# Table of Contents

## 2015 IEEE International Conference on Consumer Electronics (ICCE)

### Entertainment and Services

*A Framework for User Control Over Media Data Based on a Trusted Point*
Cristian Perra (University of Cagliari, Italy) ................................................................. 1

*A Virtual Touching Scheme for Interactive TV Using a Consumer Depth Camera*
Shang-Pu Fan (National Taiwan University, Taiwan), Yung-Lin Huang (National Taiwan University, Taiwan), Shao-Yi Chien (National Taiwan University, Taiwan) ................................................................. 3

*Interoperability Analysis for Ginga-NCL and HbbTV Application Players*
Max Rosan (Universidade de São Paulo & LSI-TEC, Brazil), Gustavo Moreira Calixto (University of Sao Paulo & LSI-TEC, Brazil), Laiza C. P. Costa (University of Sao Paulo & LSI-TEC, Brazil), Marcelo K Zuffo (University of São Paulo, Brazil) ................................................................. 5

*LDA-based Face Recognition Using Multiple Distance Training Face Images with Low User Cooperation*
Hae-Min Moon (University of Chosun, Korea), Dongjin Choi (Chosun University, Korea), Pankoo Kim (Chosun University, Korea), Sung Bum Pan (Chosun University, Korea) ......................................................................................... 7

### Image/Video Processing

*Pose Tracking Using Motion State Estimation for Mobile Augmented Reality*
Tatsuya Kobayashi (KDDI R&D Laboratories Inc., Japan), Haruhisa Kato (KDDI R&D Laboratories, Japan), Hiromasa Yanagihara (KDDI R&D Laboratories, Inc., Japan) ................................................................. 9

*Positional Analysis-based Scene-change Detection Algorithm*
Suk-Ju Kang (Dong-A University, Korea) ............................................................................. 11

*Fast and Robust Camera's Auto Exposure Control Using Convex or Concave Model*
Yuanhang Su (Shanghai Aerospace Electronic Technology Institute, P.R. China), C.-C. Jay Kuo (University of Southern California, USA) ............................................................................. 13

*Statistical Moving Object Detection for Mobile Devices with Camera*
Carlos Cuevas (Universidad Politécnica de Madrid, Spain), Raúl Mohedano (Universidad Politécnica de Madrid, Spain), Narciso García (Universidad Politécnica de Madrid, Spain) ................................................................. 15

*An Omnidirectional Stereo Sensor for Human Behavior Analysis in Complex Indoor Environments*
Michel Findeisen (Chemnitz University of Technology, Germany), Lars Meinel (Chemnitz University of Technology, Germany), Julia Richter (Chemnitz University of Technology, Germany), Gangolf Hirtz (Chemnitz University, Germany) ......................................................................................... 17

### A/V Systems

*Sports Highlights Generation Based on Acoustic Events Detection: A Rugby Case Study*
Anant Baijal (Samsung Electronics, Korea), Jaeyoun Cho (Samsung Electronics, Korea), Woojung Lee (Samsung Electronics, Korea), Byeong-Seob Ko (Samsung Electronics Co., Ltd., Korea) ......................................................................................... 20

*A Wind-Noise Suppressor with Wind-Burst Detection Based on a Stationary Noise Estimate*
Akihiko K. Sugiyama (NEC Corporation, Japan), Masanori Kato (NEC Corporation, Japan), Ryoji Miyahara (NEC Engineering Ltd., Japan) ......................................................................................... 24
Advanced Sound Capturing Method with Adaptive Noise Reduction System for Broadcasting Multicopters
Sojeong Yoon (Seoul National University of Science & Technology, Korea), Sang-II Park (Korea Communications Commission, Korea), Yumie Eom (Seoul National University of Science and Technology, Korea), Sung geun Yoo (Seoul Natl. University of Science and Technology, Korea) ........................................... 26

Conversion of Nearly Monaural Audio to 5.1-Channel Audio for Portable Multimedia Devices
Chan Jun Chun (Gwangju Institute of Science and Technology (GIST), Korea), Seok Hee Jeong (Gwangju Institute of Science and Technology (GIST), Korea), Myung Kyu Choi (Samsung Electronics, Korea), Hong Kook Kim (Gwangju Institute of Science and Technology (GIST), Korea), Myung Lee (City University of New York, City College, USA) ........................................... 30

Mobile Multimedia Applications: Speech Enabled Location Based Data Services
Bong Ho Lee (ETRI, Korea), Yang KyuTae (Electronics and Telecommunications Research Institute, Korea), Hyounsung Lim (Electronics and Telecommunications Research Institute (ETRI), Korea), Namho Hur (Electronics and Telecommunications Research Institute, Korea) ........................................... 32

Health and Wellness

Collective Heterogeneous Sensor Mashup for Enriched Personal Healthcare Activity Logging
Daell Seo (University of Science and Technology & Korea Institute of Science and Technology, Korea), Byoungyoon Yoo (Korea Institute of Science and Technology, Korea), Heedong Ko (Korea Institute of Science and Technology, Korea) ........................................... 34

Extracting Daily Patterns of Human Activity Using Non-Negative Matrix Factorization
Masanobu Abe (Okayama University, Japan), Akihiko Hirayama (Okayama University, Japan), Sunao Hara (Okayama University, Japan) ........................................... 36

Implementation of a Low-Cost Speech Altered Feedback System for Anti-Stuttering Application
Antonio Bortoletto (Federal University of ABC, Brazil), Celso Setsuo Kurashima (Federal University of ABC & University of Sao Paulo, Brazil), Mário Minami (Universidade Federal do ABC & Information Engineering, Brazil) ........................................... N/A

A Real-time Monitoring System Controller for Medical Tissue Engineering Bioreactors
Christian Leibold (Leibniz Universität Hannover, Germany), Marc Wahalla (Leibniz Universität Hannover, Germany), Matthias Wilhelmi (Medizinische Hochschule Hannover, Germany), Holger Blume (Leibniz Universität Hannover, Germany), Cornelio Blume (Leibniz University of Hannover, Germany) ........................................... 42

Time Division Multiple Access Based Intra-body Communication for Wearable Health Tracker
Fakhru Rizman Rokhani (Universiti Putra Malaysia, Malaysia), M Iqbal Saripan (UPM, Malaysia), Chee Phang Tan (Universiti Putra Malaysia, Malaysia) ........................................... N/A

Entertainment and Services

A Second Screen Web Service Framework Based on Multimedia Package Distribution
Seungyup Lee (Yonsei University, Korea), Juwan Yoo (Yonsei University, Korea), Gunhee Han (Yonsei University, Korea) ........................................... 46

A Cooperative Purchasing System for Smart Ad-Hoc Networks
Manuel Ramos-Cabrera (University of Vigo, Spain), Alberto Gil-Solla (University of Vigo, Spain), Jose Juan Pazos-Arias (Universidad de Vigo, Spain), Martin Lopez-Nores (University of Vigo, Spain), Yolanda Blanco-Fernández (University of Vigo, Spain) .................................................. 50

Lua-based Self-Management Framework for Internet of Things
Nemanja Ignjatov (RTRK Computer Based Systems LLC, Serbia), Milan Z. Bjelica (University of Novi Sad & iWedia, Serbia), Miča Četković (University of Novi Sad, Faculty of Technical Sciences, Serbia), Saša Radovanović (University of Novi Sad, Faculty of Technical Sciences & RT-RK Institute for Computer Based Systems, Serbia), Gordana Velikić (RTRK Computer Based Systems LLC, Serbia) .................................................. 52
PGuide: A Multi-Criteria Recommender Framework for Supporting Context-Aware Mobile Applications
Alezy Lima (Federal University of Alagoas & Computing Institute, Brazil), Leandro M Sales (Federal University of Alagoas, Brazil), Thiago Sales (Federal University of Alagoas, Brazil), Leandro Silva (Universidade Federal de Alagoas, Brazil) ................................................................. N/A

Threshold-Based Frame-Rate Adjustment for Energy-Saving in Portable Media Players
Jinwoo Yang (Inha University, Korea), Minseok Song (Inha University, Korea) ........................................ 56

Image/Video Processing

Real-time Video Coding System for Up to 4K 120P Videos with Spatio-temporal Format Conversion
Toshie Misu (NHK, Japan), Yasutaka Matsuo (Japan Broadcasting Corporation (NHK), Japan), Shunsuke Iwamura (NHK, Japan), Shinichi Sakaeda (NHK, Japan) ................................................................. 58

Rate-Distortion Optimized Composition of HEVC-Encoded Video
Weiwei Chen (Vrije Universiteit Brussel, Belgium), Jan Lievens (Vrije Universiteit Brussel, Belgium), Adrian Munteanu (Vrije Universiteit Brussel, Belgium), Jürgen Slowack (Barco N. V., Belgium), Steven Delputte (Barco N. V., Belgium) ................................................................. 62

Improvement of 8K UHDTV Picture Quality for H.265/HEVC by Global Zoom Estimation
Ryoki Takada (Waseda University, Japan), Shota Orihashi (Waseda University, Japan), Yasutaka Matsuo (Waseda University & Japan Broadcasting Corporation (NHK), Japan), Jiro Katto (Waseda University, Japan) ................................................................. 64

Improving the Coding Performance of 3D Video Using Guided Depth Filtering
Sebastiaan Van Leuven (Ghent University - iMinds, Belgium), Glenn Van Wallendael (Ghent University - iMinds, Belgium), Robin Bailleul (Ghent University - iMinds, Belgium), Jan De Cock (Ghent University - iMinds, Belgium), Rik Van de Walle (Ghent University - iMinds, Belgium) ................................................................. 66

A/V Systems

Bandwidth Estimation in Adaptive Video Streaming Over HTTP
Krsto Lazić (Faculty of Technical Sciences, Serbia), Ilija Basicevic (University of Novi Sad, Serbia), Jelena Kovacevic (University of Novi Sad, Serbia) ................................................................. 68

Quality-Delay Tradeoff Optimization in Multi-Bitrate Adaptive Streaming
Duc V. Nguyen (The University of Aizu, Japan), Nguyen Dung (Ha Noi University of Science and Technology, Vietnam), Huyen Trần (Hanoi University of Science and Technology, Vietnam), Pham Ngoc Nam (HUST, Vietnam), Anh T. Pham (The University of Aizu, Japan), Truong Cong Thang (The University of Aizu, Japan) ................................................................. 72

Branch Inter Layer Prediction Structure for Reduced Bandwidth Distribution of SHVC Streams
Robin Bailleul (Ghent University - iMinds, Belgium), Sebastiaan Van Leuven (Ghent University - iMinds, Belgium), Jan De Cock (Ghent University - iMinds, Belgium), Rik Van de Walle (Ghent University - iMinds, Belgium) ................................................................. 74

Optimized Resource Distribution for Interactive TV Applications
Gosala Kulupana (University of Surrey, United Kingdom), Dumidu S. Talagala (University of Surrey, United Kingdom), Hemantha Kodikara Arachchi (University of Surrey, United Kingdom), Anil Fernando (Center for Communications Research. University of Surrey, United Kingdom) ................................................................. 76

Perceptual Video Quality Assessment in HTTP Adaptive Streaming
Jan Lievens (Vrije Universiteit Brussel, Belgium), Adrian Munteanu (Vrije Universiteit Brussel, Belgium), Danny De Vleeschauwer (Alcatel-Lucent, Belgium), Werner Van Leekwijck (Bell Labs Alcatel-Lucent, Belgium) ................................................................. 78
Health and Wellness

Design and Implementation of an e-Health System for Depression Detection
Truong Cong Thang (The University of Aizu, Japan), Huyen Trân (Hanoi University of Science and Technology, Vietnam), Vo Duc Trong (IMS, VAST, Vietnam), Duc V. Nguyen (The University of Aizu, Japan), Hung Thai Le (University of Aizu, Japan), Tuan Pham (The University of Aizu, Japan) ...................................................................................................................... 80

