# TABLE OF CONTENTS

## VOLUME 1

A Comparative Analysis on Carbon Emission Effect of Trade in Eastern, Middle and Western Regions in China ........................................ 1  
Zaxa Gu, Juan Li

The Progress of Construction of Compiling Technology Course Based on Different Methods ......................................................... 5  
Na Wang, Shining Zhang

Study on the Negative Influence of Mobile Phone Media on Student from Ethnic Universities and Colleges and Its Countermeasures .................................................. 10  
Mengtian Cui

Anxiety and Executive Function Relations Review .......................................................................................................................... 14  
Xi-Ling Dang

The Important Role of Process Evaluation Mechanism in College English Teaching .............................................................. 17  
Xiang-Feng Guan

Developing Mathematical Thinking and Innovation Capability of Students in Engineering Mechanics Teaching ........................... 21  
Yan-Xia Wang, Qing-Hui Shang

Evaluation of the Cooperative Education Based on BP Neural Network-an Empirical Research .................................................... 25  
Yu Tian, Peng Yang

The Identity-embedded Technology in the Application of the IPTV Regulatory Platform ............................................................. 29  
Xu Lu, Hongwei Ding, Xiang Li, Yong Wang, Jia Guo, Haiying Deng

Analysis of Knowledge Structure on Trade and Environment Issue .................................................................................................. 34  
Jun Shen, Huan Jiang, Zu-Sha Gu

Research on Teaching Reform and Practice of Computer Application Foundation Course .......................................................... 39  
Yaping Wu, Liping Li

Information System Management on Concept-Reasoning of Preschool Education Field: Independent Learning ....................... 44  
Jian-Wu Pu

Case Teaching of Maximum Power Transfer Theorem in PV Power System .................................................................................. 49  
Jiyong Li, Dongmei Wei, Yan Huang

On the Reform of Teaching Approaches to Circuit and the Improvement of Students' Individual Abilities .................................. 53  
Dongmei Wei, Jiyong Li, Xiaoqiang Xiong, Wenping Gong, Hui Li

Empirical Study on 3R Strategies in Foreign Language Education ................................................................................................... 57  
Zhong-Xia Liu

Teaching Quality Evaluation of University Teachers Based on Factor Analysis-an Empirical Research .................................. 61  
Peng Yang, Ya Tian, Na Zhang

Small Spoken Corpus and Oral English Classroom .......................................................................................................................... 65  
Na Li

Research of China High Education Exam Form ................................................................................................................................. 69  
Mingqi Wu

The Research on Imputation Principle of School Sports Injury Accident .......................................................................................... 73  
Xiao-Hua Ma

Research and Practice of Teaching Activity Integrating Scientific Research Methods into Material Thermodynamics .......... 77  
Jun Zhang, Na Peng, Meihan Wang, Shilu Zhao

Exploration of National Quality course for Agricultural Mechanics .................................................................................................. 81  
Dangyang Feng, Daolin Zhang, Chanyan Jiang, Pengxiao Meng

Analysis of Administrative Culture Research from the Aspect of Bibliometrics ............................................................................ 85  
Zhao-Hua Sun, Jing Chen, Qiang-Nan Li

Application of Solidworks in Mechanical Design and Drafting Courses ........................................................................................... 90  
Shixin Pei, Fenpeng Cui, Faxun Chu

Exploratory Analysis on Core Competence Measures of Design Discipline ..................................................................................... 94  
Weijun Zhao, Tian Wang

A Literature Review of MOOC ........................................................................................................................................................... 98  
Yue Cai, Lian-Sheng Yang

The Practical Study On Morality Class Using Modern Education Technology ................................................................. 102  
Na Zhang

Research on the Multidimensional Interactive Foreign Language Teaching Model Based on the Network Information Technology ........................................................................... 106  
Bo Zhang, Bai Qin

Study on Micro-teaching Instructional Design Based on Cognitive Rules .......................................................................................... 110  
Zhao Qinghui, Siyuan Lu

The Integrated Research of university Literature Teaching and the Modern Information Technology Resources .......................... 114  
Yanfeng Si, Guangmiao Xu, Chen Ping

About Strengthening and Improving the Study on Bilingual Teaching of College Undergraduates .................................. 118  
Shanshan Xu

An Algebraic Method for Solving a Class of Indefinite Integrals ...................................................................................................... 122  
Fucheng Liao, Xiao Wang, Xuejin Yan, Di Wang
