35th Annual Conference and Expo of the Association of Avian Veterinarians (AAV 2014)

Advancing and Promoting Avian Medicine and Stewardship

New Orleans, Louisiana, USA
2 – 6 August 2014

Editor:

K. Young

# Table of Contents

## Section 1: Cutting Edge Topics

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multi-Institutional Survey of Squamous Cell Carcinoma in Birds</td>
<td>3</td>
</tr>
<tr>
<td>Optimal Dose Determination of Intravenous Lidocaine in Broiler</td>
<td>5</td>
</tr>
<tr>
<td>Chickens</td>
<td></td>
</tr>
<tr>
<td>Preliminary Investigation of Hydroxyethyl Starch for Avian Red</td>
<td>7</td>
</tr>
<tr>
<td>Blood Cell Cryopreservation</td>
<td></td>
</tr>
<tr>
<td>Ocular Coherence Tomography (OCT) of the Anterior Eye Segment –</td>
<td>9</td>
</tr>
<tr>
<td>Clinical Findings and Evaluation Protocols</td>
<td></td>
</tr>
<tr>
<td>Pharmacokinetic-Pharmacodynamic Integration of an Extended-Release</td>
<td>11</td>
</tr>
<tr>
<td>Ceftiofur Formulation Administered to Red-Tailed Hawks</td>
<td></td>
</tr>
<tr>
<td>(Buteo jamaicensis)</td>
<td></td>
</tr>
<tr>
<td>Effect of Fentanyl Citrate Target-Controlled-Infusions on</td>
<td>13</td>
</tr>
<tr>
<td>Isoflurane MAC in Hispaniolan Amazon Parrots (Amazona ventralis)</td>
<td></td>
</tr>
<tr>
<td>Hematologic and Biochemical Parameters in Birds Exposed to Oil</td>
<td>17</td>
</tr>
<tr>
<td>from the Deepwater Horizon Spill</td>
<td></td>
</tr>
<tr>
<td>Investigations into Different Infection Routes of Avian Bornavirus</td>
<td>19</td>
</tr>
<tr>
<td>in Psittacine Birds</td>
<td></td>
</tr>
</tbody>
</table>

## Section 2: Research

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Evaluation of the Thermal Antinociceptive Effects of Hydromorphone</td>
<td>23</td>
</tr>
<tr>
<td>Hydrochloride in Cockatiels (Nymphicus hollandicus)</td>
<td></td>
</tr>
<tr>
<td>Pharmacokinetics of Orally Administered Rosuvastatin in</td>
<td>25</td>
</tr>
<tr>
<td>Hispaniolan Amazon Parrots (Amazona ventralis)</td>
<td></td>
</tr>
<tr>
<td>Plasma Biochemistry Reference Intervals and Agreement between the</td>
<td>27</td>
</tr>
<tr>
<td>Abaxis Vetscan V2 and the Roche Cobas c501 in Strigiformes</td>
<td></td>
</tr>
<tr>
<td>Free and Total Thyroid Hormones Reference Interval in the</td>
<td>29</td>
</tr>
<tr>
<td>Hispaniolan Amazon Parrot</td>
<td></td>
</tr>
</tbody>
</table>

## Section 3: Wildlife Conservation

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hematologic and Biochemical Parameters in Seabirds with</td>
<td>33</td>
</tr>
<tr>
<td>Brevetoxicosis</td>
<td></td>
</tr>
<tr>
<td>Tracking Migratory Waterfowl in Nigeria for Avian Influenza</td>
<td>35</td>
</tr>
</tbody>
</table>
Section 4: Clinical Track (Sunday)

Dyspnea From Extraluminal Tracheal Compression in Five Birds (Session #1505) ............................................. 49
Diseases of the Cloaca: A Review of 712 Cloacal Biopsies (Session #1510) ......................................................... 51
Peri-Cloacal Hernia in a Bornavirus-Positive Cockatoo (Session #1515) ................................................................. 61
CT Diagnosis of Hydrocephalus in African Grey Parrots (Session #1520) ................................................................. 65
Stifle Luxations in Birds (Session #1525) .............................................................................................................. 67
How Did I Miss That on a Fecal? How to Set up Trichrome Stains in Practice. (Session #1530) ..................... 73

