# TABLE OF CONTENTS

## PRODUCT DEVELOPMENT AND SUSTAINABILITY

**DESIGN APPROACH FOR SPIRAL MILLING PARTS USING KNOWLEDGE BASED ENGINEERING** ................................................................. 1  
M Humpa, P Köhler  

**OPTIMIZATION OF ROTATING EQUIPMENT IN OFFSHORE WIND FARM** ................................................................. 9  
O A Okanade  

**SOLAR-HYDROGEN ENERGY AS AN ALTERNATIVE ENERGY SOURCE FOR MOBILE ROBOTS AND THE NEW-AGE CAR** ................................................................. 15  
A Sulaiman, F Inambao, G Bright  

**DEVELOPMENT OF A STRUCTURED APPROACH FOR DECOMPOSITION OF COMPLEX SYSTEMS ON A FUNCTIONAL BASIS** ................................................................. 21  
U Yildirim, I F Campean  

**COMPLEX PRODUCT ARCHITECTURE ANALYSIS USING AN INTEGRATED APPROACH** ................................................................. 29  
A Uddin, I F Campean, M K Khan  

## MODELLING AND SIMULATION

**SIMULATED ENERGY USAGE FOR A NOVEL 6 DOF ARTICULATED ROBOT** ................................................................. 39  
A A Shaik, N Tlale, G Bright  

**GENETIC ALGORITHM TO MINIMIZE FLOWTIME IN A NO-WAIT FLOWSHOP SCHEDULING PROBLEM** ................................................................. 46  
I A Chaudhry, R Ahmed, A M Khan  

**IMPLEMENTING GAiT PATTERN CONTROL AND TRANSITION FOR LEGGED LOCOMOTION** ................................................................. 52  
Z Yang, M V Rocha, P M V Lima, M Karamanoglu, F M G França  

**SYNTHESIS OF EVOLVING CELLS FOR RECONFIGURABLE MANUFACTURING SYSTEMS** ................................................................. 59  
J Padayachee, G Bright  

**THE USE OF FUZZY EXPERT SYSTEM IN ROBOTS DECISION-MAKING** ................................................................. 67  
M Jamaseb, S Safari, F Montaseri, M Dadgar  

**EXPLORING THE POTENTIAL HIGH ENERGY LOCATIONS AND INTENSITIES IN CONFINED WORK SPACES OF WAVEGUIDE DIMENSIONS** ................................................................. 73  
R Rodriguez, W G Lewis  

**NUMERICAL STUDY OF CONJUGATE NATURAL CONVECTION HEAT TRANSFER USING ONE PHASE LIQUID COOLING** ................................................................. 80  
F A Gdhaidh, K Hussain, H S Qi  

**EXPERIMENTAL AND NUMERICAL EVALUATION OF THE FATIGUE BEHAVIOUR IN A WELDED JOINT** ................................................................. 89  
P Almaguer, R Estrada  

## AUTOMATION, ROBOTICS AND HANDLING SYSTEMS

**ANALYSIS ON THE LOAD CARRYING MECHANISM INTEGRATED AS HETEROGENEOUS CO-OPERATIVE MANIPULATOR IN A WALKING WHEELCHAIR** ................................................................. 96  
I S R Vedaraj, R Jain, B V A Rao  

**DESIGN OF AN AMPHIBIAN EXPLORING ROBOT** ................................................................. 104  
A Maity, S Majumder  

**PROPOSED METHODOLOGY FOR APPLICATION OF HUMAN-LIKE GRADUAL MULTI-AGENT Q-LEARNING (HUMAQ) FOR MULTI-ROBOT EXPLORATION** ................................................................. 112  
D N Ray, S Majumder  

**DYNAMICS AND CONTROL OF CONSTRAINED MULTIBODY SYSTEMS MODELED WITH MAGGI’S EQUATION: APPLICATION TO DIFFERENTIAL MOBILE ROBOTS PART I** ................................................................. 120  
Y H Amengona, Y P Kakad
DYNAMICS AND CONTROL FOR CONSTRAINED MULTIBODY SYSTEMS MODELED WITH MAGGI’S EQUATION: APPLICATION TO DIFFERENTIAL MOBILE ROBOTS PART II .................................................. 126
Y H Amengonu, Y P Kakad

