Table of Contents

2015 IEEE Wireless Communications and Networking Conference (WCNC)

Cooperative & Relay Communications I

Design of Linear Physical-layer Network Coding for MIMO Two-way Relay Channels without Transmitter CSI
Jiajia Guo (University of New South Wales, Australia), Tao Yang (The University of New South Wales, Australia), Jinhong Yuan (University of New South Wales, Australia), Jian A. Zhang (CSIRO, Australia) ................................. 1

Modeling Conditional Error Probability for Hybrid Decode-Amplify-Forward Cooperative System
Rawan Alkurd (Khalifa University, UAE), Raed Shubair (Khalifa University, UAE), Ibrahim Abualhaol (Carleton University, Canada) ................................................................. 7

Conventional AF Cooperative Protocol Under Nodes-Mobility and Imperfect-CSI Impacts: Outage Probability and Shannon Capacity
Yazid Khattabi (University of Mississippi, USA), Mustafa Muhammad Matalgah (University of Mississippi, USA) ........................................................................................................ 13

A Resource Requirement Aware Transmit Strategy for Non-Regenerative Multi-Way Relaying
Andrea Ortiz (TU Darmstadt, Germany), Holger Degenhardt (TU Darmstadt, Germany), Anja Klein (TU Darmstadt, Germany) ........................................................................... 19

Full-Duplex Spectrum Sharing in Cooperative Single Carrier Systems
Yansha Deng (Queen Mary, University of London, United Kingdom), Kyeong Jin Kim (Mitsubishi Electric Research Laboratories (MERL), USA), Trung Q. Duong (Queen's University Belfast, United Kingdom), Maged Elkashlan (Queen Mary, University of London, United Kingdom), George K. Karagiannidis (Aristotle University of Thessaloniki, Greece), Arumugam Nallanathan (King’s College London, United Kingdom) ................................................... 25

Enhancing Access to the Radio Spectrum

Optical polar OFDM: on the effect of time-domain power allocation under power and dynamic-range constraints
Hany Elgala (Boston University & NSF Smart Lighting ERC, USA), Sarah Kate Wilson (Santa Clara University, USA), Thomas DC Little (Boston University & NSF Smart Lighting ERC, USA) ........... 31

Dynamic Spectrum Assignment for White Space Devices with Dynamic and Heterogeneous Bandwidth Requirements
Yiyang Pei (Institute for Infocomm Research, Singapore), Yugang Ma (Institute for Infocomm Research & A*STAR, Singapore), Edward Chu Yeow Peh (Institute for Infocomm Research, Singapore), Ser Wah Oh (Institute for Infocomm Research, Singapore), Ming-Hung Tao (Institute for Infocomm Research, Singapore) ........................................................................ 36

Subcarrier MPSK/MDPSK Modulated Optical Wireless Communications in Lognormal Turbulence
Xuegui Song (University of British Columbia, Canada), Fan Yang (University of British Columbia, Canada), Julian Cheng (University of British Columbia, Canada), Mohamed-Slim Alouini (King Abdullah University of Science and Technology (KAUST), Saudi Arabia) .............................................. 41

Unified Performance Analysis of Mixed Line of Sight RF-FSO Fixed Gain Dual-Hop Transmission Systems
Emna Zedini (KAUST, Saudi Arabia), Imran Shafique Ansari (Texas A&M University at Qatar (TAMUQ), Qatar), Mohamed-Slim Alouini (King Abdullah University of Science and Technology (KAUST), Saudi Arabia) ........................................................................................................ 46
MIMO Systems I

Optimal Communication Jamming Rate Tradeoff for MIMO Communications
Theodoros Tsiligkaridis (MIT Lincoln Laboratory, USA), Keith Forsythe (MIT Lincoln Laboratory, USA), David Browne (MIT Lincoln Laboratory, USA) ................................................................. 52

Optimized Partial Decoding in Uplink Network MIMO under Constraint Backhaul
Shipeng Wang (University of Science and Technology of China, P.R. China), Li Chen
(University of Science and Technology of China, P.R. China), Guo Wei (University of Sci. &
Tech. of China, P.R. China) ........................................................................................................ 58

A Low-Complexity Design for Robust SINR Fairness in MIMO Interference Networks
Md. Jahidur Rahman (University of British Columbia, Canada), Moslem Noori (University of
Alberta, Canada), Lutz Lampe (University of British Columbia, Canada) .................................. 64

Elevation Domain Channel Measurement and Modeling for FD-MIMO with Different UE Height
Ruoan Zhang (Northwestern Polytechnical University, P.R. China), Xiaofeng Lu (Huawei
Technology Company, P.R. China), Weiming Duan (Huawei, P.R. China), Lin Cai (University of
Victoria, Canada), Jiao Wang (Northwestern Polytechnical University, P.R. China) ................... 70

Adaptive Uncoupled Matching Network Design for Compact MIMO Systems With MMSE Receiver
Yahia Hassan (ETHZ, Switzerland), Armin Wittneben (ETH Zurich, Switzerland) ....................... 76

Cooperative & Relay Communications II

I/Q Imbalance and Loop-back Self Interference Effects in Full-Duplex OFDM DF Relays
Mohamed Mokhtar (University of Texas at Dallas, USA), Naofal Al-Dhahir (University of Texas
at Dallas, USA), Ridha Hamila (Department of Electrical Engineering & Qatar University,
Qatar) ....................................................................................................................................... 81

Opportunistic Relaying with Wireless Energy Harvesting in a Cognitive Radio System
Dinh Van Nguyen (Soongsil University, Korea), Son Dinh-Van (Soongsil University, Korea),
Oh-Soon Shin (Soongsil University, Korea) .................................................................................. 87

Power Minimization in Cooperative MIMO-OFDM Systems with User Fairness Constraints
Chih-yu Hsu (University of Melbourne, Australia), Phee Lep Yeoh (University of Melbourne,
Australia), Brian Krongold (University of Melbourne, Australia) .............................................. 93

Secrecy Capacity of the Full-Duplex AF Relay Wire-Tap Channel under Residual Self-
Interference
Cuong Dang (University of Akron, USA), Leonardo Jiménez Rodríguez (McGill University,
Canada), Nghi H Tran (University of Akron, USA), Sachin Shetty (Tennessee State University,
USA), Shivakumar Sastry (The University of Akron, USA) ....................................................... 99

Conventional and Best-Relay-Selection Cooperative Protocols Under Nodes-Mobility and
Imperfect-CSI Impacts: BER Performance
Yazid Khattabi (University of Mississippi, USA), Mustafa Muhammad Matalgah (University of
Mississippi, USA) ....................................................................................................................... 105

Heterogeneous Networks

Spatial-Correlations and Load-Awareness in Heterogeneous Networks
Arman Shojaeifard (University of Manchester, United Kingdom), Khairi A. Hamdi (University
of Manchester, United Kingdom), Emad Alsusa (Manchester University, United Kingdom),
Daniel K. C. So (University of Manchester, United Kingdom), Jie Tang (University of
Manchester, United Kingdom) .................................................................................................. 111

Grass-root based SpectrumMap Database for Self-Organized Cognitive Radio and
Heterogeneous Networks: Spectrum Measurement, Data Visualization, and User Participating
Model
Yun Li (The University of Tokyo, Japan) .................................................................................... 117
Energy Efficiency Analysis for Wireless Heterogeneous Networks with Pushing and Caching
Chenchen Yang (Shanghai Jiao Tong University, P.R. China), Zhiyong Chen (Shanghai Jiao Tong University, P.R. China), Yao Yao (Huawei Technologies Co., Ltd., P.R. China), Bin Xia (Shanghai Jiao Tong University, P.R. China) ................................................................. 123

Reduced-Backhaul Coordinated Beamforming for Massive MIMO Heterogeneous Networks
Fan Zhang (Southeast University, P.R. China), Yongming Huang (Southeast University, P.R. China), Shi Jin (Southeast University, P.R. China), Lei Jiang (NEC Laboratories China, P.R. China), Gang Wang (NEC Labs, P.R. China) ................................................................. 129

Cooperative Interference Mitigation in Heterogeneous LTE Networks
Stanislaus Iwelski (University of Duisburg-Essen, Germany), Erfan Majeed (University of Duisburg-Essen, Germany), Zijian Bai (University of Duisburg-Essen, Germany), Guido Bruck (University of Duisburg Essen, Germany), Peter Jung (Universität Duisburg-Essen, Germany) .... 135

MIMO Systems II

Self-Interference Cancellation For Full-Duplex MIMO Transceivers
Ahmed Masmoudi (McGill University, Canada), Tho Le-Ngoc (McGill University, Canada) ............. 141

A New Algorithm for the Weighted Sum Rate Maximization in MIMO Interference Networks
Xing Li (University of Colorado at Boulder, USA), Seungil You (California Institute of Technology, USA), Lijun Chen (University of Colorado at Boulder, USA), An Liu (Hong Kong University of Science and Technology, Hong Kong), Youjian Eugene Liu (University of Colorado at Boulder, USA) ................................................................. 147

Achievable Sum Rates of MIMO SC-FDMA Systems with Different Receivers
Longhai Zhao (Harbin Institute of Technology, P.R. China), Xuejun Sha (Communication Research Center, Harbin Institute of Technology, P.R. China), Fu-Chun Zheng (The University of Reading, United Kingdom), Xuanli Wu (Communication Research Center, Harbin Institute of Technology, P.R. China) ................................................................. 153

Performance Evaluation of Full-Dimension MIMO in Indoor Line-of-Sight Environments
Hayato Fukuda (Hokkaido University, Japan), Toshihiko Nishimura (Hokkaido University, Japan), Yasutaka Ogawa (Hokkaido University, Japan), Takeo Ohgane (Hokkaido University, Japan) ................................................................. 159

Spatial Correlation in 3D MIMO channels using Fourier Coefficients of Power Spectrums
Qurrat-Ul-Ain Nadeem (King Abdullah University of Science and Technology (KAUST) & Lahore University of Management Sciences (LUMS), Saudi Arabia), Abla Kammoun (Supelec, France), Mérouane Debbah (Supelec, France), Mohamed-Slim Alouini (King Abdullah University of Science and Technology (KAUST), Saudi Arabia) ................................................................. 165

Channel Model

Reevaluating Cell Wraparound Techniques for 3D Channel Model based System-level Simulations
Ananth Kini (InterDigital Communications, Inc., USA), Mohsen Hosseinian (InterDigital Communications, LLC, USA), Moon-Il Lee (InterDigital Communication, USA), Janet Stern-Berkowitz (InterDigital Communications, Inc., USA) ................................................................. 171

Measurement and Characterization of the Short-Range Low-VHF Channel
Fikadu Dagefu (US Army Research Laboratory, USA), Gunjan Verma (US Army Research Laboratory, USA), Chirag Rao (US Army Research Laboratory, USA), Paul Yu (Army Research Laboratory, USA), Brian Sadler (Army Research Laboratory, USA), Kamal Sarabandi (University of Michigan, USA) ................................................................. 177

Empirically Based Study of Channel Characteristics with Near-Ground Base-Stations
Julio Santana (Universidad Técnica Federico Santa María, Chile), Hector Carrasco (Universidad Técnica Federico Santa María, Chile), Mauricio A. Rodríguez (Universidad Técnica Federico Santa María, Chile) ................................................................. 183
MIMO Systems III

Overlapped-MIMO Radar Waveform Design for Coexistence With Communication Systems
Chowdhury Shahriar (Virginia Tech, USA), Ahmed Abdelhadi (Virginia Tech, USA), T. Charles Clancy (Virginia Tech, USA) ...................................................................................................................... 223

Iterative Channel Estimation and Detection for Fast Time-Varying MIMO-OFDM Channels
Ruizhe Yang (Beijing University of Technology, P.R. China), Siyang Ye (Beijing University of Technology, P.R. China), Pengbo Si (Beijing University of Technology, P.R. China), Enchang Sun (Beijing University of Technology, P.R. China), Yanhua Zhang (Beijing University of Technology, P.R. China) ...................................................................................................................... 229

Approximate Capacity Analysis for Distributed MIMO System over Generalized-K Fading Channels
Xingwang Li (Beijing University of Posts and Telecommunications, P.R. China), Lihua Li (Beijing University of Posts and Telecommunications, P.R. China), Xin Su (Beijing University of Posts and Telecommunications, P.R. China), Zhi Wang (Beijing University of Posts and Telecommunications, P.R. China), Ping Zhang (WTI-BUPT, P.R. China) ...................................................................................................................... 235

A Near-Capacity MIMO-BICM Scheme for Digital Terrestrial Television Broadcasting
Tao Cheng (Tsinghua University, P.R. China), Kewu Peng (Tsinghua University, P.R. China), Fang Yang (Tsinghua University, P.R. China), Yang Zhixing (Tsinghua University, P.R. China) ...................................................................................................................... 241

Robust Weighted-Sum-Rate based Multi-Stream Transmission for the MIMO Interference Channel
Ahmed G Helmy (University of Texas at Dallas, USA), Ahmad Reza Hedayat (Cisco Systems, USA), Naofal Al-Dhahir (University of Texas at Dallas, USA) ...................................................................................................................... 247

Codic and Decoding

Design and Analysis of Lossy Source Coding of Gaussian Sources with Finite-length Polar Codes
Fangliao Yang (Beijing University of Posts and Telecommunications, P.R. China), Kai Niu (Beijing University of Posts and Telecommunications, P.R. China), Kai Chen (Beijing University of Posts and Telecommunications, P.R. China), Zhiqiang He (Beijing University of Posts and Telecommunications, P.R. China), Baoyu Tian (Beijing University of Posts and Telecommunications, P.R. China) ...................................................................................................................... 201

Relaxed Channel Polarization for Reduced Complexity Polar Coding
Mostafa El-Khamy (Samsung Electronics & Alexandria University, USA), Hessam Mahdavifar (Samsung Mobile Solutions Lab, USA), Gennady Feygin (Samsung Electronics, USA), Jungwon Lee (Samsung US R&D Center, USA), Inyup Kang (Samsung Electronics, USA) ...................................................................................................................... 207

A Local Flat Histogram Method for Evaluating the Performance of LDPC Codes
Yuan Liu (Tianjin University, P.R. China), Weigang Chen (Tianjin University & University of California, Los Angeles, P.R. China) ...................................................................................................................... 213

Block-Delayed Partitioned Viterbi Algorithm BD-PVA
Mohamed Haroun (Laval University, Canada), Sebastien Roy (University of Sherbrooke, Canada) ...................................................................................................................... 218
### Poster I: Compressive Sensing & Network Management

