Second International Symposium on Computer Vision and the Internet (VisionNet’15)

Procedia Computer Science Volume 58

Kerala, India
10 – 13 August 2015

Editors:

Alex Pappachen James         Sabu M. Thampi
Dhiya Al-Jumeily

ISBN: 978-1-5108-1215-4
## Contents

Preface
A. James, D. Al-Jumeily, S.M. Thampi .......................................................... 1
A Reliable Method for Detecting Road Regions from a Single Image Based on Color Distribution and Vanishing Point Location
N. John, B. Anusha, K. Kutty ................................................................. 2
Edge Detection Using Sparse Banded Filter Matrices
V. Sowmya, N. Mohan, K.P. Soman ......................................................... 10
A Comparative Study of Several Array Geometries for 2D DOA Estimation
S. Kiani, A.M. Pezeshk ................................................................. 18
Hyperspectral Image Denoising Using Low Pass Sparse Banded Filter Matrix for Improved Sparsity Based Classification
C. Aswathy, V. Sowmya, K.P. Soman ..................................................... 26
Cooperative Spectrum Sensing Improvement Based on Fuzzy Logic System
A. Abdul-Hamed Khader, A.H. Reja, A.A. Hussein, M.T. Beg, Mainuddin ........... 34
Modeling Pauses for Synthesis of Storytelling Style Speech Using Unsupervised Word Features
P. Sarkar, K.S. Rao ................................................................................... 42
Map Navigation Using Hand Gesture Recognition: A Case Study Using MYO Connector on Apple Maps
M. Sathiyarayanan, T. Mulling ............................................................... 50
Symmetric Mask Wavelet Based Detection and Tracking of Moving Objects Using Variance Method
H.B. Resmi, V.A. Deepambika, M.A. Rahman ........................................ 58
Affine Normalized Krawtchouk Moments Based Face Recognition
B.H. Shekar, D.S. Rajesh ........................................................................ 66
Image Forgy Detection Based on Gabor Wavelets and Local Phase Quantization
M.M. Isaac, M. Wilsy ........................................................................... 76
Fuzzy C Means Detection of Leukemia Based on Morphological Contour Segmentation
P. Viswanathan ....................................................................................... 84
Detection and Analysis of Emotion from Speech Signals
A. Davletcharova, S. Sugathan, B. Abraham, A.P. James ...................... 91
Modified Self-Learning with Clustering for the Classification of Remote Sensing Images
P.S.S. Aydav, S. Minz ............................................................................. 97
Mathematical Analysis of Trust Computing Algorithms
T. Jeyaprakash, R. Mukesh .................................................................... 105
Visualizing Social Networks Using a Treemap Overlay with a Graph
M. Sathiyarayanan, N. Burlutskiy ...................................................... 113
Comparative Study of Single-user Spectrum Sensing Techniques in Cognitive Radio Networks
R.R. Jaglan, S. Sarowa, R. Mustafa, S. Agrawal, N. Kumar .................... 121
Denoising Ultrasound Medical Images with Selective Fusion in Wavelet Domain
P.V.V. Kishore, K.L. Mallika, M.V.D. Prasad, K.L. Narayana .............. 129
A Secure Verifiable Scheme for Secret Image Sharing
A.A. Rose, S.M. Thampi ........................................................................ 140
Energy Efficient Big Data Infrastructure Management in Geo-Federated Cloud Data Centers
S. Subbia, P. Varalakshmi, R. Prarthana, C.R. Devi ......................... 151
Classification of Heart Sound Signals Using Multi-modal Features
S.K. Randhawa, M. Singh ................................................................. 158
Classification of Heart Sound Signals Using Multi-modal Features
S.K. Randhawa, M. Singh ................................................................. 158
Fitness Function Based Sensor Degradation Estimation Using H, Filter
S. Arosh, Suryaprakash, S.K. Nayak, S.P. Duttagupta ......................... 172
Human Activity Recognition Using Binary Motion Image and Deep Learning
T. Dobbal, V. Shitole, G. Thomas, G. Navada ..................................... 178
Application of Probabilistic Neural Network in Fault Diagnosis of Wind Turbine Using FAST, TurbSim and Simulink
H. Malik, S. Mishra .............................................................................. 186
Stereo Vision-based Hand Gesture Recognition Under 3D Environment
M.A. Laskar, A.J. Das, A.K. Talukdar, K.K. Sarma ............................. 194
doi:10.1016/S1877-0509(15)02213-9

