2015 48th Hawaii International Conference on System Sciences

(HICSS 2015)

Kauai, Hawaii, USA
5-8 January 2015

Pages 1-782
Collaboration Systems and Technology Track — Co-Chairs: Robert Briggs and Jay Nunamaker

Introduction to Collaboration Systems and Technology Track .................................................................1
   Jay F. Nunamaker and Robert O. Briggs

Advances in Teaching and Learning Technologies — Co-Chairs: David Spencer, Tim Ellis, and Eric Santanen

A Framework to Inform Design of Learning Objects for Teaching Written Portuguese (2nd Language) to Deaf Children via Sign Language (1st Language) .........................................................2
   Cayley Guimaraes, Moisés H.R. Pereira, and Sueli Fernandes

An E-Learning Investigation into Learning Style Adaptivity .................................................................11
   Mohammad Alshammari, Rachid Anane, and Robert J. Hendle

An Implementation of User-Experience-Based Evaluation to Achieve Transparency in the Usage and Design of Information Artifacts ............................................................21
   Margit Scholl

Collaboration and E-Collaboration: A Study of Factors that Influence Perceived Students’ Group Performance ............................................................33
   Liana Razmerita and Kathrin Kirchner

Conceptual Model of Online Pedagogical Information Security Laboratory: Toward an Ensemble Artifact ...........................................................43
   Sarfraz Iqbal, Devinder Thapa, Ali Ismail Awad, and Tero Päivärinta
Developing and Evaluating an Accessible Cyberteaching Training (ACT) Program for Faculty via a Virtual Center for Teaching and Learning .................................................................53
Jennifer T. Ellis, Derrick L. Cogburn, Marilyn P. Arnone, and Nanette S. Levinson

Ebook Uses and Class Performance in a College Course .............................................................63
Wei Peng, Rabindra A. Ratan, and Laeeq Khan

Identifying Criteria that Should be Considered when Deciding the Proportion of Online to Face-to-Face Components of a Blended Course .................................................................72
Ali Alammary, Angela Carbone, and Judy Sheard

Incorporating Students’ Self-Efficacy and Subject Value in the Evaluation of Audience Response Systems ..................................................................................................................81
Margit Kastner

Supporting Metacognition in Online, Professional Graduate Courses ........................................91
Jim Waters and Susan Gasson

The Role of User Resistance in the Adoption of Screenshot Annotation for Computer Software Learning ..........................................................................................................................101
Travis K. Huang

The Role of Information and Communication Technologies in University Students’ Learning Experience: The Instructors’ Perspective .............................................................................111
Anne-Marie Croteau, Vivek Venkatesh, Anne Beaudry, and Jihan Rabah

Analytics and Big Data in Computer Mediated-Collaboration — Co-Chairs: Lakshmi Iyer and Souren Paul

Enhancing the Visualization of Big Data to Support Collaborative Decision-Making ..................121
Dorit Nevo, Saggi Nevo, Nanda Kumar, Jonas Braasch, and Kusum Mathews

Temporal Patterns of Structural Deception Behavior in a Massively Multiplayer Online Game .................................................................................................................................131
Jinie Pak and Lina Zhou

Communication and Information Systems Technology for Crisis and Disaster Management — Co-Chairs: Jose J. Gonzalez, Murray Turoff, and Julie Dugdale

Introduction to Communication and Information Systems Technology for Crisis and Disaster Management Minitrack ........................................................................................................141
Jose J. Gonzalez, Murray Turoff, and Julie Dugdale

A Framework for Post-crisis Business Continuity Plans ................................................................143
Sharvari Kulkarni, Gezinus J. Hidding, and Serhat Cicekoglu

Crowd-Sensing Meets Situation Awareness: A Research Roadmap for Crisis Management .................................................................153
Andrea Salfinger, Sylva Girtelschmid, Birgit Pröll, Werner Retschitzegger, and Wieland Schwinger
Design Challenges/Solutions for Environments Supporting the Analysis of Social Media Data in Crisis Informatics Research .................................................................163

Kenneth M. Anderson, Ahmet Arif Aydin, Mario Barrenechea, Adam Cardenas, Mazin Hakeem, and Sahar Jambi