OPDEMIVA: An Integrated Assistance and Information System for Elderly with Dementia
Lars Meinel (Chemnitz University of Technology, Germany), Julia Richter (Chemnitz University of Technology, Germany), René Schmidt (Technische Universität Chemnitz, Germany), Michel Findeisen (Chemnitz University of Technology, Germany), Gangolf Hirtz (Chemnitz University, Germany) ...................................................................................................................... 82

Educadaisy: Accessible Digital Didactic Book on Tablets for People with Visual Impairment
Laisa C. P. Costa (University of Sao Paulo & LSI-TEC, Brazil), Ana Grasielle Correa (Polytechnical School of University of Sao Paulo, Brazil), Danilo Dalmon (University of São Paulo, Brazil), Marcelo K Zuffo (University of São Paulo, Brazil), Roseli Lopes (Polytechnical School of University of Sao Paulo, Brazil) ................................................................. 84

A Safety Engineering Hazard Identification for Hemodialysis Systems
Tulio Costa (State University of Paraiba, Brazil), Rodrigo Barbosa (State University of Paraiba, Brazil), Edna Maciel (State University of Paraiba, Brazil), Lukas Ramos (State University of Paraiba, Brazil), Frederico Bublitz (State University of Paraiba, Brazil) .......................................................................................................................... N/A

Entertainment and Services

Robust Pedestrian Dead Reckoning for Indoor Positioning Using Smartphone
Myungchul Park (Kyungpook National University, Korea), Vinjohn V Chirakkal (Kyungpook National University, Korea), Dong Seog Han (Kyungpook National University, Korea) ................................................................................. 88

Indoor Navigation Using WIFI for Smartphones: An Improved Kalman Filter Based Approach
Vinjohn V Chirakkal (Kyungpook National University, Korea), Myungchul Park (Kyungpook National University, Korea), Dong Seog Han (Kyungpook National University, Korea) ................................................................. 90

A Smartphone Application for the Collaborative Knowledge Creation Based on Reputation
Celia Barrera Comendador (Universidad Carlos III de Madrid, Spain), Pedro J. Muñoz Merino (Universidad Carlos III de Madrid, Spain), Carlos Delgado Kloos (Universidad Carlos III de Madrid, Spain) ........................................................................................................................ 92

Aligned Thumbnails-based Video Browsing System with Chromecast
Ui Nyoung Yoon (Inha University, Korea), Ga Myung-Hyun (Inha University, Korea), Geun-Sik Jo (Inha University, Korea) ................................................................................................................................. 94

Automation of Human Body Model Data Measurement Using Kinect in Motion Capture System
Jungsu Shin (Chosun University, Korea), Kyeong-Ri Ko (Chosun University, Korea), Sung Bum Pan (Chosun University, Korea) ........................................................................................................................ 96

Image/Video Processing

Camera-based Color Calibration Method for Multiple Flat-panel Display System
June-Young Jung (Korea University, Korea), Seung Park (Korea University, Korea), Cheol-Hwan Yoo (Korea University, Korea), Yong-Goo Shin (Korea University, Korea), Sung-Jea Ko (Korea University, Korea) ........................................................................................................... 98

High Efficiency VLSI Implementation of an Edge-directed Video Up-scaler Using High Level Synthesis
Meng Li (Peking University, P.R. China), Peng Zhang (University of California, Los Angeles, USA), Chuang Zhu (Peking University, P.R. China), Huizhu Jia (Peking University, P.R. China), Xiaodong Xie (Peking University, P.R. China), Jason Cong (UCLA, USA), Wen Gao (Peking University, P.R. China) .......................................................................................................................... 100
Path Rendering Using Winding Number Generator
Jeongjoon Yoo (Samsung Advanced Institute of Technology & Samsung Electronics, Korea), Sundeep Krishnasadan (Samsung Electronics, SRI-Bangalore-GPU, India), John Brothers (Samsung Electronics, SRA-Silicon Valley, USA), Seokyoung Jung (Samsung Advanced Institute of Technology, Korea), Soojung Ryu (Samsung Advanced Institute of Technology, Korea), Jeongwook Kim (Samsung Advanced Institute of Technology, Korea) ............................................................ 104

Categorical Object Recognition Method Robust to Scale Changes Using Depth Data From an RGB-D Sensor
Ju Han Yoo (Korea Institute of Science and Technology, Korea), Dong Hwan Kim (Korea Institute of Science and Technology, Korea), Sung-Kee Park (Korea Institute of Science and Technology, Korea) ........................................................................................................ 106

A/V Systems

System Architecture for Cross-Channel Application Services on Hybridcast
Hisayuki Ohmata (NHK (Japan Broadcasting Corporation), Japan), Hiroki Endo (NHK, Japan), Akitsugu Baba (NHK, Japan), Kinji Matsumura (Japan Broadcasting Corporation (NHK), Japan), Shunji Sunasaki (NHK (Japan Broadcasting Corporation), Japan), Kenjiro Kai (Japan Broadcasting Corporation & NHK STRL, Japan) ........................................................................................................ 108

Watermarking for HEVC/H.265 Stream
Kazuto Ogawa (Japan Broadcasting Corporation, Japan), Go Ohtake (Japan Broadcasting Corporation, Japan) ........................................................................................................ 110

An Application Distribution Management System for Hybridcast
Yuki Hironaka (Japan Broadcasting Corporation & NHK STRL, Japan), Hisayuki Ohmata (NHK (Japan Broadcasting Corporation), Japan), Go Ohtake (Japan Broadcasting Corporation, Japan), Kazuhiro Otsuki (NHK Science & Technology Research Laboratories, Japan), Masaru Takechi (Japan Broadcasting Corporation, Japan), Kenjiro Kai (Japan Broadcasting Corporation & NHK STRL, Japan), Keigo Majima (NHK Science & Technology Research Laboratories, Japan) ........................................................................................................ 112

No-Reference Video Quality Metric for Streaming Service Using DASH Standard
Demostenes Zegarra Rodriguez (University of Sao Paulo & Nokia Technology Institute, Brazil), Renata Rosa (University of Sao Paulo, Brazil), Graca Bresan (University of Sao Paulo, Brazil) ........................................................................................................ 114

Video Copy Detection Based on HEVC Intra Coding Features
Kai-Wen Liang (National Central University, Taiwan), Yi-Ching Chen (National Central University, Taiwan), Zong-Yi Chen (National Central University, Taiwan), Pao-Chi Chang (National Central University, Taiwan) ........................................................................................................ 116

Break and Poster Session Day 1.1

Robust Speaker Direction Estimation with Microphone Array Using NMF for Smart TV Interaction
Seongkyu Mun (University of Korea, Korea), Suwon Shon (Korea University, Korea), Woil Kim (Incheon National University, Korea), Hanseok Ko (Korea University, Korea) ........................................................................................................ 120

Design and Implementation of Interactive Visual Search System for Smart TV
Da-Un Jung (ETRI, Korea), Seungjae Lee (ETRI, Korea), Keundong Lee (ETRI, Korea), Sungkwan Je (ETRI, Korea), Weon-Geun OH (ETRI, Korea) ........................................................................................................ 122

My Own 3D Fairy Tale Service System for Mobile Devices
Seong-Jae Lim (ETRI, Korea), Bon-Woo Hwang (ETRI, Korea), Seung-Uk Yoon (ETRI, Korea), Jin Sung Choi (ETRI, Korea) ........................................................................................................ N/A

Optical See-through Wearable Display for Close Range Interaction
Ungyeon Yang (ETRI, Korea), Ki-Hong Kim (Electronics and Telecommunications Research Institute, Korea) ........................................................................................................ 127
Transportation Means Identification of Content Delivery System for Consumer Electronic Devices
Masatsugu Ichino (University of Electro-Communications, Japan), Hiroshi Yoshiura (The University of Electro-Communications, Japan), Jiro Katto (Waseda University, Japan) .................................................. 129

Performance Comparison of Tap Gestures on Small-Screen Touch Devices
Heesook Shin (Electronics and Telecommunications Research Institute, Korea) ................................................. 131

Dynamic Scheduled Broadcasting Service Based on Broadcast/Broadband Converged Networks
Byungjun Bae (Electronics and Telecommunications Research Institute, Korea), Oh Sungheun (DigiCAP Co., Ltd, Korea), Hyun-Jeong Yim (Electronics and Telecommunications Research Institute (ETRI), Korea), Woosuk Kim (ETRI, Korea), Hyoongsoo Lim (Electronics and Telecommunications Research Institute (ETRI), Korea) ................................................................................................................................. 133

A Hybrid Architecture Based on TS and HTTP for Real-time 3D Video Transmission
Kug-jin Yun (Electronics and Telecommunications Research Institute, Korea), Won-Sik Cheong (ETRI, Korea), Jin Y. Lee (Electronics and Telecommunications Research Institute, Korea), Kyuheon Kim (Kyunhee University, Korea), GwangSoon Lee (ETRI, Korea) ........................................... 135

Adaptive Video Quality Control Scheme to Improve QoE of MPEG DASH
Sunghee Lee (Kwangwoon University, Korea), Kimyung Youn (Kwangwoon University, Korea), Kwangsu Chung (Kwangwoon University, Korea) .................................................................................................................................................. 137

Hands-Free Audio Conferencing Unit with Low-Complexity Dereverberation
Masahiro Fukui (NTT Media Intelligence Laboratories, NTT Corporation, Japan), Kazunori Kobayashi (NTT Media Intelligence Laboratories, Japan), Suehiro Shimauchi (NTT Media Intelligence Labs, NTT Corporation, Japan), Yusuke Hioka (University of Auckland, New Zealand), Hitoshi Ohmuro (NTT, Japan) ............................................................. 139

Prediction of Perceptual Quality for Mobile 3D Video Using Fuzzy Inference Systems
Mohammed Alreshoodi (University of Essex, United Kingdom), Emad Danish (University of Surrey, United Kingdom), John Woods (University of Essex, United Kingdom), Anil Fernando (Center for Communications Research. University of Surrey, United Kingdom), Chamitha de Alwis (University of Surrey, United Kingdom) ................................................................................................................................. 141

Three-Dimensional Holographic Head Mounted Display Using Holographic Optical Element
Hee-Jae Kim (Inha University, Korea), Sung-Keun Lee (Inha University, Korea), Mei-Lan Piao (Chungbuk National University, Korea), Nam Kim (Chungbuk National University, Korea), Jae-Hyeung Park (Inha University, Korea) ............................................................................................................................................... 143

Music Recommendation System Based on Usage History and Automatic Genre Classification
Jongseol J. Lee (KETI, Korea), Kyoungro Yoon (Konkuk University, Korea), Dalwon Jang (KETI, Korea), Saim Shin (Korea Electronics Technology Institute, Korea), Sei-Jin Jang (Korea Electronics Technology Institute, Korea) .................................................................................................................................. 145

Improving SOVA Output Using Extrinsic Informations for Bit Patterned Media Recording
Chi Dinh Nguyen (Soongsil University, Korea), Jaejin Lee (Soongsil University, Korea) ........................................... 147

Low Latency Audio Coder Design for Bluetooth and Bluetooth Low Energy
Han-gil Moon (Samsung Electronics, Korea), Namsuk Lee (Samsung Electronics Co. Ltd, Korea), HyunWook Kim (Samsung Electronics, Korea), Sanghoon Lee (Samsung Electronics, Korea) ................................................................................................................................. 149

Preamble Generation Method to Improve Timing Estimation for OFDM System Using Training Sequence
Byoungah Kim (ETRI, Korea), Sangjae Lee (Electronics and Telecommunications Research Institute, Korea), Seung Sik Lee (ETRI, Korea), Sangsung Choi (Electronics and Telecommunications Research Institute(ETRI), Korea) ...................................................................................................................... 153

A Novel L5 Tracking Scheme for QZSS Satellite Using L1/L5 Synchronization Characteristics
Inone Joo (Electronics and Telecommunications Research Institute(ETRI), Korea) .................................................. 155

