Design, Construction and Maintenance of Bridges 2014

Selected Papers from the Proceedings of the Geo-Hubei International Conference on Sustainable Infrastructure 2014

Geotechnical Special Publication Number 251

Yichang, Hubei, China
20-22 July 2014

Editors:

Dar Hao Chen          Sarah Skorpen
Shu-Rong Yang         Albert Y. Chen

ISBN: 978-1-63266-969-8
TABLE OF CONTENTS

Vehicle Bridge Resonance Judgment Method for Continuous Rigid Frame System .................................................. 1
   Lingbo Wang, Yinping Ma, Peiwen Jiang

Falling Risk Assessment of Advanced Shoring Method Bridge Construction Projects ............................................. 14
   Tung-Tsan Chen, C.C. Wang

A Probabilistic Approach for Optimal Sensor Placement of Bridge Structures for the Purpose of Structural Model Updating .......................................................................................................................... 22
   Tao Yin

The Risk Assessment to the High Speed Railway Bridge During the Construction of the Underpass Bridge ............................................................................................................................... 30
   He Wei, Mao Jianqiang, Duan Yinlong, Zhou Jun

Research on the Seismic Response and Isolation Effect of the PC Continuous Box Girder Bridge with HDR .................................................................................................................................................. 38
   Yang Yang, Xiongjiang Wang

A New Strut-and-Tie Model for Thick Cap with Six Piles .......................................................................................... 44
   Yu Zhou, GuoLiang Dai

Reverse Time Migration based Ultrasonic Wave Detection for Concrete Structure .................................................. 53
   Mingshan Hu, Shen-en Chen, Dongming Pan

Cable Stayed Bridges; Inspection, Evaluation, and Rehabilitation ........................................................................... 61
   Armin B. Mehrabi

Study on Maintenance and Safety Management of Subway Viaducts Based on the Life Cycle ................................ 69
   Fuqiang Qi

Experimental Study on the Seismic Behavior of RC Columns Reinforced with Fine Grain Steel Bars ........................ 78
   Wenjie Ge, Jiwen Zhang, Dafu Cao, Linglong Pan, Biyuan Wang

Application of Variable Weight Synthetic Evaluation Method in the Constructing Mode Decision of the Evacuation Passageway on High-Speed Railway Bridge .......................................................... 86
   Xiang Qin, Li Yuanfu, Yang Chuangqi

Ambulance Service Area Considering the Disturbance of Disasters on the Transportation Infrastructure ........................ 94
   Albert Y. Chen, Ting-Yi Yu, Wen-Ling Chuang, Jihn-Sung Lai, Chin-Hsun Yeh, Heui-Ming Mathew Ma, Wei-Zen Sun