**Compressive Sensing Based Pilot Design for Spatial Correlated Massive Antenna Arrays**  
Jing Xu (Beijing University of Posts and Telecommunications, P.R. China), Ying Wang (Beijing University of Posts and Telecommunications, P.R. China), Ailing Wang (Beijing University of Posts and Telecommunications, P.R. China), Chong Yin (Beijing University of Posts and Telecommunications, P.R. China)  
253

**Simplified Cyclostationary Detector using Compressed Sensing**  
Xuan Fu (Beijing University of Posts and Telecommunications, P.R. China), Ying Zhu (Beijing University of Posts and Telecommunications, P.R. China), Jian Yang (Beijing University of Posts and Telecommunications, P.R. China), Yifan Zhang (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China)  
259

**Image compressed sensing based on the similarity of image blocks**  
Weiwei Li (Beijing University of Posts and Telecommunications, P.R. China), Ting Jiang (Beijing University of Posts & Telecommunications, P.R. China), Ning Wang (Beijing University of Posts and Telecommunications, P.R. China)  
265

**Robust Linear Beamformer Designs for MIMO Relaying Broadcast Channel with Max-Min Fairness**  
Yun Li (The University of Tokyo, Japan), Haibin Wan (GuangXi University, P.R. China), Wen Chen (Shanghai Jiao Tong University, P.R. China)  
271

**Threshold-Based Selective Feedback for Opportunistic Interference Alignment**  
Zhinan Xu (FTW Telecommunications Research Center Vienna, Austria), Mingming Gan (FTW, Telecommunications Research Center Vienna, Austria), Thomas Zemen (AIT Austrian Institute of Technology GmbH & FTW Telecommunications Research Center Vienna, Austria)  
276

**Precoder Quantization for Interference Alignment With Limited Feedback**  
Navneet Garg (IIT Kanpur, India), Govind Sharma (Indian Institute of Technology Kanpur, India)  
281

**Adaptive Threshold Architecture for Spectrum Sensing in Public Safety Radio Channels**  
Maicon Kist (Universidade Federal do Rio Grande do Sul, Brazil), Leonardo Roveda Faganello (Federal University of Rio Grande do Sul, Brazil), Lucas Bondan (Federal University of Rio Grande do Sul (UFRGS), Brazil), Marcelo Antonio Marotta (Federal University of Rio Grande do Sul, Brazil), Cristiano Bonato Both (University of Santa Cruz do Sul, Brazil), Lisandro Z Granville (Federal University of Rio Grande do Sul, Brazil), Juergen Rochol (University of Technology & FTW Telecommunications Research Center Vienna, Austria)  
287

**Double-Threshold Based Cooperative Spectrum Sensing over Imperfect Channels**  
Quoc-Tuan Vien (Middlesex University, United Kingdom), Huan X Nguyen (Middlesex University, United Kingdom), Le-Nam Tran (Maynooth University, Ireland), Een-Kee Hong (Kyunghee University, Korea)  
293

### Poster II: Wireless Systems

**Initial Synchronization Assisted from Inherent Diversity on LTE Sector Search Process**  
Jia-Chin Lin (Princeton University, Taiwan), Yu-Ting Sun (National Central University, Taiwan)  
299

**Multi-Pair Full-Duplex Amplify-and-Forward Relaying with Very Large Antenna Arrays**  
Xiaochen Xia (College of Communication Engineering, PLA University of Science and Technology, P.R. China), Wei Xie (PLA University of Science and Technology, P.R. China), Dongmei Zhang (PLA University of Science and Technology, P.R. China), Kui Xu (College of Communications Engineering, PLA University of Science and Technology, P.R. China), Youyun Xu (PLA University of Science & Technology & Shanghai Jiao Tong University, P.R. China)  
304

**An Uplink Interference Analysis for Massive MIMO Systems with MRC and ZF Receivers**  
Ning Liang (University of Science and Technology of China, P.R. China), Wenyi Zhang (University of Science and Technology of China, P.R. China), Cong Shen (University of Science and Technology of China, USA)  
310
Cooperative & Relay Communications III

Achievable Sum-Rate Analysis for Massive MIMO Systems with Different Array Topologies
WeiQiang Tan (Southeast University, P.R. China), Jue Wang (Nantong University, P.R. China), Shi Jin (Southeast University, P.R. China), Yongming Huang (Southeast University, P.R. China) .................................................................................................................................................. 316

Joint Optimization of Power Allocation and Training Duration for Uplink Multiuser MIMO Communications
Songtao Lu (Iowa State University, USA), Zhengdao Wang (Iowa State University, USA) ................. 322

Non-Linear Vector-Perturbation Precoding for Multi-User Downlink Under Quantized CSI
Sanjeeewa P. Herath (McGill University, Canada), Duy H. N. Nguyen (McGill University, Canada), Tho Le-Ngoc (McGill University, Canada) ........................................................................................................................................... 328

PAPR Reduction for Bit-loaded OFDM in Visible Light Communications
Zhenhua Yu (Texas Instruments, USA), Kai Ying (Georgia Institute of Technology, USA), Robert John Baxley (Bastille, USA), G. Tong Zhou (Georgia Tech, USA) ........................................................................................................................................ 334

VoIP Transmission in Wi-Fi Networks with Partially-Overlapped Channels
Raúl Chávez-Santiago (Oslo University Hospital, Norway), Yoram Haddad (Jerusalem College of Technology, Israel), Vladynir Lyandres (Ben-Gution University, Israel), Ilangko Balasingham (Norwegian University of Science & Technology & Oslo University Hospital, Norway) ............................................................................................................. 340

On the Performance of Precoded OFDM Systems in the Presence of Jamming
Otilia Popescu (Old Dominion University, USA), Dimitrie C. Popescu (Old Dominion University, USA) .............................................................................................................................. 346

Cooperative & Relay Communications III

Simultaneous Energy and Information cooperation in MIMO Cooperative Cognitive Radio Systems
Qinghe Gao (Beijing Jiaotong University, P.R. China), Tao Jing (Beijing Jiaotong University, P.R. China), Xiaoshuang Xing (the George Washington University, USA), Xiuzhen Cheng (George Washington Univ, USA), Yan Huo (Beijing Jiaotong University, P.R. China), Dechang Chen (Uniformed Services University of the Health Sciences, USA) ........................................................................................................................................ 351

Cognitive DF Generalized Order Relay Selection Networks with Interference from Primary User
Anas M. Salhab (King Fahd University of Petroleum & Minerals, Saudi Arabia), Salam A. Zummo (KFUPM, Saudi Arabia) ........................................................................................................................................ 357

Performance Analysis of Delayed Limited Feedback Based on Per-cell Codebook in CoMP Systems
Lei Shi (Beijing University of Posts and Telecommunications, P.R. China), Zhirui Hu (Beijing University of Post and Telecommunication, P.R. China), Tiankui Zhang (Beijing University of Posts and Telecommunications, P.R. China), Zhimin Zeng (Beijing University of Posts and Telecommunications, P.R. China) ........................................................................................................................................ 363

Energy-Efficient Cooperative Beamforming Using Timer Based Relay Subset Selection
Bleron Klaqi (University of Sheffield, United Kingdom), Xiaoli Chu (University of Sheffield, United Kingdom), Jie Zhang (University of Sheffield, Dept. of Electronic and Electrical Engineering, United Kingdom) ........................................................................................................................................ 369

Constrained Base Station Clustering for Cooperative Post-Cellular Relay Networks
Raphael T. L. Rolny (ETH Zurich, Switzerland), Marc Kuhn (ETH Zurich, Switzerland), Armin Wittneben (ETH Zurich, Switzerland) ........................................................................................................................................ 375

Massive MIMO

Joint Transmit Antenna Selection and User Scheduling for Massive MIMO systems
Mouncef Benmimoune (Universite du Quebec a Montreal, Canada), Elmahdi Driouch (Universite du Quebec a Montreal, Canada), Wessam Ajib (Universite du Quebec a Montreal, Canada), Daniel Massicotte (Universite du Quebec a Trois-Rivieres, Canada) ........................................................................................................................................ 381
A Quadratic Programming-based Detector for Large-Scale MIMO Systems
Ali Elghariani (Purdue University, USA), Michael Zoltowski (Purdue University, USA) .................. 387

Joint Pilot Assignment and Resource Allocation in Multicell Massive MIMO Network: Throughput and Energy Efficiency Maximization
Tri Minh Nguyen (INRS-EMT, Canada), Long Bao Le (INRS, University of Quebec, Canada) ........ 393

On Dimensionality Loss in FDD Massive MIMO Systems
Zhiyuan Jiang (Tsinghua University, P.R. China), Sheng Zhou (Tsinghua University, P.R. China), Zhisheng Niu (Tsinghua University, P.R. China) .......................................................... 399

A Novel Beamforming Receiver with Adaptive Detection for Large-scale MIMO Communication System
Tuong Xuan Tran (Nanyang Technological University, Singapore), Kah Chan Teh (Nanyang Technological University, Singapore) .................................................................................. 405

Cognitive Radio

Performance Analysis of Opportunistic Scheduling with HARQ for Cognitive Radio Networks
Louis Sibomana (Blekinge Institute of Technology, Sweden), Hans-Juergen Zepernick (Blekinge Institute of Technology, Sweden) .......................................................... 411

Image and Video Transmission in Cognitive Radio Systems under Sensing Uncertainty
Chuang Ye (Syracuse University, USA), Gozde Ozcan (Syracuse University, USA), M. Cenk Gursoy (Syracuse University, USA), Senem Velipasalar (Syracuse University, USA) ................. 417

An Energy Efficient Cognitive Radio System with Quantized Soft Sensing and Duration Analysis
Abdulrahman Alabbasi (King Abdullah University of Science and Technology (KAUST), Saudi Arabia), Basem Shihada (KAUST, Saudi Arabia) .............................................................. 423

Cognitive Radio with Causal Primary Message and Partial Channel State Information at the Transmitter
Wenbo Xu (Beijing University of Posts and Telecommunications, P.R. China), Yifan Wang (Beijing University of Posts and Telecommunications, P.R. China), Jiaru Lin (Beijing University of Posts and Telecommunications, P.R. China), Yun Tian (Beijing University of Posts and Telecommunications, P.R. China) .................................................................................. 429

OFDM-Based Overlay Cognitive Radios with Improved Spectral Leakage Suppression for Future Generation Communications
Mithun Mukherjee (National Institute of Technology Hamirpur, India), Ronald Y. Chang (Academia Sinica, Taiwan), Vikas Kumar (Indian Institute of Technology Patna & Bharat Sanchar Nagar Limited, India) ............................................................ 434

Poster III: Transmission & Detection

Efficient Addressing Algorithm for Categorizing Kasami Sequences
Scott CH Huang (National Tsing Hua University, Taiwan), Hsiao-Chun Wu (Louisiana State University, USA) .................................................................................................................. 440

On the Performance of Adaptive HARQ with no Channel State Information Feedback
Husameldin Mukhtar (Khalifa University of Science, Technology and Research, UAE), Arafat Al-Dweik (Khalifa University, UAE), Mohammed Al-Mualla (Khalifa University of Science, Technology and Research, UAE) .................................................................................. 446

On the Accuracy of RF and Image Processing Based Hybrid Localization for Wireless Capsule Endoscopy
Yishuang Geng (Worcester Polytechnic Institute, MA, USA), Kaveh Pahlavan (WPI, USA) .......... 452

Approximate Performance Bound for Coding in Secret Key Agreement from the Gaussian Channel
Kana Deguchi (Kwansei Gakuin University, Japan), Motohiko Isaka (Kwansei Gakuin University, Japan) .................................................................................................................. 458

### Distributed Energy-Efficient Design for Coordinated Multicell Downlink Transmission
Shiwen He (School of Information Science and Engineering, Southeast University, P.R. China), Wenyang Chen (Southeast University, P.R. China), Yongming Huang (Southeast University, P.R. China), Shi Jin (Southeast University, P.R. China), Lei Jiang (NEC Laboratories China, P.R. China), Gang Wang (NEC Labs, P.R. China) ................................................................. 539

### OFDM Systems

**On the Sensitivity of SMT Systems to Oscillator Phase Noise over Doubly-Selective Channels**
Aamir Ishaque (RWTH, Aachen University Germany, Germany), Gerd H. Ascheid (RWTH Aachen University, Germany) ........................................................................................................... 545

**Subcarrier Pairing based Subcarrier Suppression for OFDM Systems with Decode-and-Forward Network Coding**
Jian Wang (PLA University of Science and Technology, P.R. China), Ma Wenfeng (PLA University of Science & Technology, P.R. China), Youyun Xu (PLA University of Science & Technology & Shanghai Jiao Tong University, P.R. China), Cong Wang (PLA University of Science and Technology, P.R. China), Kui Xu (College of Communications Engineering, PLA University of Science and Technology, P.R. China) ........................................................................................................................................... 551

**Minimum Outage RF Beamforming for Millimeter Wave MISO-OFDM Systems**
Yahia R. Ramadan (Faculty of Engineering, Cairo University, Egypt), Ahmed S. Ibrahim (InterDigital Communications Inc., USA), Mohamed Khairy (Elec. and Comm. Dept., Faculty of Eng., Cairo Univ, Egypt) ........................................................................................................... 557

**Low Complexity Intercarrier Interference Reduction Techniques for OFDM Systems**
Youssef El Hajj Shehadeh (Chernnitz University of Technology, Germany), Gangolf Hirtz (Chernnitz University, Germany) ........................................................................................................... 562

### Transmission Techniques

**Filter Hopping: Physical Layer Secrecy Based on FBMC**
Volker Lücken (RWTH Aachen University & Chair for Integrated Signal Processing Systems, Germany), Taniya Singh (Institute for Comm. Technologies and Embedded Systems, RWTH Aachen University, Germany), Ozge Cepheli (Istanbul Technical University, Turkey), Gunes Karabulut Kurt (Istanbul Technical University, Turkey), Gerd H. Ascheid (RWTH Aachen University, Germany), Guido Dartmann (RWTH Aachen University, Germany) ........................................................................................................... 568

**Enhancing Passive UHF RFID Communication in Multipath Fading Channels using Time-Varying Continuous Wave Signals**
Taoufik Ben-Jabeur (Qatar Mobility Innovations Center (QMIC), Qatar), Abdullah Kadri (Qatar Mobility Innovations Center, Qatar) ........................................................................................................... 574

