Society of Tribologists & Lubrication Engineers Annual Meeting & Exhibition 2015

Dallas, Texas, USA
17-21 May 2015

ISBN: 978-1-5108-1158-4
# TABLE OF CONTENTS

## BIOTRIBOLOGY

**A LAMELLAR–REPULSIVE MECHANISM OF LUBRICATION OF NATURAL JOINTS** ............................................. 1  
Z. Pawlak, A. Gadomski, M. Hagner-Derengowska, W. Urbaniak, P. Bedowski

**THE INFLUENCE OF TEXTURED SURFACES ON THE TRIBOLOGICAL BEHAVIOR OF HIP REPLACEMENTS EMPLOYING A MASS CONSERVING COMPLEMENTARITY ALGORITHM** ............................................. 4  
Daniele Dini, Matteo Giacopini, Giuseppe Mulas, Enrico Antonio Bertocchi

**A BIO-TRIBOLOGICAL METHODOLOGY TO INVESTIGATE NANOSTRUCTURED Ti BASED COMPOSITES FOR HIP-JOINTS** ............................................. 7  
E. P. Georgiou, D. Drees, S. Dosta, P. Matteazzi, J. P. Celis, J. Kusinski

## CERAMICS AND COMPOSITES

**OPTIMIZING THE PERFORMANCE OF ION-TRANSFER AND ENERGY STORE VIA HEXAGONALLY ORDERED ALUMINA NANOPORE TEMPLATE BASED ELECTRODE** ............................................. 21  
Sunghan Kim, Andreas A. Polycarpou, Hong Liang

**INTERACTIONS BETWEEN WEAR MECHANISMS IN A WC-CO / Ti-6Al-4V MACHINING TRIBOSYSTEM** ............................................. 24  
Mathew Kuttolamadom, Qiong Bai

## COMMERCIAL MARKETING FORUM

**ADVANTAGES OF SYNFLUID MPAOS IN LUBRICANT APPLICATIONS** ............................................. 27  
Ken Hope

**ENABLING THE SUCCESS OF LUBRICANT MARKETERS AND FORMULATORS** ............................................. 36  
Josh Wimble, Thomas Mittendrein

**THE LATEST IN ESTOLIDE DEVELOPMENT** ............................................. 51  
Jakob Bredsguard

**INTRODUCING NACO’S SYNTHETIC BASE OILS (SBO’S): SINOSYN PAO40A, SINOSYN PAO100A, SYNNAPH AN23, SYNNAPH SN2** ............................................. 61  
Phil Levy

**INTRODUCING NOVITAS SPECIALTY ADDITIVES (SA) INNOVATION QUALITY SERVICE** ............................................. 71  
Liwen Wei

**NEW BASE STOCK FOR DIFFERENTIATED HIGH-PERFORMANCE SYNTHETIC LUBRICANTS** ............................................. 78  
Gregory E. Gerhardt

## CONDITION MONITORING

**DRIVING COMPLIANCE IN AN OIL ANALYSIS PROGRAM** ............................................. 91  
Henry Neicamp

**AN INTEGRATED LUBRICANT OIL CONDITIONING SENSOR USING SIGNAL MULTIPLEXING** ............................................. 108  
Xiaoliang Zhu, Li Du, Jiang Zhe

**ROOT CAUSE FAILURE ANALYSIS: INDUSTRIAL FOOD PROCESSING SPIRAL OVEN CONVEYOR CHAIN SYSTEM** ............................................. 111  
Jared Kantar, Jim Sandler

**BEST PRACTICES FOR CONDITION BASED LUBRICATION USING ULTRASOUND** ............................................. 115  
Adrian Messer

**A STATE-OF-THE-ART COLORIMETRIC PATCH ANALYZER** ............................................. 125  
Akira Sasaki, Kenji Matsumoto, Tomomi Honda

**BEST PRACTICE FOR WATER REMOVAL IN HYDRAULIC SYSTEMS (FLUIDS)** ............................................. 141  
Kristine Mikulan
ACCURATE TOTAL WATER MEASUREMENT FOR ON-SITE ANALYSIS OF TURBINE OILS
BY INFRARED SPECTROSCOPY ................................................................. 154
Randi Price

LINKING FERROUS MEASUREMENTS TO PARTICLE COUNTING FOR MACHINE
CONDITION MONITORING ................................................................. 159
Tom Barraclough