Disaster Evacuation Assistance System Based on Multi-agent Cooperation .............................................................173

Yasuki Iizuka and Kayo Iizuka

Engineering Crowdwork for Disaster Events: The Human-Centered Development of a Lost-and-Found Tasking Environment .........................................................182

Mario Barrenechea, Kenneth M. Anderson, Leysia Palen, and Joanne White

Insights from a Computer Simulation Model of a Landslide Disaster ........................................................................192

Leire Labaka, Ying Qian, Peter Lango, and Jose J. Gonzalez

Integrating Computer Simulation and the Fieldwork to Discover Possible Alternatives for Tsunami Evacuation .................................................................200

Fuko Nakai, Michinori Hatayama, and Katsuya Yamori

The Design of an Agent Based Model of Human Activities and Communications in Cardiac Resuscitation .................................................................208

Lyuba Mancheva and Julie Dugdale

Creativity in Teams and Organizations — Co-Chairs: GJ de Vreede, Roni Reiter-Palmon, and Ginamarie Ligon

Synchronous Collaboration Technology Use in Teamwork .............................................................................................216

Thanaporn Sundaravej, Dinesh Mirchandani, and Albert Lederer

The Impact of Analogical Distance as a Mental Stimulus in Ideation Processes Using Change of Perspective: Jumping ........................................................................226

Stefan Werner Knoll and Graham Horton

Tracking Down the Negative Group Creativity Effects with the Help of an Artificial Intelligence-Like Support System ........................................................................236

Dominik Siemon, Linda Eckardt, and Susanne Robra-Bissantz

Cross-Organizational and Cross-Border IS/IT Collaboration — Co-Chairs: Ilsang Ko and Daniel Beimborn

E-Collaboration in Interorganizational Networks: A Literature Review and an Agenda for Future Research .........................................................................................244

Sebastian Zander, Simon Thanh-Nam Trang, and Lutz M. Kolbe

Understanding the Influence of IT Investment on Supply Chain Governance (SCG) .......................................................254

Pietro Cunha Dolci, Antônio C.G. Maçada, and Gerald G. Grant

We-Intention, Moral Trust, and Self-Motivation on Accelerating Knowledge Sharing in Social Collaboration .........................................................................................264

Darshana Karna and Ilsang Ko

Decision, Negotiation, Leadership, Social Communities, and Technology — Co-Chairs: Tung Bui and Mel Shakun

Introduction to Decision, Negotiation, Leadership, Social Communities, and Technology

Minitrack .................................................................................................................................................................274

Tung Bui and Melvin F. Shakun

Cooperation in Face and Dignity Cultures: Role of Moral Identity and Gender ...............................................................275

Zhaleh Semnani-Azad, Katia Sycara, and Michael Lewis

Improving Successful A+B Procurement Auctions with Negotiations ..............................................................................284

Gregory E. Kersten

Increasing the Value of Big Data Projects — Investigation of Industrial Success Stories ......................................................294

Katja Tiefenbacher and Sebastian Olbrich

Design and Innovation of Social Networking Services — Co-Chairs: Bo Sophia Xiao, Eric Lim, and Chee-Wee Tan

Privacy Tradeoff and Social Application Usage ..................................................................................................................304

Ben C.F. Choi, Zhenhui (Jack) Jiang, Bharat Ramesh, and Yizhou Dong

Why Do I Keep Checking My Facebook? The Role of Urge in the Excessive Use of Social Networking Sites .......................314

Understanding the Influences of Trend and Fatigue in Individuals’ SNS Switching Intention .........................................................324

Xinlin Yao, Chee Wei Phang, and Hong Ling

Emerging Issues in Distributed Group Decision-Making: Opportunities and Challenges — Co-Chairs: Anil Aggarwal, Doug Vogel, and Yuko Murayama

Introduction to Emerging Topics in Electronic Government Minitrack ..................................................................................335

Tino Schuppen, Theresa A. Pardo, and Elin Wihlborg

A Criterion-Mining Method for Group Idea Selection — Increasing Consensus with Minimal Loss of Efficiency .....................336

