Some format issues inherent in the e-media version may also appear in this print version.
# Table of Contents

SPE-173323-MS  
**Proppant Transport? Viscosity Is Not All It’s Cracked Up To Be**  
1  
A.M. Gomaa, D.V. Gupta, P.S. Carman, Baker Hughes

SPE-173324-MS  
**The Fresh Water Neutral Challenge: The Need for Protection, Reduction, Innovation, and Conservation**  
22  
R. Greaves, R. Hartstein, D. Lincicome, J.E. Wehner, P. Beck, J.E. Lamb, K.E. Olson, Southwestern Energy

SPE-173326-MS  
**Numerical Investigation of Complex Hydraulic Fracture Development in Naturally Fractured Reservoirs**  
38  
K. Wu and J. Olson, The University of Texas at Austin

SPE-173328-MS  
**In-Situ Formation of Proppant and Highly Permeable Blocks for Hydraulic Fracturing**  
53  
F. Chang, P.D. Berger, C. Lee, Oil Chem Technologies

SPE-173329-MS  
**Impact of Geomechanics on Well Completion and Asset Development in the Bakken Formation**  
64  
S.V. Ganpule, K. Srinivasan, T. Izykowski, B.A. Luneau, E. Gomez, Schlumberger

SPE-173330-MS  
**Application of Linear Flow Volume to Rate Transient Analysis**  
80  
J.A. Acuna, Chevron U.S.A. Inc

SPE-173331-MS  
**The Effect of Well Azimuth or Don’t Let Your Landman Plan Your Well Path!**  
93  
F. Yang, Missouri University of Science & Technology; L.K. Britt, NSI Fracturing, LLC; S. Dunn-Norman, Missouri University of Science & Technology

SPE-173333-MS  
**Refracturing on Horizontal Wells in the Eagle Ford Shale in South Texas: One Operator’s Perspective**  
118  
M. Diakhate, A. Gazawi, Pioneer Natural Resources; R.D. Barree, Barree & Associates; M. Cossio, B. Tinnin, B. McDonald, G. Barzola, Pioneer Natural Resources

SPE-173334-MS  
**Do Data Mining Methods Matter? A Wolfcamp Shale Case Study**  
136  
M. Zhong, Baker Hughes; J. Schuetter, S. Mishra, Battelle Memorial Institute; R.F. Lafollette, Baker Hughes

SPE-173335-MS  
**An Improved Equilibrium-Height Model for Predicting Hydraulic Fracture Height Migration in Multi-Layered Formations**  
148  
S. Liu, P.P. Valko, Texas A&M University

SPE-173336-MS  
**A Case History: Evaluating Well Completions in Eagle Ford Shale Using a Data-Driven Approach**  
164  
A.M. Nejad, S. Sheludko, R.F. Shelley, StrataGen; T. Hodgson, P.R. Mcfall, Sundance Energy
Table of Contents (continued)

SPE-173337-MS  
Hydraulic Fracture Height Containment by Weak Horizontal Interfaces  183  
D.A. Chuprakov, R. Prioul, Schlumberger-Doll Research Center

SPE-173338-MS  
A New Generation High-Drag Proppant: Prototype Development, Laboratory Testing, and Hydraulic Fracturing Modeling  200  
Y. Liu, E.R. Fonseca, C. Hackbarth, Shell International Exploration and Production; R. Hulseman, K. Tackett, Hoowaki LLC

SPE-173339-MS  
What is More Important for Proppant Transport, Viscosity or Elasticity?  206  
Y. Hu, H. Chung, J.E. Maxey, Halliburton

SPE-173340-MS  
Re-Fracturing in Eagle Ford and Bakken to Increase Reserves and Generate Incremental NPV: Field Study  217  
Y. Oruganti, R. Mittal, C.J. McBurney, A. Rodriguez Garza, Baker Hughes

SPE-173341-MS  
Pre-Frac Injection Test Analysis: A Unified Approach to the Application of Conventional Techniques in an Unconventional Play  237  
P. Smith, E. Pinto, BP America

