2014 IEEE Fourth International Workshop on Empirical Requirements Engineering

(EmpiRE 2014)

Karlskrona, Sweden
25 August 2014
# Contents

## Frontmatter
Preface .................................................. iii

## Evidence of State of the Art RE Practices
A Review of Practice and Problems in Requirements Engineering in Small and Medium Software Enterprises in Thailand
Supha Khankaew and Stephen Riddle — Newcastle University, UK ........................................ 1

Systematic Reviews in Requirements Engineering: A Tertiary Study
Muneera Bano, Didar Zowghi, and Naveed Ikram — University of Technology Sydney, Australia; Riphah International University, Pakistan .......................................................... 9

How Smartphone Users Assess the Value/Risk Trade-Off of Apps: An Observational Study
Mariano Ceccato, Alessandro Marchetto, Anna Perini, and Angelo Susi — Fondazione Bruno Kessler, Italy ........... 17

## Security Requirements
Matteo Giacalone, Rocco Mammoliti, Fabio Massacci, Federica Paci, Rodolfo Perugino, and Claudio Selli — Poste Italiane, Italy; University of Trento, Italy .................................................. 25

An Experiment on Comparing Textual vs. Visual Industrial Methods for Security Risk Assessment
Katsiaryna Labunets, Federica Paci, Fabio Massacci, and Raminder Ruprai — University of Trento, Italy; National Grid, UK 28

Security Requirement Elicitation Techniques: The Comparison of Misuse Cases and Issue Based Information Systems
Naveed Ikram, Surayya Siddiqui, and Naurin Farooq Khan — Riphah International University, Pakistan; International Islamic University, Pakistan .......................................................... 36

## Validation Studies
An Experiment Design for Validating a Test Case Generation Strategy from Requirements Models
Maria Fernanda Granda — University of Cuenca, Ecuador; Universidad Politécnica de Valencia, Spain ................. 44

A Framework for Understanding Collaborative Creativity in Requirements Engineering: Empirical Validation
Martin Mahaux, Lemai Nguyen, Luisa Mich, and Alistair Mavin — University of Namur, Belgium; Deakin University, Australia; University of Trento, Italy; Rolls Royce, UK ................. 48

Eliciting Contextual Requirements at Design Time: A Case Study
Alessia Knauss, Daniela Damian, and Kurt Schneider — University of Victoria, Canada; Leibniz Universität Hannover, Germany 56

## Stakeholders and User Involvement
What Stakeholders Need to Know about Requirements
Walid Maalej, Zijad Kurtanović, and Alexander Felfernig — University of Hamburg, Germany; Graz University of Technology, Austria .......................................................... 64

A Framework to Resolve Requirements Engineering Issues in Software Development Outsourcing
Javed Iqbal, Rodina Ahmed, and Sabrina Marczak — University of Malaya, Malaysia; PUCRS, Brazil ................. 72

Users’ Voice and Service Selection: An Empirical Study
Muneera Bano and Didar Zowghi — University of Technology Sydney, Australia ........................................... 76