Section 5: Technicians

Avian Emergencies (Session #1605). .......................................................................................................................... 79
Veterinary Compounding for the Avian and Exotic Animal Patient (Session #1610) ................................................. 87
Communication with the Bird Owner: Keeping Clients (Session #1615) .............................................................. 91
Review of Avian Wound Management for the Veterinary Technician (Session #1620) ........................................... 95
Viral Concerns of Backyard Poultry (Session #1625) .............................................................................................. 101

Section 6: Master Classes

Integumentary Wound Healing and Management Techniques for Avian Species (Session #2005) ................. 109
Interpreting Avian Diagnostics: What All Those Tests REALLY Mean (Session #2010) ......................................... 117
Avian Analgesia: Considerations for Companion and Wild Birds (Session #2015) .............................................. 129
Gross Lesion Recognition for the Avian Practitioner (Session #2020) ................................................................ 137
Avian Ophthalmology – A Practically Orientated Review on Recent Developments (Session #2025) .......... 139
Birds of a Certain Age – Overview of Geriatric Diseases (Session #2030) .......................................................... 149
The Miracle of Flight (Session #2035) ................................................................. 155
Update on Avian Ultrasonography (Session #2040) ............................................. 161
Avian Oncology Master Class (Session #2045) ....................................................... 169
Physical Examination and Diagnostic Testing of Aquatic Animals (Session #2050A) ..................................................... 183
Introduction to Fish Medicine – Treating Friends of Penguins (Session #2050B) ..................................................... 187
Preventing Aquatic Disasters (Session #2050C) ..................................................... 193
Dealing with Parrot Intelligence and Cognitive Abilities in Daily Practice (Session #2070A) .................................................... 197
Cognition in Grey Parrots: Reasoning by Inference in Studies on Exclusion (Session #2070B) .................................................... 205
Beak Deformities: Form, Function, and Treatment Methods (Session #2075) .................. 213
The Integument: The Largest Organ System of Birds (Session #2080) ......................... 221
The Avian Pathologist Meets the Southern Fairy Tale (Session #2085) ...................... 231
Anesthesia and Birds: Setting the Bar and Raising it Higher (Session #2090) ............... 243
Master Class: Grappling with Common Raptor Problems (Session #2100) .................... 255
Pathology as a Base for Clinical Understanding (Session #2105) ............................... 261

Section 7: Posters

A Survey of Avian Polyomavirus in Psittacine Birds in Brazil (Session #2200) ................. 273
Traumatic Tracheal Rupture and Stenosis in Amazon Parrot (Amazona aestiva) (Session #2205) ................. 275
An Outbreak of Poxvirus in Passerines from Illegal Wildlife Trade (Session #2210) ............. 277
ESCRA Homology Project: Conservation of Known Oncogenes in Non-Domestic species (Session #2225) ................. 279
Comparison of Acute Phase Protein and Protein Electrophoresis Assays in Penguins (Session #2235) ............. 281
Plasma Antioxidant Levels in Eastern Screech Owls (Megascops asio) After Supplementation (Session #2245) ................. 283
Cervical Vertebral Mycobacteriosis in a Red-Tailed Hawk (Buteo jamaicensis) (Session #2255) ............. 285
Congenital Abnormalities in a Broiler Chick (Session #2260) ....................... 287
Isolation and Genotypic Characterization of Vancomycin-Resistant Enterococci from Feces of Clinically Healthy Ostriches (Session #2265) ............. 289
Pharmacokinetics of Piroxicam in Brolgas (Session #2270) ....................... 291
Section 8: Clinical Track (Wednesday)