Graham Horton and Jana Goers

Ugochukwu Etudo, H. Roland Weistroffer, and Muhammad Al-Abdullah

Can We Solve Low Participation, Distraction, and Inefficiency? A Case Study of Distributed Collaborative Learning in Industries ........................................................................................................354

Xusen Cheng, Yuanyuan Li, and Ying Zhao

Communication Strategies for Successful Virtual Teams .........................................................................................................364

Sandra Dunn, Cheryl Grannan, Mahesh Raisinghani, and Heather Stalling

The Evolution of Network Structure and Media Choice in Operational Emergency Swift Teams: An Exploratory Study .................................374

Jorge Colazo
The Influence of User Attribute onto the Factors of Anshin for Online Shopping Users .................................................. 382
Dai Nishioka and Yuko Murayama

Global Virtual Teams — Co-Chairs: Mike Hine and Derrick L. Cogburn

Introduction to Global Virtual Teams Minitrack ......................................................................................................................... 392
Michael J. Hine and Derrick L. Cogburn

Champions of Equality: Examining Gender Egalitarianism in Virtual Teams across Cultures .......................................................... 393
Bettina Cassandra Riedl, Y. Dora Cai, Rabindra A. Ratan, Cuihua Shen, and Arnold Picot

Cognitive and Behavioral Leadership Coordination: Linking Shared Leadership to High Performance in Global Teams ............................................................. 402
Emma Nordbäck and Alberto Espinosa

Exploring Storytelling for Relationship Building in Offshore Outsourced Projects: An Action Research Investigation .......................................................... 412
Erik Wende and Gregory King

Supporting Global Virtual Work through Blogs and Micro-blogging ...................................................................................... 422
Aditya Johri

The Concept of Maintaining Face in Global Virtual Teams ........................................................................................................ 432
Karin Väyrynen and Riitta Hekkala

Human-Computer Interaction: Informing Design Utilizing Behavioral, Neurophysiological, and Design Science Methods — Co-Chairs: Christoph Schneider, Joe Valacich, and Angelika Dimoka

Ask an Expert: Mobile Workspaces for Collaborative Troubleshooting ........................................................................... 442
Sharoda A. Paul and Joe W. Bolinger

ECOVAL: A Framework for Increasing the Ecological Validity in Usability Testing ................................................................. 452
Suzanne Kieffer, Ugo Braga Sangiorgi, and Jean Vanderdonckt

Behaviors, Perceptions, Responsiveness, and Presence: The Dyadic Model of Mediated Communication ............................................. 462
Elena Francesca Corriero, Stephanie Tom Tong, and Pradeep Sopory

Enhanced Human-Computer Interaction for Business Applications on Mobile Devices: A Design-Oriented Development of a Usability Evaluation Questionnaire .......................................................................................... 472
Maximilian Wich and Tommi Kramer

Generation Y, Baby Boomers, and Gaze Interaction Experience in Gaming .................................................................................. 482
Soussan Djamasbi and Siavash Mortazavi

Embodied Conversational Agents: Social or Nonsocial? ........................................................................................................ 491
J. Eric Case and Nathan W. Twyman

Stereoscopic 3D to Reduce Product Uncertainty in E-commerce .............................................................................................. 497
Malin Nilsson, Stefan Olsson, and Per Bågmark

Strategies for Automated GUI Tailoring for Multiple Devices ........................................................................................................ 507
David Raneburger, Hermann Kaindl, and Roman Popp
Bringing Advertising Closer to Mind: Using Neurophysiological Tools to Understand Student Responses to Super Bowl Commercials ................................................................. Adriane B. Randolph and Sandra Pierquet
The Influence of Immersive Driving Environments on Human-Cockpit Evaluations .................................................... Diana Reich and Rainer Stark
Towards Ex Ante Prediction of User Performance: A Novel NeuroIS Methodology Based on Real-Time Measurement of Mental Effort .................................................................................. Ricardo Buettner, Sebastian Sauer, Christian Maier, and Andreas Eckhardt

