

TABLE OF CONTENTS

PART 1

Foreword ................................................................................................................................. 1
12th Global Congress On Manufacturing And Management

Editorial Preface ..................................................................................................................... 2
M. Anthony Xavier, Prasad Yarlagadda

Experimental Investigations into Wear Characteristics of M2 Steel Using Cotton Seed Oil .................................................................................................................. 4
Sachin M. Agrawal, Subhans Lhane, N.G. Patil, P.K. Brahmanak

Green Machining and Forming by the use of Surface Coated Tools ................................... 15
S. Sivarajar, R. Padmanabhan

Optimization of Makespan in Job and Machine Priority Environment ................................. 22
A. Baskar, M. Anthony Xavier

Optimization of Material Removal Rate During Turning of SAE 1020 Material in CNC Lathe using Taguchi Technique ................................................................. 29
Sayak Mukherjee, Anurag Kamal, Kaushik Kumar

A Comparison Between Different Optimization Techniques for CNC End Milling Process ......................................................... 36
Anish Nair, P. Govindan, H. Ganesan

Friction Performance of Electroless Ni-P Coatings in Alkaline Medium and Optimization of Coating Parameters ........................................................................................................ 47
Bikash Panju, Prasanta Sahoo

Response of Copper to Equal Channel Angular Pressing with Different Processing Temperature ......................................................................................................................... 56
A.T. Vijayashakti, T.N. Sriskaitha Dath, R. Krishnamurthy

Effect of Process Parameters in Surface Roughness During Turning of GFRP Pipes Using PCD Insert Tool ............................................................................................................. 64
S. Sivasankaran, P.T. Harisagar, E. Saninathan, S. Siddharth, P. Saksikumar

Experimental Investigation and Surface roughness Analysis on Hard turning of AISI D2 Steel using Coated Carbid Insert ................................................................................................. 72
A. Srithar, K. Palanikumar, B. Durgaprasad

NSGA-II Approach of Optimization to Study the Effects of Drilling Parameters in AISI-304 Stainless Steel ................................................................................................................................. 78
Suman Chatterjee, Kumar Abhishek, Siba Sankar Mahapatra, Saurav Datta, Rajiv Kumar Yadav

Grey Fuzzy Multiobjective Optimization of Process Parameters for CNC Turning of GFRP/Epoxy Composites .................................................................................................................. 85
Hari Vassudev, Naresh C. Deshpande, Ramesh R. Rajguru

Properties of Concrete Manufactured Using Steel Slag ................................................................................................. 95
V. Sabathra Devi, B.K. Gnanavel

A Survey on Occurrence of Critical Machines in a Manufacturing Environment ................ 105
R. Pugazhenthhi, M. Anthony Xavier

Experimental Investigation on Application of Emulsifier Oil Based Nano Cutting Fluids in Metal Cutting Process .................................................................................................................. 115
M. Amrita, S.A. Sharig, Manoj, Charan gopal

Optimal Selection Of Machining Parameters In CNC Turning Process Of EN-31 Using Intelligent Hybrid Decision Making Tools .......................................................................................... 125
G. Harinath Gowd, M. Venugopu Goud, K. Divya Theja, M. Gunasekhar Reddy

Design and Fabrication of Mechanical device for Effective Degrasing in Roller Bearing ................................................................. 134
N. Manigandan, V. Naveen Prabhu, M. Devakumar

Optimization of Multi-objective Response during CNC Turning Using Taguchi-fuzzy Application ................................................................................................................................. 141
Surendra Kumar Saini, Sharad Kumar Pradhan

Study On the Relationship Between Surface Roughness of AA6061 Alloy End Milling and Image Texture Features of Milled Surface ........................................................................................................ 150
D. Nathan, G. Thangaiyarasu, K. Vani

Multi Objective Optimization in Turning of EN25 Steel Using Taguchi Based Utility Concept Coupled With Principal Component Analysis .................................................................................. 158
B. Singaravel, T. Selvaraj, R. Jeyapaul

Lubrication Effect on Friction Factor of AA6063 in Forward Extrusion Process .................... 166
V. Jayaseelan, K. Kalaichelvan, S. Vijay ananth