Pulmonary Arterial Hypertension in Companion Birds (Session #4005) ................................................................. 295
Bacteria Isolated from the Skin of Congo African Grey Parrots (*Psittacus erithacus erithacus*), Budgerigars (*Melopsittacus undulatus*), and Cockatiels (*Nymphicus hollandicus*) (Session #4015) .......... 301
Synovial Cell Sarcoma in a Red-Tailed Hawk (*Buteo jamaicensis*) (Session #4020) ...................................................... 303
Pericardial Mesothelioma in a Yellow-Naped Amazon Parrot (Session #4025) ........................................................... 307
Poloxamer Gel as a Vehicle for Transdermal Delivery of Antibiotics: Use in Birds (Session #4030) ........... 309
Does *Macrorhabdus ornithogaster* Predispose Budgerigars to Proventricular Adenocarcinoma? (Session #4035) ........................................................................................................ 311
Lysosomal Storage Disease in a 19-month-old Congo African Grey Parrot (*Psittacus erithacus erithacus*) (Session #4040) .................................................................................................................. 313
Avian Bornaviral Disease in an Impeyan Pheasant (*Lophophorus impejanus*) (Session #4045) ............... 315
Inadvertent Water Deprivation and Hypernatremia in Birds (Session #4050) ........................................................ 317
Diagnosis and Management of *Bordetella avium* in a Falcon-Breeding Facility (Session #4055) ............... 325
Surgical Repair of a Degloved Scalp in a Hawk (Session #4105) .............................................................................. 329
*Knemidokoptes derooi* Infestation in a Free-Ranging Golden Eagle (*Aquila chrysaetos*) (Session #4110) .... 331
Polyethylene Foam Shoes for Treatment of Avian Pododermatitis (Session #4115) ................................................. 333
Spironucleosis in Cockatiels - It’s not Always Giardia (Session #4120) ................................................................. 337
Distraction Osteogenesis Correction of Mandibular Ramis Fracture Malunion in a Juvenile Mute Swan (*Cygnus olor*) (Session #4125) ....................................................................................... 339
Management of Recurrent Cutaneous Squamous Cell Carcinoma in a Cockatiel (*Nymphicus hollandicus*) (Session #4135) ........................................................................................................... 341
Surgical Repair of a Presumed Salivary Mucocele in a Goose (Session #4140) ...................................................... 347
A Retrospective Look at Hormone Levels in Companion Psittacines with a Review of Environmental Triggers for Reproductive Behavior in the Home Environment (Session #4145) .... 349

Section 9: Welfare/Aviculture Addendum

Improved Compliance in the Companion Animal Exam Using Natural Horsemanship Principles (Session #4205) ................................................................................................................................. 361
Reducing Stress for Avian Capture and Restraint (Session #4210) ......................................................................... 367
Shaping Treatments for Avian Healthcare: A Day-by-Day Study (Session #4215) .............................................. 375
The Wild Bird Conservation Act (WBCA) of 1992 Comes of Age (Session #4220) ................................................................. 377
Training Your Client and Their Psittacine Companion (Session #4225) ................................................................................. 383
Parrots Deserve a Succession of Good Homes: How Vets and Welfare Organizations Can Help Each Other (Session #4235) .......................................................................................................................... 387
The Stevenson Center, Another Option When You Can No Longer Care for Your Pet (Session #4240) ................................. 389
Aviculture, Parrot Behavior, and Pediatrics (Session #4245) ................................................................................................. 393
Assisted Reproduction Techniques in Psittacine Birds — Recent Developments (Session #4255) ........................................ 399
Feral Flocks of Conures: Community Response and Flock Health (Session #4260) ................................................................. 401

Section 10: Poultry

Biosecurity/Regulatory/Respiratory Diseases of Backyard Poultry (Session #4305) ................................................................. 407
Enteric Diseases/Parasitology of Backyard Poultry (Session #4310) ............................................................................................. 415
Management and Husbandry of Backyard Poultry: From Chick to Egg-Laying Adult (Session #4315) ................................. 423
Backyard Poultry Anesthesia and Surgery (Session #4320) ................................................................................................. 433
Viral Induced Neoplastic Diseases of Backyard Poultry (Session #4325) ................................................................................. 443
Diagnosis and Management of Common Diseases of the Musculoskeletal and Nervous System of Backyard Poultry (Session #4330) ................................................................................................................. 451
Miscellaneous/Systemic Diseases of Backyard Poultry (Session #4335) .................................................................................. 457
Nutritional and Metabolic Diseases of Backyard Poultry (Session #4340) ............................................................................ 461

Index

Keyword Index ............................................................................................................................................................................. 467

Addendum

AVIAN HOSPITALIZATION—BUILDING A BETTER BIRD HOUSE (Session #1630) ................................................................. 475
