EDUCATION

Teaching of Lexical Chunks in English Listening Class for College Students .................................................................................................................. 242
Xirong Ai
Discussion on Cultivation of Students' Innovative Ability During a Graduation Thesis of an Undergraduate .................................................................................................................. 247
Guo Zhao
Research and Practice of the Open Experimental Teaching Mode In the University .................................................................................................................. 252
Quang Song, Lingxia Liu
Research on Teaching Reform of Computer Network Course in Application-Oriented Institutes .................................................................................................................. 257
Xiaojun Liu
Research on the Small Files Problem of Hadoop .................................................................................................................................................. 262
Xiaojun Liu, Chong Peng, Zhichao Yu
Study on Quality Evaluation of Master of Engineering Education System Construction ............................................................................................................ 267
Canyuwan Mu, Ke Ding
Exploration and Practice of Comprehensive Reform of Material Forming and Control Engineering Specialty .................................................................................................................. 272
Bolin He, Xianfeng Xu, Shuzhen Li, Haipeng Deng
Study and Practice on Course Reformation for Engineering Materials and Fundamentals of Mechanical Manufacturing .................................................................................................................. 278
Yingxia Yu, Bolin He, Shuzhen Li, Zhisen Zhang
The Teachers' Teaching Skills Affect on the Classroom - Teaching Quality in the Fashion Design Teaching .................................................................................................................. 283
Guo Hu
A Real Student Network Analysis and Mining in Class Teaching .................................................................................................................. 287
Xianhua Zeng, Shengwei Qu, Zhihong Wu, Xu Cheng, Jingjing Nie
Test Response Modeling Demonstrations for College Programming Language ............................................................................................................ 292
Zhiqiang Pu, Wei Chen
A Survey and Quantitative Analysis of Chinese Students' English Learning Motivation .................................................................................................................. 297
Shuyan Xu, Xianhua Yang
An Empirical Study and Implications on Chinese Students' Learning Related Academic Emotions .................................................................................................................. 302
Xianhua Yang, Shuyan Xu
Analysis of Knowledge Data Discovery and Mining by Construction of Natural Language Understanding System

Qiufen Wang, Huaing Guo

Reforms on Teaching of Mathematical Modeling and Organization of Contest

Qiuliang Yang

A Study on Water-mass-to-collector-area Ratio for the Flat-plate Solar Water Heating System used in Yunnan Province

Shengzian Wei, Fene Hu, Zhe Li

A Naive Bayes Based Tree Classification System

Yongtao Wang

Vortex Shedding Characteristics of Flow Past two Different Diameters Cylinders in Tandem Arrangement at Low Reynolds Number

Yongtao Wang

Analysis of Teaching Effect Based on the Test Paper Contents - Consideration on the Application-Oriented Computer Drawing Course Reform in Education

Xia Yu, Xiaojing He, Cheng Chen

Characteristics of Flow over two Tandem Cylinders of Different Diameters

Yongtao Wang

Longitudinal Planter Pressure Variation During Gait Throughout Pregnancy

Chun Hu, Yan Zhang, Yaodong Gu

The Design and Idea of Cross-cultural Distance Collaborative Learning and Its Enlightenment

Cui Bai Li

The Platform Concept and Feature of Global Distance Collaborative Learning Website-- Global School Network (GSN) as an Example

Cui Bai Li

Research on Teaching Reform of SCM Course under the Goal of Training Excellent Engineer

Caimei Li, Ming Yang, Le Huang

On Influence of Music Education on Emotional Development of Pre-school Children

Lei Liu

Research on the Key Technologies of Mobile Learning System

Caimei Li, Le Huang, Ron Wang

The Exploration And Practice Of Course Examination Methods Reform On Linear Algebra

Yuli He, Xiaojing Guo

Research on the Teaching Reform of Power Enterprise Management Curriculum

Yuntao Wang

Exploring on the Construction of "Learning Community" Classroom of Computer Language Course

Yuanhuan Zhang, Hai Jiang

Research on the Optimization Model of Vehicle Logistics

Xiaofei Zhang, Junyi Zhang

Capacity of MIMO Laser Optical (VLC) Wireless Networks

Siming Yang, Peng Xue, Bicheng Li, Xianfeng Wang, Haicheng Liu

Measurement of Drug-taking Compliance Based on RFID Technology

Zhaosui Ren

The Measurement and Evaluation of Standard DQE in Digital Radiography

Xiang Lu, Junyi Zhang

Practice Teaching Reform of Application Technology Oriented University

Kechao Wang, Tianluan Wang, Xiangmin Ren, Zongfu Jia

Creating a Autonomous Learning Classroom Environment for Students Based on the Basic Electronics Course

Guojian Zhou, Hongyu Zhao

Analysis of Sports Dance Major Affect for Development Influence

Shirui Shao, Wenjian Qiao

Context and Teaching Chinese as a Foreign Language

Jiugan Xiao, Nijuian Chen, Jun Wang

ECONOMIC

The Application of Real Option Method for Investment Decision of Real Estate Project

