# Table of Contents

**Highway Pavements: Design, Materials, and Construction**

**Asphalt Pavement**

- **Open-graded Aggregate Base (OGAB) Controlling Subsurface Moisture Regime and Structural Stability from MnROAD Instrumentation Data**
  Yuanjie Xiao, Erol Tutumluer, and W. James Wilde
  - 1

- **Volumetric Properties of Superpave Mixtures with Reclaimed Asphalt Pavement**
  Nassim Sabhafer and M. Hossain
  - 14

- **Estimate of Resilient Modulus of Graded Aggregate Base in Flexible Pavement**
  Sung-Hee Kim, Jidong Yang, and Samuel Beadles
  - 24

- **Correlation of Semi-circular Bending and Beam Fatigue Fracture Properties of Asphalt Concrete Using Non-Contact Camera and Crosshead Movement**
  Shadi Saadeh, Hamed Hakimelahi, and John Harvey
  - 39

**Asphalt Mixtures I**

- **Accelerated Life Modeling of Superpave Mixtures**
  C. Manandhar, M. Hossain, P. Nelson, and C. Hobson
  - 49

- **Asphalt Pavement Analyzer Sensitivity to Specimen Preparation Procedures and Testing Parameters**
  John F. Rushing, Jesse D. Doyle, and Mariely Mejías-Santiago
  - 59

- **Performance Evaluation of Low Volume Flexible Pavements - A Case Study**
  N. R. Avinash, H. N. Vinay, D. Prasad, S. V. Dinesh, and J. K. Dattatreya
  - 69

**Rigid Pavement**

- **A Test Method to Measure the Freeze Thaw Durability of Fresh Concrete Using Overpressure**
  M. Tyler Ley and Bradden Tabb
  - 79

- **Effect of Localized Friction Changes in the Layer Interface on Formation of Y-Cracks in CRCPs**
  A. F. Momeni, K. A. Riding, and D. Peric
  - 88

- **Local Calibration of Rigid Pavement Cracking Model in the New Mechanistic-Empirical Pavement Design Guide using Bootstrapping**
  Syed W. Haider, Wouter C. Brink, and Neeraj Buch
  - 100

**Rigid Pavement and Evaluation**

- **Prevention and Mitigation of ASR in Median Barriers with Varying Degrees of**
  - 111
Damage
R. A. Deschenes Jr., C. D. Murray, and W. M. Hale

Issues Related to Pavement Rehabilitation Design Options in the New Mechanistic-Empirical Pavement Design Guide
Syed W. Haider, Wouter C. Brink, Neeraj Buch, and Karim Chatti

Highway Materials

Red Bus Lane Treatment Evaluation
Steven P. Scalici, William Carry Sr., Eric Donnell, Zoltan Rado, and Martin R. Hartmann

Effect of Installation Parameters on Performance of Hot-Poured Crack Sealants
Pranshoo Solanki, Hasan Ozer, Seyed Saleh Yousefi, and Imad L. Al-Qadi

Clogging Potential of Recycled Concrete in Road Drainage
Zachary Behring, BooHyun Nam, Jinyoung Kim, Manoj Chopra, and John Shoucair

Effects of Aggregate Mineralogy on the Thermal Expansion Behavior of Concrete
Kazi Tasneem, Sung-Hee Kim, Jinyoung Kim, Boo Hyun Nam, and Youngjoo Park

Contemporary Pavement Issues

Condition Assessment Using Ride Quality

Pavement ME Design Distress Modeling for Oklahoma
Kelvin C. P. Wang, Qiang Joshua Li, Stephen A. Cross, and Jeff Dean

Traffic Loading Spectra Characterization for Pavement ME Design in A Production Environment
Qiang Joshua Li, Kelvin C. P. Wang, Cheng Chen, Vu Nguyen, and Zhongjie “Doc” Zhang

Asphalt Mixtures II

Laboratory and Field Toughening Characteristics of Fiber Reinforced Hot-Mix Asphalt Mixtures
Byung Sik Ohm, Ji Young Choi, Booil Kim, and Pyeong Jun Yoo

Assessing the Rut Performance of Warm Mixes in North Dakota
N. Suleiman and S. Mandal

Evaluation of Foam-based Warm Mix Asphalt Modified with Nano-sized Hydrated Lime Using Multiple Creep and Recovery Tests
Aboelkasim Diab and Zhanping You

Comparison of Performance Properties of Terminal Blend Tire Rubber and Polymer Modified Asphalt Mixtures
Alireza Zeinali, Phillip B. Blankenship, and Kamyar C. Mahboub

Pavement Materials and Evaluation
Effects of Existing Condition and Overlay Property on Asphalt Overlay Design and Performance 249
Hao Wang and Jiao Nie

Rolling Wheel Deflectometer for Pavement Evaluation 259
Paul W. Wilke

Evaluation of Long-Term Pavement Performance Based on New Mexico LTPP SPS5 Data 269
Umme Amina Mannan and Rafiqul A. Tarefder

Image-Based Modeling of the Dynamic Complex Modulus Test for Asphalt Concrete 280
Hao Ying, Mostafa A. Elseifi, Louay N. Mohammad, and Marwa Hassan

SMA Mixtures with Modified Asphalt and Treated Aggregates 290
Goutham Sarang, Lekha B. M., Monisha M., and Ravi Shankar A. U.

