2014 IEEE 1st International Workshop on Requirements Engineering and Testing

(RET 2014)

Karlskrona, Sweden
26 August 2014
Contents

Frontmatter
Preface ........................................................................................................................................ iii

RET Challenges and Practices
On the Delicate Balance between RE and Testing: Experiences from a Large Company
Krzysztof Wnuk, Linus Ahlberg, and Johannes Persson — Lund University, Sweden .............................. 1
Revisiting the Challenges in Aligning RE and V&V: Experiences from the Public Sector
Jacob Larsson and Markus Borg — Capgemini, Sweden; Lund University, Sweden ............................... 4

Testers Learning Requirements
Hans Hartmann — OBJENTIS Software Integration, Austria ................................................................. 12

A/B Testing: A Promising Tool for Customer Value Evaluation
Peitsa Hynninen and Marjo Kauppinen — Aalto University, Finland ...................................................... 16

Quality Requirements
Verifying Security Requirements using Model Checking Technique for UML-Based Requirements Specification
Yoshitaka Aoki and Saeko Matsuura — Shibaura Institute of Technology, Japan ................................. 18

Using Automated Tests for Communicating and Verifying Non-functional Requirements
Robert Lagerstedt — Sony Mobile Communications, Sweden ................................................................. 26

Position on Metrics for Security in Requirements Engineering
Mahwish Kundi and Ruzanna Chitchyan — University of Leicester, UK ................................................... 29

Formal Languages and Models
C&L: Generating Model Based Test Cases from Natural Language Requirements Descriptions
Edgar Sarmiento, Julio Cesar Sampaio do Prado Leite, and Eduardo Almentero — PUC-Rio, Brazil; Federal Rural University of Rio de Janeiro, Brazil ................................................................. 32

Towards the Automated Generation of Abstract Test Cases from Requirements Models
Maria Fernanda Granda, Nelly Condori-Fernández, Tanja E. J. Vos, and Oscar Pastor — University of Cuenca, Ecuador; VU University Amsterdam, Netherlands; Universidad Politécnica de Valencia, Spain ......................................................... 39

The Observer-Based Technique for Requirements Validation in Embedded Real-Time Systems
Jiale Zhou, Yue Lu, and Kristina Lundqvist — Mälardalen University, Sweden ......................................... 47