Electrode Layout of Wristband EMG Measuring Device for Hand Gesture Recognition
Hiroyuki Motoyama (Panasonic Corporation, Japan), Tsuyoshi Inoue (Panasonic Corporation, Japan), Yumiko Kato (Panasonic Corporation, Japan), Jun Ozawa (Panasonic, Japan) ........................................................................................................................................ 159

Conceptual Analysis for Timely Social Media-Informed Personalized Recommendations
Acm Fong (Auckland University of Technology, New Zealand) .................................................................................. 161
Entertainment & Services

Effective SSD Caching for High-performance Home Cloud Server
Dongwoo Lee (Sungkyunkwan University, Korea), Changwoo Min (Sungkyunkwan University, Korea), Young Ik Eom (Sungkyunkwan University, Korea) ................................................................. 163

Developing a Mobile Application Proxy for Multiple Clouds
Hsin-Han Yang (National Cheng Kung University, Taiwan), Wei-Guang Teng (National Cheng Kung University, Taiwan) ................................................................. 165

SaveMe: User-centric Cloud System
Gyuwon Song (Korea Institute of Science and Technology & University of Science and Technology, Korea), Suhyun Kim (Korea Institute of Science and Technology & University of Science and Technology, Korea), Dongmahn Seo (Catholic University of Daegu, Korea) ................................................................. 169

P2P-based Data Layer for Mobile Media Cloud
Daniel Díaz-Sánchez (Universidad Carlos III de Madrid, Spain), Patricia Arias (Universidad Carlos III de Madrid, Spain), Florina Almenares (Universidad Carlos III de Madrid, Spain), Andrés Marín López (University Carlos III of Madrid, Spain) ................................................................. 171

Delivering Personalised m-Commerce Through Cloud-Based Augmented Reality on Billboards
Martin Lopez-Nores (University of Vigo, Spain), Yolanda Blanco-Fernández (University of Vigo, Spain), Jose Juan Pazos-Arias (Universidad de Vigo, Spain), Manuel Ramos-Cabrér (University of Vigo, Spain), Alberto Gil-Solla (University of Vigo, Spain) ................................................................. 173

Image/Video Processing

Subjective Quality Assessment in Stereoscopic Video Based on Analyzing Parallax and Disparity
Juan Pedro Lopez Velasco (Universidad Politecnica de Madrid, Spain), Juan Antonio Rodrigo (Universidad Politecnica de Madrid & ETSIT, Spain), David Jimenez Bermejo (Universidad Politecnica de Madrid, Spain), José Manuel Menéndez (Universidad Politécnica de Madrid, Spain) ................................................................. 175

An Automatic Depth Map Generation Method by Image Classification
Hao Dong (Tsinghua University, P.R. China), Shouyi Yin (Tsinghua University, P.R. China), Guangli Jiang (Tsinghua University, P.R. China), Leibo Liu (Tsinghua University, P.R. China), Shaojun Wei (Tsinghua University, P.R. China) ................................................................. 179

Real-time Surveillance Application by Multiple Detectors and Compressive Trackers
Jihan Li (Beijing University of Posts and Telecommunications & Universidad Politécnica de Madrid, P.R. China), Renjie Li (Beijing University of Posts and Telecommunications, P.R. China), Raúl Mohedano (Universidad Politécnica de Madrid, Spain), Carlos R. del-Blanco (Universidad Politécnica de Madrid, Spain), Carlos Cuevas (Universidad Politécnica de Madrid, Spain), Guillermo Gallego (Universidad Politécnica de Madrid, Spain), Narciso García (Universidad Politécnica de Madrid, Spain) ................................................................. 181

A Method for Shadow and Highlight Removal in Nonparametric Moving Object Detection Strategies
Virginia Pascual (Universidad Politecnica de Madrid, Spain), Carlos Cuevas (Universidad Politécnica de Madrid, Spain), Narciso García (Universidad Politécnica de Madrid, Spain) ................................................................. 183

Automotive Entertainment, Safety & Information

Fast Service Following with Broadcast Area Map Generation Method for Automotive Digital TV Receiver
Keiichi Shirasuka (Mitsubishi Electric Corporation, Japan), Soichiro Matsumoto (Mitsubishi Electric Corporation, Japan), Osamu Nasu (Mitsubishi Electric Corporation, Japan), Nobuhiko Yamagishi (Mitsubishi Electric Corporation, Japan) ................................................................. 185

Robust MVF Estimation Method in HMM-based Speech Synthesis Using Two Band Excitation Model
Jihoon Park (CISS,KAIST, Korea) ........................................................................................................ N/A
An RFID Localization Algorithm for a Plug-In Electric Vehicle Recharging Robot
Hyungan Oh (Seoul National University & Korea Institute of Science and Technology, Korea), Byungchul An (Seoul National University, Korea), Anthony Smith (Vehicle Systems Research Lab - Smart Materials & Structure Group, GM Global R&D, USA), Madhusudan Raghavan (Vehicle Systems Research Lab - Smart Materials & Structure Group, GM Global R&D, USA), Frank Park (Seoul National University, Korea) .................................................................................................................................................................................. 189

Using Handheld Devices to Support Augmented Reality-based Maintenance and Assembly Tasks
Andrea Sanna (Politecnico di Torino, Italy), Federico Manuri (Politecnico di Torino, Italy), Fabrizio Lamberti (Politecnico di Torino, Italy), Gianluca Paravati (Politecnico di Torino, Italy), Pietro Pezzolla (FIDIA Spa, Italy) ............................................................................................................................................................................................................... 191

High Performance and High Reliable File System for Car Digital Video Recorders
Kim YoungHun (Sungkyunkwan University, Korea), Dongkun Shin (Sungkyunkwan University, Korea) ................................................................................................................................................................................................................... 193

Image/Video Processing

Low Memory Usage Architecture for 3D Graphics Based on Scan-Line Rendering
Yasushi Sugama (Fujitsu Laboratories Ltd., Japan), Toshiyuki Yoshitake (Fujitsu Laboratories Ltd., Japan), Heng Guo (Spansion Innovates Limited, Japan) ........................................................................................................................................................................ 195

A 3D Local Descriptor SHOT on Massively Parallel Processors
Linjia Hu (Michigan Technological University, USA), Saeid Nooshabadi (Michigan Technological University, USA) ........................................................................................................................................................................................................... 199

Real-time Time-consistent 2D-to-3D Video Conversion Based on Color Histogram
Zhen Zhang (Tsinghua University, P.R. China), Shouyi Yin (Tsinghua University, P.R. China), Leibo Liu (Tsinghua University, P.R. China), Shaojun Wei (Tsinghua University, P.R. China) ............................................................................................................................................................................. 201

A Novel 2-D Mapping-based Remote Eye Gaze Tracking Method Using Two IR Light Sources
Yong-Goo Shin (Korea University, Korea), Kang-A Choi (Korea University, Korea), Sung-Tae Kim (Korea University, Korea), Cheol-Hwan Yoo (Korea University, Korea), Sung-Jea Ko (Korea University, Korea) ........................................................................................................................................................................................................ 203

A Flexible and Low-Cost Hardware Implementation for Real-Time Video Stitching in 2D
Leilei Huang (Fudan University, P.R. China), Yanheng Lu (Fudan University, P.R. China), Xiaoyang Zeng (Fudan University, P.R. China), Yibo Fan (State Key Lab of ASIC and System, Fudan University, P.R. China) ............................................................................................................................................................................................................ 203

Network Technology

A Cognitive Context-aware Approach for Adaptive Services Provisioning in Social Internet of Things
Dina Hussein (Institut Mines-Telecom, Telecom SudParis, France), Soochang Park (Institut Mines-Télécom, Télécom SudParis, France), Noel Crespi (Institut Mines-Télécom, Télécom SudParis, France) ........................................................................................................................................................................................................ 209

On-site Service Discovery Along User Roaming Over Internet of Things
Soochang Park (Institut Mines-Télécom, Télécom SudParis, France), Dina Hussein (Institut Mines-Telecom, Telecom SudParis, France), Noel Crespi (Institut Mines-Télécom, Télécom SudParis, France) ..................................................................................................................................................................................................... 211

DAoT: Dynamic and Energy-aware Authentication for Smart Home Appliances in Internet of Things
Youngpil Kim (Korea University, Korea), Seehwan Yoo (Dankook University, Korea), Chuck Yoo (Korea University, Korea) ....................................................................................................................................................................................................... 213

IoT-based Monitoring System Using Tri-level Context Making Model for Smart Home Services
Byeongkwan Kang (Chung-Ang University, Korea), Sungohi Park (Chung-Ang University, Korea), Tacklim Lee (Chung-Ang University, Korea), Sehyun Park (Chung-Ang University, Korea) ........................................................................................................................................................................................................ 215
Integrating MQTT and ISO/IEEE 11073 for Health Information Sharing in the Internet of Things
Yuri Gomes (Federal University of Campina Grande, Brazil), Danilo F S Santos (Federal University of Campina Grande, Brazil), Hyggo Almeida (Federal University of Campina Grande, Brazil), Angelo Perkusich (Federal University of Campina Grande, Brazil) .................................................. 217

Automotive Entertainment, Safety & Information

Efficient Lane Detection System Based on Monocular Camera
Tao Tan (Tsinghua University, P.R. China), Shouyi Yin (Tsinghua University, P.R. China), Peng Ouyang (tsinghua University, P.R. China), Leibo Liu (Tsinghua University, P.R. China), Shaojun Wei (Tsinghua University, P.R. China) ........................................................................................................... 219

A New Lane Detection Method Based on Vanishing Point Estimation with Probabilistic Voting
Ju Han Yoo (Korea Institute of Science and Technology, Korea), Dong Hwan Kim (Korea Institute of Science and Technology, Korea), Sung-Kee Park (Korea Institute of Science and Technology, Korea) .................................................................................................................. 221

Real-time Pedestrian Detection Technique for Embedded Driver Assistance Systems
Yen-Lin Chen (National Taipei University of Technology, Taiwan), Chuan-Yen Chiang (National Chiao Tung University, Taiwan), Kun-Cing Ke (National Taipei University of Technology, Taiwan), Shyan-Ming Yuan (National Chiao Tung University, Taiwan) ................................................................. 223

Low Relative Speed Moving Vehicle Detection Using Motion Vectors and Generic Line Features
Chup-Chung Wong (University of Warwick & Hong Kong Productivity Council, Hong Kong), Wan-Chi Siu (Hong Kong Polytechnic University, Hong Kong), Stuart Barnes (University of Warwick, United Kingdom), Paul Jennings (University of Warwick, United Kingdom) ............................................ 225

Health and Wellness

On a Patient-based ICT Architecture for Telehealth Applications for Increasing Human Empowerment
Peter H.N. de With (Eindhoven University of Technology, The Netherlands), Luk Vervenne (Synergetics Benelux B. V., The Netherlands), William Goossen (Synergetics Benelux B. V., Belgium), Sveta Zinger (Eindhoven University of Technology, The Netherlands) ........................................................................................................ 227

Smartphone Based Freezing of Gait Detection for Parkinsonian Patients
Lucia Pepa (Università Politecnica delle Marche, Italy), Federica Verdini (Universita' Politecnica delle Marche, Italy), Maria Gabriella Ceravolo (Università Politecnica delle Marche, Italy), Marianna Capecci (Università Politecnica delle Marche, Italy) ................................................................. 229

An Advanced Patient Bedside Monitoring System Design Based on WBAN and Telemedicine Technologies
Nicolas Fahler (National Chiao Tung University, Taiwan), Wei Chin Huang (National Chiao Tung University, Taiwan), Chia-Ching Chou (National Chiao Tung University, Taiwan), Wai-Chi Fang (National Chiao Tung University, Taiwan) .................................................................................................................. 233

Emergency Psychiatric State Prediction for Ambient Assisted Living
Md Golam Rabiu Alam (Kyung Hee University, Korea), Rim Haw (Kyung Hee University, Korea), Choong Seon Hong (Kyung Hee University, Korea) ........................................................................................................ 237