ENGINE AND DRIVETRAIN

IMPROVING FUEL ECONOMY WITH MODTC WITHOUT INCREASING TEOST33C
DEPOSIT ........................................................................................................ 169
Kenji Yamamoto, Yukita Morizumi

EXPERIMENTAL RESEARCH OF TORSIONAL VIBRATION OF THE DIESEL ENGINE
CONSIDERING PISTON RING FRICTION .................................................. 172
Xuan Ma, Xiquan Lu, Zhigang Liu, Yibin Guo, Wanyou Li

A STUDY ON THE EFFECT OF RING PACK STRUCTURE ON BLOWBY ............ 174
Shu Li, Xiquan Lu, Tao He, Daquan Zou, Chengkai Zhang, Renlian Ma

THE DRAG TORQUE BEHAVIOR OF MANUAL TRANSMISSION SYNCHRONIZERS .................................................................................. 177
Maximilian Strebel, Michael Wirth, Hermann Pfauum, Karstel Stahl

BLACKENING OF COPPER ALLOY BEARING CAUSED BY LUBRICATING OIL FOR
AUTOMOBILE ENGINE ........................................................................... 182
Fumihiko Yokoyama

DISPERSANT AND NON-DISPERSANT COMB POLYMERS —.......................... 185
Torsten Stoehr

THE ROLE OF VI IMPROVERS IN FORMULATION OF FUEL EFFICIENT ENGINE OILS AS
DEMONSTRATED IN FOUR ENGINE PROTOCOLS ...................................... 201
Don Smolenski, Thorsten Bartels

NORTH AMERICAN GASOLINE ENGINE OIL SPECIFICATIONS: PAST, CURRENT, FUTURE .......... 217
Don Smolenski

POUR POINT DEPRESSANT SELECTION FOR TODAY’S ENGINE OILS AGED IN THE
PRESENCE OF BIODIESEL BY CEC L-105 ............................................... 238
P. Hutchinson, A. Flanagan, J. L. Wang, A. Tsay, J. Souchik

ENVIRONMENTALLY FRIENDLY FLUIDS

ESTER BASE STOCKS FOR MARINE LUBRICANTS ........................................ 250
Matthias Hof, Nadja Herzog

NON-EDIBLE BALANITES ROXBURGHII PLANT OIL FOR ENVIRONMENTALLY
FRIENDLY FLUID APPLICATION ................................................................ 267
Shailesh N. Shah, Priyanka Khanvilkar, Girishma Patel, Padamnabhi S. Nagar

TRIBOLOGICAL PROFILE OF ENVIRONMENTALLY ACCEPTABLE LUBRICANTS FOR
PASSENGER CAR SHOCK ABSORBERS .................................................. 270
C. Scholz, Y. Ito, S. Kato

MODIFIED NATURAL OILS WITH NEW FATTY ACID TRAITS FOR INDUSTRIAL
LUBRICANT APPLICATIONS .......... .............................................................. 273
Daniel Garbark

FLUID FILM BEARINGS

PERFORMANCE OF SYMMETRIC SLOT-ENTRY HYBRID JOURNAL BEARING IN
TURBULENT REGIME .................................................................................. 283
Nathi Ram, Satish C. Sharma, Saurabh Yadav

INFLUENCE OF TILT ON THE PERFORMANCE OF CIRCULAR THRUST PAD BEARING OF
VARIOUS RECESS SHAPES ....................................................................... 286
Satish C. Sharma, Saurabh K. Yadav

INFLUENCE OF SEMI CONE ANGLE ON THE PERFORMANCE OF A CONICAL
HYDRODYNAMIC JOURNAL BEARING ..................................................... 289
Vikas M. Phalle, Ajay Kumar Gangrade, S. S. Mantha
EXPERIMENTAL ASSESSMENT OF DRAG AND ROTORDYNAMIC RESPONSE FOR A POROUS TYPE GAS BEARING
Luis San Andrés, Sung-Hwa Jeung, Michael Rohmer, Andrew Devitt

A GENERAL FINITE VOLUME METHOD SOLUTION FOR THE REYNOLDS LUBRICATION EQUATION WITH MASS-CONSERVING CAVITATION MODEL
Francisco J. Profito, Daniele Dini, Demetrio C. Zachariadis

THERMO ELASTIC DISTORTION AND ITS CONTROL IN THIN FILM HYDRODYNAMIC LUBRICATION THRUST BEARINGS
Farooq Ahmad Najar, G A Harmain

