2014 International Conference on Smart Computing

(SMARTCOMP 2014)

Hong Kong, China
3-5 November 2014
Table of Contents

Message from General and Program Co-Chairs ................................................................. vii
Organizing Committee ...................................................................................................... ix
Technical Program Committee ....................................................................................... xi
External Reviewers ......................................................................................................... xiv

Keynote Speeches ............................................................................................................ 1

From DUMB Computers to SMART Computing ........................................................... fi "A
   Yale N. Patt

Analytics of Smart Computing in a Data-centric World ................................................ fi "A
   Tarek F. Abdelzaher

Session 1A: Network and Cloud Computing I .............................................................. 5

A Crowdsourcing Approach to Promote Safe Walking for Visually Impaired People ........ 7
   Chi-Yi Lin, Shih-Wen Huang, and Hui-Huang Hsu

Soft Real-Time GPRS Traffic Analytics for Commercial M2M Communications Using Spark .... 13
   Gianluca Privitera, Giacomo Ghidini, Stephen P. Emmons, David Levine, Paolo Bellavista, and Jeffrey
   O. Smith

Cloud Service Recommendation based on Trust Measurement Using Ternary Interval Numbers .... 21
   Hua Ma and Zhigang Hu

Complex Data Collection in Large-scale RFID Systems .................................................. 25
   Weiping Zhu, Xiaohui Cui, Cheng Hu, and Chao Ma

Session 1B: Computer Vision and Pattern Recognition I .............................................. 33

A MAP Estimation based Segmentation Model for Speckled Images .............................. 35
   Yu Han, George Baciu, and Chen Xu

A Hybrid Fusion Scheme for Color Face Recognition ................................................... 42
   Yuwu Lu, Lunke Fei, and Yan Chen

Learning to Integrate Local and Global Features for a Blind Image Quality Measure ......... 49
   Min Liu, Guangtao Zhai, Ke Gu, and Xiaokang Yang

Kernel Sparse Representation based Classification for Undersampled Problem ............... 54
   Zizhu Fan, Ming Ni, Qi Zhu, and Yuwu Lu
Session 1C: Memory, CPS and Others

Evaluation of PM2.5 and PM10 using Normalized First-order Absolute Sum of High-frequency spectrum

Wenming Yang, Xiang Chen, and Qingmin Liao

Garbage Collection and Wear Leveling for Flash Memory: Past and Future

Ming-Chang Yang, Yu-Ming Chang, Che-Wei Tsao, Po-Chun Huang, Yuan-Hao Chang, and Tei-Wei Kuo

Cyberinfrastructure: Applications and Challenges

Qiuhui Tong, Bo Yuan, and Xiu Li

Implementation of an Environmental Quality and Harmful Gases Monitoring System

Chao-Tung Yang, Jung-Chun Liu, Yun-Ting Wang, Chia-Cheng Wu, and Fang-Yie Leu

Session 2A: Network and Cloud Computing II

Reputation-based Multiplayer Fairness for Ad-hoc Cloudlet-assisted Cloud Gaming System

Zhen Hong, Wei Cai, Xiaofei Wang, and Victor C.M. Leung

Algorithmic Approach to Deadlock Detection for Resource Allocation in Heterogeneous Platforms

Ha Huy Cuong Nguyen, Van Son Le, and Thanh Thuy Nguyen

E-Net-Manager: A Power Management System for Networked PCs based on Soft Sensors

Simone Brienza, Fabio Bindi, and Giuseppe Anastasi

On-demand Gateway Broadcast Scheme for Connecting Mobile Ad Hoc Networks to the Internet

Huaqiang Xu, Lei Ju, Chongxian Guo, and Zhiping Jia

An Optimal Slicing Strategy for SDN based Smart Home Network

Shiwei Wang, Xiaoling Wu, Hainan Chen, Yanwen Wang, and Daiping Li

Session 2B: Computer Vision and Pattern Recognition II

Facial Expression Recognition and Generation using Sparse Autoencoder

Yunfan Liu, Xueshi Hou, Jiansheng Chen, Chang Yang, Guangda Su, and Weibei Dou

Face Hallucination via Position-based Dictionaries Coding in Kernel Feature Space

Wenming Yang, Tingrong Yuan, Fei Zhou, and Qingmin Liao

A People Counting Method Based on Head Detection and Tracking

Bin Li, Jian Zhang, Zheng Zhang, and Yong Xu
**Session 2C: Graphics, Visualization and Multimedia** ................................................................. 143

