European Distance and E-Learning Network Annual Conference (EDEN 2014)

E-learning at Work and the Workplace – From Education to Employment and Meaningful Work with ICTs

Zagreb, Croatia
10 – 13 June 2014

Editors:
A. M. Teixeira
A. Szucs
I. Mazar

ISBN: 978-1-63439-743-8
# TABLE OF CONTENTS

Work in the Future is Continuous Learning ......................................................................................................................... 1  
Ari-Matti Auvinen, HCI Productions Oy / The Association of Finnish eLearning Centre, Finland

ICT Supported Work-based Conflict Resolution Learning ........................................................................................................ 8  
Alan Bruce, Universal Learning Systems, Ireland, Maria-Antonia Guardiola, Universitat Oberta de Catalunya, Spain

Is the Openness a Problem in Open Workplace-based Training? ..................................................................................... 16  
Ulf Olsson, Stockholm University, Olle Vogel, The Knowledge Foundation, Sweden

Virtual Practical Training in Engineering Fields .................................................................................................................... 21  
Diana Andone, Radu Vasiu, Mihai Onita, Politehnica University of Timisoara, Romania

Comparing Learners’ Perceptions and Expectations in Professional Training and Higher Education: The German Perspective .......................................................................................................................... 30  
Thomas Richter, TELIT @ University of Duisburg Essen, Germany

In Search of Empirical Evidence for a Growth Path to Critical Reflection ........................................................................ 40  
Jean Claude Callens, VIVES, Belgium

Investigating Relationship between Self- and Co-Regulatory Learning Processes in a Workplace e-Learning System .............................................................................................................................. 47  
Ebrahim Rahimi, Delft University of Technology, Sebastiaan Tampinongkol, Achmea Company, Mohammad Sedighi, Jan van den Berg, Wim Veen, Delft University of Technology, The Netherlands

Case Study of Implementing Work Based Learning in the IT Service Management Course .............................................. 61  
Katarina Pažur Aničić, Renata Mekovec, University of Zagreb, Varaždin, Croatia

Evaluating MOOCs – What is Really Happening? .................................................................................................................. 72  
Gráinne Conole, University of Leicester, United Kingdom

Let’s look into the Future! E-learning Trends and Hypes in Academic Teaching .............................................................. 81  
Helge Fischer, Linda Heise, Matthias Heinz, Kathrin Moebius, Thomas Koehler, Technical University Dresden, Germany

How can e-Learning and MOOCs Reveal and Exploit the Hidden Treasures of Open Research and Open Education? ................................................................................................................................. 89  
Christian M. Stracke, International Community for Open Research and Open Education (ICORE) / University of Duisburg-Essen, Germany

Open Learning Arenas with an Open Culture of Sharing – Success Factors ........................................................................... 94  
Ebba Ossiannilsson, Lund University, Sweden

Badging and Employability at the Open University ................................................................................................................ 101  
Patrina Law, Leigh-Anne Perryman, Andrew Law, The Open University, United Kingdom

Success Factors for Virtual Mobility Exchange on “Open Educational Resources” ...................................................... 110  
Airina Volungevičienė, Estela Daukšiūnienė, Vytatus Magnus University, Lithuania, Elena Caldirolo, University of Pavia, Italy, Ignacio J. Blanco, University of Granada, Spain

MOOC Using Existing Open Educational Resources, Setting up Implementation and Review ..................................... 118  
François Kohler, Anne Boyer, Gerard Casanova, Florence Ducreau, Université de Lorraine, France
Widening Creation of Accessible Digital Educational Content: A combined Blended Learning and Massive Open Online Approach ............................................................. 126
Antonio García-Cabot, Eva García-López, University of Alcalá, Spain, Markku Karhu, Helsinki Metropolia University, Finland, António Teixeira, Universidade Aberta & University of Lisbon, Portugal

