2015 IEEE/ACM 3rd
International Workshop on
Conducting Empirical Studies in Industry

(CESI 2015)

Florence, Italy
18 May 2015

Table of Contents

Message from the Chairs ........................................................................................................................................ vii
Committees and Reviewers ................................................................................................................................. ix
Sponsors and Supporters ...................................................................................................................................... xi

Keynote

The Maturation of Empirical Studies ..................................................................................................................... 1
   Dieter Rombach, Andreas Jedlitschka — University of Kaiserslautern, Germany;
   Fraunhofer Institute for Experimental Software Engineering, Germany

Studies

Difficulties in Running Experiments in the Software Industry: Experiences from the Trenches ..................... 3
   Sira Vegas, Óscar Dieste, Natalia Juristo — Universidad Politécnica de Madrid, Spain;
   University of Oulu, Finland

Invited Talk I

How to Increase the Likelihood of Successful Transfer to Industry—Going Beyond the Empirical ............... 10
   Tony Gorschek — Blekinge Institute of Technology, Sweden

Practice

Planning for the Unknown: Lessons Learned from Ten Months of Non-participant Exploratory Observations in the Industry ........................................................................................................ 12
   Mathieu Lavallée, Pierre N. Robillard École Polytechnique de Montréal, Canada

   Lutz Prechelt, Franz Zieris, Holger Schmeisky — Freie Universität Berlin, Germany
On the Alignment of Source Code Quality Perspectives through Experimentation:
An Industrial Case ................................................................................................................................. 26
  Talita Vieira Ribeiro, Guilherme Horta Travassos — Universidade Federal
do Rio de Janeiro, Brazil

Invited Talk II

on the Effective Application of Research in Projects ........................................................................... 34
  Alistair Mavin — Rolls Royce PLC, UK

Methodology

Software Product Lines Adoption: An Industrial Case Study ................................................................ 35
  Jonatas Ferreira Bastos, Paulo Anselmo da Mota Silveira Neto, Eduardo Santana de Almeida,
  Silvio Romero de Lemos Meira — Instituto Federal de Educação, Ciência e Tecnologia da Bahia,
  Brazil; Universidade Federal de Pernambuco, Brazil; Universidade Federal da Bahia, Brazil

Finding the Missing Link to Industry: LinkedIn Professional Groups as Facilitators
of Empirical Research ........................................................................................................................... 43
  Naomi Unkelos-Shpigel, Sofia Sherman, Irit Hadar — University of Haifa, Israel

A Holistic Overview of Software Engineering Research Strategies ....................................................... 47
  Klaas-Jan Stol, Brian Fitzgerald — Lero, Ireland; University of Limerick, Ireland

Author Index .............................................................................................................................................. 55
