# Table of Contents

**SPE-171566-MS**  
**Systematic Study of Bakken Well Performance Over Three Well Completion Design Eras**  
C. Yan, Chengdu University of Technology; G. Luo, C.A. Ehlig-Economides, Texas A&M University

**SPE-171568-MS**  
**Hyperbolic Decline Parameters During and After Linear Flow: Field Example From the Barnett Shale Using Public Data**  
H. Pratikno, ConocoPhillips; D.E. Reese, Consultant; L.E. Summers, ConocoPhillips

**SPE-171569-MS**  
**Viscoelastic Creep of Eagle Ford Shale: Investigating Fluid-Shale Interaction**  
M.M. Almasoodi, Y.N. Abousleiman, S.K. Hoang, University of Oklahoma

**SPE-171571-MS**  
**Dual Application of Polyelectrolyte Complex Nanoparticles as Enzyme Breaker Carriers and Fluid Loss Additives for Fracturing Fluids**  
R. Barati Ghahtaroei, The University of Kansas; C. Bose, The University of Kansas; B. Alshatti, L.M. Swartz, The University of Kansas; A. Gupta, Baker Hughes

**SPE-171572-MS**  
**Temporal Evolution of the Geometrical and Transport Properties of a Fracture-Proppant System under Increasing Mechanical Loading**  
C. Chen, Halliburton Houston; V.N. Martyshevich, P. O’Connell, D. Hu, Halliburton; L. Matzar, Halliburton Energy Services Group

**SPE-171576-MS**  
**Resolving InSitu Stress Regime, Hydraulic Fracture Geometry and Complexity by Comparing Acoustic Well Logging Data Acquired in Horizontal and Vertical Wells in the Montney Formation**  
S. Khalid, K. Faurschou, Y. Qiao, Schlumberger; K. Knox, Devon Canada Corporation

**SPE-171577-MS**  
**Effect of Fracture Surface Roughness and Shear Displacement on Permeability and Proppant Transportation in a Single Fracture**  
A. Raimbay, T. Babadagli, E. Kuru, University of Alberta; K. Develi, Istanbul Technical University

**SPE-171578-MS**  
**A Methodology to Quantify the Impact of Well Interference and Optimize Well Spacing in the Marcellus Shale**  
E. Yaich, O.C. Diaz De Souza, BG Group; R.A. Foster, EXCO Resources Inc.; I.S. Abou-sayed, i-Stimulation Solutions Inc.

**SPE-171579-MS**  
**Characterization of Field Produced Water and Water Treatment Technology of Brine Reject to Meet Boiler Spec**  
R. Ghouti, Kuwait Oil; S. Al-Khaledi, Kuwait Oil Company

**SPE-171580-MS**  
**A New Methodology to Forecast Solution Gas Production in Tight Oil Reservoirs**  
S. Yu, ConocoPhillips Canada

**SPE-171581-MS**  
**Evaluation and Optimization of Proppant Distribution in Multistage Fractured Horizontal Wells: A Simulation Approach**  
A.B. Bokane, Halliburton Technology India Pvt. Ltd, Pune; S. Jain, Halliburton Technology Centre; F. Crespo, Halliburton Production Enhancement

Table of Contents (continued)

SPE-171625-MS
A Geomechanical Model for High-Volume, Proppantless, Slickwater Hydraulic Fracturing Operations in the Tight-Gas Sands of the Williams Fork Formation, Piceance Basin, Colorado
K. Gorynski, K. Wallace, J. Beer, Encana Services Company Ltd

SPE-171626-MS
Factors Controlling Fluid Migration and Distribution in the Eagle Ford Shale
J.R. Vargas, R. Aguilera, University of Calgary

SPE-171627-MS
In-Situ and Induced Stresses in the Development of Unconventional Resources
H. Han, S.M. Higgins, D. Mata, V.M. Gonzales, Schlumberger

SPE-171628-MS
Determining Interwell Connectivity and Reservoir Complexity Through Frac Pressure Hits and Production Interference Analysis

SPE-171629-MS
Does Multi-Entry Multi-Stage Fracturing Sleeve System Improve Production in Bakken Shale Wells Over Other Completion Methods?
A. Eis, Halliburton; B.J. Wellhoefer, Halliburton Energy Services Grp; G.W. Gullickson, Halliburton