Optimization of Cutting Parameters and Fluid Application Parameters during Turning of OHHNS Steel ........................................................................................................................................... 172
R. Deepak Joel Johnson, K. Leo Dev Wins, Anil Raj, B. Anuja Beatrice
Evaluation of Fracture Toughness and Mechanical Properties of Aluminum Alloy 7075, T6 with Nickel Coating ......................................................................................................................................................... 178
   S. Mohan Kumar, R. Pramod, M.E. Shashi Kumar, H.K. Govindaraju

Feasibility Study of Recycled Polypropylene Through Multi Response Optimization of Injection Moulding Parameters Using Grey Relational Analysis .................................................................................................................. 186
   D. Bhattacharya, B. Rupin

Multi-response Optimization of Machining Parameters of Turning AA6063 T6 Aluminium Alloy using Grey Relational Analysis in Taguchi Method .................................................................................................................. 197
   P. Jayaraman, L. Mahesh kumar

Surface Roughness Prediction using Artificial Neural Network in Hard Turning of AISI H13 Steel with Minimal Cutting Fluid Application .................................................................................................................. 205
   B. Anuja, Beatrice, E. Kirubakaran, P. Ranjit, Jeka, Thangaijah, K. Leo, Dev, Wuss

Development of Patient Specific Implants for Minimum Invasive Spine Surgeries (miss) from Non-invasive Imaging Techniques by Reverse Engineering and Additive Manufacturing Techniques .................................................................................................................. 212
   V.N. Chougule, A.V. Mulay, B.B. Ahuja

Experimental Study on the Effect of Electric Current Applied at the Interface of Cutting Tool and Workpiece for Turning Operation .................................................................................................................................................. 220
   Akhil Soman, N. Anbarasan, P. Hareesh, P. Kuppan

Optimization of Drilling Parameters to Minimize Burr by Providing Back-up Support on Aluminium Alloy .................................................................................................................................................. 230
   Sanjib Kundra, Santanu Das, Partha Pratim Saha

Analysis of Tool Life during Turning Operation by Determining Optimal Process Parameters .................................................................................................................................................. 241
   C.J. Rao, D. Sreevidya, Arun Tom Mathew

A Study on High Speed End Milling of Titanium Alloy .................................................................................................................................................. 251
   V. Krishnaraj, S. Sambudhansadam, R. Sindhumathi, P. Kuppan

ANFIS Modeling of Delamination During Drilling of Medium Density Fiber (MDF) Board .................................................................................................................................................. 258
   S. Prakash, J. Lily Mercy, Putti Venkata Siva Teja, P. Vijayalakshmi

Waste Heat Recovery from Metal Casting and Scrap Preheating Using Recovered Heat .................................................................................................................................................. 267
   J. Selvaraj, V.S. Varun, Vignesh, Vishnu Vishwan

Experimental Study of Electromagnetic Sheet Metal Forming Process .................................................................................................................................................. 277
   P. Arumugam, K. Shanmaga Sundaram, N. Kamala Kaman

Human Machine Interface for Controlling a Robot Using Image Processing .................................................................................................................................................. 291
   Ambuj K. Gautam, V. Vasa, U.S.N. Raju

Parametric Optimization on Multi-Objective Precision Turning Using Grey Relational Analysis .................................................................................................................................................. 299
   R. Vinayagamoorthy, M. Anthony Xavier

Fuzzy Inference System for Prediction During Precision Turning Of Ti-6al-4v .................................................................................................................................................. 308
   M. Anthony Xavier, R. Vinayagamoorthy

Finishing of Bevel Gears using Abrasive Flow Machining .................................................................................................................................................. 320
   G. Venkatesh, A.K. Sharma, Nitish Singh, Pradeep Kumar

Investigation of Chill Performance in Steel Casting Process Using Response Surface Methodology .................................................................................................................................................. 329
   K. Kanthavel, K. Arunkumar, S. Vivek

Effect of Machining Parameters on Tool Wear in Hard Turning of AISI D3 Steel .................................................................................................................................................. 338
   B. Varaprasad, R. Srinivas, P.V. Vinay

Modeling of Incremental Forming Process Parameters of Al 3003 (O) by Response Surface Methodology .................................................................................................................................................. 346
   S.P. Shanmugam, V.S. Senthil Kumar