**Transmission Strategies under Imperfect Instantaneous CSIT**
Samip Malla (Jacobs University, Germany), Giuseppe Abreu (Jacobs University Bremen, Germany) ........................................................................................................... 580

**Novel Method of Axis Alignment in Orbital Angular Momentum Wireless Communication**
Yeqing Zhou (Beijing University of Posts and Telecommunication, P.R. China), Hui Tian (Beijing university of posts and telecommunications, P.R. China), Gaofeng Nie (Beijing University of Posts and Telecommunications, P.R. China) ........................................................................................................... 586

**High Rate Space-Time Codes for Millimeter-Wave Systems with Reconfigurable Antennas**
Vida Vakilian (University of California, Riverside, USA), Hani Mehrpouyan (California State University, USA), Yingbo Hua (University of California, Riverside, USA) ........................................................................................................... 591
Orthogonality improved GFDM with low complexity implementation
Hao Lin (France Telecom, France), Pierre Siohan (Orange Labs, France) .......................................................... 597

Efficient Maximum-Likelihood Detection for the MIMO System Based on Differential Metrics
Ming-Xian Chang (Nation Cheng-Kung University, Taiwan), Wang-Yueh Chang (National Cheng Kung University, Taiwan) .......................................................... 603

Theoretical Error Rate Analysis of Trellis Shaped M-QAM Constellations
Ryota Yoshizawa (Yokohama National University, Japan), Hideki Ochiai (Yokohama National University, Japan) .......................................................... 609

Sparsity-Aware Joint Narrowband Interference and Impulse Noise Mitigation for Hybrid Powerline-Wireless Transmission
Mohamed Mokhtar (University of Texas at Dallas, USA), Waheed U. Bajwa (Rutgers University, USA), Naofal Al-Dhahir (University of Texas at Dallas, USA) .......................................................... 615

Parallelized Generation of ZC/ZC-DFT Sequences in Vector DSP
Jiangnan Lin (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Kai Xie (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Yongtuo Su (Institute of Computing Technology, Chinese Academy of Science, P.R. China), Yiqing Zhou (Chinese Academy of Science, P.R. China), Yanbin Yao (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Jinglin Shi (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China) .......................................................... 621

SNR, SINR & Channel Estimation

An adaptive matching pursuit algorithm for sparse channel estimation
Yi Zhang (Memorial University of Newfoundland, Canada), Ramachandran Venkatesan (Memorial University of Newfoundland, Canada), Octavia A. Dobre (Memorial University of Newfoundland, Canada), Cheng Li (Memorial University of Newfoundland, Canada) .......................................................... 626

Gray-model Based SINR Estimation for Enhanced Intercell Interference Coordination
Jun Shi (School of Electronics and Information Engineering, Xi'an Jiaotong University, P.R. China), Xia Wang (Xi'an Jiaotong University, P.R. China), Li Sun (Xi'an Jiaotong University, P.R. China) .......................................................... 631

Maximum likelihood SNR Estimation for Non-Coherent FSK-based Cooperative Networks over Correlated Rayleigh Fading Channels
Aamra Arshad (National University of Sciences and Technology, Islamabad & School of Electrical Engineering and Computer Sciences, Pakistan), Syed Ali Hassan (National University of Sciences and Technology, Pakistan) .......................................................... 636

DA and NDA SINR Estimation in Non Gaussian Noise
Ahmed M Almradi (The University of Manchester, United Kingdom), Khairi A. Hamdi (University of Manchester, United Kingdom) .......................................................... 642

Exact BER Analysis of MIMO MRC Systems with Channel Estimation Error and Interference
Amir Ali Basri (Communications Research Centre Canada, Canada) .......................................................... 647

LTE and Beyond

Experimental Evaluation of Interference Rejection Combining for 5G small cells
Dereje Assefa Wasse (Aalborg University, Denmark), Gilberto Berardinelli (Aalborg University, Denmark), Fernando M. L. Tavares (Aalborg University, Denmark), Oscar Tonelli (Aalborg University, Denmark), Troels B. Sørensen (Aalborg University, Denmark), Preben Mogensen (Aalborg University, Denmark) .......................................................... 652
Diversity Techniques & Network Coding

**CDMA-OFDM Combination Method for Enhancing Capacity of Voice over LTE Uplink in PMR context**
Manh-Cuong Nguyen (Telecom Sud Paris, France), Hang Nguyen (Institut Telecom, Telecom SudParis, France), Eric Georgesaux (CASSIDIAN (an EADS Company), France), Philippe Mege (Cassidian (EADS), France), Laurent Martinod (Cassidian Systems & Security & Communication Solutions, France) ................................................................. 658

**A Simple Network-Listening Based Synchronization for Small Cells in LTE-Advanced**
Mitsukuni Konishi (SoftBank Mobile Corp., Japan), Daigo Ogata (Softbank Mobile Corp., Japan), Atsushi Nagate (Softbank Mobile Corp., Japan), Teruya Fujii (Softbank Mobile, Japan) .................................................................................................. 663

**LTE Uplink Performance with Interference from In-Band Device-to-Device (D2D) Communications**
Wen-Bin Yang (NIST, USA), Michael R. Souryal (National Institute of Standards and Technology, USA), David Griffith (NIST, USA) ............................................................................................................. 669

**PAPR Reduction in LTE-Advanced Carrier Aggregation Using Low-Complexity Joint Interleaving Technique**
Abdel-karim Ajami (American University of Beirut (AUB), Lebanon), Hassan A. Artail (American University of Beirut, Lebanon), Mohammad M. Mansour (American University of Beirut, Lebanon) ........................................................................ 675

Multiuser Systems

**Minimum Duration Outage of Wireless Rayleigh-Fading Links Using Selection Combining**
David Oehmann (Technische Universität Dresden, Germany), Gerhard P. Fettweis (Technische Universität Dresden, Germany) ............................................................................................................ 681

**Analog Network Coding in Nonlinear Chains**
Tulika Agrawal (IIT MANDI, India), Samar Agnihotri (Indian Institute of Technology Mandi, India), Abhishek Nalam (IIT Mandi, India) .............................................................................................................. 687

**Full-Duplex Wireless-Powered Communication with Antenna Pair Selection**
Mingjin Gao (The Institute of Computing Technology of the Chinese Academy of Sciences, P.R. China), He Chen (The University of Sydney, Australia), Yonghui Li (University of Sydney, Australia), Mahyar Shirvanimoghaddam (University of Newcastle, Australia), Jinglin Shi (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China) ........................................ 693

**Asymptotically Tight Error Rate Bounds for Diversity Receptions Over Arbitrarily Correlated Rician Channels**
Bingcheng Zhu (Southeast University, P.R. China), Julian Cheng (University of British Columbia, Canada), Naofal Al-Dhahir (University of Texas at Dallas, USA), Lenan Wu (Southeast University, P.R. China) .................................................................................. 699

**Closed-loop Pre-equalization for Multiuser Multicarrier MIMO Systems Under QoS Restrictions**
Jose Martin Luna-Rivera (Autonomous University of San Luis Potosí, Mexico), Daniel Ulises Campos-Delgado (Universidad Autónoma de San Luis Potosí, Mexico), Carlos A. Gutiérrez (Universidad Autonoma de San Luis Potosi, Mexico), David H. Covarrubias (CICESE, Mexico) .... 705

**User Scheduling in Pilot-Assisted TDD Multiuser MIMO Systems**
Zhiyuan Jiang (Tsinghua University, P.R. China), Sheng Zhou (Tsinghua University, P.R. China), Zhisheng Niu (Tsinghua University, P.R. China) .................................................................................................................. 711

**Throughput Analysis for Wireless Networks with Full-Duplex Radios**
Zhen Tong (University of Notre Dame, USA), Martin Haenggi (University of Notre Dame, USA) .................................................................................................................................................. 717
Multiple Access

Non-Orthogonal Multiple Access for Degraded Broadcast Channels: RA-CEMA
Alberto G. Perotti (Huawei Technologies Sweden AB, Sweden), Branislav M. Popovic (Huawei Technologies Sweden AB, Sweden) 735

On the Throughput of ARQ over Multiple-Access Relay Fading Channels with Queueing Constraints
Yi Li (Syracuse University, USA), M. Cenk Gursoy (Syracuse University, USA), Senem Velipasalar (Syracuse University, USA) 741

Sum Rate Optimization for MIMO Non-Orthogonal Multiple Access Systems
Qi Sun (China Mobile Research Institute, P.R. China), Shuangfeng Han (China Mobile, P.R. China), Zhikun Xu (China Mobile Research Institute, P.R. China), Sen Wang (China Mobile Research Institute, P.R. China), Chih-Lin I (China Mobile Research Institute, P.R. China), Zhenghang Pan (University of Hong Kong, Hong Kong) 747

Joint Access Point Selection and Linear Precoding Game for MIMO Multiple-Access Channels
Ruikai Mai (McGill University, Canada), Duy H. N. Nguyen (McGill University, Canada), Tho Le-Ngoc (McGill University, Canada) 753

Achieving Shannon Capacity Region as Secrecy Rate Region in a Multiple Access Wiretap Channel
Shahid Mehraj Shah (Indian Institute of Science, India), Vinod Sharma (Indian Institute of Science, India) 759

Resource Allocation

A Computational Geometry Method for Optimal Resource Allocation in Network Localization
Wenhan Dai (Massachusetts Institute of Technology, USA), Yuan Shen (Tsinghua University & Massachusetts Institute of Technology, P.R. China), Moe Win (Massachusetts Institute of Technology, USA) 765

Adaptive Power Allocation for Chase Combining HARQ based Low-Complexity MIMO Systems
Tumula V. K. Chaitanya (McGill University, Canada), Tho Le-Ngoc (McGill University, Canada) 771

On the Power Allocation for Hybrid DF and CF Protocol with Auxiliary Parameter in Fading Relay Channels
Zhengchuan Chen (Tsinghua University, P.R. China), Pingyi Fan (Tsinghua University, P.R. China), Dapeng Oliver Wu (University of Florida, USA), Liquan Shen (Shanghai university, P.R. China) 777

Interference Mitigation in Femtocell Networks with Joint Channel Sensing and Resource Allocation
Elias Yaacoub (Strategic Decisions Group, Lebanon) 783

Adaptive Spatial Modulation and Power Adaptation for Spectrum Sharing Systems with Limited feedback
Zied Bouida (Texas A&M University at Qatar, Qatar), Ali Ghayeb (Texas A&M University at Qatar, Qatar), Khalid A. Qaraqe (Texas A&M University at Qatar, USA) 789
Spatial and Temporal Mobility Analysis in LTE Mobile Network
Qiujian Lv (Beijing University of Posts and Telecommunications, P.R. China), Yufei Di (Beijing University of Post and Telecommunication, P.R. China), Yuanyuan Qiao (Beijing University of Posts and Telecommunications, P.R. China), Zhenming Lei (University of Posts and Telecommunications, P.R. China), Chao Dong (Agricultural Bank of China, P.R. China) ........................................ 795
Characterizing and Modeling of Large-Scale Traffic in Mobile Network
Jie Yang (Beijing University of Posts and Telecommunications, P.R. China), Weicheng Li (Beijing University of Posts and Telecommunications, P.R. China), Yuanyuan Qiao (Beijing University of Posts and Telecommunications, P.R. China), Zubair Fadlullah (Tohoku University, Japan), Nei Kato (Tohoku University, Japan) .......................................................... 801
Self-optimizing Strategies for Dynamic Vertical Sectorization in LTE Networks
Abdoulaye Tall (Orange Labs, France), Zwi Altman (Orange Labs, France), Eitan Altman (INRIA, France) ................................. 807
A Price Selective Centralized Algorithm for Resource Allocation with Carrier Aggregation in LTE Cellular Networks
Haya Shajahia (Virginia Tech, USA), Ahmed Abdelhadi (Virginia Tech, USA), T. Charles Clancy (Virginia Tech, USA) .......................................................... 813
Interference-Aware Spectral-and-Energy Efficiency Tradeoff in Heterogeneous Networks
Chungang Yang (Xidian University, P.R. China), Jiandong Li (Xidian University, P.R. China), Xiaohong Jiang (Future University-Hakodate, Japan), Alagan Anpalagan (Ryerson University, Canada) ........................................ 819

Sensor and Short-Range Networks I

An Efficient Method to Minimize TDMA Frame Length in Wireless Sensor Networks
Mahesh Bakshi (Concordia University, Canada), Mejdi Kaddour (University of Oran & Laboratoire de l'Informatique et et des Technologies d'Information, Algeria), Brigitte Jaumard (Concordia University, Canada), Lata Narayanan (Concordia University, Canada) .......................................................... 825
A Polling MAC with Reliable RF Recharging of Sensor Nodes
Mohammad Khan (Ryerson University, Canada), Jelena Mišić (Ryerson University, Canada), Vojislav B. Mišić (Ryerson University, Canada) .......................................................... 831
Minimum Time Length Link Scheduling under Blockage and Interference in 60GHz Networks
Zhifeng He (Auburn University, USA), Shiwen Mao (Auburn University, USA), Theodore Rappaport (New York University & NYU WIRELESS, USA) .......................................................... 837
Energy Conservative Distributed Average Consensus Through Connected Dominating Set
Mahendra Talasila (University of North Texas, USA), Shengli Fu (University of North Texas, USA), Yan Wan (University of North Texas, USA) .......................................................... 843
An adaptive energy-aware MAC frame size scheme in Wireless Delay-Tolerant Sensor Network
Xiaoli Zhou (University of Ottawa, Canada), Azzedine Boukerche (University of Ottawa, Canada) ..................................................... 849

Small Cell and Green Cellular Networks

On the Performance of Stadium High Density Carrier Wi-Fi Enabled LTE Small Cell Deployments
Aliye Ozge Kaya (Bell Labs, Alcatel-Lucent, USA), Doru Calin (Bell Labs, Alcatel-Lucent, USA), Harish Viswanathan (Bell Labs, Alcatel-Lucent, USA) .......................................................... 855
Dynamic FemtoCaching for Mobile Users
Tianyu Wang (Peking University, P.R. China), Lingyang Song (Peking University, P.R. China), Zhu Han (University of Houston, USA) ................................................................. 861

Traffic-aware User Association Technique for Dynamic On/Off Switching of Small Cells
Shady Elbassioni (Intel, Egypt), Ahmed Elhamy (Intel Corporation & The American University in Cairo, Egypt), Ahmed S. Ibrahim (InterDigital Communications Inc., USA) ....... 866