Preface

A. James, D. Al-Jumeily, S.M. Thampi

A Reliable Method for Detecting Road Regions from a Single Image Based on Color Distribution and Vanishing Point Location

N. John, B. Anusha, K. Kutty

Edge Detection Using Sparse Banded Filter Matrices

V. Sowmya, N. Mohan, K.P. Soman

A Comparative Study of Several Array Geometries for 2D DOA Estimation

S. Kiani, A.M. Pezeshk

Hyperspectral Image Denoising Using Low Pass Sparse Banded Filter Matrix for Improved Sparsity Based Classification

C. Aswathy, V. Sowmya, K.P. Soman

Cooperative Spectrum Sensing Improvement Based on Fuzzy Logic System

A. Abdul-Hamed Khader, A.H. Reja, A.A. Hussein, M.T. Beg, Mainuddin

Modeling Pauses for Synthesis of Storytelling Style Speech Using Unsupervised Word Features

P. Sarkar, K.S. Rao

Map Navigation Using Hand Gesture Recognition: A Case Study Using MYO Connector on Apple Maps

M. Sathiyarayanan, T. Mulling

Symmetric Mask Wavelet Based Detection and Tracking of Moving Objects Using Variance Method

H.B. Resmi, V.A. Deepambika, M.A. Rahman

Affine Normalized Krawtchouk Moments Based Face Recognition

B.H. Shekar, D.S. Rajesh

Image Forgy Detection Based on Gabor Wavelets and Local Phase Quantization

M.M. Isaac, M. Wilsy

Fuzzy C Means Detection of Leukemia Based on Morphological Contour Segmentation

P. Viswanathan

Detection and Analysis of Emotion from Speech Signals

A. Davletcharova, S. Sugathan, B. Abraham, A.P. James

Modified Self-Learning with Clustering for the Classification of Remote Sensing Images

P.S.S. Aydav, S. Minz

Mathematical Analysis of Trust Computing Algorithms

T. Jeyaprakash, R. Mukesh

Visualizing Social Networks Using a Treemap Overlay with a Graph

M. Sathiyarayanan, N. B Burlutskiy

Comparative Study of Single-user Spectrum Sensing Techniques in Cognitive Radio Networks

R.R. Jaglan, S. Sarowa, R. Mustafa, S. Agrawal, N. Kumar

Denoising Ultrasound Medical Images with Selective Fusion in Wavelet Domain

P.V.V. Kishore, K.L. Mallika, M.V.D. Prasad, K.L. Narayana

A Secure Verifiable Scheme for Secret Image Sharing

A.A. Rose, S.M. Thampi

Energy Efficient Big Data Infrastructure Management in Geo-Federated Cloud Data Centers

S. Subbia, P. Varalakshmi, R. Prarthana, C.R. Devi

Classification of Heart Sound Signals Using Multi-modal Features

S.K. Randhawa, M. Singh

Classification of Heart Sound Signals Using Multi-modal Features

S.K. Randhawa, M. Singh

Fitness Function Based Sensor Degradation Estimation Using H, Filter

S. Arosh, Suryaprakash, S.K. Nayak, S.P. Duttagupta

Human Activity Recognition Using Binary Motion Image and Deep Learning

T. Dobbal, V. Shitole, G. Thomas, G. Navada

Application of Probabilistic Neural Network in Fault Diagnosis of Wind Turbine Using FAST, TurbSim and Simulink

H. Malik, S. Mishra

Stereo Vision-based Hand Gesture Recognition Under 3D Environment

M.A. Laskar, A.J. Das, A.K. Talukdar, K.K. Sarma

doi:10.1016/S1877-0509(15)02213-9

</table>
Selection of Optimal Denoising Filter Using Quality Assessment for Potentially Lethal Optical Wound Images
D.M. Dhane, M. Maiti, A. Achar, C. Bar, C. Chakroborty .......................................................... 438

A Minuitae Count Based Method for Fake Fingerprint Detection
K. Abhishek, A. Yogi .............................................................................................................. 447