A Preliminary Assessment of Machinability of Titanium Alloy Ti 6AL 4V During thin Wall Machining Using Trochoidal Milling .................................................................................................................................................. 357
   Ashwin Polshetty, Moshe Goldberg, Guy Littlefair, Mahesh Pattaraju, Prasad Patil, Akshay Kalra

Optimization and Prediction of Parameters in Face Milling of Al-6061 Using Taguchi and ANN Approach .................................................................................................................................................. 365
   M.S. Sukumar, P. Venkata Ramaiyah, A. Nagarjuna

Performance of Coated and Uncoated Inserts during Intermittent Cut Milling of AISI 1030 Steel .................................................................................................................................................. 372
   Saravanan Lakshmanan, M. Anthony Xavier

Effect of Reinforcement Particles on the Abrasive Assisted Electrochemical Machining of Aluminium-boron Carbide-graphite Composite .................................................................................................................................................. 381
   M. Sanker, A. Gnanavelbabu, K. Rajkumar

Effect of the Standard and Special Geometry Design of a Drill Body on Quality Characteristics and Multiple Performance Optimization in Drilling of Thick Laminated Composites .................................................................................................................................................. 390
   B. Ramesh, A. Elayaperumal, S. Satishkumar

Sliding Wear Properties of Jute Fabric Reinforced Polypropylene Composites .................................................................................................................................................. 402
   Temesgen Berhanu Yallew, Pradeep Kumar, Inderdeep Singh
Characterization of AA6063/SiC-Gr Surface Composites Produced by FSP Technique ................................................................. 625  
R. Dhayalan, K. Kalaiselvan, R. Satishkumar

Experimental Determination of the Mechanical Behavior of Glass Fiber Reinforced Polypropylene Composites .................................................. 632  
S. Suresh, V.S. Senthil Kumar

Study on Ageing Behaviour of Silicon Nitride Reinforced Al6061 Composites ................................................................. 642  
Praveen J. Mane, K.L. Vishnu Kumar

Mechanical and Thermal Properties of Horn Fibre Reinforced Polypropylene Composites .................................................. 648  
D. Kumar, S. Rajendra Boopathy

Tribological Behaviour of Aluminium Hybrid Metal Matrix Composite ................................................................. 660  
K.R. Padmanabhi, B. Ramakrishnan

Optimization of Machining Parameters Using Fuzzy Based Principal Component Analysis During Dry Turning Operation of Inconel 625 – A Hybrid Approach ................................................................. 668  
R. Ramanujam, K. Venkatesan, Vimal Saxena, Rachit Pandey, T. Harsha, Gurusharan Kumar

Study of Cutting force and Surface Roughness in Machining of Al alloy Hybrid Composite and Optimized using Response Surface Methodology ................................................................. 677  

Free Vibration Characteristics of Phoenix Sp Fiber Reinforced Polymer Matrix Composite Beams .................................................. 687  
G. Rajeshkumar, V. Haribaran

Dry Sliding Wear Behaviour of AA6061-T6 Reinforced SiC and Al2O3 Particulate Hybrid Composites .................................................. 694  
K. Umanath, S.T. Selvamani, K. Palanikumar, R. Sabarikreeshvaran

Metal to Metal Worn Surface of AA6061 Hybrid Composites Casted by Stir Casting Method .................................................. 703  
K. Umanath, S.T. Selvamani, K. Palanikumar, D. Niranjanavarma

Three Body Abrasion Wear Behaviour of Functionally Graded Aluminium/B4C Metal Matrix Composite Using Design of Experiments ................................................................. 713  
N. Radhika, R. Raghu

A Study on Prediction of the Optimal Process Parameters for GMA Root-pass Welding in Pipeline .................................................. 723  
Ji-Sun Kim, Jong-Pyo Lee, Min-Ho Park, Cheol-Kyun Park, Ill-Soo Kim

Friction Stir Processing of SSM356 Aluminium Alloy ................................................................. 732  
S. Chainarong, P. Muangjunburee, S. Suthummanon

Characterization of Mechanical Properties and Microstructural Analysis of Friction Stir Welded AZ31B Mg Alloy Thorough Optimized Process Parameters .................................................. 741  
P. Seveel, V. Jaigamesh

Study on Weld Quality Characteristics of Micro Plasma Arc Welded Austenitic Stainless Steels .................................................. 752  
Kondapalli Siva Prasad, Chalamalasetti Srinivasa Rao, Dumara Nageswara Rao