A MOOC for Entrepreneurship Education, Adopting a Critical Technology. An Experience Carried out at the DHitech Technological District in Apulia (Italy) ................................................................. 134
Antonella Poce, University Roma TRE, Italy

Open Badges for Competence Recognition and Employment Application: Insight from the German Qualification Program “Credit Points” for Migrant Academics .................................................. 141
Ilona Buchem, Beuth University of Applied Sciences Berlin, Germany

cMOOC in e-Learning Design for VET Teachers: Mapping Professional Competences Online .............. 151
Agnieszka Chrząszcz, AGH-University of Science and Technology, Poland, Branka Vuk, Carnet, Croatia

Designing Authentic Learning Activities and Environments: Theory and Practice .................................. 158
Andrea Gregg, Rick Shearer, Heather Dawson, The Pennsylvania State University, United States of America

Tool Use in Computer-Based Learning Environments: Advice and Cognitive Load .............................. 167
Mieke Vandewaetere, Jan Elen, CIP&T, Centre for Instructional Psychology and Technology, KU Leuven, Belgium

Acceptance of Digital Learning Tools in the Context of Non-Traditional Students .............................. 176
Joachim Stöter, Carl von Ossietzky University Oldenburg, Germany

Student and Staff Perceptions of the Use of Multiple Choice Testing in Higher Education Assessments ............................................................................................................... 184
Kay I. Penny, Jacqueline Brodie, Edinburgh Napier University, United Kingdom

Designing and Validating an e-Portfolio Tool for Tracking Teacher Competencies and Development throughout a Career According to EU Principles ...................................................... 193
Katerina Riviou, Ellinogermaniki Agogi, Greece, Rosemary Sage, The College of Teachers at the Institute of Education, United Kingdom

SEQUENT: Supporting QUality in e-learning European NeTworks .............................................. 202
George Ubachs, European Association of Distance Teaching Universities – EADTU, The Netherlands, Anthony F. Camilleri, European Foundation for Quality in eLearning – EFQUEL, Belgium

Developing a Digital Competence Self-Assessment Toolkit for Nursing Students .............................. 206
Evangelinos George, Holley Debbie, Anglia Ruskin University, United Kingdom

The Challenge of the Total Quality Management Approach for the Development of Online and Distance Education .............................................................................................................. 213
Christian-Andreas Schumann, Claudia Tittmann, Jana Weber, Helge Gerischer, West Saxon University of Zwickau, Germany, William Scheller, Kettering University Flint, United States of America, Feng Xiao, Tongji University Shanghai, China

Business Games the Learning by Doing Tool for Business Management .............................................. 223
Luis Toro Dupouy, OBS Online Business School, Spain

Transition from Education to Employment: Creating Meaningful Multilingualism in the European Labour Market with Advanced ICT .............................................................. 230
Hedva Vital, Ha’kibbutzim College, Israel, Alan Bruce, Universal Learning Systems, Ireland

The Circumstances of Using Technological Applications Inside and Outside of the Faculty by Physician and Nurse Candidates ........................................................ 237
Baris Sezer, Hacettepe University, Nurettin Simsek, Ankara University, Turkey
Orbis Dictus – From Lexical Statistical Computation to Natural Language Processing and Self Customisation ............................................................................................................................................................................ 247
Nader A. M. Harb, Francesco Agrusti, Università degli Studi Roma Tre, Italy

Digital Competencies – Collaborating, Working and Learning Across Campuses ............................................................................................................................................................................ 253
Susanne Tellerup, University College Zealand, Denmark

Online or Blended – Comparing Online and Blended Courses ............................................................................................................................................................................ 261
Miki Kritz, Einat Rosner, Miri Shonfeld, Jacob Gujski, Kibbutzim College of Education Technology & Arts, Israel

Online Models for Professional Development of a Distributed Team Using Virtual Tools; The Dyslexia in Modern Languages Project ............................................................................................................................................................................ 270
Sarah Heiser, Matilde Gallardo, Ximena Arias-McLaughlin, The Open University, United Kingdom