MEASUREMENTS OF LEAKAGE AND FORCE COEFFICIENTS IN A SHORT LENGTH ANNULAR SEAL OPERATING WITH A GAS IN OIL MIXTURE
Luis San Andrés, Qing Liu, Xueliang Lu

TRANSIENT PRESSURE AND TEMPERATURE FIELDS MEASUREMENTS IN A LIGHTLY LOADED CIRCUMFERENTIAL GROOVE JOURNAL BEARING FROM START-UP TO STEADY-STATE THERMAL STABILIZATION
Alex-Florian Cristea, Jean Bouyer, Michel Fillon, Mircea D. Pascovici

COMPARISON OF PERFORMANCE ANALYSIS OF NON-RECESS HYDROSTATIC/HYBRID CONICAL JOURNAL BEARING FOR VARIOUS SEMI CONE ANGLES
Prashant G. Khakse, Vikas M. Phalle, S. S. Mantha

RESPONSE OF AN OPEN ENDS SQUEEZE FILM DAMPER TO LARGE AMPLITUDE IMPACT LOADS
Luis San Andres, Sung-Hwa Jeung

PERFORMANCE CHARACTERISTICS OF GAS-EXPANDED LUBRICANTS IN HYBRID BEARINGS USING COMPUTATIONAL FLUID DYNAMICS
Brian K. Weaver, Gen Fu, Andres F. Clarens, Alexandrina Untaroiu

PERFORMANCE OF FULL TEXTURED HYBRID THRUST BEARING BY CONSIDERING THE TEMPERATURE VARIATION IN OIL FILM
Saurabh K Yadav, Satish C Sharma

A COMPARATIVE STUDY BETWEEN A REYNOLDS EQUATION (WITH DISCRETE MASS INJECTION) AND 3D NAVIER-STOKES EQUATIONS WITH APPLICATION TO ACTIVELY LUBRicated HYBRID FLUID FILM BEARINGS
Troy A. Snyder, Minel J. Braun, Ilmar F. Santos

A TRANSIENT MODIFIED REYNOLDS-ELROD EQUATION (MREE) WITH DISCRETE INJECTION: EFFECTS ON OIL FILM THICKNESS OF A HIGHLY-LOADED HYBRID JOURNAL BEARING
Nikolaj A. Dagnaes-Hansen, Troy Snyder, Minel J. Braun, Ilmar Santos

ABOUT THE STIFFNESS OF BUMPS IN AERODYNAMIC FOIL BEARINGS
Mihai Arghir

A VOLUME OF FLUID METHOD FOR AIR INGESTION IN SQUEEZE FILM DAMPERS (*)
Jerome Gehannin, Mihai Arghir, Olivier Bonneau

GEARS

FILM THICKNESS INVESTIGATION IN HEAVILY LOADED HYPOID GEAR PAIR ELASTOHYDRODYNAMIC CONJUNCTIONS
Leonidas Paouris, Stephanos Theodossiades, Miguel De La Cruz, Homer Rahnejat, Adam Kidson, Gregory Hunt, William Barton

GREASE

CALCIUM SULFONATE COMPLEX GREASE IN ELECTRIC MOTOR BEARINGS
Solongo Wilson, Wayne Mackwood

A SUPERIOR PTFE POWDER FOR GREASE
Mary Moon
IN SITU TRIBOLOGY

A TENSIONER FRICTION AND WEAR SIMULATION TESTING TRIBOMETER FOR SEABED PIPELINE CONSTRUCTION ................................................................. 388
Yongjie Zhou, Yanbao Guo, Deguo Wang

SURFACE DAMAGE OF MAGNETIC RECORDING MEDIA UNDER DYNAMIC SLIDING CONTACT ................................................................. 391
Muyang He, Chang-Dong Yeo

LUBRICATION FUNDAMENTALS

STUDIES OF VARIATION IN THE OXIDATION INHIBITION OF BASE OILS – CONTINUATION OF AN ISOTHERMAL STUDY OF INNATE AND ADDITIVE-INHIBITED OXIDATION OF BASE OILS ................................................................. 394
Marta Manning, Theodore W. Selby, Jonathan C. Evans, William Vanbergen, Thomas Fischer

SIMULATION OF TEMPERATURE-ELASTOHYDRODYNAMIC LUBRICATION (TEHL) FOR POINT CONTACT ANALYSIS ................................................................. 408
Xiaopeng Wang, Dong Zhu, Yuchuan Liu