IT Enabled Collaboration in Developing Countries — Co-Chairs: Xusen Cheng, Xiangbin Yan, and Deepinder Bajwa
Introduction to IT Enabled Collaboration in Developing Countries Minitrack ................................................................. Xusen Cheng, Xiangbin Yan, and Deepinder Bajwa
Designing of a Mobile Collaboration Application for Student Collaborative Group Work: Evidence from China .......................................................................................................................... Xusen Cheng and Jianhua Yu
Scientific Collaborator Recommendation in Heterogeneous Bibliographic Networks ............................................................... Chen Yang, Jianshan Sun, Jian Ma, Shanshan Zhang, Gang Wang, and Zhongsheng Hua
The Influence of Social Capital in an Online Community on Online Review Quality in China .................................................................................................................................... Qiuju Li, Jinhong Cui, and Yun Gao

Processes and Technologies for Small and Large Team Collaboration (CE) — Co-Chairs: Douglas Derrick, Imed Boughzala, and Christopher B.R. Diller
A Design Theory for Digital Habitats: Building Virtual Communities of Practice ..................................................................................... Douglas A. Druckenmiller and Daniel Mittleman
Brainstorming is Just the Beginning: Effects of Convergence Techniques on Satisfaction, Perceived Usefulness of Moderation, and Shared Understanding in Teams .......................................................................................................................... Isabella Seeber, Ronald Maier, Barbara Weber, Gert-Jan de Vreede, Triparna de Vreede, and Abdulraham Alothaim
Creating and Sustaining Collaborative Efforts for Scientific Idea Exchange through Autonomy, Competence, and Relatedness .................................................................................. Amit V. Deoker, Thomas O. Meservy, and Joel Helquist
Evaluating the Performance of Collaboration Engineers .................................................................................................................. Nils L. Randrup and Robert O. Briggs
Individual Differences that Predict Interactions in Mixed-Initiative Teams ................................................................................... Bianca M. Zongrone, Douglas C. Derrick, and Gina Scott Ligon
The “Sort-Your-Own (SYO) Method” of Collaborative Sorting: A Practical Technique to Improve the Efficiency of Group Convergence .................................................................................. Christopher B.R. Diller

x
Serious Games, Gamification, and Innovation — Co-Chairs: Imed Boughzala, Hélène Michel, and Sara de Freitas

Introduction to the Serious Games, Gamification, and Innovation Minitrack ...............................................................625

Imed Boughzala, Hélène Michel, and Sara de Freitas

A Field Application to Vet a Serious Game toward Learning Objectives ...............................................................626

Imed Boughzala

Increasing Intranet Usage through Gamification — Insights from an Experiment in the Banking Industry ...............................................................635

Benedikt Morschheuser, Christian Henzi, and Rainer Alt

Model-Driven Serious Game Development Integration of the Gamification Modeling Language GaML with Unity ........................................................................643

Amir Matallaoui, Philipp Herzig, and Rüdiger Zamekow

Serious Games and Their Use in HRM: A Typology of Uses in CAC40 Companies ..................................................652

Oihab Allal-Chérif and Mohamed Makhlouf

Observed Interaction in Games for Down Syndrome Children ...................................................................................662

Isys Macedo, Daniela G. Trevisan, Cristina N. Vasconcelos, and Esteban Clua

The Effects of Game Dynamics on User Engagement in Gamified Systems ..............................................................672

Ayoung Suh, Christian Wagner, and Lili Liu

Why Do Teachers Use Game-Based Learning Technologies? The Role of Individual and Institutional ICT Readiness ...............................................................................................682

Juho Hamari and Tuula Nousiainen

Social and Psychological Perspectives in Collaboration Research — Co-Chairs: Gert-Jan de Vreede and Triparna de Vreede

A Capacity Perspective on E-mail Overload: How E-mail Use Contributes to Information Overload .......................................................................................................................692

Nikolai Sobotta and Markus Hummel

Media Capabilities that Support Identity Communication in Virtual Teams ............................................................................702

David W. Wilson, Sherry M.B. Thatcher, and Susan A. Brown

Predicting the Behavioral Intention to Use Collaborative Meeting Technologies: A Goal Attainment Mediated by Meeting Satisfaction Model ...............................................................................................................712