Hybrid Learning Environment in Higher Education: Conceptual Model Dimensions of Teachers’ Competence for e-Learning Implementation ............................................................................................................................................................................ 279
Snježana Babić, Polytechnic of Rijeka, Croatia

The Importance of e-Learning in Transforming Organisational Strategies: A Case Study ............................................................................................................................................................................ 289
Sandra Brás, RIPE NCC, The Netherlands, António Teixeira, Universidade Aberta, Portugal

Is There a Correlation between ICT Integration Levels and Learning Organisation Maturity? ............................................................................................................................................................................ 299
Pearse Murphy, Athlone Institute of Technology, Ireland

Collaborative Learning and Knowledge Management ............................................................................................................................................................................ 310
Thomas Harald Schmuck, Peter Haber, Manfred Mayr, Thomas J. Lampoltshammer, Salzburg University of Applied Sciences, Austria

Rethinking Product Development Education Stream within an e-Learning Environment ............................................................................................................................................................................ 318
Mario Štorga, Dorian Marjanović, Stanko Škec, University of Zagreb, Croatia

Promoting Innovative Training & Performance Support at the Manufacturing Workplace. The MAN.TR.A™ Model for LACE Project ............................................................................................................................................................................ 326
Fabrizio Cardinali, Infinity Technology Solutions, sedApta Group, Mehrnoosh Vahdat, University of Genoa and Infinity Technology Solutions, Davide Anguita, University of Genoa, Luigi Lupo, Infinity Technology Solutions, Italy

SMEs: Generating Social Capital through Networks and Social Media ............................................................................................................................................................................ 338
David E. Gray, University of Greenwich, Mark N.K. Saunders, University of Surrey, United Kingdom

Development of a Strategy for Social Media Usage in Higher Education ............................................................................................................................................................................ 346
Yasemin Gülbahar, Ankara University, Turkey, Christian Rapp, Zurich University of Applied Sciences, Switzerland

Social Media as a Tool for Teachers and Student Counsellors ............................................................................................................................................................................ 356
Tom Vandries, Davy Nijs, Gerard Gielen, Catholic University College Limburg, Belgium

Personalized Learning & Collaborative Working Environments Fostering Social Creativity and Innovations inside the Organisations ............................................................................................................................................................................ 365
Thomas Kretschmer, Christian M. Stracke, University of Duisburg-Essen, Germany, Janez Hrastnik, AMIS, Slovenia

Digital Storytelling as a Reflective Practice Tool in a Community of Professionals ............................................................................................................................................................................ 373
Corrado Petrucco, University of Padua, Italy

The Importance of Collaborative Learning in Multi-Professional Continuing Education ............................................................................................................................................................................ 383
Lynette Nagel, Alecia Samuels, Gaby Pretorius, University of Pretoria, South Africa
Virtual Collaboration in the Built Environment

Mark Childs, Loughborough University, Stephen Austin, Coventry University, Robby Soetanto, Jacqui Glass, Zulfikar Adamu, Chinwe Isiadinso, Loughborough University, United Kingdom, Paul Poh, Dmitri Knyazev, Ryerson University, Canada, Harry Tolley, University of Nottingham, Helen MacKenzie, East Coast Education Limited, United Kingdom

LACE – Creating a Community on Learner Analytics and Educational Data Mining – Structuring the Discourse

Tore Hoel, Oslo and Akershus University College of Applied Sciences, Norway, Adam R. Cooper, CETIS, United Kingdom, Mehrnoosh Vahdat, Fabrizio Cardinali, ITS Infinity, Italy

Educational Triage in Higher Online Education: Walking a Moral Tightrope

Paul Prinsloo, University of South Africa, South Africa, Sharon Slade, Open University, United Kingdom

Spatial Abilities: A Group of Basic Workplace Skills Developed through GeoGebra 3D

