2014 The International Conference on Education Technologies and Computers

(ICETC 2014)

Lodz, Poland
22 – 24 September 2014
# TABLE OF CONTENTS

Automatic Extraction of Formal Features from Word, Excel, and PowerPoint Productions in a Diagnostic-Assessment Perspective ................................................................. 1  
J. Pellet, M. Chevalier

Interactive Assessment Learning Environment System under IMS-QTI Specification ..................................................... 7  
L. Alvarez-Gonzalez, A. Campos, M. Maza, D. Ojeda

G. Messimio, S. Vassallo

eAssessment in English for Specific Purposes ................................................................. 18  
T. Polec, J. Tomljanovic, N. Anic

Privacy and Usability of Image and Text Based Challenge Questions Authentication in Online Examination .................................................. 24  
A. Ullah, H. Xiao, M. Lilley, T. Barker

Comparing Regression Using Artificial Neural Nets and Intelligent Hybrid Method to Achieve the Higher Learning Preferences of Students .................................................................................. 30  
J. Magdaleno-Palencia, M. Castanon-Puga, J. Castro-Rodriguez, J. Garcia-Valdez, B. Marquez

Educating the Educators Involved in Homebound Training and Work Inclusion: Network and Mobile Technology for Online Training and Smart Work ........................................... 36  
G. Trentin, F. Ravicchio, M. Repetto

A Preliminary Speech Learning Tool for Improvement of African English Accents .................................................. 44  
B. Oyo, B. Kalema

Are P2P Streaming Systems Ready For Interactive E-Learning? ..................................................................................... 49  
F. Tommasi, V. Luca, C. Melle

Sequential Pattern Mining Method for Analysis of Programming Learning History Based on the Learning Process .................................................................................. 55  
S. Nakamura, K. Nozaki, Y. Morimoto, Y. Miyadera

Errors in E-Learning: The Key is Global Approach for Optimal Education .................................................................................. 61  
M. Janakova

A Validated Multidisciplinary Study On The Assessment Of SMS Messages As A Mean To Improve Self-Efficacy In University Students .................................................. 67  
D. Oliveira, G. Espalhado, D. Oliveira, N. Garcia

ERP in Higher Education: A Deeper Look on Developing Countries .................................................................................. 73  
H. Abdellatif

Measuring Student Acceptance of Game Based Learning for Game and Technology Education Curriculum Development .................................................................................. 79  
N. Saleh, E. Prakash, R. Manton

Modeling the Relationships between Perceptions about Technology and Attitudes toward Computers .................................................................................. 86  
M. Khine, E. Afari

Personalizing E-Learning Curriculum Using: Reversed Roulette Wheel Selection Algorithm ........................................ 91  
M. Ballera, I. Lukandu, A. Radwan

Empirical Research On Effects Of Interaction On E-Learning Satisfaction And Outcome: A Review And Future Research Direction .................................................................................. 98  
S. Eom

Utilization of Java-based Web Application for Educational Visualization .................................................................................. 103  
Y. Imai, Y. Moritoh, M. Imai

Social Media Effect inside University Communication: A Mexican Case .................................................................................. 110  
R. Sandoval-Almazan, D. Valle-Cruz, A. Romero-Romero, A. Guadarrama-Chavez