Process Capability Analysis and Optimization in WEDM of Commercially Pure Titanium .................................................. 758  
Rupesh Chalisgaonkar, Jatinder Kumar

Optimization of the Pulsed Current Gas Tungsten Arc Welding Process Parameters for Alloy C-276 using the Taguchi Method ................................................................. 767  
M. Manikandan, N. Nageswara Rao, R. Ramanujam, Devendranath Ramkumar, N. Arivazhagan, G.M. Reddy

Parameter Optimization of Friction Stir Welding Of AA8011-6062 Using Mathematical Method .................................................. 775  

PART 2

Effect of Weld Penetration On Fatigue Life ................................................................. 783  
A.R. Deshmukh, G. Venkatachalam, Hemant Divekar, M.R. Saraf

The Effect of Welding Process Parameters on Pitting Corrosion and Microstructure of Chromium-manganese Stainless Steel Gas Tungsten Arc Welded Plates ................................................................. 790  
R. Sudhakaran, P.S. Sivasakthivel, S. Nagaraja, K.M. Ezehil

Effect of Tool Shoulder Diameter During Friction Stir Processing of AZ31B Alloy Sheets of various Thicknesses ................................................................. 800  
S. Ramesh Babu, S. Purvithran, M. Nithin, B. Parameshvaran

Radiography and Corrosion Analysis of Sub-merged Friction Stir Welding of AA6061-T6 alloy ................................................................. 810  
C. Rathinasubramanian, V.S. Senthil Kumar, Arin Ganapathi Shanbhag

A Study on Development of Optimal Noise Filter Algorithm for Laser Vision System in GMA Welding ................................................................. 819  
Qian-Qian Wu, Jong-Pyo Lee, Min-Ho Park, Cheol-Kyun Park, Ill-Soo Kim

Optimizing the Temperature of Hot outlet Air of Vortex Tube using Taguchi Method ................................................................. 828  
G. Suresh Kumar, G. Padmanabhan, B. Dattaatreya Sarma
An Experimental Approach to Study the Effect of Welding Parameters on Similar Friction Stir Welded Joints of AZ31B-O Mg Alloy................................................................. 837
Inderjeet Singh, Gurmeet Singh Cheema, Amardeep Singh Kang

Preliminary Studies on Mechanical and Metallurgical Behaviour of Friction Stir Welded Butt Joints ................................................................. 847
B.N. Venkatesha, M.S. Bhagyashekar

Numerical Simulation of Temperature Distribution and Material Flow During Friction Stir Welding of Dissimilar Aluminum Alloys......................................................... 854
R. Padmanaban, V. Ratna Keshore, V. Balusamy

Simulated Annealing Based Parameter Optimization for Friction Stir Welding of Dissimilar Aluminum Alloys ................................................................................ 864
R. Padmanaban, V. Balusamy, V. SaiKrishna, K. Gopath Niranthar

Comparative Studies of High and Low Frequency Pulsing on the Aspect Ratio of Weld Bead in Gas Tungsten Arc Welded AISI 304L Plates .................................................. 871
M. Arivarasan, K. Devendranath Ramkumar, N. Arivazhagan

Optimization of 316 Stainless Steel Weld Joint Characteristics using Taguchi Technique ................................................................. 881
P. Bharath, V.G. Sridhar, M. Senthil Kumar

Micro-segregation Studies on the Continuous Nd: YAG Laser Beam Welded AISI 316L .................. 892
M. Arivarasan, G. Vishnu, P.R. Hari, V.P. Vijin, Kaushik Karthi, K. Gobalakumar, M. Manikandan, K. Devendranath Ramkumar, N. Arivazhagan

Experimental Investigation for Welding Aspects of Stainless Steel 310 for the Process of TIG Welding ................................................................. 902
V. Anand Rao, R. Deivanathan

Development of Acoustic Emission and Motor Current Based Fuzzy Logic Model for Monitoring Weld Strength and Nugget Hardness of FSW Joints ................................................................. 909
S. Senthil Kumar, S. Denis Ashok

An Investigation on the Mechanical Properties of Hybrid Metal Matrix Composites ................................................................................ 918
M. Vamsi Krishna, M. Anthony Xavier