Abdulrahman Alothaim, Gert-Jan de Vreede, and Roni Reiter-Palmon

Xiao Liang

The Impact of Interaction Anticipation and Incentive Type on Shared Leadership and Performance in Virtual Teams ..................................................................................................................732

Robert M. Fuller and Michelle Harding

Introduction to Social Media and E-business Transformation Minitrack ................................................................. 742
Christy M.K. Cheung, Matthew K.O. Lee, and Christian Wagner

Algorithmic Authority: The Case of Bitcoin ........................................................................................................... 743
Caitlin Lustig and Bonnie Nardi

An Electronic Clearance Marketplace Leveraging Collaborations in Supplier and Buyer Communities: A Design Science Research Study ........................................................................................................ 753
Ahmed Doha, Khaled Hassanein, and Kaleem Mahmood

Enterprise Social Media: Challenges and Opportunities for Organizational Communication and Collaboration ........................................................................................................... 763
Wietske van Osch, Charles W. Steinfield, and Brigitte A. Balogh

Not Just in it for the Money: A Qualitative Investigation of Workers’ Perceived Benefits of Micro-task Crowdsourcing ........................................................................................................... 773
Ling Jiang, Christian Wagner, and Bonnie Nardi

The Effects of Network Diversity and Social Norms on Social Structuring: Empirical Evidence from Online Social Networks ........................................................................................................... 783
Tillmann Neben, Dennis Lips, and Aliona von der Trenck

Technology Mediated Collaborations in Healthcare — Co-Chairs: Souren Paul, Arkalgud Ramaprasad, and Nilmini Wickramasinghe

Introduction to Technology Mediated Collaborations in Healthcare Minitrack ................................................................. 793
Souren Paul, Arkalgud Ramaprasad, and Nilmini Wickramasinghe

Leveraging Key Aspects of Collaborative Techniques to Assist Clinical Decision Making: The Case of Hip and Knee Arthroplasty ........................................................................................................... 794
Nilmini Wickramasinghe, Hoda Moghimi, Peter Haddad, Richard De Steiger, and Jonathan Schaffer

OH-BUDDY: Mobile Phone Texting Based Intervention for Diabetes and Oral Health Management ........................................................................................................... 803
Anaga Ojo, Samir Chatterjee, Harold W. Neighbors, Gretchen A. Piatt, Sanjoy Moulik, Bonita D. Neighbors, Jamie Abelson, Chris Krenz, and Darlene Jones

Ontological Analysis of the Research on the Use of Social Media for Health Behavior Change ................................................................. 814
Mohanraj Thirumalai and Arkalgud Ramaprasad

Patients’ Behavioral Intentions toward Using WSN Based Smart Home Healthcare Systems: An Empirical Investigation ........................................................................................................... 824
Ahmad Alaiad and Lina Zhou

Post-Hoc CIT: A Useful Method for Qualitative IS Research ........................................................................................................... 834
Janis Gogan and Sunayana Karra

xii
Decision Analytics, Mobile Services, and Service Science Track — Co-Chairs: Christer Carlsson and Haluk Demirkan

Introduction to the Decision Analytics, Mobile and Service Science Track (DA/MS/SS) ...........................................844

Christer Carlsson and Haluk Demirkan

Analytics, Information Systems, and Decision Technologies for Sustainability — Co-Chairs: Omar El-Gayar, PingSun Leung, and Arno Scharl

Introduction to Analytics, Information Systems, and Decision Technologies for Sustainability Minitrack ..........................................................845

Omar F. El-Gayar, Pingsun Leung, and Arno Scharl

Decision Support System for the Sustainability Assessment of Critical Raw Materials in SMEs .................................................................846

Stefan Bensch, Christoph Kolotzek, Christoph Helbig, Andrea Thorenz, and Axel Tuma

Multi-layer Agent-Based Decision Making Model with Incomplete Information Game Theory to Study the Behavior of Market Participants for Sustainability .................................................................856

