
(FormaliSE 2015)

Florence, Italy
18 May 2015
Third FME Workshop on Formal Methods in Software Engineering (FormaliSE 2015)

Table of Contents

Message from the Chairs ................................................................. vii
Committees and Reviewers ............................................................... viii
Sponsors and Supporters ................................................................. x

Keynote I
On the Heroism of Really Pursuing Formal Methods ................................................................. 1
  Dino Mandrioli — Politecnico di Milano, Italy

Security
Validation of a Security Policy by the Test of Its Formal B Specification—A Case Study .................... 6
  Yves Ledru, Akram Idani, Jean-Luc Richier — Université de Grenoble, France; CNRS, France

Formal Verification of the Security for Dual Connectivity in LTE .................................................... 13
  Noamen Ben Henda, Karl Norrman, Katharina Pfeffer — Ericsson Research, Sweden

Exploratory Applications
Measuring Behaviour Interactions between Product-Line Features .................................................... 20
  Joanne M. Atlee, Uli Fahrenberg, Axel Legay — University of Waterloo, Canada; IRISA, France; INRIA, France

Infer Gene Regulatory Networks from Time Series Data with Probabilistic Model Checking .............. 26
  Michele Ceccarelli, Luigi Cerulo, Giuseppe De Ruvo, Vittoria Nardone, Antonella Santone
  — QCRI, Qatar; University of Sannio, Italy

VDMPad: A Lightweight IDE for Exploratory VDM-SL Specification .............................................. 33
  Tomohiro Oda, Keijiro Araki, Peter Gorm Larsen — Software Research Associates, Japan;
  Kyushu University, Japan; Aarhus University, Denmark
Keynote II

Cyber-physical Systems Design: Formal Foundations, Methods and Integrated Tool Chains ............... 40
John Fitzgerald, Carl Gamble, Peter Gorm Larsen, Kenneth Pierce, Jim Woodcock —
Newcastle University, Newcastle upon Tyne, UK; Aarhus University, Denmark;
University of York, UK

Cyber Physical Systems

A Methodology for the Simplification of Tabular Designs in Model-Based Development..................... 47
Monika Bialy; Mark Lawford; Vera Pantelic; Alan Wassyng — McMaster University, Canada

Obtaining Trust in Autonomous Systems: Tools for Formal Model Synthesis and Validation............... 54
Constance L. Heitmeyer; I Elizabeth Leonard — Naval Research Laboratory, USA

Program Verification

Mechanical Verification of Interactive Programs Specified by Use Cases ............................................. 61
Guillaume Claret, Yann Régis-Gianas — PPS, France; INRIA, France

Syntax-Driven Program Verification of Matching Logic Properties ...................................................... 68
Domenico Bianculli, Antonio Filieri, Carlo Ghezzi, Dino Mandrioli, Alessandro Maria Rizzi —
University of Luxembourg, Luxembourg; University of Stuttgart, Germany;
Politecnico di Milano, Italy

Author Index .............................................................................................................................................. 75