Wear Characteristics of B4C and Al2O3 Reinforced with Al 5083 Metal Matrix based Hybrid Composite ................................................................................ 925
T. Hariprasad, K. Varatharanaj, S. Ravi

Studies on Intermittent Facing of Metal Matrix Composites Using Cryogenic Treated Carbide Inserts ................................................................................ 930
CR Prakash Rao, M.S. Bhagyashekar, Narendra Viswanath

Evaluation of Properties for Al-SiC Reinforced Metal Matrix Composite for Brake Pads ................................................................. 941
Rathod Abhik, V. Umasankar, M. Anthony Xavier

Synthesis and Mechanical Behavior of AA 6063-x wt. % Al2O3-1% Gr (x = 3, 6, 9 and 12wt. %) Hybrid Composites ................................................................................ 951
T. Saravanakumar, P. Sasikumar, S. Sivasankaran

The Micro Structural and Mechanical Property Study of Effects of EGG SHELL Particles on the Aluminum 6061 ................................................................................ 961
Amba Chaithanyasai, Pragyna Rani Vakchore, V. Umasankar

Impact Characterization of Epoxy LY556/E-Glass Fibre/ Nano Clay Hybrid Nano Composite Materials ................................................................................ 968
S. Sivasaravanan, V.K. Bupesh Raja, Manikandan

Optimization of Micro Drilling Parameters of B4C DRMM Al 6063 Composite in μECM Using Taguchi Coupled Fuzzy Logic ................................................................................ 975
C. Venkatesh, N.M. Arun, R. Venkatesan

Assessing the Mechanical Performance Cannabis Sativa Composites – Reinforced with Long Time Dried Fibre ........................................................................... 986
Nadendla Srinivasababu

Analysis of Tribological Behavior of Aluminium/B4C Composite Under Dry Sliding Motion ................................................................................ 994
N. Siddhartha Prabhakar, N. Radhika, R. Raghu

Parametric Study for Radial over Cut in Electrochemical Drilling of Al-5%B4Cp Composites ................................................................................ 1004

Comparative Study of Composites Reinforced With SiC and TiB2 ................................................................................ 1012
S. Johny James, K. Venkatesan, P. Kuppan, R. Ramamujam

Hybrid Aluminium Metal Matrix Composite Reinforced with SiC and TiB2 ................................................................................ 1018
S. Johny James, K. Venkatesan, P. Kuppan, R. Ramamujam

The Effect of Ball Milling & Reinforcement Percentage on Sintered Samples of Aluminium Alloy Metal Matrix Composites ................................................................................ 1027
P. Ashwath, M. Anthony Xavier

Graphene Reinforced Metal Matrix Composite (GRMMC): A Review ................................................................................ 1033
H.G. Prashantha Kumar, M. Anthony Xavier

Assembly System ............................................................... 1788
B. Vijaya Ramnath, C. Saresh Kumar, G. Riyaz Mohamed, K. Venkatacharan, C. Elanchezhian, S. Sathish

Application of Firefly Algorithm in Job Shop Scheduling Problem for Minimization of Makespan ................................................................. 1798
K.C. Udayakumar, M. Chandrasekaran

Energy Conservation in Foundries Using Waste Heat Recovery System ........................................... 1842
L. Venkatesh Mururaman

Design, Development and Implementation of a Robust Decision Support Expert System (branDEC) in Multi Criteria Decision Making ................................................................. 1853
N.K. Jha, R. Kumar, A. Kumari, B. Bepari

Integration to Face Modern Quality Challenges in Automotive ............................................................... 1866
S. Tichkiewitch, A. Riel

A Review on Lean Manufacturing Implementation Techniques ............................................................... 1875
R. Sandar, A.N. Balaji, R.M. Satheesh Kumar

Matlab Toolbox for Kinematic Analysis and Simulation of Dexterous Robotic Grippers ............................................................... 1886
Swaraj Zodey, S.K. Pradhan

State Dependent Riccati Equation based Nonlinear Controller Design for Ball and Beam System ............................................................... 1896
E. Vinodh Kumar, Jovitha Jerome, G. Rajaia

Mechanics of Polypropylene-Seed-Coat-Fibres Composites And Polypropylene –Wood Fibres Composites: A Comparative Study ............................................................... 1915
Sheila Devashahyam, Prasad Yarlagadda