EHL CONTACT TEMPERATURE – COMPARISON OF THEORETICAL AND EXPERIMENTAL DETERMINATION ................................................................. 412
T. Lohner, J. Mayer, K. Stahl

EXPERIMENTAL AND THEORETICAL STUDY OF SAE 10 HYDRAULIC OIL LUBRICATED EN-31 STEEL/STEEL TRIBO-PAIRS ................................................................................................................................. 416
G. D. Thakre, S. P. Harsha, Satish C. Sharma, M. R. Tyagi

STUDY ON THE LUBRICATED POINT-CONTACT WITH OIL DROPLET ................................................................................................................................. 419
Wenzhong Wang, Shengguang Zhang, Ziqiang Zhao

NEWLY-SYNTHESIZED THERMALLY-STABLE IONIC LIQUIDS AS FRICTION MODIFIERS FOR CARBON-COATED MEDIA ................................................................................................................................. 422
H. Kondo, K. Hattuda, N. Tano, M. Ito, K. Yun, T. Noguchi, M. Watanabe

THE FIRST NORMAL STRESS DIFFERENCE IN A SHEAR-TINNING MOTOR OIL AT ELEVATED PRESSURE ................................................................................................................................. 425
Scott Bair

TWO-WAY COUPLED REYNOLDS AND RAYLEIGH-PLESSET EQUATIONS FOR A MULTIPHYSICS FULLY TRANSIENT CAVITATION MODEL ................................................................................................................................. 429
Troy Snyder, Minel J. Braun, Kristopher Pierson

AN INVESTIGATION ON TRIBOLOGICAL PROPERTIES OF GRAPHENE AND MOS2 NANOPARTICLES AS ADDITIVES IN AVIATION HYDRAULIC OIL ................................................................................................................................. 433
Jun Zhao, Yongfu Wang, Wei Wang, Yongyong He, Jianbin Luo

LUBRICATION WITH LIQUID CRYSTAL: MINIMIZATION OF FRICTION AT VARIOUS SPEEDS USING AUTONOMOUS CONTROL OF ITS VISCOSITY ................................................................................................................................. 440
Nakano, Ken, Tadokoro, Chiharu

A NEW APPROACH TO MEASURE LOW TEMPERATURE VISCOSITY OF DRIVE LINE FLUIDS ................................................................................................................................. 443
Kenneth Henderson, Joseph Mastropiero

SIMULATION OF PLASTO-ELASTOHYDRODYNAMIC LUBRICATION (PEHL) IN FINITE LINE CONTACTS ................................................................................................................................. 457
Tao He, Dong Zhu, Jiaxu Wang

PRESSURE-TEMPERATURE VISCOSITY MEASUREMENTS AND SIMULATIONS OF LUBRICANTS WITH POLYMER VISCOSITY MODIFIERS ................................................................................................................................. 461
Babak Lotfizadehdehkordi, P. J. Shiller, K. K. Mistry, Uma Ramasamy, A. Martini, G. L. Doll

COMPARISON OF THERMOELECTRIC MEASUREMENTS WITH MODELS OF SLIDING ASPERITY CONTACT FLASH TEMPERATURES ................................................................................................................................. 465
Robert A. Erck, Oyelayo O. Ajayi, George R. Fenske

SIMULATION OF PLASTO-ELASTOHYDRODYNAMIC LUBRICATION (PEHL) WITH ROLLING BEHAVIORS ON AN ELASTIC-PLASTIC SURFACE ................................................................................................................................. 468
Tao He, Dong Zhu, Jiaxu Wang
LUBRICATION OF ENGINEERED SURFACES

MEASUREMENT OF LUBRICANT VISCOSITY AND DETECTION OF BOUNDARY SLIP AT HIGH SHEAR RATES ................................................................. 474
Xiang Yu, Yonggang Meng, Yu Tian, Jun Zhang, Weibin Liang

MATERIALS TRIBOLOGY

TRIBOLOGICAL PROPERTY OF A NEW WEAR-RESISTANT BELT MATERIAL UNDER THE EXTENDED REACH WELL CONDITION .................................................. 477
Kai Zhang, Zhenquan Wang, Deguo Wang

EXISTING CHALLENGES IN INVESTIGATING THE WEAR BEHAVIOUR OF NANOSTRUCTURED INTERMETALLIC COATINGS ............................................ 480
E. P. Georgiou, D. Drees, J.-P. Celis

