2014 Fourth Workshop on Data-Flow Execution Models for Extreme Scale Computing

(DFM 2014)

Edmonton, Alberta, Canada
24 August 2014
# 2014 Fourth International Workshop on Data-Flow Models for Extreme Scale Computing

**DFM 2014**

## Table of Contents

<table>
<thead>
<tr>
<th>Section</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Preface</td>
<td>vii</td>
</tr>
<tr>
<td>Conference Organization</td>
<td>viii</td>
</tr>
<tr>
<td>Program Committee</td>
<td>ix</td>
</tr>
<tr>
<td>Reviewers</td>
<td>x</td>
</tr>
</tbody>
</table>

## Full Papers

- **Limits of Statically-Scheduled Token Dataflow Processing**  
  **Nachiket Kapre and Siddhartha**  
  1

- **Asynchronous Task Scheduling of the Fast Multipole Method Using Various Runtime Systems**  
  **Bo Zhang**  
  9

- **Comparing the StreamIt and \(\Sigma C\) Languages for Manycore Processors**  
  **Xuan Khanh Do, Stephane Louise, and Albert Cohen**  
  17

- **Toward a Self-Aware Codelet Execution Model**  
  **Stéphane Zuckerman, Aaron Landwehr, Kelly Livingston, and Guang Gao**  
  26

- **A Clockless Computing System Based on the Static Dataflow Paradigm**  
  **Lorenzo Verdoscia, Roberto Vaccaro, and Roberto Giorgi**  
  30

- **DFGR an Intermediate Graph Representation for Macro-Dataflow Programs**  
  **Alina Sbirlea, Louis-Noel Pouchet, and Vivek Sarkar**  
  38

## Short Papers

- **A Holistic Dataflow-Inspired System Design**  
  **Stéphane Zuckerman, Haitao Wei, Guang R. Gao, Howard Wong, Jean-Luc Gaudiot, and Ahmed Louri**  
  46
Language Features for Scalable Distributed-Memory Dataflow Computing ........................................50

Justin M. Wozniak, Michael Wilde, and Ian T. Foster

On the Feasibility of a Codelet Based Multi-core Operating System ..................................................54

Jack B. Dennis

Hierarchically Tiled Array as a High-Level Abstraction for Codelets ................................................58

Chih-Chieh Yang, Juan C. Pichel, Adam R. Smith, and David A. Padua

Author Index ..............................................................................................................................................66