SPE-171630-MS
A Correlational Study to Evaluate Minimum Detectable Leak Rate in Gas Wellbores Using Ultrasound Survey
O.S. Awolusi, D. Syvertson, Kinder Morgan Inc.; J.E. Johns, Archer Well Services

SPE-171631-MS
Building Meaningful Upstream Representations for the LNG Supply Chain
G. Kirk, JESI; C.P. Six, Sproule Associates Limited; K. Wieclawek, Sproule

SPE-171632-MS
Dependence of Stress-induced Microseismicity on the Natural Fracture Properties and In-situ Stress
X. Garcia-Tejeiro, Schlumberger Oilfield Plc, UK; A. Rodriguez-Herrera, Schlumberger Oilfield, Plc UK

SPE-171633-MS
Petrophysical and Geomechanical Characteristics of Canadian Tight Oil and Liquid-Rich Gas Reservoirs
A. Ghanizadeh, S. Aquino, University of Calgary; O. Haeri-Ardakani, H. Sanei, Geological Survey of Canada; C. Clarkson, University of Calgary

SPE-171636-MS
A Flowback-Guided Approach for Production Data Analysis in Tight Reservoirs
D.O. Ezulike, H. Dehghanpour, University of Alberta; C.J. Virues, Nexen Energy ULC; R.V. Hawkes, Trican Well Service Ltd.

SPE-171637-MS
Effects of Pore Confinement on Rate-Transient Analysis of Shale Gas Reservoirs
F. Qanbari, B. Haghshenas, C.R. Clarkson, University of Calgary

SPE-171638-MS
Petrophysical Quantification of Multiple Porosities in Shale Petroleum Reservoirs
R. Aguilera, B. Lopez, University of Calgary
**Table of Contents (continued)**

SPE-171640-MS  
**Well Spacing Optimization in Eagle Ford**  
F. Lalehrokh, J. Bouma, Talisman Energy USA

SPE-171641-MS  
**Improvement in Permeability Models for Unconventional Gas Reservoirs and Model Selection Using Statistical Analysis**  
B. Haghshenas, C.R. Clarkson, J. Bergerson, S. Chen, University of Calgary; Z. Pan, CSIRO

SPE-171643-MS  
**Simple Techniques to Identify Reservoir Sweet Spots in Tight Plays**  
M. Cleveland, Talisman Energy Inc; A.J. Cote, Origin energy

SPE-171644-MS  
**Using High-Grading and Portfolio Tools to Allocate Resources Among Shale Play Opportunities**  
L.G. Chorn, J.M. Serice, S.L. Del Rosario-Davis, Halliburton

SPE-171645-MS  
**Maintaining Wellbore Stability and Reducing Cement Left in Pipe (CLIP) Events in the Bakken Shale: An Integrated Approach**  
B.M. Levy, R.H. Williams, Schlumberger; T. Izykowski, Schlumberger DCS Geomechanics; H. Han, Schlumberger Ltd

SPE-171647-MS  
**Understanding the Origin of Flowback Salts: A Laboratory and Field Study**  
A. Zolfaghari Sharak, M. Noel, H. Dehghanpour, University of Alberta; D. Bearinger, Nexen Energy ULC

SPE-171648-MS  
**Understanding the Optimum Fracture Conductivity for Naturally Fractured Shale and Tight Reservoirs**  
M. Gu, Halliburton Energy Services; P.M. Kulkarni, M. Rafiee, E. Ivarrud, Statoil; K.K. Mohanty, University of Texas At Austin

SPE-171650-MS  
**Interrelationship of Weak Organic Acids, Bases, pH and HPLC Analysis Method in Produced Waters**  
M.C. Weissenberger, S. Dhillon, Sanjel Corp

SPE-171651-MS  
**Analysis of Microbes in Hydraulic Fracturing of Montney Tight Gas Formations in Western Canada**  

SPE-171652-MS  
**Integrating Active and Passive Seismic Data to Better Predict Hydraulic Fracturing**  
E. Bathellier, G. Castillo, K. Chesser, CGG; A. Bouziat, CGGVeritas Services SA; G. Oliver, C. Ly, CGG; L. Kuo, Exco Resources