Break and Poster Session 1.2

Design of a 169% Locking-Range Frequency Divider with Programmable Input Sensitivity
Byeonghak Jo (Korea University, Korea), Hyeonseok Hwang (Korea University, Korea), Jun il Moon (Korea University & ASIC, Korea), Seung-Baek Park (Korea University, Korea), Soo-Won Kim (Korea University, Korea) ........................................................................................................ 239

A Design Approach of Radio Frequency Module for TV White Space Based on Filter Bank
Kyu-Min Kang (ETRI, Korea), Jung-Sun Um (ETRI, Korea), Jae Cheol Park (ETRI, Korea) .................................................. 241
Implementation of Sensing Module for Spectrum Sharing in TV White Space
Hoiyoon Jung (ETRI, Korea), Sun Min Lim (ETRI, Korea), Jung-Sun Um (ETRI, Korea), Seung Keun Park (Electronics and Telecommunications Research Institute, Korea) .................................................. 243

Measurement Results of Timing Recovery in an Implemented DVB-C2 System
Jae Ho Lee (ETRI, Korea), Sang-Jung Ra (Electronics and Telecommunications Research Institute, Korea), Dong-Joon Choi (ETRI, Korea), Namho Hur (Electronics and Telecommunications Research Institute, Korea) ................................................................. 245

Compressive Sensing Techniques for UWB Indoor Positioning Applications
Hao Chen (Nanyang Technological University, Singapore), Nicholas C H Vun (Nanyang Technological University, Singapore) ................................................................. 248

Link Adaptation Strategy for Healthcare Application on IEEE 802.15.4 WPANs
Youngrok Jang (Yonsei University, Korea), Yongok Kim (Yonsei University, Korea), Sooyong Choi (Yonsei University, Korea) ................................................................. 250

Context-aware Application Matching System
Dongchil Kim (Kwangwoon University, Korea), Jiwoo Park (Kwangwoon University, Korea), Kwangsue Chung (Kwangwoon University, Korea) ................................................................. 252

Dynamic Integration of Appliances Into Zigbee Home Networks Through Web Services
Rubens Valente, Jr (UFAM - Universidade Federal do Amazonas, Brazil), Waldir Silva (Universidade Federal do Amazonas, Brazil), Vicente F. Lucena, Jr. (University of Amazonas, Brazil) ................................................................. 254

Design of an Adaptive Security Mechanism for Modern Routers
Christopher Mansour (Villanova University, USA), Youssef El Hajj Shehadeh (TU Chemnitz, Germany), Danai Chasaki (Villanova University, USA) ................................................................. 258

Swarm OS Control Plane: An Architecture Proposal for Heterogeneous and Organic Networks
Laisa Costa (University of Sao Paulo, Brazil), Jan Rabaey (University of California, Berkeley, USA), Adam Wolisz (TUB, Germany), Gustavo Moreira Calixto (University of Sao Paulo & LSI-TEC, Brazil), Marcelo Zullo (Polytechnic School of the University of Sao Paulo, Brazil) ................................................................. 256

A Novel Design of IoT Cloud Delegate Framework to Harmonize Cloud-Scale IoT Services
Seung Woo Kum (Korea Electronics Technology Institute, Korea), Jaewon Moon (Korea Electronics Technology Institute, Korea), Tae-Beom Lim (Korea Electronics Technology Institute, Korea), Jong-II Park (Hanyang University, Korea) ................................................................. 262

Robust Mobile Communication System Over Opportunistic Communication Connected to Public Network
Fujiie Nagamori (NTT COMWARE, Japan), Toshihiro Nakae (NTT COMWARE, Japan), Naoya Miyashita (NTT COMWARE, Japan), Hideaki Kimata (NTT COMWARE, Japan) ................................................................. 266

A Neighbor Selection Strategy for VoD Systems with Scalable Video Streaming and P2P
Yanling Xu (Tongji University, P.R. China), Jing Zhang (Tongji University, P.R. China) ................................................................. N/A

Optimising the Delivery of Scalable H.264 Video Stream by QoS/QoE Correlation
Mohammed Al reshoudhi (University of Essex, United Kingdom) ................................................................. 274

Providing of SoT Collaboration System for Interworking with Smart Home Devices
HoonKi Lee (Electronics & Telecommunications Research Institute, Korea), Noh-sam Park (Electronics and Telecommunications Research Institute, Korea), Jonghyun Jang (Electronics and Telecommunications Research Institute, Korea), Hyeon Soo Kim (ChungNam National University, Korea) ................................................................. 276

Design and Implementation of a User Interface of a Smartphone for the Parkinson’s Disease Patients
Y. W. Bai (Fu Jen Catholic University, Taiwan), Chun-Cheng Chan (Fu Jen Catholic University, Taiwan), Chia-Hao Yu (Fu Jen Catholic University, Taiwan) ................................................................. 278

A Second-order Sigma-Delta Pixel Sensor for X-ray Applications
Daehye Lee (KAIST, Korea), Dong-uk Kang (Korea Advanced Institute of Science and Technology, Korea), Kyeongjin Park (KAIST, Korea), M. Cho (Korea Advanced Institute of Science and Technology, Korea), Seungryong Cho (Korea Advanced Institute of Science and Technology, Korea), Gyuseo Cho (Korea Advanced Institute of Science and Technology, Korea) ................................................................. 280

Lumbar Cushion Based Real-Time ECG Sensing System for Monitoring Driver’s State
Joonwoo Son (Daegu Gyeongbuk Institute of Sci & Tech, Korea), Bawul Kim (Daegu Gyeongbuk Institute of Sci & Tech, Korea), Myoungouk Park (Daegu Gyeongbuk Institute of Sci & Tech, Korea) ................................................................. 282
ISO/IEEE 11073 Interoperability for Personal Health Devices Based on ZigBee Healthcare Service
Jiho Kim (Chung-Ang University, Korea), Ohyoung Song (School of Electrical and Electronics Engineering, Chung-Ang University, Korea) ................................................................. 284

A Vestibular Rehabilitation System with Real-Sense Experiences Based on Multiple Sensory Media
Hyun-Woo Oh (Electronics & Telecommunications Research Institute, Korea) ................................. 286

Image/Video Processing

Robust Stereo Matching Algorithm for Advanced Driver Assistance System
Jamin Koo (Chung-Ang University, Korea), Yong-Ho Kim (Chung-Ang University, Korea), Sangkeun Lee (Chung-Ang University, Korea) .................................................................................................................................. 289

Fast Intra Mode Decision Algorithm Based on Local Binary Patterns in High Efficiency Video Coding (HEVC)
Jong-Hyeok Lee (SunMoon University, Korea), Kyung-Soon Jang (Sunmoon University, Korea), Byung-Gyu Kim (SunMoon University, Korea), Seyoon Jeong (ETRI, Korea), Jin Soo Choi (ETRI, Korea) .................................................................................................................................. 291

Power-Constrained Contrast Enhancement Using Locality-Preserving Histogram Equalization
Jeyong Shin (Sogang University, Korea), Rae-Hong Park (Sogang University, Korea) ............................. 294

Non-Dyadic Lens Distortion Correction and Enhancement of Fish-eye Lens Images
Jinho Park (Chung-Ang University, Korea), Donggyun Kim (Chung-Ang University, Korea), Dahee Kim (Chung-Ang University, Korea), Joonki Paik (Chung-Ang University, Korea) ................................................................. 296

A Method to Efficiently Encode Inter-View Vectors in Conditional Replenishment Algorithm
Min-Suk Bang (Kookmin University, Korea), Dong Wook Kang (Kookmin University, Korea), Sung-Hoon Kim (Electronics & Telecommunications Research Institute, Korea), Se Yoon Jeong (Electronics & Telecommunications Research Institute, Korea), Kyeong Hoon Jung (Kookmin University, Korea) .................................................................................................................................. 298

Network Technology

Qi Liu (Nanjing University of Information Science and Technology, P.R. China), Jian Shen (Chosun University, Korea), Bo Xiao (Nanjing University of Information Science and Technology, P.R. China), Baowei Wang (Hunan University, P.R. China), Nigel Linge (University of Salford, United Kingdom) .................................................................................................................................. 300

Implementation of System Interconnection Devices Using PCI Express
Ye Ren (ETRI, Korea), Young Woo Kim (ETRI, Korea), Hagyoun Kim (ETRI, Korea) .............................. 302

Improving Security in Communication Using Switched Chaotic Systems
TaeHee Lee (Yeungnam University, Korea), Ju Hyun Park (Yeungnam University, Korea), Ho Youl Jung (Yeungnam University, Korea), Sangmoon Lee (Daegu University, Korea) ................................................................. 304

Privacy Preserving System for Integrated Broadcast-broadband Services
Go Ohtake (Japan Broadcasting Corporation, Japan), Kazuto Ogawa (Japan Broadcasting Corporation, Japan) .................................................................................................................................. 306

Cache Aided Matrix Network Coding Based Multicast Scheme Over Wireless Networks
Joonghong Park (Samsung Electronics, Korea), Taehong Kim (Electronics and Telecommunications Research Institute, Korea), Woongwun Lee (Samsung Electronics, Korea), Doojun Byun (Samsung Electronics, Korea), Youngin Bae (Samsung Electronics, Korea) .................................................................................................................................. 308
Automotive Entertainment, Safety & Information

**TLD Based Vehicle Tracking System for AR-HUD Using HOG and Online SVM in EHMI**
Min Woo Park (Kyungpook National University, Korea), Soon Ki Jung (Kyungpook National University, Korea) .................................................................................................................. 310

**Resolving ADAS Imaging Subsystem Functional Safety Quagmire**
Rahul Gulati (Qualcomm, India), Vasant Easwaran (Texas Instruments, India), Prashant Karandikar (Texas Instruments, India), Mihir N Mody (Texas Instruments, India), Prithvi Shankar Y A (Texas Instruments, India) .................................................................................................................. 312

**A High-Voltage Transceiver for Electrical Vehicle Battery Management Systems**
Chih-Lin Chen (National Sun Yat-Sen University, Taiwan), Deng-Shian Wang (National Sun Yat-Sen University, Taiwan), Jie-Jyun Li (National Sun Yat-Sen University, Taiwan), Chuan-Chin Wang (National Sun Yat-Sen University, Taiwan) .................................................................................................................. 316

**Indoor Location Technique Based on Visible Light Communications and Ultrasound Emitters**
Ignacio Marin-Garcia (Escuela Superior Politecnica del Litoral, Ecuador), Patricia Chavez-Burbano (Escuela Superior Politecnica del Litoral, Ecuador), Andres Muñoz-Arcentales (Escuela Superior Politecnica del Litoral, Ecuador), Vanessa Calero (Escuela Superior Politecnica del Litoral, Ecuador), Rafael Perez-Jimenez (Universidad de Las Palmas de Gran Canaria, Spain) .................................................................................................................. 318

Health and Wellness

**A Secure m-Healthcare System with Wearable Devices**
Junho Lee (Samsung Electronics & Korea University, Korea), Kihyoun Kwon (Samsung Electronics, Korea) .................................................................................................................. N/A

**Vision-based Pose and Heart Rate Detection for Rehabilitation Cycling**
Mark van Gastel (Eindhoven University of Technology, The Netherlands), Sveta Zinger (Eindhoven University of Technology, The Netherlands), Harel Kemps (Maxima Medical Centre, The Netherlands), Peter H.N. de With (Eindhoven University of Technology, The Netherlands) .................................................................................................................. 322

**A Novel MERS-CoV Biosurveillance System**
Ehab Salahat (Khalifa University, UAE), Hani Saleh (Khalifa University of Science, Technology & Research, UAE), Andrzei S Sluzek (Khalifa University of Science, Technology and Research, UAE), Mahmoud Al-Qutayri (Khalifa University, UAE), Baker Mohammad (Khalifa University, UAE), Mohammed Elnaggar (Khalifa University, UAE) .................................................................................................................. N/A

**Development of a Bluetooth 4.0 PPG Sensor for Use in Heart Rate Variability Analysis**
Mike Blake (Zovandia, USA) .................................................................................................................. 328

