# TABLE OF CONTENTS

## PART 1 of 2

### PELTON DESIGN

INFLUENCE OF INITIAL NOZZLE OPENING ON THE MAXIMUM PRESSURE HEAD AT THE IMPULSE TURBINE INLET AND SET OF NEEDLE CLOSING LAW .......................... 1

T Li, X Lai, W B Liu, X M Li

MODERNIZATION OF VERTICAL PELTON TURBINES WITH THE HELP OF CFD AND MODEL TESTING ............................................................... 11

R Mack, B Gola, M Smertnig, B Wittwer, P Meusburger

FLOW SIMULATION OF A PELTON BUCKET USING FINITE VOLUME PARTICLE METHOD ............................................................... 21

C Vessaz, E Jahanbakhsh, F Avellan

A REFERENCE PELTON TURBINE - DESIGN AND EFFICIENCY MEASUREMENTS ............................................................... 30

B W Solemslie, O G Dahlhaug

### MECHANICAL DESIGN

EXPERIMENTAL INVESTIGATION OF THE FLOW IN A SIMPLIFIED MODEL OF WATER LUBRICATED AXIAL THRUST BEARING ............................................................... 40

O Kirschner, A Ruprecht, S Riedelbauch

HYDRODYNAMIC OPTIMIZATION OF TRUST RING PUMP AND LUBRICATING OIL SYSTEM FOR LARGE HYDROELECTRIC UNITS THRUST BEARING ............................................................... 50

X Lai, Z Lu, X Zhang, S Yang

EXPERIMENTAL AND NUMERICAL INVESTIGATION OF HYDRO POWER GENERATOR VENTILATION ............................................................... 61

H Jamshidi, H Nilsson, V Chernoray

ALSTOM FRANCIS TURBINE RING GATES: FROM RETROFITTING TO COMMISSIONING ............................................................... 71

P A Nguyen, G Labrecque, M-O Thibault, M Bergeron, A Steinshilber, D Havard

### PUMP DESIGN

AN EXPERIMENTAL STUDY ON PUMP CLOGGING ............................................................... 81

M Isono, M Nohmi, H Uchida, M Kawai, H Kudo, T Kawahara, K Miyagawa, S Saito

ANALYSIS OF NOVEL LOW SPECIFIC SPEED PUMP DESIGNS ............................................................... 92

R Klas, P Pochyly, P Rudolf

STUDY ON CLOGGING MECHANISM OF FIBROUS MATERIALS IN A PUMP BY EXPERIMENTAL AND COMPUTATIONAL APPROACHES ............................................................... 103

H Kudo, T Kawahara, H Kawai, K Miyagawa, S Saito, M Isono, M Nohmi, H Uchida, M Kawai

LEAKAGE FLOW SIMULATION IN A SPECIFIC PUMP MODEL ............................................................... 114

P Dupont, A C Bayeul-Lainé, A Dazin, G Bois, O Roussette, Q Si

PARAMETRIC PERFORMANCE EVALUATION OF A HYDRAULIC CENTRIFUGAL PUMP ............................................................... 124

M W Heo, K Y Kim, S B Ma, I S Yoo, W C Choi, J H Kim, Y S Choi

### NEW MATERIAL COATING, MANUFACTURING

FATIGUE ANALYSES OF THE PROTOTYPE FRANCIS RUNNERS BASED ON SITE MEASUREMENTS AND SIMULATIONS ............................................................... 132

X Huang, J Chamberland-Lanazon, C Oram, A Klopfner, N Ruchonnet

METALLURGICAL AND FATIGUE ASSESSMENTS OF WELDS IN CAST WELDED HYDRAULIC TURBINE RUNNERS ............................................................... 140

A Trudel, M Sabourin

IN SITU POST-WELD HEAT TREATMENT ON MARTENSITIC STAINLESS STEEL TURBINE RUNNERS USING A ROBOTIC INDUCTION HEATING PROCESS TO CONTROL TEMPERATURE DISTRIBUTION ............................................................... 151

E Boudreault, B Hazel, J Côté, S Godin

FATIGUE ANALYSIS OF THE PISTON ROD IN A KAPLAN TURBINE BASED ON CRACK PROPAGATION UNDER UNSTEADY HYDRAULIC LOADS ............................................................... 161

X Liu, Y Y Luo, Z W Wang

EXPERIMENTAL INVESTIGATION OF A CAVITATING BACKWARD-FACING STEP FLOW .......................................................... 1350
G Maurice, H Djeridi, S Barre

EXPERIMENTAL AND NUMERICAL INVESTIGATIONS OF CAVITATING FLOWS

UNSTEADY LIFT AND DRAG CHARACTERISTICS OF CAVITATING CLARK Y-11.7% HYDROFOIL .......................................................... 1361
S Watanabe, W Yamaoka, A Farukawa
NUMERICAL ANALYSIS OF UNSTEADY CAVITATING FLOW BY USING A MODIFICATION BASED ON AN ASSUMPTION OF APPARENT PHASE EQUILIBRIUM ................................................................. 1370

Y Iga

LES INVESTIGATION ON CAVITY SHEDDING OF A CLARK-Y HYDROFOIL UNDER DIFFERENT ATTACK ANGLE WITH AN INTEGRATION METHOD .......................................................... 1381

L Z Xiao, X P Long, Q Lyu, M S Xu

NUMERICAL SIMULATION OF UNSTEADY SHEET/CLOUD CAVITATION ................................................................. 1392