RF Chain and User Selection for Multiuser MIMO Systems under Random Data Arrival
Xu Zhang (Tsinghua University, P.R. China), Sheng Zhou (Tsinghua University, P.R. China), Zhisheng Niu (Tsinghua University, P.R. China), Xiaokang Lin (Tsinghua University, P.R. China) ............................................................................................... 872

A Scalable Multimode Base Station Switching Model for Green Cellular Networks
Atm Shaful Alam (University of Bradford, United Kingdom), Laurence S Dooley (The Open University, United Kingdom) ....................................................................................... 878

Mobile Networks Poster Session

A Framework for Data Storage Algorithms in Cognitive Radio Sensor Networks
Mustafa A Kishk (Cairo University, Egypt), Omar Nasr (Cairo University, Egypt), Mohamed Khairy (Elec. and Comm. Dept., Faculty of Eng., Cairo Univ, Egypt) ......................................................... 884

On the Design of Relay-Assisted Primary-Secondary Networks
Ahmed El Shafie (University of Texas at Dallas, USA), Ahmed Sultan (Alexandria University, Egypt), Tamer Khattab (Qatar University, Qatar), H. Vincent Poor (Princeton University, USA) .......................................................... 890

Delay-oriented Dynamic Control for Interactive Mobile Cloud Services
Jiadi Chen (Beijing University of Posts and Telecommunications, P.R. China), Qiang Zheng (Beijing University of Posts & Telecommunications, P.R. China), Hang Long (Beijing University of Posts & Telecommunications, P.R. China), Wenbo Wang (Beijing University of Posts and Telecommunications, P.R. China) ............................................................................................. 896

Extended Shadow Fading Model for Irregular Cellular Networks
Levent Kayili (University of Toronto, Canada), Elvino Silveira Sousa (University of Toronto, Canada) ................................................................................................................................. 902

Enhancement of the TXOP Sharing designed for DL-MU-MIMO IEEE 802.11ac WLANs
Mohand Yazid (Laboratory Lamos, University of Béjaïa, Algeria), Adlen Ksentini (University of Rennes 1 / IRISA Lab, France), Louiza Bouallouche-Medjkoune (University of Bejaia, France), Aïssani Djamil (LAMOS, university of Bejaia, Algeria) ............................................................ 908

Wireless Networks Poster Session

A Novel Access Control Scheme to Construct Fresh Database of Ambient Information in Internet of Things
Yuichi Kawamoto (Tohoku University, Japan), Hiroki Nishiyama (Tohoku University, Japan), Nei Kato (Tohoku University, Japan), Yoshitaka Shimizu (NTT, Japan), Atsushi Takahara (NTT, Japan), Tingting Jiang (Virginia Tech, USA) ................................................................. 914

Multi-pair Device-to-Device Communications with Space-Time Analog Network Coding
Lili Wei (Intel Corporation, USA), Geng Wu (Intel Corporation, USA), Rose Qingyang Hu (Utah State University, USA) ........................................................................................................... 920

Performance Evaluation of Cooperative Sensing via IEEE 802.15.4 Radio
Tahir Akram (Lübeck University of Applied Sciences, Germany), Horst Hellbrück (University of Applied Sciences Lübeck & CoSA Center of Excellence, Germany) ................................................................. 926

Distributed Power Allocation for Rate Maximization in Cognitive Radio Networks with Horizontal Spectrum Sharing
Saygin Bakşi (Old Dominion University, USA), Dimitrie C. Popescu (Old Dominion University, USA) ......................................................................................................................... 932
Cognitive Radio I

Coalition Formation Game for Cooperative Cognitive Radio Using Gibbs-Sampling
Nof Abuzainab (INRIA, France), Sai Rakshit Vinnakota (INRIA, India), Corinne E Touati (INRIA - LIG Grenoble, France) ................................................................. 937

Energy Efficient Joint Chunk and Power Allocation for Chunk-based Multi-carrier Cognitive Radio Networks
Ding Xu (Nanjing University of Posts and Telecommunications, P.R. China), Qun Li (Nanjing University of Posts and Telecommunications, P.R. China) ......................................................... 943

Analytical and Simulation Study of the Effect of Secondary User Cooperation on Cognitive Radio Networks
Mohamed Abdelraheem (Virginia Tech, USA), Mustafa El-Nainay (Alexandria University & Virginia Tech, Egypt), Scott F Midkiff (Virginia Tech, USA) ......................................................................................... 949

On Channel Selection Schemes for Spectrum Sensing in Cognitive Radio Networks
Nazanin Rastegardoost (George Mason University, USA), Bijan Jabbari (George Mason University, USA) ......................................................................................................................... 955

Joint Rate, Channel and Route Selection for Cognitive Radio Ad Hoc Networks
Lijuan Ji (ShangHai Jiaotong University, P.R. China), FeiLong Tang (Shanghai Jiao Tong University, P.R. China), Yanqin Yang (East China Normal University, P.R. China), Minyi Guo (Shanghai Jiao Tong University, P.R. China) ........................................................................................................... 960

LTE/LTE-Advanced II

LTE Multi-cell Dynamic Resource Allocation for Wireless Network Virtualization
Mahmoud I Kamel (INRS-EMT, University of Quebec, Canada), Long Bao Le (INRS, University of Quebec, Canada), Andre Girard (INRS-EMT and GERAD, Canada) ......................................................... 966

Game Theory Based Power Allocation in LTE Air Interface Virtualization
Bo Fan (Beijing University of Posts and Telecommunications, P.R. China), Hui Tian (Beijing university of posts and telecommunications, P.R. China), Bin Liu (Beijing University of Posts and Telecommunications, P.R. China) ................................................................................................................................. 972

Performance of Uplink Joint Reception CoMP with Antenna Selection for Reducing Complexity in LTE-A Systems
Peng Shang (Alcatel-Lucent Bell Labs, P.R. China), Lu Zhang (Alcatel-Lucent, P.R. China), Mingli You (Alcatel-Lucent Bell Labs, P.R. China), Yubo Yang (Alcatel Shanghai Bell, P.R. China), Qingchuan Zhang (Alcatel-Lucent Shanghai, P.R. China) ................................................................................................................................. 977

Joint and Partial Carrier Components Assignment Techniques Based on User Profile in LTE Systems
Husnu S Narman (University of Oklahoma, USA), Mohammed Atiquzzaman (University of Oklahoma, USA) ................................................................................................................................. 983

Real-Time Guaranteed TDD Protocol Processing for Centralized Super Base Station Architecture
Zhai Guowei (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Lin Tian (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Yiqing Zhou (Chinese Academy of Science, P.R. China), Xiaodong Wang (Columbia University, USA), Jinglin Shi (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China) ................................................................................................................................. 989

Next Generation Cellular Networks

Access-Link Provisioning and Coordination: Tradeoff Between Proactive and Reactive Strategies
Philippe Leroux (Huawei Technologies Co., Ltd., Canada), Aaron Callard (Huawei, Canada), Ngoc-Dung Dao (Huawei Technologies Canada Co., Ltd., Canada), Alex Stéphenne (Ericsson & INRS-EMT, Canada) ................................................................................................................................. 995
Sensor and Short-Range Networks II

Efficient scheduling for Minimum Latency Aggregation in Wireless Sensor Networks
Jonathan Gagnon (Concordia University, Montreal, Canada), Lata Narayanan (Concordia University, Canada) ................................................................. 1024

Optimal Task Scheduling Policy in Energy Harvesting Wireless Sensor Networks
Vijay S Rao (Delft University of Technology, The Netherlands), Venkatesha Prasad (Delft University of Technology, The Netherlands), Ignas Niemegeers (TU Delft, The Netherlands) .......................... 1030

A Heuristic Clique Based STDMA Scheduling Algorithm for Spatial Concurrent Transmission in mmWave Networks
Zhongjiang Yan (Northwestern Polytechnical University, P.R. China), Bo Li (Northwestern Polytechnical University, P.R. China), Xiaoya Zuo (Northwestern Polytechnical University, P.R. China), Mao Yang (Northwestern Polytechnical University, P.R. China) ................................................................. 1036

Impacts of Sub Hub on Connectivity of IEEE 802.15.4 in Healthcare Environments
Sungwoo Weon (Yonsei University, Korea), Seokwon Lee (Yonsei University, Korea), Sooyong Choi (Yonsei University, Korea), Jang-Won Lee (Yonsei University, Korea), Daesik Hong (Yonsei University, Korea) .................................................................................. 1042

Balancing between robustness and energy consumption in underwater acoustic sensor networks
Cheng Li (Memorial University of Newfoundland, Canada), Ruoyu Su (Memorial University, Canada), Ramachandran Venkatesan (Memorial University of Newfoundland, Canada) ......................... 1048

MAC Protocols I

Efficient MAC Protocols Optimization for Future High Density WLANS
Imad Jamil (Orange, France), Laurent Cariou (Orange Labs, France), Jean-François Hélard (IETR, France) .................................................................................. 1054

Evaluation of Dynamic Sensitivity Control Algorithm for IEEE802.11ax
M. Shahwaiz Afaqui (Technical University of Catalonia (UPC), Spain), Eduard Garcia-Villegas (Technical University of Catalonia (UPC), Spain), Elena Lopez-Arguillera (Technical University of Catalonia (UPC), Spain), Graham Smith (DSP Group, USA), Daniel Camps (i2CAT, Spain) .......................... 1060

QoE-aware admission control and MAC layer parameter configuration algorithm in WLAN
Hu Zhou (Northwestern Polytechnical University, P.R. China), Bo Li (Northwestern Polytechnical University, P.R. China), Mao Yang (Northwestern Polytechnical University, P.R. China), Zhongjiang Yan (Northwestern Polytechnical University, P.R. China) ................................................................. 1066

Doubly-Generalized LDPC Codes with SPC Codes as Super Variable Nodes
Yejun He (Shenzhen University, P.R. China), Jie Yang (Shenzhen University, P.R. China), Guiyuan Sun (Shenzhen University, P.R. China) .................................................................................. 1072
Cognitive Radio II

Dynamic Spectrum Management for Heterogeneous UAV Networks with Navigation Data Assistance
   Pengbo Si (Beijing University of Technology, P.R. China), F. Richard Yu (Carleton University, Canada), Ruizhe Yang (Beijing University of Technology, P.R. China), Yanhua Zhang (Beijing University of Technology, P.R. China) ................................................................. 1078

Implementation of an Opportunistic Spectrum Access System with Disruption QoS Provisioning and PU Traffic Parameter Estimation
   Anirudha Sahoo (NIST, USA), Michael R. Souryal (National Institute of Standards and Technology, USA) ........................................................................................................... 1084

Dynamic Power Pricing using Distributed Resource Allocation for Large-Scale DSA Systems
   Bassem Khalfi (Oregon State University, USA), Mahdi Ben Ghorbel (Qatar University, Qatar), Bechir Hamdaoui (Oregon State University, USA), Mohsen Guizani (QU, USA) ......................................................................................... 1090

Distributed and Cheat-Proof Spectrum Contention Scheme for IEEE 802.22 WRAN Networks
   Kenneth U Ezirim (Graduate Center, City University of New York, USA), Ligon Liu (Graduate Center / CUNY, USA), Ping Ji (John Jay College of Criminal Justice, City University of New York (CUNY), USA), Shamik Sengupta (University of Nevada, Reno, USA) ................................................................. 1095

Cooperative Sensing under Imperfect Feedback Channels in Dynamic Spectrum Access Networks
   Omar H Altrad (American University of Madaba, Jordan), Sami Muhaidat (Khalifa University, UAE), Nayef Alsindi (Etisalat-British Telecommunications Innovation Centre (EBTIC), UAE), James Aweya (Etisalat British Telecom Innovation Center/Khalifa University, UAE) ................................................................. 1101

MAC Protocols II

Signal-Centric Predictive Polling for Medium Access Control in M2M Communications Networks
   Rung-Hung Gau (National Chiao Tung University, Taiwan), Chih-Huan Chen (National Chiao Tung University, Taiwan) ........................................................................................................... 1107

Modeling of Coupled Collision and Congestion in Finite Source Wireless Access Systems
   Ahsan-Abbas Ali (Louisiana State University, USA), Shuangqing Wei (Louisiana State University, USA) ........................................................................................................... 1113

Fast and Accurate Cardinality Estimation in Cellular-Based Wireless Communications
   Mohammad Ghadir Khoshkholgh Dashtaki (UBC, Canada), Victor CM Leung (The University of British Columbia, Canada), Kang G. Shin (University of Michigan, USA) ........................................................................................................... 1119

Distributed Channel Access Schemes for Multi-Channel ALOHA Cognitive Radio Networks
   Chang-Shen Lee (National Chiao Tung University, Taiwan), Wei-Ho Chung (Academia Sinica, Taiwan), Ta-Sung Lee (National Chiao Tung University, Taiwan) ................................................................. 1124

Rate Constrained Power Optimization for STDMA MAC Protocols
   Siqian Cui (Harbin Institute of Technology & University of California, Irvine, P.R. China), Homayoun Yousefizadeh (University of California, Irvine, USA), Xuemai Gu (Harbin Institute of Technology, P.R. China) ........................................................................................................... 1129

Relaying in Wireless Networks

Secrecy Rate with Friendly Full-Duplex Relay
   Saeedeh Parsaeeafard (McGill University, Canada), Tho Le-Ngoc (McGill University, Canada) ........ 1135

Joint Power Assignment and Relay Location Design for Cooperative Power-efficient Networks with Adaptive Transmission Mode Selection
   Jane-Hwa Huang (National Chi Nan University, Taiwan), Sz-Yan Hsu (National Chi-Nan University, Taiwan) ........................................................................................................... 1141
Resource Management I

Distributed Power Control in Full Duplex Wireless Networks
Yu Wang (Auburn University, USA), Shiwen Mao (Auburn University, USA) ......................................................... 1165

Lifetime-Aware Scheduling and Power Control for Cellular-based M2M Communications
Amin Azari (KTH Royal Institute of Technology, Sweden), Guowang Miao (KTH Royal Institute of Technology, Sweden) ......................................................................................................................... 1171

Joint Base Station Assignment and Power Control in Hybrid Energy Supply Wireless Networks
Yuyi Mao (Hong Kong University of Science and Technology, Hong Kong), Jun Zhang (The Hong Kong University of Science and Technology, Hong Kong), Khaled B. Letaief (The Hong Kong University of Science and Technology, Hong Kong) .......................................................... 1177

