2014 Forum on Specification and Design Languages

(FDL 2014)

Munich, Germany
14-16 October 2014
Welcome

General Chair and Program Chair

Keynote Speakers

Program Committee

Conference Papers

**Session 1:** Formal Models & Verification

*S1.1: Automatic Refinement Checking for Formal System Models....3*
Julia Seiter, Robert Wille, Ulrich Kühne and Rolf Drechsler

*S1.2: Verifying Consistency Between Activity Diagrams and Their Corresponding OCL Contracts....11*
Christoph Hilken, Julia Seiter, Robert Wille, Ulrich Kuehne and Rolf Drechsler

*S1.3: Verification of Unit and Dimensional Consistencies in Polychronous Specifications....18*
Mahesh Nanjundappa and Sandeep Shukla

**Session 2:** Predictability

*S2.1: A Novel Modeling Framework for Time-Triggered Safety-Critical Embedded Systems....29*
Iban Ayestaran, Carlos F. Nicolas, Jon Perez, Asier Larrucea Ortube and Peter Puschner

*S2.2: Towards Simulation Based Evaluation of Safety Goal Violations in Automotive Systems....37*
Oezlem Karaca, Jerome Kirscher, Linus Maurer and Georg Pelz

*S2.3: An Extensible Infrastructure for Modeling and Time Analysis of Predictable Embedded Systems....45*
Fernando Herrera and Ingo Sander

**Session 3:** SystemC Modelling and Simulation

*S3.1: Hybrid Dynamic Data Race Detection in SystemC....55*
Alper Sen and Onder Kalaci

*S3.2: Multi-Level Modeling of Wireless Embedded Systems....61*
Fangyan Li, Eric Dekneuvel, Gilles Jacquemod, Davide Quaglia, Michele Lora, François Pêcheux and Rémi Butaud
Session 4: Work-in-Progress

S4.1: PowerMonitor: A Versatile API for Automated Power-Aware ESL Design....71
Yasaman Samei and Rainer Dömer

S4.2: A Concept for Design of Embedded Systems at Semantic Level....75
Frank Wawrzik, Javier Moreno and Christoph Grimm

Session 5: Parallel Simulation and Verification

S5.1: metaSMT: A Unified Interface to SMT-LIB2....81
Heinz Rienier, Mathias Soeken, Clemens Werther, Goerschwin Fey and Rolf Drechsler

S5.2: A Comparison of Parallel SystemC Simulation Approaches at RTL....87
Bastian Haetzer and Martin Radetzki

Session 6: Requirements

S6.1: Automating the Translation of Assertions Using Natural Language Processing Techniques....97
Mathias Soeken, Christopher B Harris, Nabila Abdessaied, Ian G Harris and Rolf Drechsler

S6.2: Semi-formal Representation of Requirements for Automotive Solutions Using SysML....105
Liana Musat, Andi Buzo, Markus Hübl, Georg Pelz, Susanne Kandl and Peter Puschner

S6.3: A Property Language for the Specification of Hardware-Dependent Embedded System....113
Software
Binghao Bao, Carlos Villarraga, Bernard Schmidt, Dominik Stoffel and Wolfgang Kunz

Session 7: Parallel Architectures

S7.1: Distributed, Loosely-Synchronized SystemC/TLM Simulations of Many-Processor Platforms....123
Christian Sauer, Hans-Martin Bluethgen and Hans Peter Loeb

S7.2: Dependable Task and Communication Migration in Tiled Manycore System-on-Chip....131
Stefan Wallentowitz, Volker Wenzel, Stefan Rösch, Thomas Wild, Andreas Herkersdorf and Jörg Henkel

S7.3: Synthesizing Code for GPGPUs from Abstract Formal Models....139
Gabriel Hjort Blindell, Christian Menne and Ingo Sander
Session 8: Power

S9.1: Towards Satisfaction Checking of Power Contracts in Uppaal....149
Gregor Nitsche, Kim Gruettner and Wolfgang Nebel

S9.2: SystemC-AMS Power Electronic Modeling with Ideal Instantaneous Switches....157
Leandro Gil and Martin Radetzki

S9.3: Execution of Heterogeneous Models for Thermal Analysis with a Multiview Approach....165
Amani Khecharem, Carlos Gomez Cardenas, Julien Deantoni, Frédéric Mallet and
Robert De Simone
