SOFTENG 2015

The First International Conference on Advances and Trends in Software Engineering

April 19 - 24, 2015
Barcelona, Spain

SOFTENG 2015 Editors

Felipe Silva Ferraz, CIN/UFPE / CESAR, Brazil
Jameleddine Hassine, KFUPM, Saudi Arabia
TABLE OF CONTENTS

SOFTENG 1: SOFTWARE REQUIREMENTS

A Change Impact Analysis Approach to GRL Models ................................................................. 1
J. Hassine

F. Ferraz, C. Sampaio, C. Ferraz

Early & Quick Function Point Method: An Empirical Validation Experiment ........................................... 14
R. Meli

SOFTENG 2: CHALLENGES FOR DEDICATED SOFTWARE, PLATFORMS, AND TOOLS

Software Component Allocation on Heterogeneous Embedded Systems Using Coloured Petri Nets .................. 23
I. Al-Azzoni

Feature Mining for Product Line Construction .................................................................................. 29
Y. Tang, H. Leung

Detecting Disruption Periods on TCP Servers with Passive Packet Traffic Analysis .................................... 34
I. Prieto, M. Eal, E. Magana, D. Morato

NumEquaRes — Web Application for Numerical Analysis of Equations ............................................. 41
S. Orlov, N. Shabrov

SOFTENG 3: MAINTENANCE AND LIFE-CYCLE MANAGEMENT

A Catalogue of Thresholds for Object-Oriented Software Metrics .......................................................... 48
T. Filo, M. Bigonha, K. Ferreira

Hybrid Mockup-driven Development: An Agile Model-driven Approach for Web Application ....................... 56
G. Alpaslan, O. Kalipsiz

Critical Issues in SPI Programs: A Holistic View .................................................................................. 60
C. Ramos, A. Rocha, K. Oliveira

Data Verification of Telecommunication Projects for Risk Assessment Models ........................................... 67
A. Olcaysoy, O. Kalipsiz

SOFTENG 4: SOFTWARE DESIGNING AND PRODUCTION

A Lightweight Approach to the Early Detection and Resolution of Feature Interactions ............................ 72
C. Montangero, L. Semini

Developing a Repository for Component-Based Energy-Efficient Software Development ............................ 78
D. Kim, J. Hong

Automatic Generation of Sequence Diagrams and Updating Domain Model from Use Cases .......................... 85
F. Souza, F. Giorno

Framework for Developing Scientific Applications: Solving 1D and 2D Schrodinger Equation by Using Discrete Variable Representation Method ......................................................... 93
B. Koteska, A. Mishev, L. Pejov

SOFTENG 5: SOFTWARE TESTING AND VALIDATION

Exploring Test Composition: Towards Reusability in Combinatorial Test Design ...................................... 100
A. Zamansky, E. Farchi

Smart City Applications TestBed: Towards a Service Based TestBed for Smart Applications ...................... 104
D. Silva, F. Ferraz, C. Ferraz

Towards A Smart-City Security Architecture: Proposal and Analysis of Impact of Major Smart-City Security Issues .......................................................... 108
F. Ferraz, C. Sampaio, C. Ferraz