Joint Channel Assignment, Stable Routing and Adaptive Power Control in Mobile Cognitive Networks
Jin Zhou (Shanghai Jiao Tong University, P.R. China), Feilong Tang (Shanghai Jiao Tong University, P.R. China), Jie Li (University of Tsukuba, Japan), Wenchao Xu (East China Normal University, P.R. China), Minyi Guo (Shanghai Jiao Tong University, P.R. China) ........................................................................ 1183

Capacity Analysis of Wireless Ad Hoc Networks with Improved Channel Reservation
Yongping Zhang (Northwestern Polytechnical University, P.R. China), Bo Li (Northwestern Polytechnical University, P.R. China), Mao Yang (Northwestern Polytechnical University, P.R. China), Zhongjiang Yan (Northwestern Polytechnical University, P.R. China) ........................................................................ 1189

Vehicular and D2D Networks

Evaluating Mobile Signal and Location Predictability along Public Transportation Routes
Hatem Abou-zeid (Queen's University, Canada), Hossam S. Hassanein (Queen's University, Canada), Zohaib Tanveer (Queen's University, Canada), Najah A. Abu Ali (UAEU, UAE) .............................................................. 1195

FIT: On-the-Fly, In-Situ Training with Sensor Data for SNR-Based Rate Selection
Hui Liu (Southern Methodist University, USA), Jialin He (Southern Methodist University, USA), Onur Altintas (Toyota InfoTechnology Center, Japan), Rama K Vuyyuru (Toyota Info Technology Center, USA), Joseph D. Camp (Southern Methodist University, USA), Dinesh Rajan (Southern Methodist University, USA) ........................................................................ 1201

Roadside-Unit Caching in Vehicular Ad Hoc Networks for Efficient Popular Content Delivery
Ruizhou Ding (Peking University, P.R. China), Tianyu Wang (Peking University, P.R. China), Lingyang Song (Peking University, P.R. China), Zhu Han (University of Houston, USA), Jianjun Wu (Peking University, P.R. China) ........................................................................ 1207

Downlink Resource Allocation for the High-speed Train and Local Users in OFDMA Systems
Chuang Zhang (Tsinghua University, P.R. China), Pingyi Fan (Tsinghua University, P.R. China), Ke Xiong (Beijing Jiaotong University, P.R. China) ........................................................................ 1213
Power Allocation for Device-to-Device Communication Underlaying Massive MIMO Multicasting Networks
Belal S. Amin (Faculty of Engineering, Cairo University, Egypt), Yahia R. Ramadan (Faculty of Engineering, Cairo University, Egypt), Ahmed S. Ibrahim (InterDigital Communications Inc., USA), Mahmoud H. Ismail (Cairo University, Egypt) ................................................................. 1219

Resource Management II

MIMO Link Scheduling for Interference Cancellation in Dense Wireless Networks
Douglas Blough (Georgia Institute of Technology, USA), Luis Miguel Cortés-Peña (Harris Corporation, USA) .......................................................................................................................... 1225

Network Navigation Algorithms with Power Control
Wenhan Dai (Massachusetts Institute of Technology, USA), Yuan Shen (Tsinghua University & Massachusetts Institute of Technology, P.R. China), Moe Win (Massachusetts Institute of Technology, USA) .................................................................................................................. 1231

Preliminary Evaluation of Simultaneous Data and Power Transmission in the Same Frequency Channel
Keita Yamazaki (Shizuoka University, Japan), Yusuke Sugiyama (Shizuoka University, Japan), Yoshihiro Kawahara (The University of Tokyo, Japan), Shunsuke Saruwatari (Shizuoka University, Japan), Takashi Watanabe (Osaka University, Japan) ................................................................. 1237

Resource Allocation Optimization for the Hybrid Access Mode in Heterogeneous Networks
Yuling Yu (Beijing University of Posts and Telecommunications, P.R. China), Mugen Peng (Beijing University of posts & Telecommunications, P.R. China), Jian Li (Beijing University of Posts and Telecommunications, P.R. China), Aolin Cheng (Beijing University of Posts and Telecommunications, P.R. China), Chonggang Wang (InterDigital Communications, USA) ................................................................. 1243

On Two-user degraded GBC with Finite Input Constellations
Huangping Jin (Tsinghua University, P.R. China), Kewu Peng (Tsinghua University, P.R. China), Jian Song (Tsinghua University, P.R. China) ................................................................................................................................. 1249

IEEE WCNC 2015 - Track 3- Mobile and Wireless Networks: 2015 IEEE Wireless Communications and Networking Conference (WCNC): - Track 3: Mobile and Wireless Networks

LTE 1

A User Behavior Based Handover Optimization Algorithm for LTE Networks
Rana D Hegazy (Cairo University, Egypt), Omar Nasr (Cairo University, Egypt) .................................................... 1255

Integrated Small Cell and Wi-Fi Networks
John Tomici (Interdigital Communications, USA), Michael Starsinic (InterDigital, USA), Ahmed S. Ibrahim (InterDigital Communications Inc., USA), Qing Li (InterDigital Inc., USA) ................................................................. 1261

Scheduling for Multi-users Multiplexing Radio Voice Transmission for Enhancing Voice Capacity over LTE in PMR Context
Manh-Cuong Nguyen (Telecom Sud Paris, France), Hang Nguyen (Institut Telecom, Telecom SudParis, France), Eric Georgeaux (CASSIDIAN (an EADS Company), France), Philippe Mege (Cassidian (EADS), France), Laurent Martinod (Cassidian Systems & Security & Communication Solutions, France), Alina A. Florea (Pierre and Marie Curie University, France) ................................................................................................................................. 1267

A Threshold-based Multi-traffic Load Balance Mechanism in LTE-A Networks
Zhangpeng Huang (Shanghai Jiao Tong University, P.R. China), Jing Liu (Shanghai Jiao Tong University, P.R. China), Qiang Shen (Shanghai JiaoTong University, P.R. China), JIin Wu (Shanghai Jiao Tong University, P.R. China), Xiaoying Gan (Shanghai Jiao Tong University, P.R. China) ................................................................................................................................. 1273
Energy Harvesting

Hierarchical, Collaborative Wireless Charging in Sensor Networks
Adelina Madhja (University of Patras and Computer Technology Institute, Greece), Sotiris E. Nikoletseas (University of Patras and Computer Technology Institute, Greece), Theofanis P. Raptis (University of Patras and Computer Technology Institute, Greece) ................................................................. 1285

RF Energy Harvesting for WSNs via Dynamic Control of Unmanned Vehicle Charging
Fahira Sangare (University of Houston, USA), Ali Arab (University of Houston, USA), Miao Pan (Texas Southern University, USA), Lijun Qian (Prairie View A&M University, USA), Suresh Khator (University of Houston, USA), Zhu Han (University of Houston, USA) ................................................................. 1291

Minimizing the Number of Mobile Chargers in a Large-Scale Wireless Rechargeable Sensor Network
Cheng Hu (Southeast University, P.R. China), Yun Wang (School of Computer Science and Engineering, Southeast University, P.R. China) ................................................................. 1297

Performance Analysis of Simultaneous Wireless Information and Power Transfer with Ambient RF Energy Harvesting
Xiao Lu (Nanyang Technological University, Singapore), Ian Flint (Nanyang Technological University, Singapore), Dusit Niyato (Nanyang Technological University, Singapore), Nicolas Privault (Nanyang Technological University, Singapore), Ping Wang (Nanyang Technological University, Singapore) ................................................................. 1303

Robust Queue Management for TCP-Based Large Round Trip Time Networks with Wireless Access Link
Ladan Khoshnevisan (University of Tehran, Iran), Farzad Salmasi (University of Tehran, Iran), Vahid Shah-Mansouri (University of Tehran, Iran) ................................................................. 1309

Wireless LAN

Airborne WiFi Networks through Directional Antennae: An Experimental Study
Yixin Gu (University of North Texas, USA), Mi Zhou (University of North Texas, USA), Shengli Fu (University of North Texas, USA), Yan Wan (University of North Texas, USA) ................................................................. 1314

GPS Tethering for Energy Conservation
Yuepeng Qi (North Carolina State University, USA), Chansu Yu (Cleveland State University, USA), Young-Joo Suh (Pohang University of Science and Technology (POSTECH), Korea), Si Young Jang (Pohang University of Science and Technology (POSTECH), Korea) ................................................................. 1320

An investigation into the use of the kriging for Wi-Fi RSSI estimation in complex indoor environments
Petrus Jacobus Joubert (North West University, South Africa), Albert Helberg (North-West University, South Africa) ................................................................. 1326

Uplink Traffic Cellular-first Access Scheme in Cellular/WLAN Integrated Networks
Qiang Fan (University of Science and Technology of China, P.R. China), Peilin Hong (Dept. EEIS & USTC, P.R. China), Hancheng Lu (University of Science and Technology of China, P.R. China), Wei Jiang (University of Science and Technology of China, P.R. China) ................................................................. 1332

A Novel Delayed Wakeup Scheme for Efficient Power Management in Infrastructure-based IEEE 802.11 WLANs
Yi Li (The University of Hong Kong, Hong Kong), Xin Zhang (The University of Hong Kong, Hong Kong), Kwan Lawrence Yeung (The University of Hong Kong, Hong Kong) ................................................................. 1338
Wireless Sensor Networks 1

Cellular Automata and Object Monitoring in Mobile Wireless Sensor Networks
Salimur Choudhury (William Paterson University of New Jersey, USA), Kai Salomaa (School of Computing Queen's University Canada, Canada), Selim G. Akl (Queen's University, Canada) .................................................. 1344

Cooperative MIMO-OFDM Based Multi-Hop 3D Clustered Wireless Camera Sensor Networks
Jingqing Wang (Texas A&M University, USA), Xi Zhang (Texas A&M University, ECE Department, USA) .......................................................................................................................... 1350

Fundamental Bounds on RSS-Based Wireless Localization in Passive UHF RFID Systems
Bekir S Çiftler (Florida International University, USA), Abdullah Kadri (Qatar Mobility Innovations Center, Qatar), Ismail Güvenç (Florida International University, USA) ......................... 1356

Indoor Localization based on Bi-Phase Measurements for Wireless Sensor Networks
Mathias Pelka (Fachhochschule Lübeck, Germany), Christian Bollmeyer (Lübeck University of Applied Sciences & Graduate School for Computing in Medicine and Life Sciences, Universität zu Lübeck, Germany), Horst Hellbrück (University of Applied Sciences Lübeck & CoSA Center of Excellence, Germany) .................................................................................. 1362

Routing and Flow Rate Assignment Using Multi-Objective Optimization in Wireless Sensor Networks
Mohamed Elsersy (Memorial University of Newfoundland, Canada), Mohamed Hossam Ahmed (Memorial University, Canada), Abderrazek Abdaoui (Qatar University & College of Engineering, Qatar), Tarek M. Elfouly (Qatar University, Qatar) .......................................................... 1368

LTE 2

Improving System Capacity Based upon User-Specific QoS for Heterogeneous Networks
Chao He (University of South Florida, USA), Gabriel Arrobo (University of South Florida, USA), Richard D. Gitlin (University of South Florida, USA) .................................................................................. 1374

Uplink Scheduling for LTE 4G Video Surveillance System
Yen-Kai Liao (National Tsing Hua University, Taiwan), Chih-Hang Wang (National Tsing Hua University, Taiwan), De-Nian Yang (Academia Sinica, Taiwan), Wen-Tsuen Chen (National Tsing Hua University, Taiwan) .................................................................................. 1380

Effect of Handover on the Performance of Scheduling Algorithms in LTE Networks
Narges Shojaedin (University of Calgary, Canada), Majid Ghaderi (University of Calgary, Canada), Ashwin Sridharan (AT&T, USA) .......................................................................................................................... 1386

Energy Efficient IEEE 802.11 WLAN Discovery For Heterogeneous 3GPP LTE Network
Pravijyot Singh Deogun (Indian Institute of Technology (IIT) Bombay, India), Shashi Ranjan (Indian Institute of Technology Bombay, India), Punit Ashok Rathod (Indian Institute of Technology Bombay, India), Abhay Karandikar (IIT Bombay, India), Nadeem Akhtar (Centre of Excellence in Wireless Technology, India) ........................................................................... 1392

Packet Dropping with Intra-Flow Prioritization for Internet Video Calls in Mobile Networks
Yi Gai (Intel Labs, USA), Jing Zhu (Intel, USA), Rath Vannithamby (Intel, USA) ......................................................... 1398

Physical Layer Security

Evaluation of Security Robustness Against Information Leakage in Gaussian Polytree Graphical Models
Ali Moharrer (Louisiana State University, USA), Shuangqing Wei (Louisiana State University, USA), George T Amariucai (Iowa State University, USA), Jing Deng (University of North Carolina at Greensboro, USA) .................................................................................. 1404

Secrecy Analysis for Selection among Transmit Antennas with Unequal Average SNR Performance
Yujia Hu (Beijing University of Posts and Telecommunications, P.R. China), Xiaofeng Tao (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 1410
Secure Transmission with Artificial Noise in the Multiuser Downlink: Secrecy Sum-rate and Optimal Power Allocation
Na Li (Beijing University of Posts and Telecommunications, P.R. China), Xiaofeng Tao (Beijing University of Posts and Telecommunications, P.R. China), Qimei Cui (Beijing University of Posts and Telecommunications, P.R. China), Jin Xu (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 1416

Opportunistic Fair Resource Sharing with Secrecy Considerations in Uplink Wiretap Channels
Xin Ge (The University of British Columbia, Canada), Hu Jin (Hanyang University, Korea), Xiuhua Li (University of British Columbia, Canada), Victor CM Leung (The University of British Columbia, Canada) ................................................................. 1422

Securing Space Communication Systems Against Reactive Cognitive Jammer
Danda B. Rawat (Georgia Southern University, USA), Min Song (Michigan Technological University, USA) ................................................................. 1428

Investigation of Service Success Probability for Downlink Heterogeneous Cellular Networks with Cell Association and User Scheduling
Shanshan Chen (Beijing University of Posts and Telecommunications, P.R. China), Mugen Peng (Beijing University of Posts & Telecommunications, P.R. China), Hengzhi Zhang (Beijing University of Posts & Telecommunications, P.R. China), Chonggang Wang (InterDigital Communications, USA) ................................................................. 1434

On Adaptive Range Expansion for UL-DL Imbalance Mitigation in HSPA HetNet
Liu Liu (Beijing University of Posts and Telecommunications, P.R. China), Chang Yongyu (Beijing University of Posts & Telecommunications, P.R. China), Sida Song (Beijing University of Posts and Telecommunications, P.R. China), Dacheng Yang (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 1440