Energy Management

**Nonintrusive Monitoring of Miscellaneous and Electronic Loads**
Michael Zeifman (Fraunhofer Center for Sustainable Energy Systems, USA), Kurt Roth (Fraunhofer Center for Sustainable Energy Systems CSE, USA) .................................................................................................................. 332

**Machine-Learning-Integrated Load Scheduling for Peak Electricity Reduction**
Minyoung Sung (University of Seoul, Korea), Youngho Koo (University of Seoul, Korea) .................................................................................................................. 336

**Energy-efficient Lighting Management System Based on Dynamic Sensor Activation Method**
Soono Seo (Chung-Ang University, Korea), Daebom Jeong (Chung-Ang University, Korea), Myeong-in Choi (Chung-Ang University, Korea), Byunghoon Lee (Chung-Ang University, Korea), Sehyun Park (Chung-Ang University, Korea) .................................................................................................................. 338

**Self-Organized Power Consumption Approximation in the Internet of Things**
Komal Batool (National University of Science and Technology, Pakistan), Muaz A Niazi (COMSATS Institute of IT, Pakistan, Pakistan) .................................................................................................................. 340
Break and Poster Session 2.1

*Accelerating Super-Resolution for 4K Upscaling*
Eduardo Pérez-Pellitero (Technicolor & Leibniz University Hannover, Germany), Jordi Salvador (Technicolor, Germany), Javier Ruiz-Hidalgo (Universitat Politècnica de Catalunya, Spain), Bodo Rosenhahn (Leibniz Universität Hannover, Germany) ............................................................ 344

*Fast Thumbnail Extraction Algorithm for HEVC*
Wonjin Lee (University of Hanyang, Korea), Gwanggil Jeon (University of Ottawa, Canada), Jechang Jeong (Hanyang University, Korea) ............................................................................................................... 348

*A New Control Owner Switching System for Multiple TV Viewers Via Face Recognition*
Jeongwoo Ju (Korea Advanced Institute of Science and Technology, Korea), Dongyoon Han (KAIST, Korea), Jiwhan Kim (Korea Advanced Institute of Science and Technology, Korea), Injae Lee (ETRI, Korea), Jihoon Cha (ETRI, Korea), Junmo Kim (KAIST, Korea) .......................................................... 350

*A Probabilistic-Based CU Size Pre-Determination Method for Parallel Processing of HEVC Encoders*
Taeyong Na (Samsung Electronics, Korea), Sangkwon Na (Samsung Electronics, Korea), Kiwon Yoo (Samsung Electronics, Korea) ............................................................................................................. 354

*Video Summarization Based on Extracted Key Position of Spotted Objects*
Zaur Fataliyev (Korea University, Korea), K. Han David (Office of Naval Research, USA), Yadigar Imamverdiyev (ANAS Institute of Information Technology, Azerbaijan), Hanseok Ko (Korea University, Korea) ........................................................................................................ 358

*Intra Block Copy Masking*
Jani Lainema (Nokia Technologies, Finland) .............................................................................................................. 360

*Removing Rolling Shutter Distortion Using Optical Flow and RANSAC*
Jeong Woojin (University of Hanyang, Korea), Young Shik Moon (Hanyang University, Korea) ........ 364

*Compact Approach for High Dynamic Range Imaging in Mobile Digital Camera*
Kyung Hoon Bae (SK Telecom, Korea), Byung Kwan Park (SK Telecom, Korea) ................................................. 366

*Object Distance Estimation Based on Frequency Domain Analysis Using a Stereo Camera*
In-Sub Yoo (Seoul National University & School of Electrical Engineering & Computer Science, Korea), Young-Hoon Park (Seoul National University & Brain Korea 21, Korea), Seung-Woo Seo (Seoul National University, Korea) ................................................................................................................ 370

*Online Multi-Person Tracking for Intelligent Video Surveillance Systems*
Jaeyong Ju (Korea University, Korea), Bonwha Ku (Korea University, Korea), Daehun Kim (Korea University, Korea), Taeyup Song (Korea University, Korea), K. Han David (Office of Naval Research, USA), Hanseok Ko (Korea University, Korea) ......................................................................................... 372

*Fast Important Area Detection for Adapting Dynamic Changes of Photo Album Layout*
Daehye Kim (Samsung Electronics, Korea), Woongil Choi (Samsung Electronics, Korea), Kwang Pyo Choi (Samsung Electronics, Korea) .................................................................................................................. 374

*Real-time 3D Cube Detection and Tracking Using Depth Sensor for Interactive Augmented Reality System*
Kwang Hee Won (Daegu Gyeongbuk Institute of Science & Technology, Korea), Soon Ki Jung (Kyungpook National University, Korea) ................................................................. 376

*A New Hybrid Tone Mapping Scheme for High Dynamic Range (HDR) Videos*
Hiba Shahid (University of British Columbia, Canada), Danting Li (University of British Columbia, Canada), Adnan Panaswala (University of British Columbia, Canada), Mahsa T Pourazad (TELU Communications Company, Canada), Panos Nasiopoulos (University of British Columbia, Canada) .................................................................................................................. 378
Proposal for Characterization of 3DTV Video Sequences Describing Parallax Information
Juan Pedro Lopez Velasco (Universidad Politecnica de Madrid, Spain), Juan Antonio Rodrigo (Universidad Politecnica de Madrid & ETSIT, Spain), David Jimenez Bermejo (Universidad Politecnica de Madrid, Spain), José Manuel Menéndez (Universidad Politécnica de Madrid, Spain) ................................................................. 380

A Second-Order Derivative-Based Edge Preserving Image Interpolation
Jong-Hwan Kim (University of Korea, Korea), Seung-Jun Lee (Korea University, Korea), Min-Young Cho (Korea University, Korea), Yeo-Jin Yoon (Korea University, Korea), Sung-Jea Ko (Korea University, Korea) ........................................................................................................... 383

Effective AL-FEC with LDGM for Interactive Video Over DSL
Laith A Al-Jobouri (University of Essex, United Kingdom), Filippo Casu (Universidad Politécnica de Madrid, Spain), Martin Fleury (University of Essex, United Kingdom), Julián Cabrera (Universidad Politécnica de Madrid, Spain) ........................................................................................................... 385

Fast and Efficient Haze Removal
Won-Tae Kim (Korea Aerospace University, Korea), Hyun-Woo Bae (Korea Aerospace University, Korea), Tae-Hwan Kim (Korea Aerospace University, Korea) ........................................................................................................... 387

An Efficient Dehazing Method for Edge Enhancement by Using Entropy-map
Ki Tae Park (Hanyang University, Korea), Kim Yong Min (Hanyang University, Korea), Young Shik Moon (Hanyang University, Korea), ........................................................................................................... 389

Graphic Haptic Electronic Board-based Education Assistive Technology System for Blind People
Jung-II Jung (University of Gachon, Korea), Hye Lim Lee (Gachon University, Korea), Hong Chan Yoon (University of Gachon, Korea), Jinsoo Cho (Gachon University, Korea) ........................................................................................................................................ 391

An Effective Three Way PPG Acquiring and Signal Processing System by Using Square Wave Modulation
Chia-Ching Chou (National Chiao Tung University, Taiwan), Wei Chin Huang (National Chiao Tung University, Taiwan), Wai-Chi Fang (National Chiao Tung University, Taiwan) ........................................................................................................... 393

Image/Video Processing

A Multicore DSP HEVC Decoder Using an Actor-Based Dataflow Model
Miguel Chavarrias (Universidad Politécnica de Madrid, Spain), Fernando Pescador (Universidad Politécnica de Madrid, Spain), Matias J Garrido (Universidad Politécnica de Madrid, Spain), Eduardo Juarez (Universidad Politécnica de Madrid, Spain), Cesar Sanz (Universidad Politécnica de Madrid, Spain) ........................................................................................................... 397

A New Mode for Coding Residual in Scalable HEVC (SHVC)
Hamid Reza Tohidypour (University of British Columbia, Canada), Mahsa T Pourazad (TELUS Communications Company, Canada), Panos Nasiopoulos (University of British Columbia, Canada), Jim Slevinsky (TELUS Communications, Canada) ........................................................................................................... 399

Objective and Subjective Evaluation of MPEG Internet Video Coding
Sang-hyo Park (Hanyang University, Korea), Euee S. Jang (Hanyang University, Korea) ........................................................................................................... 401

Coding Efficiency of the Context-based Arithmetic Coding Engine of AVS 2.0 in the HEVC Encoder
Hyunmin Jung (Seoul National University, Korea), Soonwoo Choi (Seoul National University, Korea), Soo-ik Chae (Seoul National University, Korea) ........................................................................................................... 404

Network Technology

Smart Home Technologies Using Visible Light Communication
Samrat Vikramaditya Tiwari (Pukyong National University, Korea), Atul Sewaiwar (Pukyong National University, Korea), Yeonho Chung (Pukyong National University, Korea) ........................................................................................................... 406

Secure Communication System for Wearable Devices
SangDon Kim (Seoul National University of Science and Technology, Korea), Sang Muk Lee (Seoul National University of Science and Technology, Korea), Seung Eun Lee (Seoul National University of Science and Technology, Korea) ........................................................................................................... 408
Music Recommendation System Based on User's Sentiments Extracted From Social Networks
Renata Rosa (University of São Paulo, Brazil), Demostenes Zegarra Rodriguez (University of São Paulo & Nokia Technology Institute, Brazil), Graca Bresan (University of São Paulo, Brazil) ................................................................. 410

Contactless Sensor Technology for Measuring Soil Moisture
Sigmund Schimanski (University of Wuppertal, Germany), Tim-Fabian Schroeder (University of Wuppertal, Germany), Christoph Spitthoever (University of Wuppertal, Germany), Reinhard Moeller (University of Wuppertal, Germany) ................................................................. 412

Secured Radio Communication Based on Fusion of Cryptography Algorithms
Yoon Jib Kim (ETRI & UST, Korea), Ki-Uk Kyung (Electronics and Telecommunications Research Institute, Korea) ................................................................. 415

Enabling Technology

Feasibility Study for Life Event Sensor on Big Field Data
Noriyuki Kushiro (Kyushu Institute of Technology, Japan), Taichi Ide (Kyushu Institute of Technology, Japan), Kazuki Tomonaga (Kyushu Institute of Technology, Japan), Yuki Ogawa (Mitsubishi Electric Corporation, Japan), Toshiyasu Higuma (Mitsubishi Electric Corp, Japan) ........ 417

Test-driven Development of Consumer Electronics Device Drivers: A User-level Device Driver Approach
Seehwan Yoo (Dankook University, Korea), Youngpil Kim (Korea University, Korea) ......................... 419

Sustainable Solar Headlamp: An Open Source Consumer Medical Device
Amanda DelCore (Member, IEEE, USA), Alfredo Herrera (Senior Member, IEEE, Canada) ................. 422

Skewed Vertical Interleaving Scheme to Improve Data Reliability in Die-Stack
Youngil Kim (Hanyang University, Korea), Seungdo Choi (Hanyang University, Korea), Song Yong Ho (Hanyang University, Korea) ......................................................... 425

Image/Video Processing

A Backlight Dimming Algorithm Based on Visual Perception for Liquid Crystal Displays
SeungJun Shin (POSTECH, Korea), Jong-Ju Hong (Pohang University of Science and Technology, Korea), Woo-Jin Song (Pohang University of Science and Technology, Korea) ......................... 429

Design Schemes for Scalable Multi-view Video Coding Using GPB
Jung Tae Jun (Yonsei, Korea), Kwang-deok Seo (Yonsei University, Korea) .......................................... 431

Machine Learning for Arbitrary Downsizing of Pre-Encoded Video in HEVC
Luong Pham Van (Ghent University - iMinds, Belgium), Johan De Praeter (Ghent University - iMinds, Belgium), Glenn Van Wallendael (Ghent University - iMinds, Belgium), Jan De Cock (Ghent University - iMinds, Belgium), Rik Van de Walle (Ghent University - iMinds, Belgium) ........ 433