SYNTHESIS OF SYSTEM FOR PROGRAM SIGNALS FORMATION FOR ELECTRIC DRIVES OF MULTILINK MANIPULATORS .................................................................................................................. 131
V F Filaretov, A S Gabashov

INVESTIGATING THE FEASIBILITY OF A BCI-DRIVEN ROBOT-BASED WRITING AGENT FOR HANDICAPPED INDIVIDUALS .............................................................. 136
C S Syan, R E S Harnarinesingh, R Beharry

ASYNCHRONOUS VEHICLE POSE CORRECTION USING VISUAL DETECTION OF GROUND FEATURES................................................................................................................. 146
R E S Harnarinesingh, C S Syan

ROBOSAPIEN ROBOT USED TO MODEL HUMANOID INTERACTION TO PERFORM TASKS IN DANGEROUS MANUFACTURING ENVIRONMENTS .................................................. 157
R Stopforth, G Bright

DESIGN AND DEVELOPMENT OF AN AUTOMATIC TOOL CHANGER FOR AN ARTICULATED ROBOT ARM ........................................................................................................... 171
H Ambrosio, M Karamanoglu

INTERVAL ANALYSIS APPROACH TO PROTOTYPE THE ROBUST CONTROL OF THE LABORATORY OVERHEAD CRANE ................................................................. 177
J Smoczek, J Szytko, P Hyla

ADVANCED QUALITY SYSTEMS TOOLS AND QUALITY MANAGEMENT

EXPLORING MANUFACTURING COMPETENCIES OF A TWO WHEELER MANUFACTURING UNIT ................................................................. 187
C D Singh, J S Khamba, R Singh, N Singh

ENHANCING TECHNOLOGICAL INNOVATION IN SMALL FIRMS: ROLE OF COLLABORATION .............................................................................................................. 196
D Singh, J S Khamba, T Nanda

DEVELOPING AN EXPERIMENTAL CASE IN ALUMINIUM FOILS 1100 TO DETERMINE THE MAXIMUM ANGLE OF FORMABILITY IN A PIECE BY DIELESS-SPIF PROCESS 200
P Gabriel, B Adrian

IMPACT OF COMPANY SIZE ON MANUFACTURING IMPROVEMENT PRACTICES: AN EMPIRICAL STUDY ............................................................................................... 209
C S Syan, K Ramoutar

A FRAMEWORK FOR DEVELOPMENT OF AN INTELLIGENT SYSTEM FOR DESIGN AND MANUFACTURING OF STAMPING DIES ............................................................................. 217
H M A Hussein, S Kumar

MICROMACHINING LITHIUM NIOBATE FOR RAPID PROTOTYPING OF RESONANT BIOSENSORS ................................................................. 222
Z Y A Al-Shibaany, J Hedley, D Huo, Z Hu

HUMAN ASPECTS IN ENGINEERING ACTIVITIES

HUMAN ERROR IN MAINTENANCE: AN INVESTIGATIVE STUDY FOR THE FACTORIES OF THE FUTURE .............................................................................................................. 228
B S Dhillon

CAREER MANAGEMENT AND EMPLOYEE MOTIVATION IN LOW SKILLED, LOW MARGIN ENVIRONMENTS ................................................................. 241
S Salman, A Khan

EMERGING SCENARIOS IN ENGINEERING EDUCATION AND TRAINING

CAN WE (CONTROL) ENGINEER THE DEGREE LEARNING PROCESS? ................................................................................................................................. 250
A S White, M Censlive, D Neilson

FROM E-MANUFACTURING TO INTERNET PRODUCT PROCESS DEVELOPMENT (IPPD) THROUGH REMOTE – LABS .................................................................................. 256
E C Nieto, P A C Parra, J C P Díaz
EMERGING TECHNOLOGIES IN FACTORIES OF THE FUTURE

DEVELOPMENT THE CONCEPTUAL DESIGN OF KNOWLEDGE BASED SYSTEM FOR INTEGRATED MAINTENANCE STRATEGY AND OPERATION

Milana, M K Khan, J E Munive

POSTERS

LATEST GERMAN-ENGLISH TERMINOLOGY IN CADCAM & ROBOTICS

S M Hussain

6-AXIS FORCE/MOMENT SENSOR IN HUMANOID ROBOT FOOT

B Al-Falifi, M Al-Shammary, Z Al-Shehry

Author Index