METALWORKING FLUIDS

EMULSIFIERS FOR MWF ................................................................................................................. 493
Claude-Emmanuel Hédoire

STUDY OF EMULSION STABILITY OF ROLLING OILS ................................................................. 505
Paul Subinoy, Simmi Dutta, N. Sivasurian, Deepak Saxena, E. Sayana, R. Suresh

METALWORKING FLUIDS FOAM CONTROL BASED ON NOVEL SURFACTANTS TECHNOLOGY .......................................................... 509
Eduardo Lima

GRINDING OF MOULD STEEL WITH GRAPHENE PLATELETS DISPERSED IN A VEGETABLE-BASED CUTTING FLUID .................................................. 524

N-ALKYLALKANOLAMINES AND N-ALKYLALKANOLAMINE DERIVATIVES FOR METALWORKING: E.G., TERTIARY N-ALKYLALKANOLAMINE-N-OXIDES ................................................................................................. 531
Michael D. Gernon, Guy Ferdino

INFLUENCE OF INHIBITOR'S CHEMISTRY AND STRUCTURE ON ALUMINUM CORROSION IN MWF ........................................................................ 551
Hoon Kim, Peter Konopi

MOLECULAR CHEMISTRY AND LUBRICANT RHEOLOGY

ULTRA-ACCELERATED QUANTUM CHEMICAL MOLECULAR DYNAMICS FOR TRIBOLOGICAL APPLICATIONS .................................................. 554
Akira Miyamoto, Patrick Bonnaud, Ryuji Miura, Ai Suzuki, Naoito Miyamoto, Nozomu Hatakeyma, Sumio Kozawa, Mark C. Williams

INVESTIGATIONS OF POLYMER MOLECULAR DESIGN FOR HIGH PERFORMANCE LUBRICANT ADDITIVES ........................................................................ 556
Lelia Cosimbescu, Joshua W. Robinson, J. Timothy Bays, Priyanka Bhattacharya, Yan Zhou, Jun Qu

MULTIFUNCTIONAL SURFACES FOR TRIBOLOGY: AN EMERGING TECHNOLOGY SESSION

EXPERIMENTAL RESEARCH OF ADHESIVE AND FRICTIONAL PROPERTIES OF INCLINED MUSHROOM-SHAPED FIBRILLAR GECKO-INSPIRED FUNCTIONAL SURFACES .................................................. 559
Dashuai Tao, Jinyou Shao, Yue Wang, Yonggang Meng, Xiangjun Zhang, Yu Tian

NANOTRIBOLOGY

CONTROL OF NANOSCALE FRICITION ON STAINLESS STEEL IN SODIUM DODECYL SULFATE AQUEOUS SOLUTION BY A POTENTIAL-DEPENDENT ADSORPTION BOUNDARY LAYER ................................................................................................. 564
Jun Zhang, Yonggang Meng

ADORE VALIDATION OF BEARING HEAT GENERATION FOR A 133-MM BORE ANGULAR CONTACT BALL BEARING

Brian Nicholson, Garry Givan, Capt. Justin Mason, Kevin Thompson, Hitesh Trivedi, Pradeep Gupta