Zhen Wang

Integrated Prospecting Prediction of Multi-scale Structure Information at Gaosong Field in Gejiu, Yunnan Province

Chunzhong Ni, Hua Fan

Empirical Analysis of FDI and Economic Growth in Gansu China: Based on Time-series Data from 1986 to 2010

Jing Shi

Back-fitting Estimation of Semiparametric Partially Linear Varying-coefficient Models with PCA

Mingsong Zhang, Zixin Liu, Jianhua Qian

Health Status, Financial Consciousness and Rural Households' Credit Constraints

Changsheng Li, Wenyi Zhang

Comprehensive Analysis on Economic Influence and Relation of China with Other Main Countries

Miaozhi Fang, Xin Lu
The O2O Mode in Electronic Commerce ................................................................. 615
Jia Li, Weijian Mo

On the Investment Benefit and Risk Assessment of Resettlement Housing Construction ................................................................. 619
Yicheng Xu

Volatility Forecasting Model-Free Implied Volatility ........................................ 623
Jieguo Cheng, Guibin Lu

Empirical Study on the impact of Urbanization on air Transport Industry in Shanghai ................................................................. 627
Di Luon, Lu Qin

A New Algorithm of Boolean Function and Its Application ................................ 633
Hongmei Pei, Guifeng Huang, Xuanshi Li

SOCIOLGY

Research on Geography of Crime and Social Change-in Transitional China Since the Economic Reform ................................................................. 637
Yiqing Li

The Cultural Evolution of Chinese Dai Costumes Pattern Based on Neighbour-Nets Analysis ................................................................. 643
Yunfeng Zhang, Yang Zhang, Mingzhu Yang

Different Response of Phosphoenolpyruvate Carboxylase in two Assimilating Organs of Hedysarum Scoparium on Increasing Soil Water Stress ................................................................................................. 651
Weidong Wang, Kaidi Zhang

Preparation and Visible-light Photocatalytic Activity of Pt/TiO2-N2) ................................................................. 660
Bai Liu, Weiduo Yang, Huiyi Tsai

Study on Bacterical Effect Fresh Zanthoxylum Bungeanum Juice ................................................................. 664
Guo Hu, Shangqiu Hu

Application of Clustering Analysis Algorithm in Digital Library ................. 669
Yan Ge

Corporate Social Responsibility in New Media Times -A Case Analysis of Master Kong ................................................................. 674
Wanwan Wang

A Research on Compliant Digital Cinema Playback System ................................................................. 680
Fang Lu

A Study on Art Design Using Vague Set Theory ................................................................. 684
Fang Lu

A Study on Key Delivery Message System of Digital Cinema Design .............. 688
Fang Lu

A Study on Paintings Art Style Using Multi-Cues ................................................................. 692
Fang Lu

Research on Transforming 3D Cinema to 3DTV Method ......................................................... 696

The Construction of Digital Campus with Virtual Reality Technology--Taking Xinhua College of Sun Yat-sen University As an Example ................................................................. 700
Zhu Chen, Han Qin, Hongsheng Huang, Shaoliang Liu, Weichuan Ni, Weijian Mo

Design of UAV Airborne Reconnaissance and Rescue Based on ATMEGA2560 ................................................................. 705
Wenyao Liu, Chengzhan Peng, Feng Wang, Weijian Mo, Zhiping Wan

Mobile Energy Monitoring System Based on ZigBee Communication .............. 711
Quanbing Deng, Zhi Ping Yan

Iris Pseudacorus Biology Habit, Cultivation Technology and its Application in Environmental Protection ................................................................. 716
Luoqian Gong, Hongzhuong Wang, Xing Kong, Guifin Li, Enzhao Liu, Cong X, Ying Xa

Analysis on Windows Illegal operations ................................................................. 721
Yingyu Chen, Haidong Jin

Influence of Different Teenagers on Attitudes and Behaviors of Their Parents in Physical Education ................................................................. 727
Ganujiao Wang

Note on Clustering Criterion ................................................................................................................................. 732
Jiuge Xiao, Xijuan Chen, Jingwen Cui

The Rhetoric Art of Register Variation in Comedy—Taking Comedy Lines as an Example ................................................................. 736
Jiuge Xiao, Xijuan Chen, Jingwen Cui

Research on the Evaluation of User’s Influence in Micro-blog Platform ............ 741
Zhimin Li, Keliang Jia

Study on Environment Effect of Construction in Huairou District .................. 746
Xing Kuang

Carbon Fiber Reinforced Polymers (CFRP) Technique and Its Application in Bridge Engineering in The Future ................................................................. 750
Huayin Sun, Yali Liu, Weili Zhou

A Comparative Study on Pragmatic Rules for Chinese and English Social Appellation ................................................................. 756
Yang Fang

Cockpit/cabin Crew Communication: Problems and Countermeasures ............ 761
Shouxi Zhu, Wenlai Ma