SPE-173342-MS  
Application of Extended Finite Element Method To Simulate Hydraulic Fracture Propagation From Oriented Perforations  250  
J. Sepehri, Pinnacle, A Halliburton Service; M.Y. Soliman, S.M. Morse, Texas Tech University

SPE-173343-MS  
The Third Dimension: Productivity Effects From Spatial Placement and Well Architecture in Eagle Ford Shale Horizontal Wells  265  
W.D. Holcomb, R.F. Lafollette, M. Zhong, Baker Hughes

SPE-173344-MS  
Dynamic Interaction Within Multiple Limited Entry Fractures in Horizontal Wells: Theory, Implications, and Field Verification  281  
A.A. Daneshy, Daneshy Consultants Intl.

SPE-173345-MS  
Field Determination of Fracture Propagation Mode Using Downhole Pressure Data  303  
A.A. Daneshy, Daneshy Consultants Intl.; C. Touchet, F. Hoffman, Bluescape Resources; M. McKown, NCS Energy Services

SPE-173346-MS  
Water-Induced Fracture Conductivity Damage in Shale Formations  319  
J. Zhang, ConocoPhillips; D. Zhu, A.D. Hill, Texas A&M University

SPE-173347-MS  
The Effect of Rock Mechanical Properties on Fracture Conductivity for Shale Formations  336  
T.A. Jansen, D. Zhu, A.D. Hill, Texas A&M University

Table of Contents (continued)

SPE-173363-MS
Can We Engineer Better Multistage Horizontal Completions? Evidence of the Importance of Near-Wellbore Fracture Geometry From Theory, Lab and Field Experiments
B. Lecampion, J. Desroches, X. Weng, Schlumberger; J. Burghardt, TerraTek, a Schlumberger Company; J.E. Brown, Schlumberger

SPE-173364-MS
Evaluating Fracturing Fluid Flowback in Marcellus Using Data Mining Technologies

SPE-173365-MS
Coiled Tubing Horizontal Well Fracturing in the Low Young's Modulus, Low Permeability Belridge Diatomite: Challenges Faced And Lessons Learned

SPE-173366-MS
Treatment and Permitting of Produced Water for Discharge to Surface Water
D. Mueller, Environmental Defense Fund

SPE-173367-MS
A New Tool for Multi-Cluster and Multi-Well Hydraulic Fracture Modeling
Z. Zhai, E.R. Fonseca, Shell International Exploration and Production; A. Azad, B. Cox, Shell Canada Limited

SPE-173368-MS
Evolution of Completion Techniques in the Lower Shaunavon Tight Oil Play in Southwestern Saskatchewan
D.J. Schlosser, NCS Oilfield Services Canada; M. Johe, T.N. Humphreys, C. Lundberg, Crescent Point Energy Corporation; J.L. McNichol, NCS Energy Services Canada

SPE-173369-MS
Revolutionary Particle Fluid System Unlocks the Fractured Reservoir Potential

SPE-173370-MS
Examining the Impact of Hydrocarbon Drainage on Completion and In-fill Drilling Strategies in Unconventional Reservoirs
K. Srinivasan, M.D. Gbededo, H. Hue, J.K. Krishnamurthy, V.M. Gonzales, Schlumberger

SPE-173371-MS
Chemical Compatibility of Mixing Utica and Marcellus Produced Waters: Not All Waters Are Created Equal – A Case Study
F.B. Woodward, Shell Exploration & Production Company; B.E. Schulmeister, C. Caldwell, R. Seeman, R.S. Hudson, Calfrac Well Services

SPE-173372-MS
Overcoming Obstacles for Produced Water in Bakken Well Stimulations
D.D. Schmidt, Statoil; B.A. Mackay, Schlumberger; B.L. Williams, F.E. Beck, Statoil; A.B. Bell, B.W. Mcmahon, H. Bradley, E.G. Lian, Schlumberger