Accelerating H.264/HEVC Video Slice Processing Using Application Specific Instruction Set Processor
Dipan Kumar Mandal (Texas Instruments, India), Mihir N Mody (Texas Instruments, India), Mahesh Mehendale (Texas Instruments Inc., India), Naresh Yadav (Texas Instruments Ltd., India), Chaitanya Ghone (Texas Instruments Ltd., India), Piyali Goswami (Texas Instruments India Pvt. Ltd., India), Hetul Sanghvi (Texas Instruments Inc, India), Niraj Nandan (Texas Instruments, USA) ......................................................... 435

Direct Display Interface Including Video Post-Processing for 8K UHD TV
Junguk Cho (Samsung Electronics, Korea), Yongseok Choi (Samsung Electronics, Korea), Sukjin Kim (Samsung Electronics Co., Korea), Shihwa Lee (SAIT Samsung Electronics, Korea) ......................................................... 439
RF and Wireless

High Mobility in OFDM Systems Based on FFT
Nasimi Eldarov (Saarland University & Max-Planck Institute for Informatics, Germany), Guoping Tan (Hohai University, P.R. China), Thorsten Herfet (Saarland University & Intel Visual Computing Institute, Germany) ................................. 441

A Study on MIMO-ICI Canceller Using Iterative Detection in Mobile Reception of OFDM
Akira Nakamura (Tokyo University of Science, Japan), Kohei Ohno (Meiji University, Japan), Makoto Itami (Tokyo University of Science, Japan) .................................................. 443

A Low Complexity PAPR Reduction Scheme Based on Radix-II IFFT
Mohsen Kazemian (University Putra Malaysia, Malaysia), Pooja Varahram (UPM, Malaysia), Borhanuddin B Mohd. Ali (Universiti Putra Malaysia, Malaysia), Somayeh Mohammady (UPM, Malaysia) ................................................................. 447

Reducing Impulsive Noise in OFDM Transmission Using Higher Order Modulation
Hirotomo Yasui (Tokyo University of Science, Japan), Akira Nakamura (Tokyo University of Science, Japan), Kohei Ohno (Meiji University, Japan), Makoto Itami (Tokyo University of Science, Japan) ................................................................. 449

Improvements in DP-QPSK Polarization Synchronization in Fiber Optics Communication Systems
Mark Kerestes (Penn State Harrisburg, USA), Sedig S Agili (Penn State Harrisburg, USA), Aldo Morales (Penn State Harrisburg, USA), Robert Gray (Penn State Harrisburg, USA) ................................. 451

Enabling Technology

Design and LSI Prototyping of Security Module with Hardware Trojan
Masaya Yoshikawa (Meijo University, Japan) .................................................. 453

Fusion of Iris and Periodic User Authentication by AdaBoost for Mobile Device
Shintaro Oishi (University of Electro-Communications, Japan), Masatsugu Ichino (University of Electro-Communications, Japan), Hiroshi Yoshiura (The University of Electro-Communications, Japan) ................................................................. 455

Authentication Method Against Shoulder-Surfing Attacks Using Secondary Channel
Akira Aratani (Hosei University, Japan), Atsushi Kanai (Hosei University, Japan) .................................................. 457

Comparing Complex Trees Stored in Database
Dejan Stefanovic (RT-RK, Serbia), Milan Vidakovic (University of Novi Sad - Faculty of Technical Sciences, Serbia), Bojan Lackanovic (RT-RK LLC, Serbia), Dragan Zdrnja (RT-RK LLC, Serbia), Nikola Teslic (University of Novi Sad, Serbia) .................................................. 459

Energy Management

Development of the Electrical Deterioration Sensor for Appliance
Toshiyasu Higuma (Mitsubishi Electric Corp, Japan), Yuki Ogawa (Mitsubishi Electric Corporation, Japan) .................................................. 462

Highly Modular Electronics: Self-Organized Power Hotspot Management in Components
Muaz A Niazi (COMSATS Institute of IT, Pakistan), Samreen Laghari (Virtual University, Pakistan) .................................................. 464

Three-phase Inverter Synchronization Control Utilizing Internal Model Principle
Samuel Bamgbose (Prairie View A & M University, USA), Yongpeng Zhang (Prairie View A&M University, USA), Lijun Qian (Prairie View A&M University, USA) .................................................. 466

High Speed DC-DC Synchronous Boost Converter Using Type-III Compensation for Low Power Applications
Abbas Syed Hayder (Sungkyunkwan University, Korea), Hyung-Gu Park (Sungkyunkwan University, Korea), DongSoo Lee (College of Information and Communication Engineering, Sungkyunkwan University, Korea), Young-Jun Park (Sungkyunkwan University, Korea), Kang-Yoon Lee (Sungkyunkwan University, Korea) .................................................. 470
On the Design of Digitally Assisted Voltage Regulators
Kamyar Keikhosravv (University of British Columbia, Canada), Pouya Kamalinejad (University of British Columbia, Canada), Boloor Keikhosravv (Kiya Shid Taha Company, Canada), Shahriar Mirabbasi (University of British Columbia, Canada) .............................................................. 472

Break and Poster Session 2.2

Motion Compensated Frame Rate Conversion Using Motion Scaling
Tae Gyoung Ahn (Samsung Electronics, Korea), Hyungjun Lim (Samsung Electronics, Korea), Se-Hyeok Park (Samsung Electronics, Korea) .............................................................. 474

Robust Visual Voice Activity Detection Using Local Variance Histogram in Vehicular Environments
Kyungsun Lee (Korea University, Korea), Taeyup Song (Korea University, Korea), Sung Soo Kim (Samsung Electronics, Korea), K. Han David (Office of Naval Research, USA), Hanseok Ko (Korea University, Korea) .............................................................. 476

High Reality Video System Using a Super High-Definition Display and Perceptually Optimized Coding
Ayumu Ohike (Seike University, Japan), Kenji Sugiyama (Seike University, Japan), Naoyuki Awano (Seike University, Japan), Takuya Kusajima (Seike University, Japan) .............................................................. 478

Face Recognition for Vehicle Personalization with Near-IR Frame Differencing and Pose Clustering
Jinwoo Kang (Georgia Institute of Technology, USA), Monson Hayes (Georgia Institute of Technology, USA) .............................................................. 482

Fast Coding Unit Size Selection for HEVC Inter Prediction
Thanuja Mallikarakchchi (University of Surrey & University of Surrey, United Kingdom), Anil Fernando (Center for Communications Research, University of Surrey, United Kingdom), Hemantha Kodikara Arachchi (University of Surrey, United Kingdom) .............................................................. 484

Improved Lip Contour Extraction for Visual Speech Recognition
Srinivasa Rao Chalamala (TCS Innovation Labs Hyderabad & IIIT Hyderabad, India), Balakrishna Gudla (TCS Innovation Labs, India), Yegnanarayana B. (International Institute of Information Technology, Hyderabad, India), Anitha Sheela K (JNTUH College of Engineering, India) .............................................................. 486

Segment-wise Prediction in 3D Video Coding
Fabian Jäger (RWTH Aachen University, Germany) .............................................................. 490

Flexible Wide Dynamic Range (WDR) Processing Support in Image Signal Processor (ISP)
Mihir N Mody (Texas Instruments, India), Niraj Nandan (Texas Instruments, USA), Hetul Sanghvi (Texas Instruments Inc, India), Rajasekhar Allu (Texas Instruments, India), Rajat Sagar (Texas Instrument, India) .............................................................. 494

Automatic Exposure Selection for High Dynamic Range Photography
Reza Pourreza-Shahi (University of Texas at Dallas, USA), Nasser Kehtarnavaz (University of Texas at Dallas, USA) .............................................................. 498

Supervised Classification and Segmentation of Textured Scene Images
Nakyoung O (Korea Advanced Institute of Science and Technology, Korea), Jiwon Choi (Korea Advanced Institute of Science and Technology, Korea), Daeyeong Kim (Korea Advanced Institute of Science and Technology(KAIST), Korea), Changick Kim (Korea Advanced Institute of Science and Technology, Korea) .............................................................. 500

Disparity Weighting Applied to Full-Reference and No Reference Stereoscopic Image Quality Assessment
José Vinícius de Miranda Cardoso (Federal University of Campina Grande - UFCG, Brazil), Carlos Danilo Regis (IFPB & Ietc, Brazil), Marcelo S. Alencar (Federal University of Campina Grande & Institute for Advanced Studies in Communications, Brazil) .............................................................. 504

Enhanced Face Recognition Using Cross Local Radon Binary Patterns
Srinivasa Rao Chalamala (TCS Innovation Labs Hyderabad & IIIT Hyderabad, India), Santosh Kumar Jam (TCS Innovation Labs Hyderabad, India), Yegnanarayana B. (International Institute of Information Technology, Hyderabad, India) .............................................................. 508
Optical Simulation of Micro Lens Array for In-vehicle Laser Head-Up Display
Nozomi Nakagawa (Mitsubishi Electric Corporation, Japan), Hironori Nakahara (Mitsubishi Electric Corporation, Japan), Tomo Kishigami (Mitsubishi Electric Corporation, Japan), Nobuo Takeshita (Mitsubishi Electric Corporation, Japan) ................................................................. 512

Android-based C&D (Connected & Downloadable) IVI (In-Vehicle Infotainment) Platform
Pusik Park (Korea Electronics Technology Institute & Korea Aerospace University, Korea), Rustam Igorevich Rakhimov (Korea Electronics Technology Institute, Konkuk University, Korea), Daekyo Shin (Korea Electronics Technology Institute, Korea), Jongho Yoon (Korea Aerospace University, Korea) .................................................................................................................... 514

Various Lane Marking Detection and Classification for Vision-based Navigation System
Dajun Ding (Daegu Gyeongbuk Institute of Science and Technology, Korea), Jongsu Yoo (Daegu Gyeongbuk Institute of Science and Technology, Korea), Jekyo Jung (Daegu Gyeongbuk Institute of Science and Technology, Korea), Sungho Jin (Daegu Gyeongbuk Institute of Science and Technology, Korea), Soon Kwon (Daegu Gyeongbuk Institute of Science and Technology, Korea) .................................................................................................................. 518

Development of Highly Accurate Real-Time Large Scale Speech Recognition System
Ilhwan Kim (Samsung Electronics & DMC R&D Center, Korea), Chiyou Park (Samsung Electronics Co. Ltd, Korea), Kyungmin Lee (Samsung Electronics Co. Ltd, Korea), Namhoon Kim (Samsung Electronics Co. Ltd, Korea), Jaewon Lee (Samsung Electronics Co. Ltd, Korea), Jungsuk Kim (Carnegie Mellon University, USA), Lane Ian (Carnegie Mellon University, Korea) ................................................................................................................... 520

Feature Extracted Algorithm for Simultaneous Localization and Mapping (SLAM)
Yan Jhang Shih (National Taiwan Normal University, Taiwan), Chen-Chien Hsu (National Taiwan Normal University, Taiwan), Yin-Tien Wang (Tamkang University, Taiwan), Wei-Yen Wang (National Taiwan Normal University, Taiwan) ........................................................................................................ 524

Household Database System Using Physical Information and Sensor Information
Hiroki Sawada (Ryukoku University, Japan), Tomohiro Hase (Ryukoku University, Japan), Takako Nonaka (Shonan Institute of Technology, Japan) .............................................................................................................................. 526

Smart Office Energy Management System Using Bluetooth Low Energy Based Beacons and a Mobile App
Moonok Choi (ETRI, Korea), Wan-Ki Park (ETRI, Korea), Il-Woo Lee (ETRI, Korea) ................................................. 528

Experimental Energy Analysis of Power Consumption and Consumers Preferences Through Data Validation
Yoon-Sik Yoo (ETRI, Korea), Il-Woo Lee (ETRI, Korea) ........................................................................... 530

Image/Video Processing

Fisheye Lens-Based Surveillance Camera for Wide Field-of-View Monitoring
Hyungtae Kim (Chung-Ang University, Korea), Eunjun Chae (Chung-Ang University, Korea), Gwanghyun Jo (Chung-Ang University, Korea), Joonki Paik (Chung-Ang University, Korea) ...................... 532