Transportation Operations and Safety

Roundabout Design Considerations

Analysis of Fuel Consumption and Emissions at Roundabout with Slip Lane, Using SIDRA and Validation by MOVES Simulation 300
Majed Al-Ghandour

A Decision Analysis Tool: Experimental Analysis of Roundabout Slip Lanes under Unbalanced Traffic Volumes 311
Majed Al-Ghandour

Safety Performance and Risk Management for Highways

Safety Performance Functions for Florida’s Freeways 321
J. Lu, K. Haleem, A. Gan, and P. Alluri

Roadway Safety Evaluation

Wrong-Way Driving Incidents on Central Florida Toll Road Network, Phase-1 Study: An Investigation into the Extent of this Problem? 332
John H. Rogers, Haitham Al-Deek, and Adrian Sandt

Safety Experience of Young Drivers in Comparison to Experienced Drivers 344
Sunanda Dissanayake and Niranga Amarasingha

Improving Safety at Unsignalized Rural Intersections in Kansas 356
Alireza Shams and Sunanda Dissanayake

Microscopic Analysis for Accident Data at Railroad Grade Crossings 366
J. C. Medina, S. Shen, and R. F. Benekohal

Design Parameters for Signalized Intersections
Investigation the Effect of Heavy Vehicles on Capacity of Signalized Intersections Based on Bayes' Theorem
K. Ghasemlou, A. Topal, S. Tanyel, M. M. Aydin, and A. A. Kazemi Afshar

Field Evaluation of a SynchroGreen Adaptive Signal System
J. So, A. Stevanovic, E. Posadas, and R. Awwad

INTQ: A Mesoscopic Simulation to Analyze Intermittent Queues in Work Zones
Hani Ramezani and Rahim F. Benekohal

Analyzing Pedestrian Behavior during Exclusive Pedestrian Phases for Improved Intersection Signal Timing
J. C. Medina, E. G. Lo, and R. F. Benekohal

Modern Highway Design, Construction, and Operations

Guidelines for Mobility-based Work Zone Performance Specifications
Shawn J. Larson, Mitsuru Saito, and Grant G. Schultz

Easing Congestion with Pedestrian Crossing at Midblock
Md. Shoaib Chowdhury

Analysis of Pedestrian Safety

Funding Road Safety Programs and Projects in Bangladesh
Md. Shoaib Chowdhury

Analysis of Factors Influencing Pedestrian Injury Severity in Pedestrian-Vehicle Crashes
Yinan Zheng

Pedestrian Safety at Signalized Intersections
Priyanka Alluri, Albert Gan, and Kirolos Haleem

Highway Safety Analysis

Creating a Case Study to Teach Systematic Safety Analysis Using SafetyAnalyst
Peter C. Kelly, Mitsuru Saito, and Grant G. Schultz

GIS Framework for Hierarchical Bayesian based Crash Data Analysis
Grant G. Schultz, Clancy W. Black, and Mitsuru Saito

Exploration of Fractal Characteristics in Crash Data
K. Haleem, A. Gan, and P. Alluri

Cross-cutting Themes: Advanced Technologies, Infrastructure Systems, Intermodal Transportation, Planning, and Development

Advanced Technologies for Transportation Applications
Automated Joint Faulting Measurement Using 3D Pavement Texture Data at 1 mm Resolution
Kelvin Wang, Lin Li, and Joshua Q. Li

Hydroplaning Risk Evaluation of Highway Pavements based on IMU and 1 mm 3D Texture Data
Kelvin C. P. Wang, Wenting Luo, and Joshua Q. Li

A Case Study: Geotechnical Instrumentation for Automated People Mover Tunnel at the World’s Busiest Airport
Vissu Dokka, W. Allen Marr, Kathy Masters, and Subash Kuchikulla

Analysis of Transportation Infrastructure Damages and Fees Due to Overweight Trucks

Simulation Modeling of Dynamic Response of Vehicles to Different Types of Speed Control Humps
Ali Abdi Kordani, Amirarsalan Mehrara Molan, Saeed Monajjem, and Eazaz Sadeghvaziri

Advancements in Infrastructure Management

Automatic Crack Detection by Multi-Seeding Fusion on 1mm Resolution 3D Pavement Images
Bo Peng, Kelvin C. P. Wang, and Cheng Chen

Use of Cellphone Application to Measure Pavement Roughness
Shahidul Islam, William G. Buttlar, Roberto G. Aldunate, and William R. Vavrik

Pavement Condition Monitoring of Ultra-Thin Unbonded Concrete Overlay Using Fiber Reinforced Polymer Packaged Fiber Bragg Grating Sensors
Ying Huang, Leonard Palek, Robert Strommen, and Ben Worel

