
(SESoS 2015)

Florence, Italy
17 May 2015
Third International Workshop on Software Engineering for Systems-of-Systems
(SESoS 2015)

Table of Contents

Message from the Chairs ......................................................................................................................... vii
Committees and Reviewers ...................................................................................................................... ix
Sponsors and Supporters ........................................................................................................................ xi

SoS Architecture

Foreword: Towards Reference Architectures for Systems-of-Systems ......................................................... 1
Elisa Yumi Nakagawa, Flavio Oquendo, Paris Avgeriou, Carlos E. Cuesta, Khalil Drira,
José Carlos Maldonado, Andrea Zisman — University of São Paulo, Brazil; IRISA, France; University of South Brittany, France; University of Groningen, Netherlands; Rey Juan Carlos University, Spain; LAAS-CNRS, France; University of Toulouse, France; The Open University, UK

Towards a Reference Architecture for Large-Scale Smart Grids System of Systems ............................... 5
Jennifer Pérez, Jessica Díaz, Juan Garbajosa, Agustín Yagüe, Eloy Gonzalez,
Mercedes Lopez-Perea — Technical University of Madrid, Spain; Indra Software Labs, Spain

Characterizing Architecture Description Languages for Software-Intensive
Systems-of-Systems ................................................................................................................................. 12
Milena Guessi, Everton Cavalcante, Lucas B.R. Oliveira — University of São Paulo, Brazil;
Federal University of Rio Grande do Norte, Brazil

Approach Based Patterns for System-of-Systems Reconfiguration ............................................................ 19
Franck Petitdemange, Isabelle Borne, Jérémy Buisson — IRISA, France;
University of South Brittany, France; Military Academy of St-Cyr, France

SoS Models and Quality

Quality Attributes of Systems-of-Systems: A Systematic Literature Review .................................................. 23
Thiago Bianchi, Daniel Soares Santos, Katia Romero Felizardo — IBM, Brazil;
University of São Paulo, Brazil

A Mission-Oriented Tool for System-of-Systems Modeling ...................................................................... 31
Eduardo Silva, Thais Batista, Everton Cavalcante
— Federal University of Rio Grande do Norte, Brazil
Reusable Architectural Decision Models for Quality-Driven Decision Support: A Case Study from a Smart Cities Software Ecosystem ................................................................................................... 37
   Ioanna Lytra, Gerhard Engelbrecht, Daniel Schall, Uwe Zdun — University of Vienna, Austria; Siemens AG, Austria

Search-Based Design of Large Software Systems-of-Systems ............................................................................................................. 44
   Robert Lagerström, Pontus Johnson, Mathias Ekstedt
   — KTH Royal Institute of Technology, Sweden

Author Index ......................................................................................................................................................................................... 48