Better Together: Fusing Visual Saliency Methods for Retrieving Perceptually-Similar Images
Amanda S Danko (University at Albany, USA), Siwei Lyu (State University of New York at Albany, USA) .............................................................. 534

Graph Analysis of Delay in MVC Codels with Limited Processing Capacity
Pablo Carballeira (Universidad Politecnica de Madrid, Spain), Julián Cabrera (Universidad Politécnica de Madrid, Spain), Fernando Jaureguiar (Universidad Politécnica de Madrid, Spain), Narciso Garcia (Universidad Politécnica de Madrid, Spain) ............................................................................................................... 536

Collision Detection Based on Scale Change of Image Segments for the Visually Impaired
Sung-Ho Chae (Korea University, Korea), Jee-Young Sun (Korea University, Korea), Mun-Cheon Kang (Korea University, Korea), Byungjun Son (Samsung Electronics, Korea), Sung-Jea Ko (Korea University, Korea) ........................................................................................................... 538
RF and Wireless

A Novel Channel Estimation Scheme for Terrestrial Cloud Transmission Systems
Sung Ik Park (Electronics and Telecommunications Research Institute (ETRI), Korea), Heung Mook Kim (ETRI, Korea), Jeongchang Kim (Korea Maritime and Ocean University, Korea) ........................................ 540

A Plan for Channel Reuse Allocation Using a Propagation Interference Analysis
Su-Yeol Lee (Hanbat National University, Korea), Eun-Young Ahn (Hanbat National University, Korea) ........................................................................................................ 542

Scheduling Diversity Outperforms Spatial Diversity for Cooperative Multiband Spectrum Scanning
Yeon-Jea Cho (KAIST, Korea), Jung-Hoon Ko (KAIST, Korea), Hyeong-Geun Yu (KAIST, Korea), Dong-Jo Park (Korea Advanced Institute of Science and Technology, Korea) ........................................ 544

A New Spatial Modulation Scheme Based on Quasi-Orthogonal Sequences
Hojun Kim (Chonnam National University, Korea), Yulong Shang (Chonnam National University, Korea), Tae Jin Jung (Chonnam National University, Korea) ........................................................................ 546

Analysis of Boss Map According to Delay Time in CDSK System and Proposed Chaos System
Jun-Hyun Lee (Chungbuk National University, Korea), Changyoung An (Chungbuk National University, Korea), Bong-Jun Kim (Chungbuk National University, Korea), Heung-Gyooon Ryu (Chungbuk National University, Korea) .................................................................................. 548

Enabling Technology

Inspection of Polarizer Tiny Bump Defects Using Computer Vision
Hsu Nan Yen (St. John's University, Taiwan) ........................................................................................................ 552

Frontal Human Detection Based on Body Structure Measured by Using Depth Image
Kook-yeol Yoo (Yeungnam University, Korea) ........................................................................................................ 555

Access Control Based on Visual Face Recognition Using Depth Spatiograms of Local Quantized Patterns
Tomás Mantecón (Universidad Politécnica de Madrid, Spain), Carlos R. del-Blanco (Universidad Politécnica de Madrid, Spain), Fernando Jaureguizar (Universidad Politécnica de Madrid, Spain), Narciso García (Universidad Politécnica de Madrid, Spain) .................................................................................. 557

Source Level Offloading for Special-purpose Hardware Accelerators
Shin-gyu Kim (Samsung Electronics, Korea), Chaeseok Im (Samsung Electronics, Korea), Minwook Ahn (Samsung Advanced Institute of Technology, Korea), Seungwon Lee (Samsung Electronics & DMC R&D Center, Korea) .................................................................................. 559

Energy Management

A System Model Expansion for Smart Appliance Demand Response Based on SEP2.0
Sung-Yong Son (Gachon University, Korea), Seakbai Koh (Gachon University, Korea), Dong Min Son (LG Electronics, Korea), Dongyun Hwang (Samsung Electronics, Korea), Younghyun Kim (KEPRI, Korea) ........................................................................................................ 561

Behavior Adaptive Energy Management for Consumer Electronics
Arthur Zhang (California Institute for Telecommunications and Information Technology & University of California Irvine, USA), Liqiang Wang (University of California, Irvine, USA), Linyi Xia (University of California, Irvine & California Plug Load Research Center, USA), Guann-Pyung Li (University of California, Irvine, USA), Marco Leverato (University of California, Irvine, USA) ........................................................................................................ 561

Residential Energy Monitoring and Management Based on Fuzzy Logic
Lucio Ciabattoni (Universita' Politecnica delle Marche, Italy), Massimo Grisostomi (Universitá Politecnica delle Marche, Italy), Gianluca Ippoliti (Universitá Politecnica delle Marche, Italy), Daniele Proietti Pagnotta (Universita' Politecnica delle Marche, Italy), Gabriele Foresi (Universita' Politecnica delle Marche, Italy), Sauro Longhi (Universitá Politecnica delle Marche, Italy) ........................................................................................................ 566
Design and Implementation of Wristband-based Smart Energy Management System
Jaekeun Lee (Chung-Ang University, Korea), Sungho Park (Chung-Ang University, Korea),
Tacklim Lee (Chung-Ang University, Korea), Jinsung Byun (Dongseo University, Korea),
Sehyun Park (Chung-Ang University, Korea) .......................................................... 570

Image/Video Processing

Uncalibrated Multiview Synthesis Based on Epipolar Geometry Approximation
Young Ju Jeong (Samsung Electronics, Korea), Hyoseok Hwang (Samsung Electronics,
Korea), Dongkyung Nam (Advanced Media Lab, SAIT, Samsung Electronics, Korea), C.-C. Jay
Kuo (University of Southern California, USA) ....................................................... 572

Transmission-type Three-Dimensional Screen Using Micro Hole-mirror Array
Hyunsik Sung (Kyung Hee University, Korea), Sung-Wook Min (Kyung Hee University, Korea),
Byoungsub Song (Kyung Hee University, Korea), Sungwon Choi (Kyung Hee University,
Korea), Min-Chul Park (Korea Institute of Science and Technology, Korea) ............... 574

A Novel Frame-Rate Up Conversion Using Pseudo-True Motion Vector
Dongil Han (Sejong University, Korea), Kim Jaekwang (Sejong University, Korea), Donggi Kim
(Sejong University, Korea), Jeahoon Choi (Sejong University, Korea), Kim Jintae (Chips &
Media, Inc., Korea) .............................................................................................. 576

Automatic Reflection Removal Using Reflective Layer Image Information
Phanish Srinivasa Rao (Samsung R&D Institute, India), Venkat R Peddigari (Samsung
Electronics & Texas Instruments India Pvt. Ltd., India) ........................................... 578

Fast Simple Linear Iterative Clustering for Superpixel Segmentation
Kang-Sun Choi (Korea University of Technology and Education, Korea), Ki-Won Oh
(KOREATECH, Korea) .......................................................................................... 582

RF and Wireless

Visible Light Communication Using TV Displays and Video Cameras
Ruediger Kays (TU Dortmund University, Germany) .............................................. 584

DMA-powered SDR Processor Exploiting DLP in LTE-Advanced
Kazuhiro Yoshimura (FUJITSU LABORATORIES LTD., Japan), Kazuo Horio (FUJITSU
LABORATORIES LTD., Japan), Yi Ge (FUJITSU LABORATORIES LTD., Japan), Makoto Mori
(FUJITSU LABORATORIES LTD., Japan), Yoshio Hirose (FUJITSU LABORATORIES LTD.,
Japan) .................................................................................................................. 586

CPSense: Events Monitoring and Control with Flexibility and Mobility
Jorge Rodolfo Beigunlea Garay (University of Sao Paulo, Brazil), Laisa Costa (University of
Sao Paulo, Brazil), Alexandre De Oliveira (University of Sao Paulo, Brazil), José Palacio
(University of Sao Paulo & Universidad Industrial de Santander - UIS, Brazil), Marcelo K Zuffo
(University of Sao Paulo, Brazil) ........................................................................... 589

Study of Development of Transmission Systems for Terrestrial 4K UHD & HD Convergence
Broadcasting
Jong Gyu Oh (Konkuk University, Korea), Jin Sub Lee (Konkuk University, Korea), Yong Ju
Won (Konkuk University, Korea), Joon Tae Kim (Konkuk University, Korea) ............... 591

LTE and DTV Interference Rejection of Modern DTV Receivers
Michael Bergman (Consumer Electronics Association, USA) ................................. 593
Enabling Technology

*Application of 4k-order Hadamard Matrices to Simultaneous Driving Capacitive Touch Systems*
Jong Kang Park (Sungkyunkwan University, Korea), Chang-Ju Lee (Sungkyunkwan University, Korea), Do-Yeon Kim (Sungkyunkwan University, Korea), Jung-Hoon Chun (Sungkyunkwan University, Korea), Jong Tae Kim (Sungkyunkwan University, Korea) ................................................................. 595

*Microcontroller Based Tabla Tuning System*
Suresh R. Norman (SSN College of Engineering, India), S. Arunkumar (HCL Technologies Ltd., India), S. Baalachandar (Software Engineer, India), R. Dayanidhi (Engineer, India), Karthie S. (SSN College of Engineering, India) .................................................................................................................. 597

*EEG Correlates of User Satisfaction of Haptic Sensation*
Wanjoo Park (Korea Institute of Science and Technology, Korea), Duchan Ki (Korea Institute of Science and Technology, Korea), Da-Hye Kim (Korea Institute of Science and Technology, Korea), Gyu Hyun Kwon (Korea Institute of Science and Technology, Korea), Sung-Phil Kim (Ulsan National Institute of Science and Technology, Korea), Laehyun Kim (Korea Institute of Science and Technology, Korea) ................................................................................................................. 600

*Haptic Feedback Companion for Body Area Network Using Body-Carried Electrostatic Charge*
Adiyan Mujibiya (Rakuten Institute of Technology, Japan) .................................................................................................................. 602

*A New Thin and Flexible Vibrotactile Module for an Interactive Mouse*
Won-Hyeong Park (Korea University of Technology and Education & Intraction Laboratory, Korea), Sang-Youn Kim (Korea University of Technology and Education, Korea), Tae-Heon Yang (KRISS, Korea), Bong-Goo Kim (Yeonhap Precision Co. Ltd, Korea) ................................................................. 604

Energy Management

*Vital Data Measurement System During Exercise Using Thermoelectric Element as a Power Supply*
Ryosuke Saeki (Shibaura Institute of Technology, Japan), Masahiro Inoue (Shibaura Institute of Technology, Japan) .................................................................................................................. 606

*Data-driven SOH Prediction for EV Batteries*
Gae-won You (Samsung Advanced Institute of Technology, Korea), Sangdo Park (Samsung Advanced Institute of Technology, Korea), Sunjae Lee (Samsung Advanced Institute of Technology, Korea) ................................................................................................................. 608

*Low Power Killer: Extending the Battery Lifespan by Reducing I/O on Mobile Devices*
Se Jun Han (Sungkyunkwan University, Korea), Dong Hyun Kang (Sungkyunkwan University, Korea), Young Ik Eom (Sungkyunkwan University, Korea) .................................................................................................................. 610

*Floor-based Large-area Triboelectric Generator for Active Security Monitoring*
Xiaoliang Cheng (Institute of Microelectronics, Peking University, P.R. China), Bo Meng (Institute of Microelectronics, Peking University, P.R. China), Mengdi Han (Institute of Microelectronics, Peking University, P.R. China), Mayue Shi (Institute of Microelectronics, Peking University, P.R. China), Haixia Zhang (Institute of Microelectronics, Peking University, P.R. China) ................................................................................................................. 612

