Contents

Digital Narratives: Mapping Contemporary Use of Urban Open Spaces through Geo-social Data
Y.Q.A. Torres, L.M. Sá Antunes Costa ................................................................. 1

Designing a Decision Support System for Subsurface Activities: A Meta Analysis of the Design of a Social Acceptance Motivated Decision Support System for Subsurface Activities in the Netherlands
H. van Os, R. Herber, B. Scholten ................................................................. 12

Hybrid Choice Models: Principles and Recent Progress Incorporating Social Influence and Nonlinear Utility Functions
J. Kim, S. Rasouli, H. Timmermans ................................................................. 20

Accounting for Heterogeneity in Travel Episode Satisfaction Using a Random Parameters Panel Effects Regression Model
S. Rasouli, H. Timmermans ................................................................. 35

An Environmental Behavioural Study of Crowd Flow Transformation at Taipei MRT Station
K.-C. Wen, S.-S. Chang ................................................................. 43

Development of Planning Support System for Welfare Urban Design – Optimal Route Finding for Wheelchair Users -
Y. Inada, S. Izumi, M. Koga, S. Matsubara ......................................................... 61

Proposal for Welfare Town Planning Method and Experimental Development of Support System for Persons with Disabilities
M. Koga, S. Izumi, S. Matsubara, Y. Inada, D. Gaidar ........................................ 70

Modeling Users’ Work Activities in a Smart Home
E. Allameh, M. Heidari, B. De Vries, H. Timmermans, M. Masoud, F. Mozaffar ......................................................... 78

Linking Data and Converting Systems for Smarter Urban Services: Two Cases of U-City Service in Korea
Y. Leem, S.H. Lee, J. Yoon ................................................................. 89

What is Smart for Retailing?
E. Pantano, H. Timmermans ................................................................. 101

Development and Testing of a Design Protocol for Computer Mediated Multidisciplinary Collaboration during the Concept Stages with Application to the Built Environment
M. Leon, R. Laing, J. Malins, H. Salman ......................................................... 108

Integrating Rapid 3D Data Collection Techniques to Support BIM Design Decision Making
R. Laing, M. Leon, L. Mahdjoubi, J. Scott ......................................................... 120

Measuring Regional Sustainability by a Coordinated Development Model of Economy, Society, and Environment: A Case Study of Hubei Province
Y. Ding, B. de Vries, Q. Han ................................................................. 131

A Web-platform for Linking IFC to External Information during the Entire Lifecycle of a Building
M. Dankers, F. van Geel, N.M. Segers ................................................................. 138

A GIS-based Support Tool for Exploring Land Use Policy Considering Future Depopulation and Urban Vulnerability to Natural Disasters – A Case Study of Toyohashi City, Japan
K. Karashima, A. Ohgai, Y. Saito ................................................................. 148

Measuring the Effect of Stochastic Perturbation Component in Cellular Automata Urban Growth Model
A. Mustafa, I. Saad, M. Cools, J. Teller ......................................................... 156

Effects of Urban Spatial Form on Individuals’ Footprints: Empirical Study Based on Personal GPS Panel Data from Rotterdam and Eindhoven Area
D. Yang, H. Timmermans ................................................................. 169

Extracting Activity-travel Diaries from GPS Data: Towards Integrated Semi-automatic Imputation
T. Feng, H.J.P. Timmermans ................................................................. 178

Evaluating the Accuracy of GPS-based Taxi Trajectory Records
Z. Zheng, S. Rasouli, H. Timmermans ................................................................. 186

Implementing Metaplanning with Business Process Management
M. Campagna, K. Ivanov, P. Massa ................................................................. 199

Identification and Prediction of Community Deprivation
K.W. Nam, E.S. Cho, I.H. Kwon, J.-H. Yang ......................................................... 210

Real Time Traffic Models, Decision Support for Traffic Management
L. Wismans, E. de Romph, K. Friso, K. Zantema ......................................................... 220

Track and Trace for Optimal Process Control of Energy Flows within a Building
W. Zeiler, T. Labeodan, G. Boxem, R. Maaijen, J. van der Velden, J.-W. Dubbeldam ......................................................... 236

Life-log Data-based Window Opening and Closing for Individual Customized Services in Symbiosis Houses
Y. Kim, J. Lee, H. Lee ................................................................. 247