SPE-171653-MS  
**Advances in Understanding Liquid Flow in Gas Shales**  
H. Dehghanpour, E. Ghanbari, M. Xu, University of Alberta; D. Bearinger, Nexen Energy ULC

SPE-171655-MS  
**Horizontal Wells in Western Canada - A Status Update**  
R.K. Dixon, D. Flint, Forward Energy Group Inc
SPE-171656-MS
Analysis of Chemical Tracer Flowback in Unconventional Reservoirs
A. Salman, B. Kurtoglu, Marathon Oil Co; H. Kazemi, Colorado School of Mines

SPE-171657-MS
Multiphase Rate Transient Analysis in Unconventional Reservoirs: Theory and Applications
I. Eker, Colorado School of Mines; B. Kurtoglu, Marathon Oil Co; H. Kazemi, Colorado School of Mines

SPE-171658-MS

SPE-171660-MS
Sequenced Fracture Treatment Diversion Enhances Horizontal Well Completions in the Eagle Ford Shale
A. Viswanathan, Schlumberger Technology Corp.; H.H. Watkins, A. Corman, J. Reese, BHP Billiton Petroleum Americas Inc.; B.V. Sinosic, Schlumberger

SPE-171661-MS
Influence of Friction Reducer on Scale Inhibitor Performance and Scaling Tendency in Slickwater Fracturing
C.Q. Ozuruigbo, Halliburton; C. Fan, Multi-Chem—A Halliburton Service

SPE-171662-MS
Back to the Future: Shale 2.0 - Returning Back to Engineering and Modelling Hydraulic Fractures in Unconventionals With New Seismic to Stimulation Workflows
V. Ramanathan, D. Boskovic, A. Zhmodik, Schlumberger Canada Ltd; Q. Li, Schlumberger Canada Limited; M. Ansarizadeh, Schlumberger

SPE-171664-MS
Integrated Characterization of Hydraulically Fractured Shale Gas Reservoirs Production History Matching
S. Nejadi, J.Y. Leung, J.J. Trivedi, University of Alberta; C.J. Virues, Nexen Energy ULC

SPE-171665-MS
Utilizing Fit-For-Purpose Decision Analysis Techniques to Maximize Value From Unconventionals: Case Studies From the Wolfcamp Play, Permian Basin
J.P. Rexilius, S.J. Prochnow, M.J. Fields, Chevron Corporation; M. Morgan, Chevron

SPE-171667-MS
Benefits of Controlled Hydraulic Fracture Placement: Theory and Field Experiment
J. Desroches, B. Lecampion, H. Ramakrishnan, R. Prioul, J.E. Brown, Schlumberger

SPE-171668-MS
A Rock and Fluid Study of Middle Bakken Formation: Key to Enhanced Oil Recovery
B. Kurtoglu, Marathon Oil Co; H. Kazemi, Colorado School of Mines; R. Rosen, W. Mickelson, T. Kosanke, Marathon Oil Company

SPE-171669-MS
Bilinear Flow in Shale Gas Wells: Fact or Fiction?
M. Kanfar, A.B. Alkouh, R.A. Wattenbarger, Texas A&M University

SPE-171670-MS
Zonal Isolation Technology Case History
R.M. Allen, Baker Hughes Inc; N.C. Tapper, EnCana Oil & Gas Co. Ltd.; C. Gradl, Hess Corp.; S. Agarwal, Hess Corporation; M. Carriere, Baker Hughes
Table of Contents (continued)

SPE-171671-MS
Understanding Water Flood Response in Tight Oil Formations: A Case Study of the Lower Shaunavon

SPE-171673-MS
Estimating Effective Fracture Volume From Early-Time Production Data: A Material Balance Approach
O.A. Adedipe, Y. Xu, H. Dehghanpour, University of Alberta; C.J. Virues, Nexen Energy ULC

SPE-171675-MS
Successful Application of Horizontal Through Pipe Petrophysical Technology to Model the Montney Formation
H. Kramer, T. Yaxley, Roke Technologies Ltd.; S. Haysom, G.A. Nevokshonoff, Seven Generations Energy Ltd; J. Williams, Roke Technologies
