2015 IEEE/ACM 7th International Workshop on Principles of Engineering Service-Oriented and Cloud Systems

(PESOS 2015)

Florence, Italy
23 May 2015

Table of Contents

Message from the Chairs .......................................................................................................................... vi
Committees and Reviewers .................................................................................................................... viii
Sponsors and Supporters .......................................................................................................................... x

Invited Talk

Cloud and Multi-cloud Computing: Current Challenges and Future Applications................................. 1
Danilo Ardagna — Politecnico di Milano, Italy

Adaptable Software Architecture for the Clouds

An Architecture for Self-Reconfiguration of Convergent Telecom Processes ........................................... 3
Armando Ordóñez, Jesus David Ramirez, Paolo Falcarin, Oscar Mauricio Caicedo,
Lisandro Zambenedetti Granville — University of Cauca, Colombia;
University of East London, UK; Universidad Rio Grande do Sul, Brazil

Continuous Evolution of Multi-tenant SaaS Applications: A Customizable Dynamic Adaptation Approach.................................................................................................................... 10
Fatih Gey, Dimitri Van Landuyt, Wouter Joosen, Viviane Jonckers
— KU Leuven, Belgium; Vrije Universiteit Brussel, Belgium

Advanced Software Engineering Issues in the Cloud

Architectural Runtime Models for Privacy Checks of Cloud Applications .............................................. 17
Eric Schmieders, Andreas Metzger, Klaus Pohl — University of Duisburg-Essen, Germany

Enabling Collaborative Development in an Open Stack Testbed: The Cloud Wave Use Case ............... 24
Dario Bruneo, Francesco Longo, Giovanni Merlino, Nicola Peditto, Carmelo Romeo,
Fabio Verboso, Antonio Puliafito — University of Messina, Italy; University of Catania, Italy

A Pattern-Based Formalization of Cloud-Based Elastic Systems................................................................. 31
Schahram Dustdar, Alessio Gambi, Willibald Krenn, Dejan Nickovic
— Vienna University of Technology, Austria; Austrian Institute of Technology, Austria

Author Index .............................................................................................................................................. 38
