2014 9th Gateway Computing Environments Workshop

(GCE 2014)

New Orleans, Louisiana, USA
21 November 2014
2014 9th Gateway Computing Environments Workshop

GCE 2014

Table of Contents

Call for Participation......................................................................................................................................................v
Program Committee........................................................................................................................................................vi

Technical Papers

Who Cares about Science Gateways? A Large-Scale Survey of Community Use and Needs ..........................................................1
   Katherine A. Lawrence, Nancy Wilkins-Diehr, Julie A. Wernert, Marlon Pierce,
   Michael Zentner, and Suresh Marru

Initial Steps in Analyzing Science Gateways Sustainability through Business Model Canvas: A Use Case for the Computational Neuroscience Gateway ..........................................................5
   Shayan Shahand and Silvia D. Olabarriaga

GenApp Module Execution and Airavata Integration .........................................................................................9
   Emre H. Brookes, Nadeem Anjum, Joseph E. Curtis, Suresh Marru,
   Raminder Singh, and Marlon Pierce

A Cloud-Based Image Analysis Gateway for Traumatic Brain Injury Research .............................................13
   Kyle Chard, Ravi Madduri, Xia Jiang, Farid Dahi, Michael W. Vannier,
   and Ian Foster

The NEWT Platform: An Extensible Plugin Framework for Creating ReSTful HPC APIs .............................................17
   Shreyas Cholia and Terence Sun

WorkWays: Interacting with Scientific Workflows .............................................................................................21
   Hoang Anh Nguyen, David Abramson, Timoleon Kiporous, Andrew Janke,
   and Graham Galloway

The Apache Airavata Application Programming Interface: Overview and Evaluation with the UltraScan Science Gateway .................................................................25
   Marlon Pierce, Suresh Marru, Borries Demeler, Raminderjeet Singh,
   and Gary Gorbet