Network State Motivated Traffic Offloading Scheme in Heterogeneous Networks
Yue Zhang (Beijing University of Posts and Telecommunications & Key Laboratory of Universal Wireless Communications, Ministry of Education Wireless Technology Innov, P.R. China), Zhiqing Wei (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China), Qixun Zhang (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 1446

Optimal Base Station Density in Ultra-densification Heterogeneous Network
Jianyuan Feng (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China), Zhiqing Wei (Beijing University of Posts and Telecommunications, P.R. China), Wei Li (University of Victoria, Canada), Sumit Roy (University of Washington, USA) ................................................................. 1452

High-Resolution Cell Breathing for Improving Energy Efficiency of Ultra-Dense HetNets
Hongjia Li (Chinese Academy of Sciences, P.R. China), Dan Hu (Cisco Systems, Inc., P.R. China), Xin Chen (Chinese Academy of Sciences, P.R. China), Song Ci (University of Nebraska-Lincoln, USA) ................................................................. 1458

MIMO

Impact of BS Antenna Number and Array Geometry on Single-User LTE-A Data Throughputs in Realistic Macro and Pico Cellular Environments
Siming Zhang (University of Bristol, United Kingdom), Di Kong (University of Bristol, United Kingdom), Evangelos Mellios (University of Bristol, United Kingdom), Geoffrey Hilton (University of Bristol, United Kingdom), Andrew Nix (University of Bristol, United Kingdom), Timothy A. Thomas (Nokia Networks, USA), Amitava Ghosh (Nokia Networks, USA) ................................................................. 1464

Optimal MIMO Beamforming Based Topology Management for Interference Minimization in MIMO Wireless Sensor Networks
Sampath Gembali (IIT Kanpur, India), Aditya K Jagannatham (Indian Institute of Technology Kanpur, India) ................................................................. 1470
Hoda Ayatollahi (University of Rochester, USA), Cristiano Tapparello (University of Rochester, USA), Wendi Heinzelman (University of Rochester, USA) .......................................................... 1476

Physical Layer Network Coding Using THP for Bi-directional MIMO Relay Systems
Cao Lengchi (Okayama University, Japan), Satoshi Denno (Okayama University, Japan) ............... 1482

Pilot Sequences Allocation in TDD Massive MIMO Systems
Xiangyu Yan (University of Science & Technology of China, P.R. China), Huarui Yin (University of Science and Technology of China, P.R. China), Mengbing Xia (University of Science and Technology of China, P.R. China), Guo Wei (University of Sci. & Tech. of China, P.R. China) ......................................................................................................................... 1488

Wireless Sensor Networks 2

Wireless Sensor Networks with RF Energy Harvesting: Energy Models and Analysis
M. Yousof Naderi (Northeastern University, USA), Kaushik Chowdhury (Northeastern University, USA), Stefano Basagni (Northeastern University, USA) .......................................................... 1494

Distributed Self Localization of Sensors with Poisson Deployment using Extended Kalman Filter
Abhishek Kumar Gupta (University of Texas At Austin, USA), Somsubhra Barik (The University of Texas at Austin, USA), Haris Vikalo (The University of Texas at Austin, USA) ............... 1500

Localization from Connectivity: 1-Bit Maximum Likelihood Approach
Sonia Bhaskar (Stanford University, USA) .............................................................................................. 1506

eXtend Collection Tree Protocol
Bruno P. Santos (Federal University of Minas Gerais, Brazil), Marcos A. M. Vieira (Federal University of Minas Gerais, Brazil), Luiz F. M. Vieira (Universidade Federal de Minas Gerais, Brazil) .......................................................... 1512

A Novel Local Search Approximation Algorithm for Relay Node Placement in Wireless Sensor Networks
Chaofan Ma (Shenyang Institute of Automation Chinese Academy of Sciences, P.R. China), Wei Liang (Shenyang Institute of Automation, P.R. China), Xiaowen Liang (University of Science and Technology of China, P.R. China), Hamid Sharif (University of Nebraska-Lincoln, USA) ......................................................................................................................... 1518

Heterogeneous Networks 2

Performance Evaluation and Viability of IFOM in Heterogeneous LTE - WLAN Network
Shubhada Rajesh Gadgil (Indian Institute of Technology Bombay, IIT Bombay, India), Shashi Ranjan (Indian Institute of Technology Bombay, India), Divya Joshi (Broadcom Communications Technologies Private Limited, India), Mahima Mehta (Intel Mobile Communications India Pvt. Ltd., India), Nadeem Akhtar (Centre of Excellence in Wireless Technology, India), Abhay Karandikar (IIT Bombay, India) ......................................................................................................................... 1524

Small Cells On/Off Control and Load Balancing for Green Dense Heterogeneous Networks
Yinghao Jin (University of Science and Technology of China, P.R. China), Ling Qiu (University of Science and Technology of China, P.R. China), Xiaowen Liang (University of Science and Technology of China, P.R. China) ......................................................................................................................... 1530

Context-Aware Mobility Management in HetNets: A Reinforcement Learning Approach
Meryem Simsek (Technische Universität Dresden, Germany), Mehdi Bennis (Centre of Wireless Communications, University of Oulu, Finland), Ismail Güvenç (Florida International University, USA) ......................................................................................................................... 1536

Joint User Association and Green Energy Allocation in HetNets with Hybrid Energy Sources
Dantong Liu (Queen Mary University of London, United Kingdom), Yue Chen (Queen Mary University of London, United Kingdom), Kok Keong (Michael) Chai (Queen Mary, University of London, United Kingdom), Tiankui Zhang (Beijing University of Posts and Telecommunications, P.R. China), Kaifeng Han (Queen Mary University of London, United Kingdom) ......................................................................................................................... 1542
Extended User/Control Plane Architectures for Tightly Coupled LTE/WiGig Interworking in Millimeter-wave Heterogeneous Networks
Hailan Peng (KDDI R&D Laboratories Inc., Japan), Toshiaki Yamamoto (KDDI R&D Laboratories, Japan), Yasuhiro Suegara (KDDI R&D Laboratories Inc., Japan) ...................................................... 1548

Wireless Sensor Networks 3

Optimized Barrier Location for Barrier Coverage in Mobile Sensor Networks
Xiaoyun Zhang (Iowa State University, USA), Mathew L. Wymore (Iowa State University, USA), Daji Qiao (Iowa State University, USA) ................................................................. 1554

EDAD: Energy-Centric Data Collection with Anycast in Duty-Cycled Wireless Sensor Networks
Mathew L. Wymore (Iowa State University, USA), Yang Peng (Iowa State University, USA), Xiaoyun Zhang (Iowa State University, USA), Daji Qiao (Iowa State University, USA) ............ 1560

A Hybrid Approach Using Mobile Element and Hierarchical Clustering for Data Collection in WSN
Ruonan Zhang (Northwestern Polytechnical University, P.R. China), Jianping Pan (University of Victoria, Canada), Jiajia Liu (Xidian University, P.R. China), Di Xie (Northwestern Polytechnical University, P.R. China) ................................................................. 1566

Online Model-Driven Data Acquisition for Wireless Sensor Networks
Yan Chen (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Zijian Wang (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Ze Zhao (Institute of Computing Technology, Chinese Academy of Science, P.R. China), Dong Li (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China), Li Cui (Institute of Computing Technology, Chinese Academy of Sciences, P.R. China) ................................................................. 1572

Exploiting frame length of 802.15.4g signals for wake-up control in sensor networks
Suhua Tang (The University of Electro-Communications, Japan), Hiroyuki Yomo (Kansai University, Japan), Shinji Yamaguchi (ATR Adaptive Communications Research Lab., Japan), Akio Hasegawa (ATR Adaptive Communications Research Lab., Japan), Sadao Obana (The University of Electro-Communications, Japan) ................................................................. 1578

Wireless Network Routing

Efficient Scheduling for Multicasting Multimedia Data with Adaptive Random Liner Network Coding in Relay-aided Network
Bin Li (Northwestern Polytechnical University, P.R. China), Dengke Ban (Northwestern Polytechnical University, P.R. China), Ruonan Zhang (Northwestern Polytechnical University, P.R. China) ................................................................. 1584

An On-demand Scatternet Formation and Multi-hop Routing Protocol for BLE-based wireless Sensor Networks
Zonglin Guo (University of California Irvine, USA), Ian Harris (UC Irvine, USA), Lih-feng Tsaor (Broadcom Corporation, USA), Xianbo Chen (Broadcom Corporation, USA) ................................................................. 1590

Game Theoretic Energy Balancing Routing in Three Dimensional Wireless Sensor Networks
Mehmmood Abd (University of Windsor, Canada), Sarab Al Rubeaai (University Of Windsor, Canada), Kemal Tepe (University of Windsor, Canada), Rachid Benlamri (Lakehead University, Canada) ................................................................. 1596

A Theoretical Framework of Resilience: Biased Random Walk Routing Against Insider Attacks
Ochirkhand Erdene-Ochir (Qatar University, Qatar), Mohamed M. Abdallah (Texas A&M University at Qatar, Qatar), Khalid A. Qaraqe (Texas A&M University at Qatar, USA), Marine Minier (Insa de Lyon, France), Fabrice Valois (INSA Lyon, France) ................................................................. 1602

M2C2: A Mobility Management System for Mobile Cloud Computing
Karan Mitra (Luleå University of Technology, Sweden), Saguna Saguna (Luleå University of Technology, Sweden), Christer Åhlund (Lulea University of Technology, Sweden), Daniel Granlund (Luleå University of Technology, Sweden) ................................................................. 1608
### Cellular Networks

**Stochastic Geometry based Energy-Efficient Base Station Density Optimization in Cellular Networks**

Lu An (Beijing University of Posts and Telecommunications, P.R. China), Tiankui Zhang (Beijing University of Posts and Telecommunications, P.R. China), Chunyan Feng (Beijing University of Posts and Telecommunications, P.R. China) 

1614

**Optimal Power Consumption Based on New Power Spectral Efficiency Metric for Wireless cellular Networks**

Aymen Omri (Qatar University, Qatar), Mazen Omar Hasna (Qatar University, Qatar) 

1620

**Measuring the Resiliency of Cellular Base Station Deployments**

David Griffith (NIST, USA), Richard Rouil (National Institute of Standards and Technology, USA), Antonio Izquierdo (NIST, USA), Nada Golmie (NIST, USA) 

1625

**Resource Management in Device-to-Device Underlaying Cellular Network**

Yuchi Zhang (Beijing University of Posts and Telecommunications, P.R. China), Ying Xu (The State Radio Monitoring Center, P.R. China), Mingfei Gao (Beijing University of Posts and Telecommunications, P.R. China), Qixun Zhang (Beijing University of Posts and Telecommunications, P.R. China), Huidi Li (China Mobile, P.R. China), Ishtiaq Ahmad (University of Lahore, Pakistan), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China) 

1631

**User Association in Backhaul Constrained Small Cell Networks**

Tao Han (New Jersey Institute of Tech, USA), Nirwan Ansari (NJIT, USA) 

1637

### Compressive Sensing

**Full-duplex and Compressed Sensing based Neighbor Discovery for Wireless Ad-hoc Network**

Xianjun Yang (Fujitsu Research & Development Center, P.R. China), Wang Xin (Fujitsu Research and Development Center, Beijing, P.R. China), Yang Rui (Fujitsu R&D Center, P.R. China), Jian Zhang (Fujitsu R&D Center China, Japan) 

1643

**Sparse Precoding Design for Cloud-RANs Sum-Rate Maximization**

Vu Nguyen Ha (INRS, University of Quebec, Canada), Duy H. N. Nguyen (McGill University, Canada), Long Bao Le (INRS, University of Quebec, Canada) 

1648

**An Adaptive Solution for Data Dissemination under Diverse Road Traffic Conditions in Urban Scenarios**

Ademar Takeo Akabane (University of Campinas, Brazil), Leandro Aparecido Villas (UNICAMP, Brazil), Edmundo Madeira (State University of Campinas, Brazil) 

1654

**Exact Recoverability Analysis for Joint Sparse Optimization with Missing Measurements**

Shan Jin (Texas A&M University, College Station, USA), Xi Zhang (Texas A&M University, ECE Department, USA) 

1660

**DeepFi: Deep Learning for Indoor Fingerprinting Using Channel State Information**

Xuyu Wang (Auburn University, USA), Lingjun Gao (Auburn University, USA), Shiwen Mao (Auburn University, USA), Santosh Pandey (Cisco Systems Inc, USA) 

1666

### Mobile Wireless Networks P1

**Energy Efficient Pricing Scheme for Multi-homing in Heterogeneous Wireless Access Networks: A Game Theoretic Model and Its Analysis**

Seonghwa Yun (Korea Advanced Institute of Science and Technology, Korea), Joohyung Lee (Samsung Electronics, Korea), Shah Hasan Shah Newaz (Korea Advanced Institute of Science and Technology (KAIST), Daejeon, South Korea, Korea), Jun Kyun Choi (KAIST, Korea) 

1672
AIMD-PQ: A Path Quality based TCP-Friendly AIMD Algorithm for Multipath Congestion Control in Heterogeneous Wireless Networks
Jia Zhao (Beijing Jiaotong University, P.R. China), Changqiao Xu (Beijing University of Posts and Telecommunications, P.R. China), Jianfeng Guan (Beijing University of Posts and Telecommunications, P.R. China), Hongke Zhang (Beijing Jiaotong University, P.R. China) .................................. 1678

A Game-Theoretic Approach for Bandwidth Allocation and Pricing in Heterogeneous Wireless Networks
Bin Fu (Beijing University of Posts and Telecommunications, P.R. China), Zhiqing Wei (Beijing University of Posts and Telecommunications, P.R. China), Xiao Yan (Beijing University of Posts and Telecommunications, P.R. China), Kezhong Zhang (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China), Qixun Zhang (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 1684

Power Control Schemes for Energy Efficiency of Cellular and Device-and-Device Communications
Yuri Melo (Federal University of Ceará, Brazil), Rodrigo Lopes Batista (Federal University of Ceará, Brazil), Carlos Filipe Moreira e Silva (Federal University of Ceará, Brazil), Tarcisio F. Maciel (Federal University of Ceará, Brazil), Jose Mairton Barros da Silva, Jr. (Federal University of Ceará & Wireless Telecom Research Group, Brazil), Francisco R. P. Cavalcanti (Federal University of Ceará & GTEL - Wireless Telecom Research Group, Brazil) ................................................................. 1690