Break and Poster Session Poster 3.1

*Human-Computer Interaction Based on Visual Recognition Using Volumegrams of Local Binary Patterns*
Ana I. Maqueda (Universidad Politécnica de Madrid & Grupo de Tratamiento de Imágenes, Spain), Carlos R. del-Blanco (Universidad Politécnica de Madrid, Spain), Fernando Jaureguizar (Universidad Politécnica de Madrid, Spain), Narciso García (Universidad Politécnica de Madrid, Spain) ................................................................. 614
Hand Segmentation and Fingertip Detection for Interfacing of Stereo Vision-based Smart Glasses
Gisu Heo (Electronics and Telecommunications Research Institute, Korea), Dong-Woo Lee (ETRI, Korea), Hyung-Cheol Shin (Electronics and Telecommunications Research Institute, Korea), Hyun-Ta Ke Jeong (ETRI, Korea), Tae-Woong Yoo (Sohae College, Korea) ........................................ 616

A Fully Integrated Phase-Locked Loop with Leakage Current Compensation in 65-nm CMOS Technology
Se-Chun Park (SK hynix, Korea), Seung-Baek Park (Korea University, Korea), Soo-Won Kim (Korea University, Korea) .................................................................................................................. 618

Force and Displacement Analysis of a Haptic Touchscreen
Jeong Mook Lim (Electronics and Telecommunications Research Institute, Korea), Hyun-Tae Jeong (ETRI, Korea) ................................................................................................................................. 620

Development of Multimodal Surface Interface for Audio and Tactile Feedback
Changmok Oh (ETRI, Korea), Jeong Mook Lim (Electronics and Telecommunications Research Institute, Korea), Heesook Shin (Electronics and Telecommunications Research Institute, Korea), Minkyu Kim (Electronics and Telecommunications Research Institute, Korea), Hyun-Ta Ke Jeong (ETRI, Korea) .......................................................... 623

Practical Verification of Power Delivery Networks for Smart TV Applications
Baekseok Ko (Korea University & Samsung Electronics, Korea), Joowon Kim (Samsung Electronics, Korea), Jaemin Ryoo (Samsung Electronics, Korea), Chulsoon Hwang (Samsung Electronics, Korea), Seung-Baek Park (Korea University, Korea), Soo-Won Kim (Korea University, Korea) .......................................................... 625

Hardware Reconfiguration Based on Broadcasted Digital TV Signal
Rodrigo Ribeiro de Oliveira (Federal University of Amazonas, Brazil), Lucas Cordeiro (Federal University of Amazonas, Brazil), Vicente Ferreira Lucena Junior (CETELI, Brazil) .................................. 627

Driving Waveform Design for Playing Animations on Electronic Papers
Wen-Chung Kao (National Taiwan Normal University, Taiwan), Chien-Hui Liu (National Taiwan Normal University, Taiwan) ........................................................................................................ 630

Improving I/O Performance of Xen Hypervisors for Solid State Drives
Hyunchan Park (Korea University, Korea), Cheol-Ho Hong (Korea University, Korea), Younghyun Kim (Korea University, Korea), Seehwan Yoo (Dankook University, Korea), Chuck Yoo (Korea University, Korea) .................................................................................................................. 632

A Systematic Technique of Smart Phone Keyboard Layout Design for Optimal Text-Messaging
Chenwoo Chun (Monroe Community College, USA) ............................................................................................................... 634

A Practical Challenge for Iris Authentication on Handheld Imaging Devices
Shein Thavalengal (National University of Ireland, Galway & DigitalOptics Corporation Europe Ltd, Ireland), Peter Corcoran (National University of Ireland, Galway, Ireland) .................................................................................. 637

Script Language for Appliances That Utilizes a Blind’s Cellphone as a Talking Interface
Tomohiro Haraikawa (University of Tsukuba, Japan), Hiroharu Ito (University of Tsukuba, Japan), Akira Yamada (University of Tsukuba, Japan), Yukio Fukui (University of Tsukuba, Japan), Shuiichi Ikawa (University of Tsukuba, Japan) .................................................................................. 639

PCB Layout Optimization Using External LDO for Low EMI
Seung-Hee Ryu (Korea University, Korea), Seung-Baek Park (Korea University, Korea), Soo-Won Kim (Korea University, Korea) .......................................................................................................................... 641

Hair Segmentation and Counting Algorithms in Microscopy Image
Huang-Chia Shih (Yuan Ze University, Taiwan), Bo-Syun Lin (Yuan Ze University, Taiwan) ................................................. 643

High Speed Photon Counting Readout ASIC for Spectral Computed Tomography Detectors
Dong-uk Kang (Korea Advanced Institute of Science and Technology, Korea), Daehyee Lee (KAIST, Korea), M. Cho (Korea Advanced Institute of Science and Technology, Korea), Kyeongjin Park (KAIST, Korea), Kyung Taek Lim (Korea Advanced Institute of Science and Technology, Korea), Gyuseong Cho (Korea Advanced Institute of Science and Technology, Korea), Seungryong Cho (Korea Advanced Institute of Science and Technology, Korea) .................................................................................................................. 645

Validation of a Embeddable Voltage Phasor Magnitude Meter for Household and Commercial Environments
Jose-Maria Flores-Arias (University of Cordoba, Spain), Francisco J. Bellido Outeiriño (University of Córdoba, Spain), Antonio Moreno-Munoz (University of Córdoba, Spain), Matias Linan-Reyes (University of Cordoba, Spain), Math H. J. Bollen (Lulea University of Technology, Sweden) ........................................................................................................ 647
Situation-awareness Overheating Protection Solution for Mobile Devices
Chang Kyun Jeon (Korea University, Korea), Neunghoe Kim (Korea University, Korea), Hoh Peter In (Korea University, Korea) .......................................................... 649

A Low Power Design and Verification Method of MCU Apply to Intelligent Electric Meter
Fei Wang (State Grid, P.R. China), Yong Tian (State Grid, P.R. China), Changsheng Xia (State Grid, P.R. China), Xiaoke Tang (State Grid, P.R. China) .................................................. N/A

Energy Management System and Algorithm by P&O for Solar Energy Harvesting in Mobile Handset
Taiyong Jeong (Seoul Women's University, USA) ................................................................................................. N/A

A Presence-Based Control Strategy Solution for HVAC Systems
Iman Khajenasiri (KU Leuven, Belgium), Joseph Virgone (Universite Claude Bernard Lyon 1, France), Georges E. Gielen (Katholieke Universiteit Leuven, Belgium) .................................................. 656

User-Friendly Monitoring System for Residential PV System Based on Low-Cost Power Line Communication
Jinsoo Han (ETRI, Korea), Il-Woo Lee (ETRI, Korea), Sang-Ha Kim (Chungnam National University, Korea) ........................................................................................................ 659

Image/Video Processing

Enhanced ICA Based Face Recognition Using Histogram Equalization and Mirror Image Superposition
Venkat R Pedigari (Samsung Electronics & Texas Instruments India Pvt. Ltd., India), Panish Srinivasa Rao (Samsung R&D Institute, India), Rakesh Kumar (IIT Kanpur, India) .................................................. 661

Variable Size Block-Matching Super-Resolution Applied to a Multi-Camera System
Eduardo Quevedo (Oceanic Platform of the Canary Islands, Spain), Jesus De la Cruz (University of Las Palmas de Gran Canaria, Spain), Luis Sanchez (University of Las Palmas de Gran Canaria, Spain), Gustavo Marrero Callico (University of Las Palmas de Gran Canaria & Research Institute for Applied Microelectronics, Spain), Felix B. Tobajas (University of Las Palmas de Gran Canaria (ULPGC), Spain) .................................................................................................................. 665

Multi-Frame Example-Based Super-Resolution Using Locally Directional Self-Similarity
SeokHwa Jeong (Chung-Ang, Korea), InHye Yoon (Chung-Ang University, Korea), Jaehwan Jeon (Chung-Ang University, Korea), Joonki Paik (Chung-Ang University, Korea) ........................................... 667

Efficient Implementation of Filtering-Direction-Controlled Digital TV Filter for Image Denoising
Kenta Senzaki (NEC Corporation, Japan), Masato Toda (NEC Corporation, Japan), Masato Tsukada (NEC Corporation, Japan) .................................................................................................................. 669

Automatic Depth Map Generation From a Single Image Using Segment-Adaptive Depth Merging
Sung In Cho (Pohang University of Science and Technology, Korea), Kyoungrok Cho (Chungbuk National University, Korea), Young Hwan Kim (Pohang University of Science and Technology, Korea) ........................................................................................................ 671

RF and Wireless

Heterogeneous Media Communications for Future Wireless Local Area Networks
Takayuki Nishio (Kyoto University, Japan), Masahiro Morikura (Kyoto University, Japan), Koji Yamamoto (Kyoto University, Japan) ........................................................................................................ 673

Low Complexity Intercarrier Interference Reduction for High Mobility Wireless Systems
Youssef El Hajj Shehadeh (TU Chemnitz, Germany), Danai Chasaki (Villanova University, USA), Sebastian Baumgartner (Chemnitz University of Technology, Germany), Gangolf Hirtz (Chemnitz University, Germany) .................................................................................................................. 677

Adaptive Interference-Aware Receiver for Multi-User MIMO Downlink in IEEE 802.11ac
Minjoon Kim (Yonsei University, Korea), Jaeseok Kim (Yonsei University, Korea) .................................................. 681

Performance Comparison of Mixed Modulation Codewords and Shortened Codewords in DOCSIS 3.1
Joon-Young Jung (ETRI, Korea) .......................................................................................................................... 683
A Wake-Up Scheme for Emergency Alert Service in T-DMB
Mihwa Song (The University of Seoul, Korea), Sekchin Chang (The University of Seoul, Korea) ................................................................. 685

Game

Optimized Wavelet-Based Texture Representation and Streaming for GPU Texture Mapping
Bob Andries (Vrije Universiteit Brussel, Belgium), Jan Lemeire (VUB, Belgium), Adrian Munteanu (Vrije Universiteit Brussel, Belgium) ................................................................. 687

Effective Learning Through Meaning Construction in Digital Role Playing Games
Klaus P Jantke (Fraunhofer IDMT, Germany), Tim Hume (Universal Learning Games, Sweden) ........................................................................ 689

Design and Evaluation of Smartphone-based 3D Interaction for Large Display
Dongwoo Lee (Continental Automotive Electronics, Korea), Jae-In Hwang (Korea Institute of Science and Technology, Korea) ............................................................................. 693

Design and Implementation of a Virtual Electronic Dart with a Tablet System
Chi-Huang Hung (Fu Jen Catholic University, Taiwan), Y. W. Bai (Fu Jen Catholic University, Taiwan), Jen-Hung Yang (Fu Jen Catholic University, Taiwan) ......................................................... 695

Others

A Real-Time 3D Interactive System with Stereo Camera in the Uncertain Background
ChunWei Yu (National Taiwan University, Taiwan), Che-Wei Chang (National Taiwan University, Taiwan), Liang-Gee Chen (DSP/IC Design Lab., National Taiwan University, Taiwan) ................................................................. 697

Landscape Photo Classification Mechanism for Context-aware Photography Support System
Nuttapoom Amornpashara (Nara Institute of Science and Technology, Japan), Yutaka Arakawa (Nara Institute of Science and Technology & NAIST, Japan), Morihiko Tamai (Nara Institute of Science and Technology, Japan), Keiichi Yasumoto (Nara Institute of Science and Technology, Japan) ............................................................................. 699

Compact 8K Super Hi-Vision Recorder with Removable Memory
Takeshi Kajiyama (Japan Broadcasting Corporation, Japan), Koudai Kikuchi (Japan Broadcasting Corporation, Japan), Eiichi Miyashita (Japan Broadcasting Corporation, Japan) ............. 703

Enhancement of Perceived Image Quality of a Directional-Backlight System Using a 3D Printer
Minyoung Park (Sejong University, Korea), Hee-Jin Choi (Sejong University, Korea) ............................................................................. 707

Tour Cloud Mobile: Helping Tourists Acquire the Information Effectively Using Three Types of Views
Jungbin Kim (University of Science and Technology & Korea Institute of Science and Technology, Korea), Byounghyun Yoo (Korea Institute of Science and Technology, Korea), Heedong Ko (Korea Institute of Science and Technology, Korea) ............................................................................. 709
