1st Workshop on Algorithms and Computation

(WALCOM 2007)

Dhaka, Bangladesh
12 February 2007
# Table of Contents

**Plenary Talk**

Inner Rectangular Drawings of Plane Graphs: Application of Graph Drawing to VLSI Layouts ................................................................. 1  
*Takao Nishizeki*

**Invited Talk**

Orthogonal Drawings of Series-Parallel Graphs with Minimum Bends ... 3  
*Xiao Zhou and Takao Nishizeki*

Methods for Searching Mutual Visible Intervals on Moving Objects ...... 13  
*Yoshiyuki Kusakari, Yuta Sugimoto, Junichi Notoya and Masao Kasai*

**Graph Drawings and Graph Algorithms**

Upward Planar Drawings of Series-Parallel Digraphs with Maximum Degree Three ................................................................. 28  
*Md. Abul Hassan Samee and Md. Saidur Rahman*

Computing $\beta$-Drawings of 2-Outerplane Graphs .......................... 46  
*Mohammad Tanvir Irfan and Md. Saidur Rahman*

Minimum Face-Spanning Subgraphs of Plane Graphs ......................... 62  
*Md. Mostofa Ali Patwary and Md. Saidur Rahman*

**Data Structures**

DiskTrie: An Efficient Data Structure Using Flash Memory for Mobile Devices ................................................................. 76  
*N.M. Mosharaf Kabir Choudhury, Md. Mostofa Akbar and M. Kaykobad*

A New Data Structure for Heapsort with Improved Number of Comparisons ................................................................. 88  
*Md. Shahjalal and M. Kaykobad*

**Algorithms**

An Approximation Algorithm for Sorting by Reversals and Transpositions 97  
*Atif Rahman, Swakkhar Shatabda and Masud Hasan*
Pattern Matching in Degenerate DNA/RNA Sequences .......................... 109  
  M. Sohel Rahman, Costas S. Iliopoulos and L. Mouchard  

A Quorum Based Distributed Mutual Exclusion Algorithm for  
Multi-Level Clustered Network Architecture ................................. 121  
  Mohammad Ashiqur Rahman and Md. Mostofa Akbar  

Distribution of Distinguishable Objects to Bins: Generating All  
Distributions ............................................................................. 136  
  Muhammad Abdullah Adnan and Md. Saidur Rahman  

Invited Talk  

Variations of Base Station Placement Problem on the Boundary of a  
Convex Region ........................................................................... 151  
  Gautam K. Das, Sasanka Roy, Sandip Das and Subhas C. Nandy  

Constant Time Generation of Linear Extensions ............................. 153  
  Akimitsu Ono and Shin-ichi Nakano  

Partitioning Graphs of Supply and Demand ................................. 162  
  Takehiro Ito