Miaadreza Shafie-Khah and João P.S. Catalão

Simulation-Based Decision Support for the Reduction of the Energy Consumption of Complex Business Processes ..................................................866

Patrick Lübbecke, Markus Reiter, Peter Fettke, and Peter Loos

Sustainability Management Control Practice: A Study of German SMEs .................................................................876

Imke Wasner and Tim A. Majchrzak

Introduction to Big Data Analytics: Concepts, Methods, Techniques Minitrack ..........................................................886

Frank Armour, Stephen Kaisler, and Alberto Espinosa

Adaptive Modeling for Real Time Analytics: The Case of “Big Data” in Mobile Advertising .................................................................887

Donald Kridel, Daniel Dolk, and David Castillo

Data Analytics in Free-Floating Carsharing: Evidence from the City of Berlin .................................................................897

Sebastian Wagner, Tobias Brandt, and Dirk Neumann

Guiding the Introduction of Big Data in Organizations: A Methodology with Business- and Data-Driven Ideation and Enterprise Architecture Management-Based Implementation .................................................................908

Martin Vanauer, Carsten Böhle, and Bernd Hellingrath

Guilt-by-Constellation: Fraud Detection by Suspicious Clique Memberships .................................................................918

Véronique Van Vlasselaer, Leman Akoglu, Tina Eliassi-Rad, Monique Snoeck, and Bart Baesens

Leveraging Digital Data Streams: The Development and Validation of a Business Confidence Index .................................................................928

Gabriele Piccoli, Joaquin Rodriguez, and Richard T. Watson
SenseCluster for Exploring Large Data Repositories .................................................................938
Yousra Harb, Surendra Sarnikar, and Omar F. El-Gayar

Data, Text, and Web Mining for Business Analytics — Co-Chairs: Dursun Delen and Asil Oztekin

Introduction to Data, Text, and Web Mining for Business Analytics Minitrack .........................................................948
Dursun Delen and Asil Oztekin

Dailing Zhang, Wei Xu, Yingqiu Zhu, and Xinwei Zhang

Enhancing Sentiment Analysis of Financial News by Detecting Negation Scopes .........................................................959
Nicolas Pröllochs, Stefan Feuerriegel, and Dirk Neumann

Extracting News Sentiment and Establishing Its Relationship with the S&P 500 Index .........................................................969
Sahil Zubair and Krzysztof J. Cios

Leveraging Advanced Analytics Techniques for Medical Systematic Review Update .........................................................976
Prem Timsina, Omar F. El-Gayar, and Jun Liu

Decision Making in Production Processes — Co-Chairs: Norbert Gronau, Dieter Armbruster, and Américo Lopes de Azevedo

Introduction to Decision Making in Production Processes Minitrack .................................................................................986
Norbert Gronau, Dieter Armbruster, and Américo Azevedo

A Concept for Extracting and Sharing Technical Data from Digital Product Models for Subsequent Processing .................................................................987
Jens F. Lachenmaier, Heiner Lasi, and Hans-Georg Kemper

Knowledge-Based Planning and Evaluation of Production Systems ..................................................................................997
Robert Weidner and Jens P. Wulfsberg

MaXCept — Decision Support in Exception Handling through Unstructured Data Integration in the Production Context: An Integral Part of the Smart Factory ........................................................................1007
Laura Bernadette Kassner and Bernhard Mitschang

ICT Enabled Services — Co-Chairs: Tuure Tuunanen, Tilo Böhmann, and David Tilson

Introduction to ICT Enabled Services Minitrack ..................................................................................................................1017
Tilo Böhmann, David Tilson, and Tuure Tuunanen

Information Needs of the Mobile Technical Customer Service — A Case Study in the Field of Machinery and Plant Engineering ..................................................................................................1018
Gerald Daeuble, Deniz Oezcan, Christina Niemoeller, Michael Fellmann, Markus Nuettgens, and Oliver Thomas

Requirements Elicitation and Utilization Scenarios for In-car Use of Wearable Devices .................................................................1028
Sabine Berghaus and Andrea Back

What Makes Smart Work Successful? Overcoming the Constraints of Time Geography .................................................................1038
Yong-Young Kim and Sangjo Oh
