2015 IEEE/ACM 2nd International Workshop on CrowdSourcing in Software Engineering

(CSI-SE 2015)

Florence, Italy
19 May 2015
# TABLE OF CONTENTS

- Integrating Crowd Intelligence into Software ................................................................. 1  
  Rick Salay, Fabiano Dalpiaz, Marsha Chechik

- Crowd Build: A Methodology for Enterprise Software Development Using Crowdsourcing ................................................................. 8  
  Anurag Dwarakanath, Upendra Chintala, N. C. Shrikanth, Gurdeep Virdi, Alex Kass, Anitha Chandran, Shubhashis Sengupta, Sanjoy Paul

- Crowdsourcing Code and Process via Code Hunt ........................................................................... 15  
  Tao Xie, Judith Bishop, R. Nigel Horspool, Nikolai Tillmann, Jonathan De Halleux

- Dynamic Simulation of Software Workers and Task Completion .................................................... 17  
  Razieh Lotfalian Saremi, Ye Yang

- Crowd Intent: Annotation of Intentions Hidden in Online Discussions .................................................. 24  
  Itzel Morales-Ramirez, Dimitra Papadimitriou, Anna Perini

- Making Hard Fun in Crowdsourced Model Checking—Balancing Crowd Engagement and Efficiency to Maximize Output in Proof by Games ........................................................................... 30  
  Kerry Moffitt, John Ostwald, Ron Watro, Eric Church

- Crowd and Laboratory Testing, Can They Co-exist? An Exploratory Study ........................................ 32  
  Fabio Guaiani, Henry Maccini

- Exploring the Benefits of Using Redundant Responses in Crowdsourced Evaluations ................................................................. 38  
  Kathryn T. Stolee, James Saylor, Trevor Lund

- A Brief Perspective on Microtask Crowdsourcing Workflows for Interface Design .......................... 45  
  Mengyao Zhao, André Van Der Hoek