Interactive Visualization of High Density Streaming Points with Heat-map .................................. 145  
*Chenhui Li, George Baciu, and Yu Han*

Enabling 3D Online Shopping with Affordable Depth Scanned Models ........................................ 150  
*Geoffery Poon, Yu-Yin Yeung, and Wai-Man Pang*

Towards Efficient Multimedia Publish/Subscribe in Urban VANETs ......................................... 156  
*Chunmei Ma, Nianbo Liu, Xiaomin Wang, Haigang Gong, Xili Dai, and Ming Liu*

---

**Session 3A: Wireless Sensor Networks and Mobile Computing I** ................................................. 165

Ensuring Energy Efficient Coverage for Participatory Sensing in Urban Streets ............................. 167  
*Adnan Khan, Sk Kajal Arefin Imon, and Sajal K. Das*

Automatic Page Scrolling for Mobile Web Search ......................................................................... 175  
*Mostafa Alli and Ling Feng*

Demographic Information Prediction Based on Smartphone Application Usage ............................ 183  
*Zhen Qin, Yilei Wang, Yong Xia, Hongrong Cheng, Yingjie Zhou, Zhengguo Sheng, and Victor C.M. Leung*

---

**Session 3B: Human Computer Interaction and Healthcare I** ..................................................... 191

GeSmart: A Gestural Activity Recognition Model for Predicting Behavioral Health ....................... 193  
*Mohammad Arif Ul Alam and Nirmalya Roy*

Using Artificial Neural Network to Predict Mortality of Radical Cystectomy for Bladder Cancer .......... 201  
*Kin-Man Lam, Xue-Jian He, and Kup-Sze Choi*

Physiological-Based Emotion Recognition with IRS Model ....................................................... 208  
*Chao Li, Zhiyong Feng, and Chao Xu*

Automatic Segmentation of Brain MR Images for Patients with Different Kinds of Epilepsy ............ 216  
*Jie Wang, Rui Wang, Su Zhang, Jing Ding, and Yuemin Zhu*

---

**Session 3C: Machine Learning, Data Mining and Database I** ................................................... 221

Near-Duplicate Detection Using GPU-based Simhash Scheme ....................................................... 223  
*Xiaowen Feng, Hai Jin, Ran Zheng, and Lei Zhu*

A Distributed Gaussian-Means Clustering Algorithm for Forecasting Domestic Energy Usage ........ 229  
*Antorweep Chakravorty, Chunming Rong, Pal Evensen, and Tomasz Wiktor Wlodarczyk*

A Correlation-Aware Partial Materialization Scheme for Near Real-Time Automotive Queries ........ 237  
*Yu Hua and Dan Feng*

Harmful Algal Blooms Prediction with Machine Learning Models in Tolo Harbour ......................... 245  
*Xiu Li, Jin Yu, Zhuo Jia, and Jingdong Song*
Session 4A: Wireless Sensor Networks and Mobile Computing II .............................................. 251

  Ryo Shimizu, Kenji Tei, Yoshiaki Fukazawa, and Shinichi Honiden

Continuous Tracking for Mobile Targets with Mobility Nodes in WSNs.............................................. 261
  Tian Wang, Zhen Peng, Yonghong Chen, Yiqiao Cai, and Hui Tian

Mobile Agent Group Communication Protocol Ensuring Causal Order Semantics ......................... 269
  Jinho Ahn

Energy-efficient Reliable Data Gathering Scheme Based on Enhanced Reed-Solomon Code for Wireless
Sensor Networks ............................................................................................................................................... 275
  Yi-hua Zhu, Ji Xu, Ertao Li, and Lin Xu

Session 4B: Human Computer Interaction and Healthcare II ................................................................. 281

Gas Mixture Control System for Oxygen Therapy in Pre-term Infants .................................................. 289
  Phattaradanai Kiratiwudhikul and Pornchai Chanyagorn

Heart Rate Measurement Via Smart Phone Acceleration Sensor .......................................................... 295
  Gaoan Gao and Zhenmin Zhu

Session 4C: Machine Learning, Data Mining and Database II ............................................................... 301

Facial Expression Recognition via Deep Learning ...................................................................................... 303
  Yadan Lv, Zhiyong Feng, and Chao Xu

Classifying Smart Objects using Capabilities ......................................................................................... 309
  Marco E. Perez Hernandez and Stephan Reiff-Marganiec

Inference-as-a-Service: A Situation Inference Service for Context-Aware Computing .......................... 317
  Moon Kwon Kim and Soo Dong Kim

Author Index .................................................................................................................................................. 325