László Budai, Debrecen University, Andrea Kárpáti, ELTE University, Bernadett Babály, Szent István University, Hungary

Vocational Education and the Evolution of the Computing Disciplines

Martin Atchison, Joze Kuzic, Monash University, Australia

Supporting Teacher Training: ICT, the Speiš Project and Ireland

Alan Bruce, Universal Learning Systems, Ireland

Investigating the Structure of the Open University of Brazil

Tel Amiel, UNICAMP, Maria Renata da Cruz Duran, Universidade Estadual de Londrina, Erika Moreira Martins, UNICAMP, Celso Costa, Sandra R. H. Mariano, Isabella Sacramento, Universidade Federal Fluminense, Brazil

Professional Development on an International Scale: Council of Europe – Pestalozzi Programme Virtual Community of Practice

Pascale Mompoint Gaillard, Council of Europe Pestalozzi programme, France, Višnja Rajić, University of Zagreb, Croatia

From Carer to CarerPlus: The Translation of a Digital Competence Framework into a Blended Mobile Learning Programme for the Domiciliary Care Sector

Steven Warburton, University of Surrey, Stylianos Hatzipanagos, King’s College London, United Kingdom, Lubomir Valenta, 3S Unternehmensberatung GmbH, Austria

Supporting Students throughout University Career: The Stay in Project

Gigliola Paviotti, Luca Girotti, Pier Giuseppe Rossi, University of Macerata, Italy

The Agile Learner – Using New Technologies and Social Networks to Make Learning a Lifestyle, Not an Event

Kathleen Deery, University of Wisconsin-Stout, Dennis Deery, Irish Rose Consulting, United States of America

Major Competencies to Manage Minor Offenders

The Role of Key-Stakeholders and Collaborators in the Long-term Sustainability of an e-Learning Portal: The Case of Open Discovery Space Portal

Georgios Xydopoulos, Munir Abbasi, Lampros K. Stergioulas, Brunel University London, United Kingdom, Xenia Ziouvelou, Athens Information Technology, Luis Andito Rifon, Manuel Fernandez, University of Uvigo Spain, Barry Phillips, SERO, United Kingdom, Yannis Vavasis, INTRASOFT International, Greece
Distinctions between Computer Self-Efficacy of Pupils and Teachers in Elementary School .................................................................517  
Tomislav Topolovčan, Milan Matijević, University of Zagreb, Croatia  

The Use of a Virtual Laboratory among Slovenian Primary School Chemistry Teachers .................................................................527  
Nataša Rizman Herga, Primary school Ormož, Dejan Dinevski, University of Maribor, Slovenia  

The Construction and Management of the Distance Education Teaching Platform Supported by the Mobile Technology ...................................................................................................................................................................536  
Huilin Tang, Yuebo Li, Guizhou Radio & TV University, China  

An Integrative Quality Assurance Framework for e-Learning Contents at the National Level in Korea .................................................................542  
Yong Kim, Korea National Open University, South Korea  

Quality Assurance for Open e-Textbooks – Case of “Open AGH e-Textbooks” Project ........................................................................547  
Karolina Grodecka, Agnieszka Chrząszcz, AGH-University of Science and Technology, Poland  

Collaborative Workplace: a Case Study of a Higher Education Institution .................................................................................................552  
Maja Ćukušić, Andrina Granić, Mario Jadrnić, University of Split, Croatia  

Dream of and for Success – Positive Constructive Daydreaming as Integral Part of the MindWise Edu-Engagement Teaching and Learning Program at the University of South Africa ...........................................................................................................562  
Ignatius G.P. Gous, University of South Africa, South Africa  

Supporting Entrepreneurship at the Bottom of the Pyramid Using Mobile Education Services ...............................................................572  
Isabella Chinelato Sacramento, Universidade Federal Fluminense, Mauro de Freitas Rebelo, Universidade Federal do Rio de Janeiro, Sandra Regina Holanda Mariano, Universidade Federal Fluminense, Brazil  