Semantic Driven Automated Image Processing Using the Concept of Colorimetry
M. Suresh, K. Jain .................................................................................................................. 453

A Comparative Study of Vision Based Human Detection Techniques in People Counting Applications
C. Raghavachari, V. Aparna, S. Chithira, V. Balasubramanian ............................................... 461

Performance Evaluation of Fuzzy and Histogram Based Color Image Enhancement
T. Kaur, R.K. Sidhu .................................................................................................................. 470

An Adaptive Approach for Validation in Visual Object Tracking
W.J.P. Shinora, L. Agilandeeswari, K. Muralibabu ................................................................. 478

Facial Expression Recognition: A Survey
J. Kumari, R. Rajesh, K.M. Pooja ........................................................................................... 486

Hardware Implementation of Palm Vein Biometric Modality for Access Control in Multilayered Security System
S.S. Athale, D. Patil, P. Deshpande, Y.H. Dandawate ............................................................. 492

Multi-view Ensemble Learning Using Optimal Feature Set Partitioning: An Extended Experiments and Analysis in Low Dimensional Scenario
V. Kumar .................................................................................................................................. 499

A Contextual Investigation for Variation in Weather Parameter for Coimbatore District
M. Kokila, P. Geetha, K.P. Soman ......................................................................................... 507

Offline MODI Character Recognition Using Complex Moments
A.K. Sadanand, L.B. Prashant, R.M. Ramesh, L.Y. Pravin ....................................................... 516

A Robust Algorithm for Speech Polarity Detection Using Epochs and Hilbert Phase Information
D. Govind, P.M. Hisham, D. Pravena ...................................................................................... 524

Footprint Model for Discussion Forums in MOOC
R. Anbalagan, A. Kumar, K. Bijlani ....................................................................................... 530

A Cryptographic Technique for Security of Medical Images in Health Information Systems

Secure Communication over Trellis Using Fundamental Cut-set and Fundamental Circuits
R. Selvakumar, C.P. Kumar, R.K. Bhattar ............................................................................... 544

Fingerprint Recognition Using Zone Based Linear Binary Patterns
A.T. Gowthami, H.R. Mamatha ............................................................................................... 552

Clustering of Web User Sessions to Maintain Occurrence of Sequence in Navigation Pattern
D.S. Anupama, S.D. Gowda ..................................................................................................... 558

Kirsch Directional Derivatives Based Shot Boundary Detection: An Efficient and Accurate Method
B.H. Shekar, K.P. Uma ........................................................................................................... 565

Comparative Analysis of Inter Satellite Optical Wireless Channel for NRZ and RZ Modulation Formats for Different Levels of Input Power
P. Kaur, A. Gupta, M. Chaudhary ........................................................................................... 572

Future of Face Recognition: A Review
S. Arya, N. Pratap, K. Bhatia ................................................................................................. 578

Macular Region Enhancement of Fundus Fluorescein Angiogram Images Using Super Resolution via Sparse Representation and Quality Analysis
T.R. Swapna, D. Indu, C. Chakraborty .................................................................................... 586

A Clustering Improved Cost Effective Approach for Mutation Testing
N. Rani, J. Chaudhary ............................................................................................................. 593

Denoising of DT-MR Images with an Iterative PCA
U.S. Priya, J.J. Nair ................................................................................................................ 603

ORB-PCA Based Feature Extraction Technique for Face Recognition
A. Vinay, C.A. Kumar, G.R. Shenoy, K.N.B. Murthy, S. Natarajan ........................................ 614

Architectures for Scalable Databases in Cloud—And Application Specifications
P.D. Kaur, G. Sharma ............................................................................................................. 622

Automated Leukaemia Detection Using Microscopic Images
N. Patel, A. Mishra ................................................................................................................... 635

Design and Development of Algorithm Using Chemical Cryptography
A. Verma, A. Gakhar .............................................................................................................. 643

Comparative Study of Digital Holography Reconstruction Methods
I. Acharya, D. Upadhyay ......................................................................................................... 649

The Application of Pulse Altimeter for Linear References Detection
A.K. Sorokin, V.G. Vazhenin, L.L. Lesnaya ........................................................................... 659

Probabilistic Neural Network Based Incipient Fault Identification Using DGA Dataset
H. Malik, A. Khatri, R. Dohare ............................................................................................... 665
