critical thresholds relevant to the simulation of social behaviours 21  
*Chris Goldspink & Robert Kay*

Formalizing Epistemological Constituents of Emergence ................................................................. 30  
*Raif Serkan Albayrak & Ahmet Suerdem*

A Brief Survey of Some Results on Mechanisms and Emergent Outcomes .............................................. 38  
*Bruce Edmonds*
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Style in Text: Creative Generation and Identification of Authorship

Aberdeen, United Kingdom
1-4 April 2008

Volume 7 of 12
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ................................................................. iii
Rodger Kibble & Sarah Rauchas

Revisiting the Donation of Constantine ........................................ 1
Francesca Frontini, Gerard Lynch & Carl Vogel

A Hybrid Statistical-Linguistic Model of Style Shifting in Literary Translation ......................................................... 10
Meng Ji

Style Variation in Cooking Recipes ............................................. 14
Jing Lin, Chris Mellish & Ehud Reiter

The Authorship of The American Declaration of Independence ............................................................... 19
Peter W.H. Smith & David A. Rickards

Three Approaches to Generating Texts in Different Styles ................ 26
Ehud Reiter & Sandra Williams
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ................................................................. iii
Flávio Soares Corrêa da Silva & Stefania Bandini

Institutional Social Networks for Ambient Intelligence ....................... 1
Guido Boella, Leendert van der Torre & Serena Villata

Smarts Agents and Smarts Environments: a Predictive Approach to Replanning ........................................... 7
Alfredo Garro, Sergio Greco & Fabio Palopoli

Semantic Web Services for Intelligent Responsive Environments ............ 13
Christian Alberto Noriega Guerra & Flávio Soares Corrêa da Silva

A Middleware for Smart Environments ......................................... 22
Christian Alberto Noriega Guerra & Flávio Soares Corrêa da Silva
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Logic and the Simulation of Interaction and Reasoning

Aberdeen, United Kingdom
1-4 April 2008

Volume 9 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ......................................................................... iii
Benedikt Löwe

Logics of Interaction, Coalitions and Social Choice ........................................... 1
Thomas Ågotnes, Wiebe van der Hoek & Michael Wooldridge

Simulating Rational Goal-Directed Behaviour Using a Logic-Based Programming Language for Multi-Agent Systems 6
Rafael H. Bordini

Interpreting Product Update as Reasoning about Observations and Meta-Observations 8
Jan Broersen

Coupled MMASS: A Formal Model for Non-deterministic Multi-agent Simulations 11
Flavio S Correia da Silva, Giuseppe Vizzari & Alessandro Mosca

Gwendolen: A BDI Language for Verifiable Agents ............................................. 16
Louise A. Dennis & Bernd Farwer

Theory and Practice of Social Reasoning: Experiences with the iCat .......................... 24
Frank Dignum, Bas Steunebrink, Nieske Vergunst, Christian Mol & John-Jules Meyer

How can machines reason with diagrams? ...................................................... 26
Mateja Jamnik

Open Problems in Simulation and Story Analysis .............................................. 28
Ethan Kennerly

A Perception Oriented MAS Model with Hybrid Commonsense Spatial Reasoning ........................................ 32
Stefania Bandini, Alessandro Mosca, Matteo Palmonari & Giuseppe Vizzari

Don’t Give Yourself Away: Cooperative Behaviour Revisited .................................. 41
Anton Nijholt

Private Information and Inference about Inference ........................................... 47
Sobei H. Oda, Gen Masumoto & Hiroyasu Yoneda

Addressing NP-Complete Puzzles with Monte-Carlo Methods .............................. 55
Maarten P.D. Schadd, Mark H.M. Winands, H. Jaap van den Herik & Huib Aldewereld

Experimental Computational Philosophy: shedding new lights on (old) philosophical debates .......................... 62
Vincent Wiegel, Jan van den Berg

Higher-Order Knowledge in Computer Games .................................................. 68
Andreas Witzel & Jonathan A. Zvesper
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Multimodal Output Generation

Aberdeen, United Kingdom
1-4 April 2008

Volume 10 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ................................................................. iii
Mariët Theune, Ielka van der Sluis, Yulia Bachvarova & Elisabeth André

Automated Multimodal Generation in Context-Sensitive Information Systems ........................................ 1
Michelle Zhou

Knowledge-based Modality Selection for Information Presentation in a Mobile System for Primary Homecare .... 2
Flavio Soares Correia da Silva

Modality planning for preventing tunnel vision in crisis management .............................................. 6
Yuja Cao & Anton Nijholt

How Do I Address You? Modelling addressing behaviour based on an analysis of multi-modal corpora of conversational discourse .................................................................................. 10
Rieks op den Akker and Mariët Theune

Automatic Generation of Gaze and Gestures for Dialogues between Embodied Conversational Agents: System Description and Study on Gaze Behavior .............................................. 18
Werner Breitfuss, Helmut Prendinger & Mitsuru Ishizuka

