2014 World Congress on Internet Security

(WorldCIS 2014)

London, United Kingdom
8-10 December 2014
Contents Page

Contents Page 3
Executive Committees 5
Technical Programme Committees 6

Keynote Speakers 8
Keynote Speaker 1: Professor John Barrett 9
Keynote Speaker 2: Professor Steven Furnell 11
Keynote Speaker 3: Professor Frank Wang 12
Keynote Speaker 4: Dr Tyson Brooks 13
Keynote Speaker 5: Dr George Ghinea 14
Keynote Speaker 6: Professor René Lozi 15

PhD / Doctorate Consortium 16
Organiser: Professor Charles A. Shoniregun

Sessions

Session 1: Information Security 19

Fortifying TripAdvisor against Reputation-System Attacks 20
(Authors: Francesco Buccafurri, Gianluca Lax, Serena Nicolazzo, Antonino Nocera)

Data Privacy Preserving Scheme in MANETs 22
(Authors: Bhawani Shanker Bhati, Pallapa Venkataram)

Controls for Protecting Critical Information Infrastructure from Cyberattacks 24
(Authors: Tamir Tsegaye, Stephen Flowerday)

Fingerprint templates generated by the fractional Fourier, cosine and sine transforms and their generation conditions 30
(Author: Hiroyuki Yoshimura)

Session 2: Information Security 35

Information security in a public safety, participatory crowdsourcing smart city project 36
(Authors: Liezel Cilliers, Stephen Flowerday)

Computer Forensic Analisys of Some Web Attacks 42
(Authors: Nataša Suteva, Aleksandra Mileva, Mario Loleski)

Deanonymisation in Linked Data: A Research Roadmap 48
(Authors: Dalal Al-Azizy, David Millard, Nigel Shadbolt, Kieron O’Hara)
Session 3: Internet Applications and Cyber Security  59

Online Behavioral Advertising with Privacy Protection  60
(Authors: Nihar Vuppalapati, Joon S. Park)

(Authors: Akinola Ajijola, Pavol Zavarsky, Ron Ruhl)

Symbol diversification of Linux binaries  74
(Authors: Samuel Laurén, Petteri Mäki, Sampsa Rauti, Shohreh Hosseinzadeh, Sami Hyrynsalmi, Ville Leppänen)

The Risk Relationship Between Trust and Information Sharing in Automotive Supply Chains (Author: Roxanne Piderit, Stephen Flowerday)

Session 4: Information and Network Security  86

A critical review of the attack scenarios in the IAEA Technical Guidance NSS 17 Computer Security at Nuclear Facilities  87
(Author: Pryde Sema)

Component for 3D Printing Provenance framework: Security Properties Components For Provenance Framework  91
(Authors: Nawfal F. Fadhel, Richard M. Crowder, Fatimah Akeel, Gary B. Wills)

Anomaly Detection System: Towards a framework for enterprise log management of security services  97
(Authors: Omer Ozulku, Nawfal F. Fadhel, David Argles, Gary B. Wills)