T D Tran, B Nennemann, T C Yu, F Guibault

NUMERICAL INVESTIGATION OF UNSTEADY CAVITATION AROUND A NACA 66 HYDROFOIL USING OPENFOAM .......................................................................................................................... 1402

V H Hidalgo, X W Luo, X Escaler, J Ji, A Aguinaga

NUMERICAL ESTIMATION OF CAVITATION INTENSITY ................................................................................................. 1410

L Krumenacker, R Fortes-Patella, A Archer

EXPERIMENTAL AND NUMERICAL INVESTIGATIONS OF EROSION

SILT MOTION SIMULATION USING FINITE VOLUME PARTICLE METHOD ................................................................................................. 1421

E Jahanbaksh, C Vessaz, F Avellan

EXPERIMENTAL STUDY ON ABRASIVE WATERJET POLISHING OF HYDRAULIC TURBINE BLADES ................................................................. 1431

H Khakpour, L Birglenl, A Tahan, F Paquet

AN EXPERIMENT SYSTEM FOR TESTING SYNERGETIC EROSION CAUSED BY SAND ABRASION AND CAVITATION ................................................................. 1441

L Lu, J Liu, J G Zhang, L Zhu, H Q Xu, X C Meng, J C Yu, S P Ma, K Wang

NUMERICAL STUDY ON THE PERFORMANCE OF BULB TURBINE BY USING RUNAWAY CONDITION TO FLOOD DISCHARGE AND SEDIMENT DREDGING ................................................................ 1451

Z Yaping, L Weili, L Zhihua, R Hui, L Xingqi

PELTON TURBINE NEEDLE EROSION PREDICTION BASED ON 3D THREE-PHASE FLOW SIMULATION ................................................................................................. 1459

Z Chongji, X Yexiang, Z Wei, Y Yangyang, C Lei, W Zhengwei

NUMERICAL AND EXPERIMENTAL INVESTIGATION ON FLOW FIELD CHARACTERISTICS OF ORGAN PIPE NOZZLE ................................................................................................. 1466

Z L Fang, Y Kang, X C Wang, D Li, Y Hu, M Huang, X Y Wang

GENERAL

CAVITATION EROSION - CORROSION BEHAVIOUR OF ASTM A27 RUNNER STEEL IN NATURAL RIVER WATER ................................................................................................. 1475

L Tôn-Thât

HYDRO-ABRASIVE EROSION: PROBLEMS AND SOLUTIONS ................................................................................................. 1483

K Winkler

MIND THE GAP - TIP LEAKAGE VORTEX IN AXIAL TURBINES ................................................................................................. 1493

M Dreyer, J Decaix, C Münch-Alligné, M Farhat

MITIGATION OF TIP VORTEX CAVITATION BY MEANS OF AIR INJECTION ON A KAPLAN TURBINE SCALE MODEL ................................................................................................. 1500

A Rivetti, M Angulo, C Lucino, S Liscia

OCEAN POWER AND FAST-FLOWING RIVER CURRENTS POWER

HYDRODYNAMIC NUMERICAL SIMULATION OF DIFFUSER FOR HORIZONTAL AXIS MARINE CURRENT TURBINE BASED ON CFD ................................................................................................. 1510

H Chen, D Zhou

DEVELOPMENT OF A HYDRO KINETIC RIVER TURBINE WITH SIMULATION AND OPERATIONAL MEASUREMENT RESULTS IN COMPARISON ................................................................................................. 1517

A Ruopp, A Ruprecht, S Riedelbauch, G Arnaud, I Hamad

SMALL HYDROPOWER AND VERY LOW HEAD TURBINES

DEVELOPMENT OF A TWIN-FLAPPING-FOILS UNIT TO GENERATE HYDROELECTRIC POWER FROM A WATER CURRENT ................................................................................................. 1527

H Abiru, A Yoshitake, M Nishi
STANLEY-ADAMSON: THE FIRST INDUSTRIAL SIZE VARIABLE SPEED COMPACT HYDRO PROJECT WORLDWIDE ................................................................. 1534

P Duflon, M Mailloux

VERY LOW HEAD TURBINE DEPLOYMENT IN CANADA ................................................................. 1543

P Kemp, C Williams, R Sasseville, N Anderson

RESEARCH ON THE FLOW FIELD OF UNDERSHOT CROSS-FLOW WATER TURBINES USING EXPERIMENTS AND NUMERICAL ANALYSIS .................................................................................. 1552

Y Nishi, T Inagaki, Y Li, R Omiya, K Hatano

TENTATIVE STUDY ON PERFORMANCE OF DARRIUES-TYPE HYDROTURBINE OPERATED IN SMALL OPEN WATER CHANNEL .......................................................... 1561

D Matsushita, R Moriyama, K Nakashima, S Watanabe, K Okuma, A Furukawa

ENVIRONMENTAL CONSIDERATION IN TURBINE DESIGN AND OPERATION

CFD MODEL OF AN AERATING HYDROFOIL ................................................................................. 1571

D Scott, M Sabourin, S Beaulieu, B Papillon, C Ellis

MEASUREMENTS IN THE WAKE OF A VENTILATED HYDROFOIL: A STEP TOWARDS IMPROVED TURBINE AERATION TECHNIQUES ................................................................. 1580

C Ellis, A Karn, J Hong, S-J Lee, E Kawakami, D Scott, J Gulliver, R E A Arndt

FISH PASSAGE THROUGH HYDROPOWER TURBINES: SIMULATING BLADE STRIKE USING THE DISCRETE ELEMENT METHOD ................................................................. 1591