Unified Framework for Spectral Efficiency Analysis of AF Relay System
Azwan Mahmud (Telekom Malaysia, Malaysia), Khairi A. Hamdi (University of Manchester, United Kingdom) ................................................................. 1695

Mobile Wireless Networks P2

Dynamic Secret Key Generation Exploiting Ultra-Wideband Wireless Channel Characteristics
Jing Huang (Beijing University of Posts and Telecommunications, P.R. China), Ting Jiang (Beijing University of Posts & Telecommunications, P.R. China) ................................................................. 1701

Performance Analysis of Distributed Method for Full-Duplex Relaying Cooperative Systems
Tarla Abadi (University of Manchester, United Kingdom), Khairi A. Hamdi (University of Manchester, United Kingdom) ................................................................. 1707

Biconnected Tree for Robust Data Collection in Advanced Metering Infrastructure
Joseph Kamto (Prairie View A&M University, USA), Lijun Qian (Prairie View A&M University, USA), Wei Li (Texas Southern University, USA), Zhu Han (University of Houston, USA) ..................... 1713

Topology and Irregularity in Cellular Networks
David González G (Aalto University, Finland), Jyri Hämäläinen (Aalto University, Finland) ..................... 1719

Optimization of Energy Efficient Relay Position for Galvanic Coupled Intra-body Communication
Meenupriya Swaminathan (Northeastern University, USA), Gunar Schirmer (ECE Northeastern University, USA), Kaushik Chowdhury (Northeastern University, USA) ................................. 1725

Soft Frequency Reuse for Intercell Interference Mitigation in Two-tier Underwater Multicell OFDM Wireless Networks
Ping Wang (Texas A&M University, USA), Xi Zhang (Texas A&M University, ECE Department, USA) ................................................................. 1731

Cognitive Radio Networks 1

Sensing Capacity of Cognitive Radio Mobile Ad Hoc Networks
Luis Iri (Nova University of Lisbon, Portugal), Rodolfo Oliveira (Nova University of Lisbon, Portugal) ................................................................. 1737

Stable Throughput Tradeoffs in Cognitive Radio Networks With Cooperating Rechargeable Nodes
Kedar Prakash Kulkarni (Indian Institute of Technology Kanpur, India), Adrish Banerjee (Indian Institute of Technology, Kanpur, India) ................................................................. 1742
A Distributed ADMM Approach for Mobile Data Offloading in Software Defined Network
Lanchao Liu (University of Houston, USA), Xianfu Chen (VTT Technical Research Centre of Finland, Finland), Mehd Bennis (Centre of Wireless Communications, University of Oulu, Finland), Guoliang Xue (Arizona State University, USA), Zhu Han (University of Houston, USA) .............................................................. 1748

Development of Software-Defined Acoustic Communication Platform and its Evaluations
Ryo Kato (Waseda University, Japan), Jiro Katto (Waseda University, Japan) .................................. 1753

Resource Allocation for Heterogeneous Cognitive Radio Networks
Babatunde Awoyemi (University of Pretoria, South Africa), Bodhaswar TJ Maharaj (University of Pretoria, South Africa), Attahiru Alfa (University of Manitoba, Canada) ......................................................... 1759

Wireless Networks 1

Radio Resource Management for the Uplink OFDMA System with Imperfect CSI
Lihan Liu (Beijing University of Posts and Telecommunications, P.R. China), Zhuwei Wang (Beijing University of Technology, P.R. China), Xin Zhang (Beijing University of Posts and Telecommunications, P.R. China), Hong Wu (Beijing University of Posts and Telecommunications, P.R. China) .................................................................................. 1764

Congestion & Power Control of Wireless Multihop Networks over Stochastic LTF Channels
Eleni G Stai (National Technical University of Athens, Greece), Michail Loulakis (National Technical University of Athens, Greece), Symeon Papavassiliou (National Technical University of Athens, Greece) .............................................................................. 1769

Nonparametric Belief Propagation based Cooperative Localization: A Minimum Spanning Tree Approach
Xiaopeng Li (Beijing University of Posts and Telecommunications, P.R. China), Hui Gao (Beijing University of Posts and Telecommunications, P.R. China), Hong Cai (Beijing University of Posts and Telecommunications, P.R. China), TiejunLv (Beijing University of Posts and Telecommunications, P.R. China) .............................................. 1775

Resource Allocation for On-Demand Multimedia Services in High-Speed Railway Wireless Networks
Yan Lei (The State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University; The State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University, P.R. China), Chao Shen (The State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University; The State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University, P.R. China), Zhangdui Zhong (The State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University, P.R. China) .................................................. 1781

Next Generation Networks

Efficient Flow Processing-aware Controller Placement in Future Wireless Networks
Sébastien Auroux (University of Paderborn, Germany), Holger Karl (University of Paderborn, Germany) .................................................................................................................. 1787

Mobility Enhancement and Performance Evaluation for 5G Ultra Dense Networks
Jiaxin Zhang (Beijing University of Posts and Telecommunications, P.R. China), Jian Feng (Beijing University of Posts and Telecommunications, P.R. China), Xuefen Hong (BUPT, P.R. China), Chang Liu (BUPT, P.R. China), Xing Zhang (Beijing University of Posts and Telecommunications, P.R. China), Wenbo Wang (Beijing University of Posts and Telecommunications, P.R. China) ............................................................................ 1793

Empirical Characterization of mm-wave Communication Links in Realistic Indoor Scenarios
Junaid Ansari (RWTH Aachen University, Germany), Nikos Perpinias (RWTH Aachen University, Germany), Alexander Nähring (RWTH Aachen University, Germany), Petri Mäkönen (RWTH Aachen University, Germany), Marina Petrova (RWTH Aachen University, Germany) .......................................................... 1799
Mobile Wireless Networks P3

Resource Allocation for Femtocell Networks by Using Chance-Constrained Optimization
Yujie Zhang (Nanjing University, P.R. China), Shaowei Wang (Nanjing University, P.R. China) ........ 1805

Lightweight Virtualized Evolved Packet Core Architecture for Future Mobile Communication
Hiroki Baba (NTT, Japan), Minoru Matsumoto (NTT, Japan), Katsunori Noritake (NTT, Japan) ........ 1811

IMLours: Indoor Mapping and Localization Using Time-stamped WLAN Received Signal Strength
Mu Zhou (Chongqing University of Posts and Telecommunications & Chongqing Key Lab of Mobile Communications Technology, P.R. China), Qiao Zhang (Chongqing University of Posts and Telecommunications, P.R. China), Zengshan Tian (Chongqing University of Posts and Telecommunications, P.R. China), Kunjie Xu (Ericsson R&D, Silicon Valley, USA), Feng Qiu (Chongqing University of Posts and Telecommunications, P.R. China), Haibo Wu (Computer Network Information Center, Chinese Academy of Sciences, P.R. China) ................................................................. 1817

Performance Analysis of Delay-Constrained Wireless Energy Harvesting Communication Networks under Jamming Attacks
Dusit Niyato (Nanyang Technological University, Singapore), Ping Wang (Nanyang Technological University, Singapore), Dong In Kim (Sungkyunkwan University (SKKU), Korea), Zhu Han (University of Houston, USA), Lu Xiao (Nanyang Technological University, Singapore) ........................................................................................................ 1823

Radar Inband and Out-of-Band Interference into LTE Macro and Small Cell Uplinks in the 3.5 GHz Band
Mo Ghorbanzadeh (Virginia Tech & The Hume Center for National Security and Technology, USA), Eugene Visotsky (Nokia Siemens Networks, USA), Prakash Moorut (NSN, USA), Weidong Yang (Nokia Solutions and Networks, USA), T. Charles Clancy (Virginia Tech, USA) .... 1829

Strong Authentication Countermeasures Using Dynamic Keying for Sinkhole and Distance Spoofing Attacks in Smart Grid Networks
Clark Taylor (University of Arizona, USA), Thienne Johnson (University of Arizona, USA) ........ 1835

Delay-constrained Efficient Broadcasting in Duty-unaware Asynchronous Wireless Sensor Networks
Xinming Zhang (University of Science and Technology of China, P.R. China), Xiaoxue Jia (University of Science and Technology of China, P.R. China), Jiuping Jin (University of Science and Technology of China, Korea), Dan Keun Sung (Korea Advanced Institute of Science and Technology, Korea) ........................................................................................................ 1841

Mobile Wireless Networks P4

Location-aware Opportunistic Forwarding in Mobile Ad hoc Networks
Jun Tao (Southeast University, P.R. China), Yifan Xu (Southeast University, P.R. China), Chengwei Tan (Southeast University, P.R. China), Xiaoxiao Wang (Southeast-university, P.R. China) ........................................................................................................ 1847

Mobility Aware Link Lifetime Analysis for Vehicular Networks
Miao Hu (Beijing Jiaotong University, P.R. China), Zhangdui Zhong (Beijing Jiaotong University, P.R. China), Minming Ni (Beijing Jiaotong University, P.R. China), Ruifung Chen (Beijing Jiaotong University, P.R. China), Hao Wu (Beijing Jiaotong University, P.R. China), Chih-Yung Chang (Tamkang University, Taiwan) ............................................................................. 1853

Effects of Mobility on Latency in a WSN that Accommodates Mobile Nodes
Qian Dong (Sun Yat-sen University, P.R. China), Walteneuges Dargie (Technische Universität Dresden, Germany), Mi Lu (Texas A&M, USA) ........................................................................................................ 1859
Measurement and Analysis on QoS of Wireless LAN Densely Deployed with Transmission Rate Control
Mitomo Isomura (Ochanomizu University, Japan), Kazunori Miyoshi (NEC Corporation, Japan), Tutomu Murase (NEC Corporation & Tokyo Institute of Technology, Japan), Masato Oguchi (Ochanomizu University, Japan), Shweta Sagari (WINLAB, Rutgers University, USA), Akash Baid (WINLAB, Rutgers University, USA), Ivan Seskar (WINLAB, Rutgers University, USA), Dipankar Raychaudhuri (Rutgers University, USA) 1865

Simple Receding Horizon Approach to Scheduling Mobile Wireless Clients with Uncertainty
Daniel T Bennett (United States Military Academy & United States Army Signal Corps, USA), Timothy X Brown (University of Colorado, USA) 1871

Cognitive Radio Networks 2

Dynamic Path Switching Routing Protocol for Cognitive Radio Networks
Ming-Hung Tao (Institute for Infocomm Research, Singapore), Ser Wah Oh (Institute for Infocomm Research, Singapore), Yugang Ma (Institute for Infocomm Research & A*STAR, Singapore) 1877

A Distributed Cooperative Power Allocation Scheme for Small Cell Networks
Nur Ilyana Anwar Apandi (The University of Sydney & Universiti of Teknikal Malaysia Melaka, Australia), Wibowo Hardjawana (The University of Sydney, Australia), Branka Vucetic (University of Sydney, Australia) 1882

Interference-constrained Access Opportunity Distribution for Secondary Communication in TV White Space
Long Zhang (Beijing University of Posts and Telecommunication, P.R. China), Xianghui Han (Beijing University of Posts and Telecommunications, P.R. China), Xiao Yan (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China) 1888

Global Optimal Bandwidth Reservation and CAC of Randomly Distributed HCNs Sharing Same Spectra
Bin Fang (University of Science and Technology of China & Wireless Information Network Laboratory, P.R. China), Wuyang Zhou (University of Science and Technology of China, P.R. China) 1894

Duplex Mode Selection and Channel Allocation for Full-Duplex Cognitive Femtocell Networks
Mingjie Feng (Auburn University, USA), Shiwen Mao (Auburn University, USA), Tao Jiang (Huazhong University of Science and Technology, P.R. China) 1900

Wireless Sensor Networks 4

Impact of Duty Cycle on End-to-End Performance in a Wireless Sensor Network
Fengyou Sun (Shanghai Normal University, P.R. China), Luqun Li (Shanghai Normal University, P.R. China), Yuming Jiang (Norwegian University of Science and Technology (NTNU), Norway) 1906

A Stochastic Geometry Analysis of Inter-user Interference in IEEE 802.15.6 Body Sensor Networks
Wen Sun (National University of Singapore, Singapore), Yu Ge (Institute for Infocomm Research, Singapore), Wai-Choong Wong (National University of Singapore, Singapore) 1912

Protective Dummy-byte Preamble Padding for Improving ZigBee Packet Transmission under Wi-Fi Interference
Tianyu Du (University of Ottawa, Canada), Zhipeng Wang (University of Ottawa, Canada), Dimitrios Makrakis (University of Ottawa, Canada), Hussein Mouftah (University of Ottawa, Canada) 1918

On Scheduling of Real-Time Sensing Tasks in Mobile Crowd Sensing
Yukun Yuan (Shanghai JiaoTong University, P.R. China), Yanmin Zhu (Shanghai Jiao Tong University, P.R. China) 1924
Vehicular Networks

Heterogeneous Vehicular Wireless Networking: A Theoretical Perspective
Hongwei Zhang (Wayne State University, USA), Fan Bai (General Motors, USA), Xi Ju (General Motors, Greece) .......................................................... 1936

Cloud-assisted GPS-driven Dynamic Spectrum Access in Cognitive Radio Vehicular Networks for Transportation Cyber Physical Systems
Danda B. Rawat (Georgia Southern University, USA), Swetha Reddy (Georgia Southern University, USA), Nimish Sharma (Georgia Southern University, USA), Bhed Bahadur Bista (Iwate Prefectural University, Japan), Sachin Shetty (Tennessee State University, USA) .......... 1942

Semantic and Self-Decision Geocast Protocol for Data Dissemination over VANET (SAS-GP)
Badr Alsabaihi (University of Ottawa, Canada), Azzedine Boukerche (University of Ottawa, Canada) ............................................................................ 1948

Modelling of Multi-Hop Inter-Vehicular Path Formation For Connecting Far Vehicles to RSUs
Ribal Atallah (Concordia University, Canada), Maurice J. Khabbaz (Notre-Dame University, Lebanon), Chadi Assi (Concordia University, Canada) ............................................................................. 1954

Secure Traffic Congestion Control Protocol for VANETs (SCOOL)
Maram Bani Younes (University of Ottawa & Philadelphia University, Jordan), Azzedine Boukerche (University of Ottawa, Canada) ............................................................. 1960

Heterogeneous Networks 3

Adaptive Video Streaming in Heterogeneous Mobile Networks
Mohammad Reza Zakerinasab (University of Calgary, Canada), Mea Wang (University of Calgary, Canada) .................................................................................. 1966