Weight Criteria Detection to Find Work Volume of 3-PRSParallel Manipulator using Fuzzy Logic ............................................................... 1929
Manishita Mahapatro, A. Arockia Selvakumar

Analysis on the Load Carrying Mechanism Integrated as a Heterogeneous Co-operative Manipulator in a Walking Wheelchair ............................................................... 1935
I.S. Rajay Vedaraj, B.V.A. Rao

Investigation of Surface Texture Using Image Processing Techniques ............................................................... 1943
A. Srivani, M. Anthony Xavior
A Fuzzy Logic based Model to Predict the Improvement in Surface Roughness in Magnetic Field Assisted Abrasive Finishing ................................................................. 1948
T.C. Ranish, P. Kuppan, S. Narayanan, S. Denis Ashok

Optimization of Process Parameters for Friction Stir Welding of High Density Polypropylene Plate ........................................ 1957
V. Jaiganesh, B. Marutha, E. Gopinath

Modeling of an Excogitative Pumping Process for High Temperature Fluid ................................................................. 1966
Deepak Kumar Murugan, Dineshbabu Deenadayalan, Prashanth Ravichandran, Thennarasu Palani

Numerical Analysis on Formability of AZ61A Magnesium Alloy by Incremental Forming ................................................ 1975
R. Senthil, A. Gnanavelbabu

Comparison of FLD and Thickness Distribution on AA5052 Aluminium alloy Formed parts by Incremental Forming Process ........................................................................................................... 1983
V. Mugendiran, A. Gnanavelbabu

Parameter Optimization for Surface Roughness and Wall Thickness on AA5052 Aluminium alloy by Incremental Forming using Response Surface Methodology ..................................................... 1991
V. Mugendiran, A. Gnanavelbabu, R. Ramadoss

Design of MEMS Based Microneedle for Drug Delivery System ......................................................................................... 2001
N. Raja Rajeswari, P. Malliga

Automated Guided Vehicle with Robotic Logistics System ............................................................................................... 2011
V. Jaiganesh, J. Dhileep Kumar, J. Giri Jayadevi

Design Analysis of Mixed Flow Pump Impeller Blades Using ANSYS and Prediction of its Parameters using Artificial Neural Network ................................................................................................................. 2022
Sambrannt Srivastava, Apurba Kumar Roy, Kaushik Kumar

Fabrication and Property Evaluation of Banana-Hemp-Glass Fiber Reinforced Composites ................................................ 2032
R. Bhoopathi, M. Ramesh, C. Deepa

Mechanical Properties of Luffa Fiber and Ground nut Reinforced Epoxy Polymer Hybrid Composites ................................. 2042
R. Panneerthavan, A. Gnanavelbabu, K. Rajkumar

Experimental Investigations on Mechanical Properties Of Jute Fiber Reinforced Composites with Polyester and Epoxy Resin Matrices ......................................................................................................... 2052
Ajith Gopinath, M. Senthil Kumar, A. Elayaperumal

Enhancing Effectiveness of Shell and Tube Heat Exchanger through Six Sigma DMAIC Phases ................................................. 2064

Identification of High Impact Lean Production Tools in Automobile Industries using Weighted Average Method ................................................................. 2072
P. Arunagiri, A. Gnanavelbabu

Design of a New In-Pipe Inspection Robot ..................................................................................................................... 2081
Aakrit Nayak, S.K. Pradhan

Fault Diagnosis of Automobile Gearbox Based on Machine Learning Techniques ............................................................... 2092
T. Praveen Kumar, M. Sainurugan, P. Krishnakumar, K.I. Ramachandran

Studies on Tribological Behavior of Polyamide Filled Jute Fiber-Nano-ZnO Hybrid Composites ........................................... 2099
P. Rajasekhar, G. Ganesh, C. Senthil Kumar

Influence of Titanium on Dry Sliding Wear Behaviour of Sintered P/M Low Alloy Steel (Fe-C-W) ........................................... 2110
S. Senthu Prabhu, S. Prathiba, N. Venkatesan, Ashu Sharma, Shukkool Ahmed, Yesh A. Shah

Investigations on Dry Sliding Wear Behaviour of Sintered/Extruded P/M Alloy Steels (Fe-C-W-Ti) ............................................ 2119
S. Senthu Prabhu, S. Prathiba, M.A. Asokan, Ansul Jain, Neeraj Kumar Jain, Pratyush Kumar Chourasia