Advances in 3D modeling of Existing Subsurface Utilities
Carlo Pilia and James H. Anspach

Geometric Design Considerations

Technology Transfer Centre Activities for Developing Transportation Engineering Professionals - A Case of Botswana
Adewole Simon Oladele

New Formulas of Side Friction Factor Based on Three-Dimensional Model in Horizontal Curves for Various Vehicles
Ali Abdi Kordani, Amirarsalan Mehrara Molan, and Saeed Monajjem

Finance, Construction, and Operation of Infrastructure Systems

Assessing the Financial Feasibility of Availability Payment PPP Projects
Goran Mladenovic and Cesar Queiroz

Estimation of Highway Project Duration at the Planning Stage and Analysis of Risk Factors Leading To Time Overrun
Sidra Kaleem, Muhammad Irfan, and Hamza F. Gabriel
Case Studies in Urban Development

**Building Stakeholders Consensus in Transportation Projects via Multi-Criteria Decision Analysis Methods**  
Dima Jawad and Leila El Sayed

**Using the Transportation Performance Index to Understand the Impact of Regional Plans**  
Sue McNeil, Farzana Atique, Ryan Burke, and Susanne Trimbath

Resiliency and Reliability of Transportation Infrastructure

**Transportation Infrastructure Resiliency Guidelines for the Port Authority of New York & New Jersey**  
Susanne DesRoches and Scott Murrell

**Assessment of Transportation System Reliability at Link-, Corridor- and Area-level**  
Srinivas S. Pulugurtha and Venkata R. Duddu

Transportation Infrastructure Performance

**Performance Measurement for Transportation Infrastructure: The Paradigm for Transportation Planning in the 21st Century**  
David S. Heller

**Creating a Climate Zone Map for Mechanistic Empirical Pavement Designs**  
N. Bandara, S. Henson, and K. Klieber

**Performance of Ultra-Thin Bituminous Overlays**  
Haritha Musty and Mustaque Hossain

**Pavement Noise Analysis of Pavement Preservation Techniques in New Jersey**  
John Hencken, Edwin Haas III, Michael Tulanowski, and Thomas Bennert

Technology Transfer in Transportation Engineering

**Delivering Transportation Projects In A Digital World**  
Danny L. Kahler

**Sensitivity of Reinforcement Learning Agents to Aggregated Sensor Data in Congested Traffic Networks**  
J. C. Medina and R. F. Benekohal

Rail and Transit

Transit and the Behavior of Regional Transportation Systems

**The Emirates Air Line Cable Car an Innovative, Urban Transportation System**  
Alfred Fruehwirth and Johannes Winter
The LYMMO BRT 15 Years Later
Brian Pessaro and Martin Catala

High Speed Rail Another Look
Herbert S. Levinson and John Allen

Rail and Transit Performance Analysis

Performance Indicators for Rail Transport System in Nigeria.
Joyce O. Onatere, Christopher Nwagboso, and Panagiotis Georgakis

Optimizing Ultrasonic Rail Defect Inspection to Improve Transportation Safety and Efficiency
X. Liu, C. T. Dick, and M. R. Saat

Enhancing and Providing Safety in Transit Facility Design Using Pedestrian Simulation
Steven P. Scalici and Han Pham

Buses as Probe Vehicles for Travel Time Data Collection on Urban Arterials
Srinivas S. Pulugurtha, Ravi K. Puvvala, Rahul C. Pinnamaneni, Venkata R. Duddu, and Pooya Najaf

Evaluating the Performance of Innovative Intersections in Potential Transit Oriented Development Environments
Ivana Tasic and Milan Zlatkovic

Aviation

Airfield Pavement Design

D-Cracking Rehabilitation at Kansas City International
Jason Fuehne and Chris Decker

Correlation between Subgrade Reaction Modulus and CBR for Airport Pavement Subgrades
K. Tuleubekov and D. R. Brill

Airfield Planning and Safety Considerations

Least Cost Solution for “Short-Haul” Fights from Regional Airports to Dallas/Fort Worth International Airport (DFW)
Ziaur Rahman, Stephen P. Mattingly, and Saty D. Satyamurti

Airfield Master Plan for McMurdo Station, Antarctica
R. G. Thuma, D. R. Gregory, and R. Haehnel

Challenges and Recommendations for Secondary and Small Airports in the Presence of Low-Cost Carriers, Based on Case Studies in California
Senanu Ashiabor and Wenbin Wei

Industry Best Practice for Airport Construction Safety and Phasing Plans
(CSPPs)
Joshua J. Horst and Patrick S. Murray

**Sustainability and Construction of Airfield Pavements**

*Key Components for the Effective Management of Airport Assets*  
David K. Hein  
869

*Funding Airport Ground Access Projects: Two Case Studies*  
Geoffrey D. Gosling  
882

**Case Studies for Airfield Construction**

*Case Study: Applying New Airport Design Standards*  
Angela Franklin and J. Gregory Huntley  
894