Topology Adaptation and Interference Management in Dense Heterogeneous Networks
Binnan Zhuang (Northwestern University, USA), Jialing Liu (Huawei, USA), Weimin Xiao (Huawei, USA) ........................................................................................ 1972

A Novel Handover Scheme to Support Small-cell Users in a HetNet Environment
Hansung Leem (Korea Advanced Institute of Science and Technology, Korea), JaYeong Kim (Korea Advanced Institute of Science and Technology, Korea), Dan Keun Sung (Korea Advanced Institute of Science and Technology, Korea), Yunjung Yi (LG Electronics, Korea), Byounghoon Kim (LG Electronics, Korea) ........................................................................ 1978

An Energy-Aware Data Offloading Scheme in Cloud Radio Access Networks
Yuh-Shyan Chen (National Taipei University, Taiwan), Chih-Shun Hsu (Shih Hsin University, Taiwan), Tong-Ying Juang (National Taipei University, Taiwan), Hsin-Han Lin (National Taipei University, Taiwan) ....................................................................................... 1984

A Markov Chain Model for Packet Queueing Delay Analysis of a Mobile User in HetNets
Peng-Yong Kong (Khalifa University of Science, Technology & Research, UAE) .................................................. 1990

Wireless Networks 2

Scalable Video SoftCast Using Magnitude Shift
Xiaocheng Lin (Beijing University of Posts and Telecommunications, P.R. China), Yu Liu (Beijing University of Posts and Telecommunications, P.R. China), Lin Zhang (Beijing University of Posts and Telecommunications, P.R. China) ........................................................................... 1996
Equilibrium Analysis for Zero-Determinant Strategy in Resource Management of Wireless Network
Huaqing Zhang (University of Houston, USA), Dusit Niyato (Nanyang Technological University, Singapore), Lingyang Song (Peking University, P.R. China), Tao Jiang (Huazhong University of Science and Technology, P.R. China), Zhu Han (University of Houston, USA) ............... 2002

Throughput Maximization over Frequency-Selective Communication Networks
Songtao Lu (Iowa State University, USA), Zhengdao Wang (Iowa State University, USA) ............... 2008

Interface Constraint Aware Modeling in Wireless Mesh Networks Using Mixed Hypergraph
Ying-Yu Chen (National Chiao Tung University, Taiwan), Chien Chen (National Chiao Tung University, Taiwan) ................................................................. 2014

Joint Resource Provisioning and Admission Control in Wireless Virtualized Networks
Saeedeh Parsaeefard (McGill University, Canada), Vikas Jumba (McGill University, Canada), Mahsa Derakhshani (University of Toronto, Canada), Tho Le-Ngoc (McGill University, Canada) ........................................................................ 2020

Quality of Service

Theoretical Modelings for Mobile Web Service QoE Assessment
Meng Zhang (Beijing University of Posts and Telecommunications, P.R. China), Zhongyi Shen (Beijing University of Posts and Telecommunications, P.R. China), Xin Zhang (Beijing University of Posts and Telecommunications, P.R. China), Longyuan Luan (Huawei Technologies co., Ltd., P.R. China), Qi Ouyang (Huawei Technologies co., Ltd., P.R. China) ............... 2026

A Raptor Enabled Data Carousel for Enhanced File Delivery and QoS in 802.11 Multicast Networks
Berna Bulut (University of Bristol, United Kingdom), Denys Berkovskyy (University of Bristol, United Kingdom), Di Kong (University of Bristol, United Kingdom), Angela Doufexi (University of Bristol, United Kingdom), Andrew Nix (University of Bristol, United Kingdom) ................................................................. 2032

Enhancement of Wireless Bandwidth Utilization through User’s QoE
Harsha Chenji (Ohio University, USA), Zygmunt J. Haas (Cornell University & Wireless Networks Lab, USA) ........................................................................ 2038

QoS-distinguished Achievable Rate Region for High Speed Railway Wireless Communications
Tao Li (Tsinghua University, P.R. China), Pingyi Fan (Tsinghua University, P.R. China), Ke Xiong (Beijing Jiaotong University, P.R. China), Khaled B. Letaief (The Hong Kong University of Science and Technology, Hong Kong) ........................................................................ 2044

Distributed Cooperative MAC for Wireless Networks Based on Network Coding
Heng Qin (Northwestern Polytechnical University, P.R. China), Ruonan Zhang (Northwestern Polytechnical University, P.R. China), Bin Li (Northwestern Polytechnical University, P.R. China), Lin Cai (University of Victoria, Canada) ........................................................................ 2050

Device-to-device communications

Hierarchical Cooperation for Operator-Controlled Device-to-Device Communications
Xiao Lu (Nanyang Technological University, Singapore), Ping Wang (Nanyang Technological University, Singapore), Dusit Niyato (Nanyang Technological University, Singapore) ............... 2056

A Novel Resource Allocation Scheme for D2D Communication Underlaying Small Cell Networks
Bin Wang (Beijing University of Posts and Telecommunications, P.R. China), Chang Yongyu (Beijing University of Posts & Telecommunications, P.R. China), Dacheng Yang (Beijing University of Posts and Telecommunications, P.R. China) ........................................................................ 2062

The Virtue of Selfishness: Device Perspective on Mobile Data Offloading
Sylvia T. Kouyoumdjieva (KTH, Royal Institute of Technology, Sweden), Gunnar Karlsson (KTH Royal Institute of Technology, Sweden) ........................................................................ 2067
Modeling and Characterization of Transmission Energy Consumption in Machine-to-Machine Networks
Mohammad Ghadir Khoshkholgh Dashtaki (UBC, Canada), Yan Zhang (Simula Research Laboratory and University of Oslo, Norway), Kang G. Shin (University of Michigan, USA), Victor CM Leung (The University of British Columbia, Canada), Stein Gjessing (University of Oslo & Simula Research Lab., Norway) 2073

Communication Characteristic-Aware Signaling Traffic Optimization Method for Mobile Networks
Nobuhiro Azuma (NTT, Japan), Hiroki Baba (NTT, Japan), Minoru Matsumoto (NTT, Japan), Katsunori Noritake (NTT, Japan) 2079

Cloud and Healthcare networks

Task admission control for cloud server pools
Haleh Khojasteh (Ryerson University, Canada), Jelena Mišić (Ryerson University, Canada), Vojislav B. Mišić (Ryerson University, Canada) 2115

Energy-Optimized Bandwidth Allocation Strategy for Mobile Cloud Computing in LTE Networks
Xiang Sun (New Jersey Institute of Technology, USA), Nirwan Ansari (NJIT, USA) 2120

Efficient Multiple Personal Wireless Hub Assignment in Next Generation Healthcare Facilities
Muhammad Naeem (Ryerson University, Canada), Udit Pareek (Simon Fraser University, Canada), Daniel Lee (Simon Fraser University, Canada), Ahmed Shaharyar Khwaja (Ryerson University, Canada), Alagan Anpalagan (Ryerson University, Canada) 2126

Inter-Wireless Body Area Network Scheduling Algorithm for Livestock Health Monitoring
Hai Wang (University of Calgary, Canada), Robert Davies (TRLabs / University of Calgary, Canada), Abraham O Fapojuwo (University of Calgary, Canada) 2132
Smart Grid and Smart Vehicles

Compressed Sensing Based Data Processing and MAC Protocol Design for Smartgrids
Tan Thanh Le (University of Quebec, Canada), Long Bao Le (INRS, University of Quebec, Canada) ........................................... 2138

A New Technique for Automatic Incident Detection in Intelligent Transportation Systems Using Aggregation of Traffic Parameters
Sarwar Sha-Mohammed (Old Dominion University, USA), Dimitrie C. Popescu (Old Dominion University, USA), Hussein Abdel-Wahab (Old Dominion University, USA) .................................................. 2144

A Novel Vehicle to Grid Load Management Scheme Based on WiMAX-WLAN in Smart Grids
Nazmus Shaker Nafi (RMIT University, Australia), Khandakar Ahmed (RMIT University, Australia), Mark A. Gregory (RMIT University, Australia) ................................................................. 2149

Cyber-Physical Alternate Route Recommendation System for Paramedics in an Urban Area
Burak Kantarci (Clarkson University, USA) .................................................................................................................... 2155

A Classification Tree-based System for Multi-Sensor Train Approach Detection
Pradhumna L Shrestha (University of Nebraska-Lincoln, USA), Michael Hempel (University of Nebraska-Lincoln, USA), Fahimeh Rezaei (University of Nebraska Lincoln, USA), Sushanta Mohan Rakshit (University of Nebraska - Lincoln, USA), Hamid Sharif (University of Nebraska-Lincoln, USA) .............................................................................................................. 2161

Content Delivery Networks (CDN)

Optimizing Content Relay Policy in Publish-Subscribe Mobile Social Networks
Yang Zhang (Nanyang Technological University, Singapore), Dusit Niyato (Nanyang Technological University, Singapore), Ping Wang (Nanyang Technological University, Singapore), Xiao Lu (Nanyang Technological University, Singapore) ................................................................. 2167

Content Caching in Small Cells with Optimized Uplink and Caching Power
Melike Erol-Kantarci (Clarkson University, USA) ..................................................................................................................... 2173

Student Admission Matching based Content-Cache Allocation
Yunan Gu (University of Houston, USA), Yanru Zhang (University of Houston, USA), Miao Pan (Texas Southern University, USA), Zhu Han (University of Houston, USA) ........................................... 2179

Intelligent Content Delivery over Wireless via SDN
Hyunwoo Nam (Columbia University, USA), Doru Calin (Bell Labs, Alcatel-Lucent, USA), Henning Schulzrinne (Columbia University, USA) .................................................................................................................... 2185

Robust Wireless Delivery of Scalable Videos using Inter-layer Network Coding
Pouya Ostovari (Temple University & Computer and Information Sciences, USA), Jie Wu (Temple University, USA) .................................................................................................................... 2191

Cognitive and Cooperative Systems

Compressive Spectrum Sensing for MIMO-OFDM Based Cognitive Radio Networks
Shan Jin (Texas A&M University, College Station, USA), Xi Zhang (Texas A&M University, ECE Department, USA) ................................................................. 2197

Performance of Bridging in Cognitive Wireless Personal Area Networks
Md Mizanur Rahman (Ryerson University, Canada), Jelena Mišić (Ryerson University, Canada), Vojislav B. Mišić (Ryerson University, Canada) .......................................................................................... 2203
Comprehensive Time-Frequency-Spatial Spectrum Measurement and Analysis of TV Band in Beijing  
Hao Zhou (Beijing University of Posts and Telecommunications, P.R. China), Yajian Huang (Beijing University of Posts and Telecommunications, P.R. China), Sai Huang (Beijing University of Posts and Telecommunications, P.R. China), Kai Chen (Beijing University of Posts and Telecommunications, P.R. China), Yifan Zhang (Beijing University of Posts and Telecommunications, P.R. China), Zhiyong Feng (Beijing University of Posts and Telecommunications, P.R. China) ................................................................. 2209

Mobility Improves LMI-based Cooperative Indoor Localization  
Xuyu Wang (Auburn University, USA), Hui Zhou (Auburn University, USA), Shiwen Mao (Auburn University, USA), Santosh Pandey (Cisco Systems Inc, USA), Prathima Agrawal (Auburn University, USA), David Bevly (Auburn University, USA) ................................................................. 2215

An Indoor Positioning System based on Inertial Sensors in Smartphone  
Yi Sun (Freie Universität Berlin, Germany), Yubin Zhao (Chinese Academy of Science, P.R. China), Jochen H. Schiller (Freie Universität Berlin, Germany) ................................................................. 2221

Poster Session

Chains of Trust for On-Demand Requests of Electronic Health Records  
Jorge Vergara (University of Arizona, USA), Thienne Johnson (University of Arizona, USA) ............ 2227

VIDalizer: An Energy Efficient Video Streamer  
Arnab Raha (Purdue University, USA), Subrata Mitra (Purdue University, USA), Vijay Raghunathan (Purdue University, USA), Sanjay Rao (Purdue University, USA) ................................................................. 2233

Implementation Evaluation of Proactive Content Caching using DASH-NDN-JS  
Takeshi Muto (Waseda University, Japan), Kenji Kanai (Waseda University, Japan), Jiro Katto (Waseda University, Japan) ........................................................................................................ 2239

Joint Estimation-Detection of Cyber Attacks in Smart Grids: Bayesian and Non-Bayesian Formulations  
Ali Gaber Mohamed Ali (Alexandria University, Egypt), Karim G Seddik (American University in Cairo & Alexandria University, Egypt), Ayman Y Elezabi (American University, Cairo, Egypt) ........................................................................................................ 2245

Kernel-Based Non-parametric Clustering for Load Profiling of Big Smart Meter Data  
Erte Pan (University of Houston, USA), Husheng Li (University of Tennessee, USA), Lingyang Song (Peking University, P.R. China), Zhu Han (University of Houston, USA) ................................................................. 2251

Wireless Systems

Satellite Communications Service Provision via Incompatible Polarization Diversity and Orthogonal Beams  
Donald Chang (Spatial Digital Systems, USA), Joe Lee (SDS, Inc., USA) ................................................................. 2256

Efficient Quantum-Error Correction for QoS Provisioning Over QKD-Based Satellite Networks  
Ping Wang (Texas A&M University, USA), Xi Zhang (Texas A&M University, ECE Department, USA), Genshe Chen (Intelligent Fusion Technology, Inc, USA) ................................................................. 2262

Wireless Access Test-bed through Visible Light and Dimming Compatible OFDM  
Ali Mirvakili (Tufts University, USA), Michael Rahaim (Boston University & NSF Smart Lighting ERC, USA), Hany Elgala (Boston University & NSF Smart Lighting ERC, USA), Valencia J Koomson (Tufts University, USA), Thomas DC Little (Boston University & NSF Smart Lighting ERC, USA) ................................................................. 2268

End-to-end Configuration of Wireless Realtime Communication over Heterogeneous Protocols  
Boris Malinowski (Forschungszentrum Telekommunikation Wien, Austria), Jesper Grønbæk (Daimler AG, Stuttgart, Austria), Hans-Peter Schwefel (Forschungszentrum Telekommunikation Wien & Aalborg University, Austria) ................................................................. 2273
A Dynamic Reservation Scheme in Online Charging System for Family Shared Plan
Huai-Sheng Huang (National Chiao Tung University, Taiwan), Tzu Chung Su (National Chiao Tung University, Taiwan), Jia-Ming Liang (National Chiao Tung University, Taiwan), Yu-Chee Tseng (National Chiao-Tung University, Taiwan) .......................................................... 2279
