# TABLE OF CONTENTS

Chemical Engineering: Is This the Golden Age? ................................................................. 1

Marvin O. Schlanger

(9a) Overpressure Protection of a Pressure Vessel By System Design through the Application of ASME VIII Ug-140 in Lieu of a Relief Device By an Appropriate Choice of Mawp and/or By Safety Instrumented System ........................................................................................................ 2

Dilip K. Das

(9b) Understanding Gas Blowby Scenario Calculations ........................................................... 12

Nancy Faulk, Abdul Aldeeb, Zubin Kumana

(9c) Can I Use My Cooling Water Header As a Relief Device? .................................................. 25

Rahul Raman

(40a) Influence of Overpressure in Pressure Vacuum Safety Valves on Emission Reduction and Explosion Risk Minimization of Atmospheric Storage Tanks ........................................................................ 34

Davide Moncalvo, Michael Davies, Matthew Barfield, Chris Mason

(40b) A Comprehensive Guide to Accurately Size Pressure and Vacuum Relief Devices for Atmospheric and Low Pressure Storage Tanks ................................................................................. 43

Ushma Patel, Steve Streblow, Jay Riha, Mirna Zamora

(40c) Overfilling Protection for Weak Tanks ............................................................................ 64

Rahul Raman, Davide Moncalvo, Thomas Heidemann, Steve Kostos, Steve Kostos

(58a) Changes Between API STD 521 6th Ed and 5th Ed Cataloged ........................................ 76

Dustin J. Smith, John Burgess

(58b) Changes Between API STD 520 Part II 6th Ed and 5th Ed Cataloged ............................... 87

John Burgess, Dustin J. Smith

(58c) Evolution of Relief Sizing at an Operating Company ......................................................... 95

Jennifer Mize, Michael J. Maness, J. Wayne Chastain, James Falin

(70aa) Product Failure Rates Vs Site-Specific Failure Rates: Implications for Safety .................. 110

Julia V. Bukowski, William M. Goble, Iwan Van Beurden

(70ad) Exploring Dependencies of Ignition Locations on Probabilistic Explosion Analysis .......... 128

Benjamin Poblete, Scott Klare, Advait Sane, Bharat Tulsyan, Michael Stahl, John Johnson, Andrew Staszak

(70ae) Process Safety Near-Miss Management System in Takreer Rwais Refinery: An Effective Tool for Applying Prevention Strategies ................................................................. 129

Debashish Kakoty, Jassim Javas

(70af) How Having Updated Heat & Material Balances Commits to Process Safety ................... 130

Nicholas N. Cristea, Dustin J. Smith, Dick A. Baum, Juan Lopez

(70ai) Safety Culture and Leadership- Independent of Language ............................................. 138

Kumar (Chris) Israni, Yaneira Saud, Sandra Lovell, Sarah Acton

(70ac) Best Practice in Application of CAA CAP 437 Guidance for Offshore Helicopter Landing Areas ................................................................. 139

Tim Jones, Chris Robinson, Andrew Grand, Morgan Reed

(70ae) Introducing a Dynamic Calculation Method for Pressure Relief Load and Orifice Sizing ........................................................................................................ 148

Steve Streblow, Jay Riha, Ushma Patel, Mirna Zamora

(70af) Quantifying Human Error Probabilities through a Bayesian Network Using Expert Opinion and an Auditing Tool: An Application to the Tokai-Mura Accident ................................................................. 171

Paulo Fernando Frutuoso E Melo, Antonio Carlos Ribeiro, Anna Leticia B. Sousa, Juliana P. Duarte

(70ah) Numerical Modeling of Pool Fire inside an Offshore Methanol Storage Tank ................. 181

Tony Liu, Morgan Reed, Eric Peterson, Irfan Shaikh

(70ai) Credibility of Designing Refrigerated Atmospheric Storage Tank Pressure Relief Systems for a Tornado ........................................................................................................ 182

Syed Usman Ahmed

(70j) Cultura De Liderazgo y Seguridad – Independientemente Del Idioma .................................. 196

Yaneira Saud, Kumar (Chris) Israni, Sarah Acton, Sandra Lovell

(70k) Ensure Compliance to NFPA Standards through Corporate Level Combustible Dust Audits ........................................................................................................ 197

Amy Theis, Richard Kwasy

(70l) Combining Traditional UOP HAZOP Analysis with Dynamic Simulation a New Process Safety / Risk Assessment Tool ................................................................. 198

Scott M. Wozniak

(70m) How Close Is My Operation to a Major Accident? .......................................................... 220

Abouzar Yousefi, Manuel Rodriguez Henrandez, Jaime Martin Juez