Manufacturing of PMMA Cam Shaft by Rapid Prototyping ...................................................................................................... 2127
V. Jaiganesh, Andrew Anthony Christopher, E. Magilan

Addressing the Root Cause Impediments for Supplier Development in Manufacturing Environment ..................................... 2136
C.V. Sunil Kumar, Srikanta Routroy

TOPSIS-AHP Based Approach for Selection of Reverse Logistics Service Provider: A Case Study of Mobile Phone Industry ..................................................................................................................... 2147
A. Jayant, P. Gupta, S.K. Garg, M. Khan

Analysis of the Barriers for Implementing Green Supply Chain Management (GSCM) Practices: An Interpretive Structural Modeling (ISM) Approach ................................................................. 2157
A. Jayant, Mohd Azhar

Identification of Major Lean Production Waste in Automobile Industries using Weighted Average Method ................................................................. 2167
P. Arunagiri, A. Gnanavelbabu

Solving Multi-objective Vehicle Routing Problem with Time Windows by FAGA ........................................................................ 2176
V. Sivaram Kumar, M.R. Thaneswar, R. Saravanan, S. Miruna Joe Amalii

Monte Carlo Simulation Based Approach to Manage Risks in Operational Networks in Green Supply Chain ..................................................................................................................... 2186
Sachin K. Mangla, Pradeep Kumar, Mukesh Kumar Barua
A Hybrid Approach using AHP-TOPSIS for Analyzing e-SCM Performance ......................................................... 2195
Mohit Tyagi, Pradeep Kumar, Dinesh Kumar

Modelling Rural Healthcare Supply Chain in India using System Dynamics ......................................................... 2204
Dinesh Kumar, D. Kumar

Simulation Modelling and Analysis of Network Design for Closed-Loop Supply Chain: A Case Study of Battery Industry .................................................................................................................. 2213
A. Jayant, P. Gupta, S.K. Garg

ASCTM Approach for Enterprise Agility .................................................................................................................. 2222
M. Balaji, V. Velmershan, G. Sivabalan, V.S. Hayaraja, M. Prapa, V. Mythily

A Case Study of Just-In-Time System in Service Industry ...................................................................................... 2232
A.S. Arulhye, S.P. Kallurkar

Integrated Logistics System for Indigenous Fighter Aircraft Development Program .............................................. 2238
Sanjay Kumar Shukla, Satish Kumar, P. Selvaraj, V Subba Rao

Analyzing Transportation and Distribution in Emergency Humanitarian Logistics ........................................... 2248
M. Safeer, S.P. Anbuudayasankar, Kartik Balkumar, K. Ganesh

Analysis of Decision Models in Supply Chain Management .................................................................................. 2259
Jivanath Venugopalan, V.S. Sarath, Roshan Jayaraj Pillai, S. Anantha Krishnan, S.P. Anbuudayasankar

Optimality of Cycle Time and Inventory Decisions in a Two Echelon Inventory System under Credit Period ................................................................................................................................. 2269
Seelam Krugon, Dega Nagaraju, S. Narayanan

Optimality of Inventory Decisions and Shipment Policies in a Two-Echelon Inventory System under Quadratic Price Dependent Demand .................................................................................. 2279
Burra Karuna Kumar, Dega Nagaraju, S. Narayanan

A Survey of Classifications in Supply Chain Strategies .......................................................................................... 2289
Dagne Birhanu, Krishnanand Lanka, A. Neelakanteswara Rao

Application of Rapid Prototyping in the Treatment of Clubfoot in Children .......................................................... 2298
E. Vijayaragavan, Leya Miriam Kurian, H. Salayman, T.V. Gopal

Enterprise Transformation – A Need for Survival and Growth in Small Scale Fabrication Units ............................. 2306
R. Vezhavendhan, Chinmoy Sarkar

A Knowledge Based System for Cost Estimation of Deep Drawn Parts .............................................................. 2313
Vishal Naranje, Shailendra Kumar, H.M.A. Hussein

Reliability Analysis of CHU System of Coal Fired Thermal Power Plant Using Fuzzy λ-T Approach .................. 2323
Dilbagh Panchal, Dinesh Kumar