A Scene Corpus for Training and Testing Spatial Communication Systems ........................................ 26
Michael Barclay & Antony Galton

Towards a Balanced Corpus of Multimodal Referring Expressions in Dialogue .................................... 30
Ielka van der Sluis, Paul Piwek, Albert Gatt & Adrian Bangerter

Illustrating Answers: An Evaluation of Automatically Retrieved Illustrations of Answers to Medical Questions ...... 34
Wauter Bosma, Mariët Theune, Charlotte van Hooijdonk, Emiel Krahmer & Fons Maes

Simulation-based Learning of Optimal Multimodal Presentation Strategies from Wizard-of-Oz data .............. 42
Verena Rieser & Oliver Lemon

Three Output Planning Strategies for Use in Context-aware Computing Scenarios .................................. 46
Gerrit Kahl, Rainer Wasinger, Tim Schwartz & Lá».mora Spassova

Pragmatics and Human Factors for Intelligent Multimedia Presentation: A Synthesis and a Set of Principles ..... 50
Frédéric Landragin

Web experience as an expansion: a perspective on covert sales from multimodal discourse analysis ........... 58
Arianna Maiorani

Multimodal content representation for speech and gesture production ................................................ 61
Kirsten Bergmann & Stefan Kopp

ECA gesture strategies for robust SLDSs ......................................................................................... 69
Beatriz López, Álvaro Hernández, David Pardo, Raul Santos & Maria del Carmen Rodríguez
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Swarm Intelligence Algorithms and Applications

Aberdeen, United Kingdom
1-4 April 2008

Volume 11 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention ................................................................. ii
Frank Guerin & Wamberto Vasconcelos

Symposium Preface ................................................................. iii
Aladdin Ayesh

Visualizing Bacteria Quorum Sensing ........................................... 1
Maria Schwarz, Daniela Romano & Marian Gheorghe

Trained Particle Swarm Optimization for Ad-Hoc Collaborative Computing Networks ......................... 7
Shahin Gheitanchi, Falah Ali & Elias Stipidis

Controller-Agent based approach for Solving Distributed Constraint Problem .................................. 12
Sami Al-Maqari & Habib Abdalarb

Introducing Bar Systems: A Class of Swarm Intelligence Optimization Algorithms ....................... 18
Esteve del Acebo & Josep Lluis de la Rosa

A Comparison between GAs and PSO in Training ANN to Model the TE Chemical Process Reactor .... 24
Malik Braik, Alaa Sheta & Amani Arieqat

Real Time Movement Coordination Technique Based on Flocking Behaviour for Multiple Mobile Robots System .................................................. 31
Ghada AlHudhud & Aladdin Ayesh

Aqua Swarms: Design and Implementation of Water Surface AUV ........................................ 38
Mustafa Ozkan Daglioz & Aladdin Ayesh

Ant Colony Optimisation for Large-Scale Water Distribution Network Optimisation ........................ 44
Laura Baker, Ed Keedwell & Mark Randall-Smith

Estimation of Hidden Markov Models Parameters using Differential Evolution ............................ 51
Ángela A. R. Sá, Adriano O. Andrade, Alcimar B. Soares & Slawomir J. Nasuto

Exploration vs. Exploitation in Differential Evolution .......................................................... 57
Ángela A. R. Sá, Adriano O. Andrade, Alcimar B. Soares & Slawomir J. Nasuto

Toward a Unified Framework for Swarm Based Image Analysis .............................................. 64
Walther Fledelius & Brian Mayoh
34th Annual Convention of the Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB 2008)

Brain Computer Interfaces & Human Computer Interaction

Computing & Philosophy

Aberdeen, United Kingdom
1-4 April 2008

Volume 12 of 12

ISBN: 978-1-63266-837-0
Contents

The AISB’08 Convention ................................................................. ii
*Frank Guerin & Wamberto Vasconcelos*

Symposium Preface ................................................................. iii
*Mark Bishop*

What would a Wittgensteinian computational linguistics be like?? .............................................. 1
*Yorick Wilks*

Cognition without content ......................................................... 7
*Paul Schweizer*

Foundations of a Philosophy of Collective Intelligence .......................................................... 12
*Harry Halpin*

Constructivism in AI: Prospects, Progress and Challenges ..................................................... 20
*Frank Guerin*

Social Robotics and the person problem .................................................................................. 28
*Stephen J. Cowley*

The Antiquarian Librarian & the Pedantic Semantic Web Programmer: Trust, logic, knowledge and inference ................................................. 35
*Cate Dowd*

Could a Created Being ever be Creative? Some Philosophical Remarks on Creativity and AI Development ..................................................... 43
*Y. J. Erden*

A Modelling Framework for Functional Imagination ............................................................. 51
*Hugo Gravato Marques, Owen Holland & Richard Newcombe*

The Plaited Structure of Time in Information Technology .................................................... 59
*Ganascia Jean-Gabriel*

Substitution for Fraenkel-Mostowski foundations ................................................................ 65
*Murdoch J. Gabbay & Michael J. Gabbay*