A Dynamics Learning System Based on Scaffolding Approach ...........................................................................................................578  
Katsuhiko Aoki, Yuki Hirai, Keiichi Kaneko, Tokyo University of Agriculture and Technology, Japan  

Agricultural Alliance for Competence and Skills based Training – The ACT Approach ...........................................................................588  
Christian Stracke, Thomas Kretschmer, University of Duisburg-Essen, Germany  

Enhancing 21st Century Skills in a Regular University College Setting through Blended Learning ...............................................................592  
Sofie Vanmaercke, Wouter Vandekerckhove, VIVES University College, Belgium  

LIBE Project – Supporting Lifelong Learning with Inquiry-Based Education .................................................................................................599  
Francesco Agrusti, Francesca Corradi, Valeria Damiani, Roma Tre University, Italy  

Professional Expectations of Graduated Students from the Graduate Course Planning, Implementation and Management of Distance Education (PIGEAD) ...................................................................................................................................................................603  
Sandra R.H Mariano, Universidade Federal Fluminense, Sidinei Rocha-de-Oliveira, Universidade Federal do Rio Grande do Sul, Celso Costa, Carlos Eduardo Mathias Motta, Joysi Moraes, Universidade Federal Fluminense, Brazil  

Innovative Development of the University through University-Enterprise Programme ...........................................................................608  
Olga Grishina, Elena Sidorova, Plekhanov Russian University of Economics, Russia  

Paradigm Shift in Higher Education Collaboration: Cooperation Instead of Competition ...........................................................................613  
Anikó Kálmán, Budapest University of Technology and Economics, Hungary  

The Selection and Training Framework for Managers in Business Innovation and Transformation Projects – The Educational Pattern and Recommendations ...................................................................................................................................................................618  
Antoine Trad, Webster University, Switzerland, Damir Kalpić, University of Zagreb, Croatia  

Exposing Computer Science Prospective Teachers to Academic Research .................................................................................................627  
Ela Zur, Tamar Benaya, The Open University of Israel, Israel
Towards an Optimal Blended Teaching and Learning Environment: Creating Powerful Blended Learning Environments Based on the Power and Motivation of Teachers .................................................. 637
Demedts Lore, Raes Frederic, Spittaels Olaf, Sierens Eline, Artevelde University College, Belgium

Bridging Teachers and Technology: Developing a Training in Digital Didactics ................................. 640
Griet Lust, Eline Sierens, Frederik Raes, Artevelde University College, Bert Coolen, BE-ODL and ESF project-coordinator, Belgium

Work Training: UNAM’s Contribution to the Mexican Society ................................................................. 646
Jorge León Martínez, Edith Tapia Rangel, UNAM, México

Building an Entrepreneurial Thinking within an University ................................................................. 652
Sandra R.H Mariano, Rafael Cuba Mancebo, Valeria T. Castro, Isabella Chinelato Sacramento, Universidade Federal Fluminense, Brazil

Pre-Calc Students from Digital Online Courses, Performance on Calculus Courses at University Level 658
Morten Brekke, University of Agder, Norway

Developing Writing English Skills of Communication Science Students ........................................... 669
Vedrana Vojković Estatiev, University of Zagreb, Croatia

Efficient and Comprehensive Approach to the Employee Training ...................................................... 677
Julija Lapuh Bele, Helena Miš Šmalc, David Rozman, Darko Bele, B2 d.o.o. Slovenia, Samra Mujačić, University of Tuzla, Bosnia and Herzegovina

EMPORT – Improve Employability and Enhance European Competitiveness through the Acquisition of Language and Cultural Competences in Portuguese ...................................................... 686
Amador Ordonez, Dirección General de Educación FP y Innovación Educativa, Spain, Rui Azevedo, Universidade Lusófona de Humanidades e Tecnologias, Portugal