722

SEALS

FACE CONTACT ANALYSIS OF SPIRAL GROOVE GAS FACE SEALS USING FRACTAL MODEL

Hu Songtao, Huang Weifeng, Liu Xiangfeng, Wang Yuming

733

STUDY ON TOPOLOGICAL OPTIMIZATION IN DRY GAS SEAL FOR IMPROVING SEALING ABILITY AND ITS FLOW VISUALIZATION

Masaayuki Ochiai, Yuta Sanami, Hirono Hashimoto

738

THE DEVELOPMENT OF A NEW HIGH PRESSURE OILSEAL

Huang Le, Tan Feng, Xiang Yu, Fan Qing

741

THE MODEL BASED ON ACCELERATING WORN SURFACES IN MECHANICAL SEAL

Yu Qiuping, Sun Jianjun, Yu Bo, Ma Chenbo

753

MODELING THE IMPACT OF LATERAL PUMP VIBRATIONS ON THE DYNAMICS OF MECHANICAL SEALS

Dara Childs, Hung Nguyen

758

RECIPIROCATING SEALS NUMERICAL SIMULATION MODEL AND SOFTWARE

Huang Le, Huang Xing, Jia Xiaohong

763

SURFACE ENGINEERING

EXPERIMENTAL AND THEORETICAL ANALYSIS OF THE ELASTO-PLASTIC OBLIQUE IMPACT OF A ROD WITH A FLAT

Ozdes Cermik, Hamid Ghaednia, Dan Marghitu

774

A 3-D MODEL FOR PISTON RING-CYLINDER LINER TRIBO-SYSTEM CONSIDERING THE HONING GROOVE PARAMETERS

Tongyang Lia, Xiqun Lu, Dequan Zou, Wanyou Lia, Renlian Mia

777

THE EFFECTIVENESS OF SURFACE MODIFICATION ON THE TRIBOLOGICAL PROPERTIES OF SiC AND Si3N4 CERAMICS

A. Amanov, Y. S. Pyun

780

TRIBO-CORROSION PROTECTION OF VALVES AND ROTORS USING CERMET LAYERS APPLIED WITH HVOF

Roberto Gonzalez, Julio Sanchez, Maria Jose Quintana, Miguel Angel Barbes, Luis Felipe Verdeja

783

SYNTHETIC AND HYDRAULIC LUBRICANTS

LOW TEMPERATURE PROPERTIES OF HYDRAULIC FLUIDS – DESIGN TOOLS AVAILABLE FOR THE FORMULATOR

Thomas Norrby

787

SHORTCUT TO IMPROVED EFFICIENCY: RESEARCH POINTS TO HYDRAULIC FLUID

Frank-Ofal Mählung, Michael Alibert, Thomas Schimmel

808

A NEW INSIGHT INTO THE BENEFITS OF SYNTHETIC ESTERS IN LUBRICATION

Siegfried Lucazeau

822

HYDRAULIC FLUIDS IN SERVO-VALVES ON HARSH ENVIRONMENT

Arturo Cardenas

835

PFPE BASE OILS FOR SPECIAL APPLICATIONS IN AUTOMOTIVE INDUSTRY

P. Maccone, G. Boccalletti, S. Rosinetti, S. Petricci

841

ANALYSIS OF DIESTER LUBRICATED STARVED EHL LINE CONTACTS

G. D. Thakre, S. P. Harsha, Satish C. Sharma, M. R. Tyagi

844

VARNISH – OIL AGING PRODUCTS IN MINERAL OILS

Kristine Mikulan

847
TRIBOTESTING

THE SLIDING HERTZIAN POINT CONTACT IN TRIBOTESTING: UNDERSTANDING ITS LIMITATIONS AS A MODEL OF REAL SYSTEMS ................................................................. 861

G. Plint

WEAR

EVALUATION OF WEAR RESISTANT REFRIGERANT COMPRESSOR LUBRICANTS! ......................................................... 889

Derek W. Kultgen, Joseph A. Karnaz

TRIBOLOGICAL BEHAVIOR OF POLYURETHANE UNDER DRILLING FLUID AND ................................................. 901

Yanbao Guo, Deguo Wang, Shuhai Liu

THIN LAYER ACTIVATION TECHNOLOGY AS ON-LINE WEAR MEASUREMENT IN THE TRIBOLOGY LAB ................................................................. 903

D. Drees, H. Van Hest, T. Delvigne, O. Courtois, L. Guerouane

EXPERIMENTAL RESEARCH OF CYLINDER LINER WEAR BASED ON RECIPROCATING FRICTION MACHINE ................................................................. 906

Renlian Ma, Xiqun Lu, Wanyou Li, Tongyang Li

WIND TURBINE TRIBOLOGY

INVESTIGATION OF THE ROLE OF HYDROGEN IN WHITE STRUCTURE FLAKING (WSF) OF WIND TURBINE GEARBOX BEARINGS ................................................................. 908

A. D. Richardson, L. Wang, R. J. K. Wood, M.-H. Evans, W. B. Anderson, M. Ingram

THE EFFECTS OF ALLOY ELEMENTS AND HEAT TREATMENTS ON WHITE STRUCTURE FLAKING IN ROLLING BEARINGS ........................................................................... 911

H. Yamada, H. Uyama

A HYPOTHESIS ON THE ELECTROMAGNETIC CAUSE OF WHITE ETCHING CRACKS IN BEARING STEEL ......................................................................................... 914

Mihails Scepansksis, Andris Jakovics, Imants Kaldre, Walter Holweg, Bernard Nacke
